"The Success of the Student"

The Greater Woodbury

Thoroughly appreciates the public's recognition of its merits, as indicated by the unusually large September enrollment. But success brings responsibility, and we are more determined than ever that the WOODBURY training and helpful influence shall fully measure up to expectations. Among the many strong features of the school we will here mention two:
1. The Gregg System of Shorthand—Now taught in more than half of the business schools in the United States and Canada. The GREGG has demonstrated its superiority over the old-line systems, and requires scarcely more than half the time and effort in its acquisition. No other school in this city can teach the GREGG effectively. It cannot be taught as a side issue, and when given equal chance will drive antiquated systems out.
2. The Woodbury-Bliss System of Bookkeeping and Actual Business Training—Much thought and money have been spent in perfecting this system of training, and it is far ahead of the rut work of old-line schools as the electric car is in advance of the horse car.

October Opening, Monday, October 2

Call this week to register. New classes and sections now forming. It pays to get into the Woodbury "success current." Are you backward, timid, easily discouraged, afraid to show neglected opportunities? COME—the Woodbury training will transform you! Are you strong, alert, self-confident, well educated? COME—you will find others with whom to measure talents. ALL GRADUATES IN GOOD POSITIONS. To earn more—learn more.

Night School Monday, Wednesday, Friday from 7 to 9 o'clock

School Opening

Every day this week an active enrollment day at the "GREATER WOODBURY." The largest September enrollment in its history. ALL SCHOOLS ARE NOT ALIKE—THE WOODBURY IS DIFFERENT. It not only TEACHES but INSPIRES—gives every student an impetus that commands position and prestige. It pays to get into the Woodbury "success current." BEGIN NOW—It's ready.

Ordinance No. 11,654 (New Series).
An Ordinance authorizing property owners to improve a portion of Lewis street under private contract.
The Mayor and Council of the City of Los Angeles do ordain as follows:
Section 1. That permission is hereby given the property owners on LEWIS STREET from the west line of Figueroa street to the east line of the City of Los Angeles, including all intersections of streets (except such portions as have already been graded and gravelled and accepted); said grading and gravelled to be done in accordance with the plans and profile on file in the office of the City Engineer of said city, and specifications on file in the office of the City Clerk of said city for grading and gravelled streets with the natural gravel of the street, Class B, said specifications being No. 31 (New Series).
To build and construct a cement curb along each line of the roadway of said Lewis street from the west line of Figueroa street to the east line of the City of Los Angeles, including all intersections of streets (except such portions as have already been graded and gravelled and accepted); said grading and gravelled to be done in accordance with the plans and profile on file in the office of the City Engineer of said city, and specifications on file in the office of the City Clerk of said city for grading and gravelled streets with the natural gravel of the street, Class B, said specifications being No. 22 (New Series).
To build and construct a cement curb along each line of the roadway of said Lewis street from the west line of Figueroa street to the east line of the City of Los Angeles, including all intersections of streets (except such portions as have already been graded and gravelled and accepted); said grading and gravelled to be done in accordance with the plans and profile on file in the office of the City Engineer of said city, and specifications on file in the office of the City Clerk of said city for grading and gravelled streets with the natural gravel of the street, Class B, said specifications being No. 23 (New Series).
To build and construct a cement curb along each line of the roadway of said Lewis street from the west line of Figueroa street to the east line of the City of Los Angeles, including all intersections of streets (except such portions as have already been graded and gravelled and accepted); said grading and gravelled to be done in accordance with the plans and profile on file in the office of the City Engineer of said city, and specifications on file in the office of the City Clerk of said city for grading and gravelled streets with the natural gravel of the street, Class B, said specifications being No. 23 (New Series).
