IGNORE CITY ORDINANCES

PACIFIC ELECTRIC ROASTED AT PASADENA

POLICE ARREST SEVEN BOYS

Prepare for Opening of Public Schools. South Pasadena Favors Annexation to Los Angeles.

Other News

Pasadena Agency, 114 East Colorado Street.

PASADENA, Sept. 13.—City Electrician Reeves reported to the city council this morning that the Pacific Electric Railway company some time ago installed a 25-horse power grounded current dynamo in the plant of the Pasadena Manufacturing company without obtaining a permit from the city. He was directed to notify the manufacturing company named that a use of the motor would subject them to a fine of \$2 to \$100 a day, under the present city ordinances. It was reported also that the new power department for selling electricity was put in operation in this city today by the Pacific Electric company, although the proper department of the city government has had no notice of such action. The council decided that these actions required looking into and placed the matter in the hands of the city attorney and city electrician. It was voted to request the Pacific Electric company to furnish the city a list of all the motors in the city supplied with power by it.

The police gathered in seven boys tonight who have made a nuisance of themselves for weeks past in the vicinity of Library park, playing games until late at night, destroying shrubbery and breaking the city's curfew ordinance all to bits. The oldest of the badly frightened youngsters in the lockup tonight is 18, the youngest 13 and the police judge will have an interview with them tomorrow. The boys' names are John Toltschin, Kirk McClure, Arthur Leonhardt, Frank McClure, Willie Green, Arthur Hill and Bert Skaggs. There has been much loss to the city of late because of flowers and shrubs maliciously destroyed in the parks by just such gangs as this, and the police say it must stop.

Preparations are going on rapidly for the early opening of the local educational institutions. The public schools will open on Monday, September 25, and Superintendent Graham estimates that there will be an increase of about five hundred pupils. In addition to the usual branches of study there will this year be the work in manual training and courses in cooking and sewing. Work in the manual training course will be under the supervision of Donald A. Ross, as already announced, and will begin as soon as the needed equipment can be put in place. Miss Florence Pike, who comes from St. Louis, is to have charge of the courses in cooking and sewing, and comes highly recommended. Superintendent Graham has called the usual meetings of teachers on the Saturday preceding the opening of the school. Throop polytechnic institute opens its doors on Wednesday, September 27, with every indication of a large increase in attendance. President Edwards and Secretary Coleman are much pleased at the outlook. In this connection it is interesting to note that the board of trustees has secured an option on the Fenyes property on Euclid avenue, immediately back of the new boarding hall on Los

Robles, in order to provide for further growth in that direction.

At a meeting of the board of education last night Miss Marie Canfield was selected to act as substitute teacher for Miss Belle McAdam in the Linda Vista school until the first of the year. Patrons of the Lincoln and Columbia schools petitioned for the establishment of the eighth grade, and the petition was referred to Superintendent Graham with the request that it be granted. The board also fixed upon a system of fees for tuition to be charged pupils who desire to attend the public schools and are neither residents of the school district nor taxpayers. By this schedule \$4 a month will be charged for pupils attending the high school, \$2 a month for the grammar school, \$1.50 for the primary school and \$1 for the kindergartens. It was decided to sign the petitions for the improvement of Buckeye and Ashtabula streets. Miss Mary E. Thompson, teacher in the sixth grade in the McKinley school, was allowed to change places with Mrs. Marie Potter, seventh grade teacher in the Garfield school.

The Progressive league of South Pasadena at its meeting last night voted unanimously in favor of annexation to Los Angeles, primarily in order to get a portion of the benefits to be derived from the Owens river water supply. The discussion came as a surprise but showed a singular unanimity where there had been more or less discord previously. President Leo Longley was chosen to act with Trustee E. H. Lockwood in taking steps looking toward the proposed annexation.

The silver service which the citizens of Pasadena will on Friday evening present to Miss May Sutton is on exhibition in one of the leading downtown business houses and is attracting much attention. It consists of six elegant pieces of sterling silver, German manufacture, including a coffee urn with alcohol lamp, teapot, hot water kettle, sugar bowl and cream and water bowls. The style is old colonial and the pieces extra heavy. Each article has an old English "S" upon it and the largest piece has an inscription which reads "Miss May Godfrey Sutton, World's Woman Tennis Champion, from the Citizens of Pasadena, September 15, 1905."
