AWARDED GOLD MEDAL AT PORTLAND

Pasadenans Plan Unusual Benefit. German Conference Still in Session—Other Crown City News

**Pasadena Agency, 114 East Colorado Street.**  
 .PASADENA, Sept. 22.—Dean Chamberlain of the Throop Polytechnic Institute received a telegram today from his assistant, Prof. James C. Miller, announcing that the Throop exhibit at the Portland exposition has received the highest award, a gold medal, in the special class in which the school exhibit was placed. It has been decided by the officers of the institute to remove the exhibit at Portland to Berkeley, where it will be shown to the members of the state educational convention shortly after Christmas. It is also proposed, if San Francisco wins in its race for the next National Educational Association convention, to box up the exhibit for further exhibition when the greater teachers' convention comes west.

**Plan Unique Benefit**  
 On next Friday evening in the Y. M. C. A. auditorium will be held a rather unusual benefit entertainment. It is for the purpose of raising money with which to build a three-room cottage for Rev. David J. Higgins, aged 88 years, a retired Methodist minister, and his daughter, aged 60 years, who lives with him. The old gentleman receives a pension of \$28 a month but has no home of his own. The Dr. Thornburg Sunday school class in the Lincoln Avenue M. E. church has undertaken to provide the home. Secretary M. W. Davis of the board of education has offered to provide grounds for the little building at the rear of his North Orange Grove property and the entertainment a week from tonight is to raise the money. Rev. Dr. Smith of the First Baptist church will deliver a lecture on the subject "Men Who Solve Problems," and a large crowd is expected.

**German M. E. Conference**  
 Today's session of the California conference of the German M. E. church was given over largely to routine business, which included the hearing of reports and the discussion of matters of church policy. Rev. R. Zurbuchen of Santa Cruz and Rev. Henry Hilner were admitted to membership in the conference. During the afternoon the several standing committees were in session. Tonight Bishop Berry gave a stirring address before a large audience, the occasion being the anniversary of the young people's organization. Tomorrow will be devoted to closing the work of the conference and the formal reports of committees.

**Opposes Rooming Agency**  
 Secretary Coolidge of the board of trade is kept busy explaining to real estate men that the board of trade does not intend going into the business of renting houses and rooms to incoming tourists. The secretary told someone a few days ago that he would gladly prepare and keep on file at the rooms of the society a list of boarding houses and hotels, and the impression went rapidly abroad that he intended going into active competition with the regular dealers in the business of finding lodging and living places for the coming tourist.

**Pasadena Brevities**  
 City Auditor Kernaghan has discovered that many pieces of realty in this city, although certified by out-of-town companies as clear, have clouded titles, owing to the fact that they have been sold at some time or another for unpaid municipal taxes. The certifying companies do not examine into municipal tax payment and the purchaser often fails to investigate for himself. Telegrams have been received from ex-City Treasurer James Cambell and John Grosse of the Casa Grande announcing that they were in the railroad wreck at Newton, Kansas, but that

neither was injured. Mr. Grosse was accompanied by his daughter and she also escaped uninjured.

Pasadena Aerie of Eagles initiated twenty-seven new members last night and enjoyed a right jolly evening. The organization, finally disposed of a debt of \$3000 for lodge furniture last night and is now entirely free of debt, which fact added much to the measure of the night's enjoyment.

Railroad fare and a week at Hotel del Coronado \$22.50.

Whited as a bill distributor. The flooring had been torn up, which fact saved the lad's life and he escaped with only a few bruises. One of the men who was at work tearing down the barn rushed over as soon as he saw what had happened. He raised the roof to see what had become of the boy and was surprised to see him crawl out.

# TO BE TRIED FOR ROMO'S MURDER

FRED ALDRIDGE BOUND OVER WITHOUT BAIL

Eastern Chemists Are in San Bernardino Investigating Feasibility of Utilizing the Orange Culls

**Special to The Herald.**  
**SAN BERNARDINO, Sept. 22.**—Fred Aldridge, the man accused of the murder of Fred Romo in the San Bernardino mountains two weeks ago, must answer to the superior court for the alleged crime. He has been held for trial without bail.

At the preliminary hearing Aldridge faced his two accusers, Sam Stanyan and Harry Goss, who were with him the night of the murder in the mountains. He had no attorney but made a brave fight, plying the witnesses with volleys of questions that were intended evidently to build a foundation either for a suicide theory or that the shooting was done by Harry Goss.

Aldridge possesses a keen eye and a keen brain and is quick to catch the drift of testimony, and these faculties he is making the most of. It is expected he will put up a hard fight for liberty when the case comes to trial.

Elaborate System of Salt Water Mains for Extinguishing Fires is Completed

**Special to The Herald.**  
**OCEAN PARK, Sept. 22.**—One of the most elaborate and costly of the many schemes conceived by Abbot Kinney in connection with the building of Venice was realized today on the completion of a system of salt water mains which it is claimed assures adequate fire protection to all property located in the embryo city. The system guarantees a water pressure of 100 pounds, enough to throw 120 feet from a one-inch nozzle. The mains are of cast iron and extend beneath the Venice wharf into the ocean at a point beyond the auditorium.

## FREEHOLDERS ARE CHOSEN

Santa Monica's Mayor Presents Nominations, Which Are Unanimously Approved

**Special to The Herald.**  
**SANTA MONICA, Sept. 22.**—Seldom has a more representative body of citizens assembled under one roof in this city than was present tonight in the council chamber of the city hall to hear the report of Mayor T. H. Dudley on the nomination made by his committee, to constitute with it a board of fifteen freeholders. Mr. Dudley said that since his election as chairman of the committee of five selected last Tuesday evening to take up the matter the names of a great many citizens prominent in the city's affairs had been suggested, nearly all of whom were not eligible for a place on the board owing to a provision under the law which provides that a candidate must have been a voter in the city for five years as well as being a freeholder at this time. He then offered for nomination the following ten names, all of which met with unanimous approval: H. X. Goetz, W. T. Hull, A. M. Jamison, W. S. Navter, R. F. Jones, D. G. Holt, D. A. Nebecker, E. J. Vawter, Roy Jones and A. M. Archer. Mr. Dudley will be chairman of the board, the other members of which are George D. Hutton, G. D. Snyder, C. A. Stillson and R. R. Tanner.

# Ten Miles of Wire

Close on to 10 miles of electric wiring has been used in this building, and this too, in a building notably the best lighted in Los Angeles, and artificially aided by prismatic lights. What is the significance of this statement? It simply emphasizes the infinite care that has been taken to have every minute detail about this business absolutely perfect. You can be absolutely sure also that the men who are so carefully planning all these lesser details will see to it that the *stocks and assortments, and most important of all, the values at this 5th Street Store will be doubly right.*

## Yes, It's Going to Be a Good Store

Not the largest, but size is not always the most important thing. A common pin is of more real use than a railroad spike, and a watch is of a great deal more utility to an ordinary person than a threshing machine. It's the usefulness that counts—that's the point, and this store is going to be a useful store and its usefulness will be in its ability to sell goods cheaper and to serve you better. If your memory is not as good as it once was, say that over again to fix it in your mind. That's the point we want you to remember. You can forget about the ten miles of wiring if you only remember that *first, last and always, the 5th Street Store is going to sell good merchandise cheap.*

## When Will the Store Open?

In a few days now. We are working night and day toward a definite date which we hope to be able to announce very shortly. We want to invite you, when we do open, to a finished store, not a store half completed with a carpenter here and a painter there. We want you to see the finished whole; the organization all fitted and adjusted together and running with the ease and smoothness of perfectly adjusted mechanism.

## Wait

In the meantime, one word, "WAIT." If you have any wants which are not demanding immediate attention, we strongly urge the advisability of waiting for this most important opening. Watch the papers.

## ASKS GUARDIAN FOR WOMAN

C. H. White Alleges That His Daughter is Incapable of Attending to Her Large Estate

Petition for the appointment of a guardian for Julia Estelle White MacNeil was filed yesterday by C. H. White, her father, and the facts set forth in the petition place the property to be considered at a high figure. Mrs. MacNeil, against whom the petition is directed, is 29 years old. Up to within the past four years, according to the statement of her father, she was of a most refined disposition, gentle, modest and highly sober and temperate. Four years ago, it is alleged, the woman began to crave liquor and overindulged so frequently that she has now no control over herself.

The father states his daughter is still of spotless moral character, but she asks that her estate of \$11,000 be put in the charge of someone who can save the girl from being the dupe of sharpers.

STREET CAR MEN FIND BAG WITH \$11,000

They Return the Property to Owner, a Woman, and Are Presented With \$1 Each by Her in Appreciation of Their Honesty

**Special to The Herald.**  
**NEW YORK, Sept. 21.**—When the passengers got off a Corona trolley car at the Long Island City terminal yesterday afternoon some one left a bag on a seat. Conductor George McDonough picked it up, opened it and with John Leya, the motorman, peered inside.

"Wow! wow!" they yelled in unison. In small rolls there lay more money than they could count quick. In a box was enough jewelry, set with diamonds and rubies to fill two hands. McDonough was so excited he could only exclaim. Leya dragged him along after him and they went into the depot. There on a seat sat a woman, crying hysterically. She was telling a policeman she had been robbed. Some thief, she said, had snatched her big satchel out of her hand, and it contained a fortune. What should she do?

Leya held up the bag. The woman sprang forward with shrieks of delight. Leya asked her to describe the contents. "There is \$5000 in cash and jewelry valued at \$6000," she said. "Oh, how can I reward you two fine gentlemen?" "Count it and see if it is all there," suggested Leya.

The woman began to count. The car crew watched with bulging eyes. Yes, it was all there. In the jewelry box were a diamond sunburst, a necklace, rings, a studded watch and bracelets. The woman wept and laughed. She opened the pocketbook she carried in her hand. Leya and McDonough started away.

"Here, here," she cried, and taking each by the hand, she gave a bill to each of them. The bills were rolled up like balls. Eighty-seven fellow employees of the Queens Railroad company slowly followed Leya and McDonough across the street, where hung a beer sign. "How much did you get?" asked the eighty-seven.

Leya and McDonough opened their fists and unwrapped the bill each held. Both turned green. The thankful, hysterical woman who had recovered her \$11,000 had rewarded each with one dollar.

## COOKING BY LINEAR MEASURE

During his recent journey to Washington to attend the opening of the Fifty-eighth congress, Representative "Tim" Sullivan of New York desired the dusky attendant in the buffet car to fetch him some soft boiled eggs, says a writer in Collier's.

When they were brought, the New York man at once perceived that the eggs were very much underdone. "What time are we making on this train?" asked he of the attendant. "About fifty miles an hour, sir," was the reply. "Then," quietly observed Sullivan, "if you will boil these eggs another mile they'll be all right."

## SEEKS WORK AS PASTIME

Maryland Man, Supported by Rich Relatives, Declares Idleness is an Evil

**Special to The Herald.**  
**BALTIMORE, Sept. 21.**—A resident of Ellicott City, T. B. Taylor, has advertised as follows: WILL WORK WITHOUT PAY—Having sufficient means of support, an infirm but very good and intelligent man desires some useful and permanent employment as a pastime. Ad. T. B. Taylor, Ellicott City, Route 2, Howard County, Md.

While not actually needing the money, Mr. Taylor believes that employment is necessary to human happiness. He is therefore willing, in order to secure work, to waive all compensation and labor without pecuniary reward.

He is the eldest of three brothers who are boarding during the summer on a farm four miles from Ellicott City, and is a native of Canada, where he has relatives of means who provide for his material wants. Some years ago Mr. Taylor was afflicted with a partial paralysis which incapacitates him from his former busy life, and after visiting among his relatives for some time he came to Ellicott City to take charge of two mentally afflicted brothers who are there in a private school.

It was hoped by Mr. Taylor that he and his brothers might find a small trucking farm in the neighborhood, the care of which they might make both profitable and pleasant, but no such place has yet been secured, and hence his advertisement.

In referring to his proposition to work without pay Mr. Taylor said: "My case illustrates the human need of employment, as God recognized and provided for it when He gave sinless and noble man the Garden of Eden to dress and keep. An industry seems to be a divine characteristic, for Jesus said: 'My Father worketh hitherto and I work.' And God pronounces a curse upon the indolent, commanding the barren tree to be cut down."

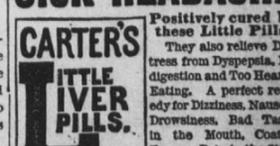

## BOUND TO BE EXACT

An old woman living in Gardiner, Me., had occasion to call a doctor, according to the Boston Herald. He found her only slightly indisposed and left a powder for her to take with the following directions: "Take what you can get on a 10-cent piece every three hours."

Next day the doctor found his patient alarmingly ill. "Did you take the powder as directed?" "No, not exactly. I did not have a 10-cent piece, so I took what I could get on two fives."
