

# MOB FOREMAN, CHOLOS FINED

## PASADENA MEXICANS FAIL TO CONVINCE JUDGE

### TWOMEY ATTACKED; NOT HURT

Old Man Found in Helpless Condition  
on Floor of His Home, Where  
He Had Been Lying  
Two Days

Pasadena Agency,  
114 East Colorado Street.

PASADENA, Aug. 30.—Justice Congdon's court this morning was crowded with Mexican laborers who came to attest the singular goodness and peace-loving character of Lucas and Victoriano Quenteros and Jose Alvino, arrested yesterday while trying to mob the foreman, E. E. Twomey in the railroad yards. The witnesses had no such good words for the foreman, whom they described as a man with a very quick temper. The three prisoners told the court that Twomey had made as if to chastise them, and that they were simply trying to defend themselves from bodily injury when halted to the city lockup by the mistaken officers of the law. Justice Congdon could not listen to the fervid protestations of the entire cholo crowd, but found the men guilty, imposing a slight fine, \$5 each, which they paid and departed. Twomey was not in the least injured in the fight.

**Helpless Two Days**  
While cutting grass on the lawn of Rev. David Higgins at the corner of Raymond avenue and East Orange Grove avenue yesterday the gardener heard a faint pounding in the house. On going into the house the Rev. Mr. Higgins, who is over 88 years of age, was found lying on the floor in an almost helpless condition. On being cared for it was developed that the old man must have had a fainting spell two days before, falling to the floor, where he lay until recovering a little strength he rapped for help. The old man was alone in the house when the attack came, his daughter, who lives with him, being at Catalina at the time for a short outing.

**Pasadena Brevities**  
Mrs. George Pickrell, whose husband disappeared from his home in this city on August 9, states that she has received a letter from her husband under recent date bearing the intelligence that he has been seriously ill. She does not care to state his exact whereabouts. Mr. Pickrell was supply man for the Pacific Electric and the letter from him sets at rest any suspicion that he was the victim of foul play.

The annual Y. M. C. A. reception which marks the opening of the winter's work will be given at the association headquarters on Monday evening, September 18. This reception will be in charge of the officers of the association and the Ladies' auxiliary, and will be open to the public. A long and varied program is being arranged for the occasion to consist of music, light gymnastics and the serving of refreshments.

Chaplain Orville J. Nave, formerly with the U. S. army, has been secured for an address before the local Y. M. C. A. on Sunday, Sept. 3. Chaplain Nave is a well known writer on religious subjects and a pleasing and helpful speaker.

The new free reading room in North Pasadena under the auspices of the W. C. T. U. was formally opened last night, a literary and musical program attracting a large crowd. The rooms will be kept supplied with books from the Los Angeles circulating library and a number of the leading magazines and daily papers will be on hand. The institution promises to become a fixture.

In Justice Klamroth's court today a verdict of \$175 damages was given the Model Grocery company of this city in its suit against the Pacific Electric company. Last February a horse belonging to the grocery company was run into and killed by an electric car. The Pacific Electric company will appeal from today's judgment.  
Hot here. Cool at Coronado.

## SAN DIEGANS PREPARE TO OBSERVE LABOR DAY

Parade Will Be Feature of the Occasion—Water in Salton Sea Receding

Special to The Herald.  
SAN DIEGO, Aug. 30.—A meeting of the trades unions was held last night at which final arrangements were made for the big Labor day parade. There will be three divisions, each headed by a band and nearly all of the participants will be on foot. The stars and stripes will be carried by each division, and such unions as have them will carry their own distinctive banners.  
A letter from George H. P. Shaw from Imperial states that the water in the Salton sea is receding; that the inflow is smaller and that the prospects of closing the intake at the river are good. It is claimed that evaporation will take care of the water quickly when the inflow is stopped entirely.

J. T. Hampton and Mr. Hart, two of the visiting yachtsmen from Los Angeles, have been investigating the real estate market and have been investing to some extent. Together they have placed close to \$30,000 in San Diego really during their pleasure visit to this region.  
Secretary H. P. Wood has received word from Secretary Bonaparte of the navy acknowledging his appointment to the advisory board of the Bennington Memorial association, and returning thanks for the same.  
Hot here. Cool at Coronado.

## AUTOISTS HAVE NARROW ESCAPE FROM DEATH

Two Young Men of Long Beach Barely Avoid Electric Car

Special to The Herald.  
LONG BEACH, Aug. 30.—Two young men, Frank Varney and Leslie Hayward, had a narrow escape from death in an auto wreck last evening. They were bowling along First street near Descanso avenue at a high rate of speed and attempted to cross the track in front of a rapidly approaching Pacific electric car. They suddenly became aware that they could not cross in front of the electric and the boy at the wheel attempted to turn to one side. The auto was moving so rapidly that it did not respond to the turn of the steering wheel and skidded on toward the car. Suddenly the front axle buckled and let the front of the auto down to the ground where it stuck and stopped less than a foot from the track as the car sped past. The two young men escaped with a few bruises. The auto is the property of Trustee W. L. Campbell.

At a regular adjourned meeting this afternoon the board of trustees issued instructions to City Attorney F. A. Knight to commence action toward collecting from former Marshal Jay J. Conklin the amount shown deficient in his accounts by the accountants who recently audited his books.  
When first he filed his charges against the marshal, Officer Folsom claimed that Conklin had misappropriated the city's funds. The marshal denied this charge and many citizens of Long Beach believed that Conklin's deficit is due to lack of knowledge in the art of bookkeeping.

The oath of office was administered to temporary marshal T. W. Williams at the board meeting this afternoon by City Clerk George W. Hargis. Williams' \$2500 bond with W. Patton Wilson and A. B. Bothrock as sureties was approved. The appointment of George W. Neece to the office of deputy marshal was also approved.

Earl Hanneman, son of A. W. Hanneman of this city, is dead. Deceased was a lad of 18 years of age and very popular here. The funeral will be held at 9:30 a. m. tomorrow.

Coolest resort is Coronado Beach.

## MONROVIA ORANGE CROP HAS NETTED HANDSOMELY

Youngsters Severely Reprimanded by Local Justice for Bathing in Private Reservoir

Special to The Herald.  
MONROVIA, Aug. 30.—The Duarte-Monrovia Fruit exchange has issued a statement of last year's business which shows that for 332 cars of oranges shipped there has been paid out to the growers the sum of \$96,830, which is an average of \$62 per box. The expense of packing and shipping per box was lower this season than since the exchange was organized, averaging per box only \$1.2843.

The fruit from the ranches of the exchange members did not require washing until the middle of March, which is an indication of the fine condition of the groves whose fruit brought good prices in the eastern market. Next year there will be a Monrovia branch packing house for the exchange, as a number of new members for the exchange have been mustered. The exchange also has prescribed the kind of wagon in which the fruit shall be hauled, and has taken other precautions to prevent injury of the oranges which cause decay in shipping.

Marshal Miller arrested five youngsters yesterday who took advantage of the absence of men on the place of Mrs. John H. Miles to bathe in her private reservoir. They were amazed when the marshal appeared on the scene in reply to a telephone call, and were the most penitent set of boys that Justice Holliday ever lectured.

## SOLDIERS' HOME NOTES

Hospital Steward Dishonorably Discharged for Robbing Dead Man

Special to The Herald.  
SOLDIERS' HOME, Aug. 30.—The latest death is that of Louis G. Compton of Company A, Forty-fifth Illinois infantry, who was given a military funeral at 3 p. m. today.

Governor La Grange's time has been for two days interviewing the members of the Pacific branch who are located in Sawtelle, some being out on furlough and about sixty are granted the privilege of sleeping at home on account of their sick wives. He found that only three were not justly entitled to the concession granted and these took their discharges as being able to care for themselves.

Charles E. Astrup, late Company K, Fifth Ohio infantry, Spanish war, has been dishonorably discharged for substituting a worthless watch for a good one belonging to a veteran who died while he was acting as hospital steward.  
Hotel del Coronado, \$17.50 a week.

## ELSINORE SOCIETY AND PERSONAL ITEMS

Special to The Herald.  
ELSINORE, Aug. 30.—The weather here for the past week has been very sultry, owing to clouds and moisture coming in from the desert.  
Misses Florence and Louise Marble, public school teachers in Chicago, who have spent a month here with their sister, Mrs. J. S. Miles and family, have returned to their eastern home.

Chas. McClintock returned yesterday from his trip to the Portland fair. He spent a week in Los Angeles and coast resorts.  
A. L. Helgel has returned from Santa Monica, where he has been the guest of his sister, Mrs. E. A. Williams.

Mr. and Mrs. David W. McCrea have returned from an extended trip to Los Angeles, where Mr. McCrea has been under the care of physicians.  
Are you warm? Try Coronado.

# MOUNTAIN FIRE GROWS SERIOUS

## SAN BERNARDINO APPEALED TO FOR AID

### POPULAR CAMP IN JEOPARDY

Conflagration the Worst for Many Years and is Being Fought by Rangers and Hundreds of Assistants

Special to The Herald.  
SAN BERNARDINO, Aug. 30.—The brush fire which has been raging on the mountains northwest of the city during the past two days today has assumed serious proportions and now threatens to do enormous damage before it is stopped. Today it reached the heavy pine timber belt and crossed the top of the range to the north slope. Already a considerable quantity of timber has been burned and hundreds of acres more will be destroyed if some way is not found to check it.

Fanned by the stiff west breeze the fire this afternoon reached the brink of Devil canyon, and while a great effort is being made to stop the fire at that point it is feared that it will eat its way into the canyon, which is a popular resort and camping place for thousands of people every summer.

It has been learned that the fire was started by a rancher named Myers, just above Verdemon, to burn some brush. It got the start of him, ran into the mountains and now has burned over thousands of acres, most of it brush land but nevertheless invaluable as a watershed. The worst feature is the destruction of the heavy timber which is now going on.

The entire force of forest rangers in this section, aided by hundreds of ranchers and summer campers in the mountains, are engaged in fighting the flames, but their efforts thus far have been in vain, the fire continually spreading. It is the worst fire that has occurred in the mountains of this vicinity for many years.

Chief Forest Ranger Tortenson tonight sent an appeal to the city for aid, and a party of twenty men was at once made up and started for the mountains, teams accompanying them and carrying a large supply of provisions. Another party will start early in the morning to reinforce the fire fighters. Intense heat makes the work very difficult.

Investigation of the matter of J. D. Hughes, who was supposed to have taken a dose of formaldehyde with suicidal intent, is mystifying the jail officials. They are inclined now to believe that Hughes did not take much, if any at all, of the deadly liquid. Indeed they now believe it was a clever plan on his part to escape from prison. It is thought that Hughes opined that he would be at once removed to a hospital, where he would secure an opportunity to get away, but if that was his plan it miserably failed, for he is still in the jail. He is making a rapid recovery. A young man, Frank Thompson, who has been bringing meals to the prisoners, has been detained on a charge of bringing poison to the prisoners. He denies it but the officers are investigating.

## Superintendent Has Narrow Escape

Robert Deakon, superintendent of the Riverside-Highland Water company, had a narrow escape from death at the Lytle creek power house. With other workmen he was engaged in adjusting the machinery when a big 12-inch belt suddenly slipped and struck him on the head, knocking him flat and rendering him unconscious. He was carried away for dead, but restoratives finally brought him to. Although severely injured he will recover.

The Hartley railroad franchise went on the same rocks in Colton as in this city, it being found that the notice of sale was illegal and that it will have to be readvertised. Just what the outcome of the matter will be is hard to state, but strong influences are being brought to kill the enterprise.

While working under his engine, Jacob Feazel, a Southern Pacific engineer, received serious injuries about the face and head at Redlands. The fire had gone out in the fire box and a quantity of gas had accumulated. When the fireman lighted the fire it caused an explosion, which blew the engineer fifteen feet and rendered him insensible. His face was severely burned, but no bones were broken.

The Salt Lake's newspaper train made a remarkable run to this city yesterday morning, covering the distance in sixty-seven minutes, including five stops. This was at a mile a minute pace.

Local officers are investigating an alleged violation of the deer law in this county by E. F. Binder, Riverside county game warden, but as yet no warrant has been issued and it is doubtful whether there will be one. Mr. Binder was in the city today on business, but the officers made no attempt to arrest him. The portion of the law said to have been violated is that section relative to taking deer meat out of the county.

The intense heat which has prevailed here for the past four days is still on hand, the thermometer today being in the vicinity of 106 degrees. The lowest temperature recorded for the heated term thus far is 104.

Hot, is it? Try Coronado Beach.

## SANTA MONICA BREVITIES

Night Alarm Rouses a Thousand Volunteer Fire Fighters

Special to The Herald.  
SANTA MONICA, Aug. 30.—A fire at the northeast corner of Main street and Bicknell avenue, which consumed the Santa Monica bakery, entailing a loss of about \$5000, was responsible for bringing to the fore at least 1000 "fire fighters" who responded to the fire bell's pealing at 2:30 o'clock this morning. The conflagration was caused by the upsetting of a can of boiling lard and John Pandey, an employe of the bakery, was severely burned.

## IS LACK OF CLOTHING INDICATION OF INSANITY?

Riverside Sheriff Puzzled by Case of Man Who Appears Glad Only in Shirt

Special to The Herald.  
RIVERSIDE, Aug. 30.—Sheriff Courn was called upon today to determine if a man is insane because he perambulates about the country clad only in a shirt. Residents of West Riverside notified the sheriff this morning that a crazy man was at large in that section. He had been seen near the bridge over the Santa Ana river sans coat, vest and trousers. The sheriff found the man as described soaking his feet in the cooling river water. After keeping him all day and studying his mental condition the sheriff of his own accord turned the man loose, evidently believing that the temperature record of the past few days warranted extreme measures in garment shedding. Gustav Frank was the man's name. He is a German forty years of age.

The sheriff and county clerk have been on the qui vive all day in anticipation of an injunction against the sale of the property of the Alessandro Irrigation district. The sale is to take place tomorrow morning, and a report was received here from Los Angeles this morning that an injunction would be sought to prevent the sale being made. The district seeks to be dissolved, and to pay off an indebtedness of \$9700 the directors will be obliged to sell the property of the district. This includes a tract of 11,000 acres of land in the district, located in the Moreno valley. While this land has no water at present it is yet regarded as quite valuable and will bring a sum considerably in excess of the indebtedness. The Bear Valley company is largely interested and it is believed that at the last moment the company will seek to enjoin the sheriff from making the sale.

Thermometers registered three degrees lower today than yesterday, 103 being recorded by Observer Meachan. Only 80 degrees at Coronado yesterday.

## FAVOR ANNEXATION OF EAST SAN PEDRO

Vote on Both Sides of Inner Harbor is Almost Unanimous

Special to The Herald.  
SAN PEDRO, Aug. 30.—The election today on the question of the annexation of East San Pedro, from Deadman's Island to First street Terminal, has carried overwhelmingly for annexation.

There was apparently no concerted movement against the annexation proposition. No Long Beach workers appeared and the Salt Lake railway officials, with the exception of Attorney Halstead, were in evidence.

At East San Pedro the election proceeded quietly all day. Just before the polls closed, Agent Fairbanks of the Salt Lake Railway company appeared and protested the election on the grounds that the ballots were printed in an illegal manner.

The total vote cast at East San Pedro was 58, 54 for annexation and 4 against. In San Pedro the total vote was 245, 241 for annexation and 4 against.  
Cool—Comfortable—Coronado.

## CHICAGO WOMAN DIES SUDDENLY IN REDLANDS

Mrs. Dora Williams Expires While Visiting Sister, Mrs. J. J. Reeves

Special to The Herald.  
REDLANDS, Aug. 30.—Mrs. Dora Williams of Chicago, who was visiting her sister, Mrs. J. J. Reeves of this city, was found dead in her bed this morning. She had arisen and was partly dressed when she was suddenly seized with pain and threw herself backward on the bed. Breakfast was served and as she did not appear Mrs. Reeves went to call her. When she opened the door she saw her sister dead. The coroner's verdict was death due to fatty degeneration of the heart.

Mrs. Williams was a landscape artist, working exclusively with water colors. She had studied abroad and traveled extensively, devoting herself entirely to her art for several years.  
Hotel del Coronado, \$17.50 a week.

## SANTA MONICA BREVITIES

Night Alarm Rouses a Thousand Volunteer Fire Fighters

## POMONA ASSESSMENT SHOWS \$30,000 INCREASE

City Trustees Fix Tax Rate Ten Cents Higher Than That Collected Last Year

Special to The Herald.  
POMONA, Aug. 30.—The city trustees have fixed the tax rate for Pomona for the coming year at \$1.75 per \$100 of assessed valuation. The total assessment of property is \$3,239,517.47, a valuation about \$30,000 higher than last year's assessment. The rate levied is ten cents higher than that collected last year for city purposes.

H. G. Tinsley will discontinue the publication of the Weekly Review and give his entire attention to the daily edition.

J. L. Bell, who recently sold his East Pasadena street residence to Lieut. Col. W. W. Midgley, has purchased a handsome cottage on Piedmont street, in the High School tract, from J. T. Williams.

President George A. Gates of Pomona college and Rev. Henry Kingman have gone north on a business trip.

Charles Kirby Fox, civil engineer, has left for Culiacan, the capital of Sinaloa, Mexico, to accept a position with the Sinaloa Land company, a corporation having the contract for surveying the lands of that state.

Stoddard Jess has resigned his position as trustee of the Pomona public library, owing to his large business interests in Los Angeles. The city trustees have appointed J. F. Lobingier to fill the vacancy.

The regular annual stockholders meeting of the Indian Hill Citrus union will be held on Saturday at the packing house at North Pomona. Lunch will be served at noon.

Manager P. J. Dreker has issued a statement showing the net returns paid to growers of the San Antonio Fruit exchange to be \$950,000 for the year ending August 31. This is exclusive of freight, refrigerating and auction charges.

Word has been received here of the death of W. C. Beem, which occurred at Zion City, Ill., August 20, the cause of death being typhoid fever. Mr. Beem lived in Pomona for several years and went with his family to join the Dowie forces in 1903.  
Only 80 degrees at Coronado yesterday.

## WANT EXISTING THREE POSTOFFICES RETAINED

Ocean Park, Santa Monica and Venice Pass Resolution Opposing Proposed Consolidation

Special to The Herald.  
OCEAN PARK, Aug. 30.—This city, Santa Monica and Venice were each represented by a committee of three representative citizens at a special conference today in the Country club house and presided over by Postoffice Inspector G. H. C. Wilson, who wanted to know why three postoffices should be maintained in the Santa Monica district.

A debate and resolution followed, the latter being presented to Mr. Wilson to transmit to his department. It reads: We, the committee appointed to represent the three postoffices, Santa Monica, Ocean Park and Venice, with reference to a consolidation, do hereby

Resolve, That present conditions are most satisfactory, and we request the department to permit the three offices to remain as they are, and we further assert that free delivery is not required or desired at either of the offices. For Santa Monica, W. S. Vawter, H. M. Kellar, B. A. Nebeker; for Ocean Park, A. R. Fraser, G. M. Jones, M. R. King; for Venice, Abbot Kinney, I. E. Cobb, Frank Peitret.

About one thousand persons were present this evening at the last of the Bulgig-Gates revival services which for two weeks have been a daily and nightly feature here.

E. J. Vawter, Jr., has been elected to the vice presidency of the First National bank of Ocean Park, and will enter upon his duties as soon as a successor can be found to take his present position as cashier of the United States National Bank of Los Angeles.  
Hot, is it? Try Coronado Beach.

## SAWTELLE MISCELLANIES

Local Prospector Discovers Rich Gem Mine Near Riverside

Special to The Herald.  
SAWTELLE, Aug. 30.—Wright Doane, a young man of Sawtelle, has discovered a mine that, from all indications, will make him wealthy. He and a man by name of Uriah Krishbaum were prospecting near Riverside and had wandered up a lonely trail when they found a mine of tourmalines, hyacinths, crystals and golden stones. Doane brought specimens to Los Angeles and had them cut, and they were declared the genuine article.

Hall & Moore of Los Angeles have been awarded the contract by Sawtelle school trustees for painting the school building. The trustees advertised for bids but only one firm responded. The cost will be \$225 and the work is to be completed in twenty days from the date of beginning.  
Coolest resort is Coronado Beach.

# 300,000 Population Edition

Sunday, Sept. 3  
Will Be Issued the Splendid  
and Beautiful  
Special Edition  
OF THE HERALD  
Which has been in course of preparation for several weeks past, and in which will be given a birds-eye review of the industrial interests and the magnificent development of Los Angeles.  
This special edition will consist of nearly 100 pages, handsomely printed, with an

Illuminated Colored Cover  
There will be articles showing the strength of Los Angeles as a wholesale and retail center, as a manufacturing city, as a home city, as a city in the midst of eternal sunshine and flowers, the paradise of the world.
