

HUNGARY SEETHING

Coalitionist Element Gains Ground Socialists Steadfast in Opposition

Budapest Police Energetically Disperse Groups and the Day Passes Without Serious Disorder, but Ferment Increases

By Associated Press. BUDAPEST, Sept. 28.—There is no abatement of the popular unrest, although today passed off without serious outbreaks in any quarter. The Socialists gathered again tonight, this time in front of the Imperial club, but the police were more energetic than they were last night, and dispersed the groups as soon as they formed, thus preventing any disorder. A meeting of students tonight passed off without incident. At a meeting of Democratic clubs it was decided to hold a grand torchlight procession in the near future. This decision gives rise to some uneasiness and it is possible that the procession will be postponed until after the convention of the supporters of the coalition parties on October 3.

Reports from the provinces show increasing support of the coalition parties, but notwithstanding this there is a very considerable element in Hungary outside the Socialist ranks that continues to remain in opposition outside the coalition. This element is encouraged by well authenticated reports from Austria of an almost unanimous sentiment in favor of the crown, and the statement that the Austrian Socialists are opposing the Hungarian coalition.

The coalition leaders, realizing the presence of a decided anti-Magyarian tendency among many influential persons, are losing no opportunity to strengthen their position. Francis Kossuth demands the union of all Hungarian parties "for the defense of the Hungarian constitution," and it is believed that a private meeting of deputies, which has been called for October 2, the day before the great convention, may formulate plans to secure such a union.

Insist on Universal Suffrage

There have been repeated collisions between the Socialists and the supporters of the coalition, due to the hostility of the former because the coalition refuses to accept unreservedly the Socialist program of universal suffrage, favoring only an extension of the franchise. Further, the Socialists declare that the coalition does not represent the great mass of the people, and that its dealings with the crown cannot further the principle of the sovereignty of the people, as it only speaks in the name of persons who are voters by virtue of being rate payers. Demonstrations in favor of the coalition are being continually disturbed by the Socialists, who have decided to prevent them by making counter manifestations. This attitude of the Socialists, it is believed, will lead to further disturbances.

Torchlight processions in honor of Francis Kossuth, Count Apponyi and Baron Banffy had been arranged for October 2, but they have been prohibited by the police, who feared that they would lead to disorders.

The court at Vienna is reported to be distracted by conflicting advice. Many Hungarian politicians of influence have advised the king-emperor to yield on certain points, and it is reported tonight that others are seeking to secure his majesty's favor by advising persistence of Francis Joseph in his stand.

The failure of Baron Fejervary's audience of the emperor today, in an effort to bring about a solution of the difficulty, is hailed by the members of the coalition as favorable to their cause.

It is understood tonight that the emperor has expressed a desire to see Count Czarky, president of the upper house of the Hungarian diet, and that the count will be given an audience next Saturday. It is known that Count Czarky advocates peace with the coalition.

It is also learned from a high authority that the position of Count Goluchowski, the Austrian-Hungarian foreign minister, is so shaken that he will resign within a few weeks. It is possible his successor will be M. de Szogyeny-Marich, present ambassador to Germany, and that Count Goluchowski will succeed to the Paris embassy.

It is reported that provincial cities are preparing to send a massed deputation to Budapest on October 2 in order to offset the proposed Socialist demonstration of 50,000 workmen for universal suffrage.

Commanding officers of regiments in various sections of the country have refused leaves of absence to subordinate officers until the situation becomes clearer. All sorts of rumors are afloat which have the effect of keeping popular sentiment aflame; but the best informed persons believe the efforts of the conservatives will shortly be felt and that a solution of the difficulty will be reached without a rupture of the dual realm.

FORGER MAKES BIG HAUL

Gets Securities Valued at \$360,000 From New York Bank in Exchange for Fictitious Check

By Associated Press. NEW YORK, Sept. 28.—The details of a scheme whereby the National City bank of this city was recently victimized by a clever forger came out today. The forger held a bogus check bearing the name of a well known stock exchange firm and received in return securities valued at about \$300,000. Pearl & Co., stock brokers at 27 William street, recently negotiated a one-day loan for \$300,000 with the bank. On Wednesday a check for the amount of the loan, plus \$37.50 for the one day's interest, was presented at the bank by a stranger, who received the securities deposited by Pearl & Co. for their loan. The bank on which the broker's check was drawn is one with which Pearl & Co. never had an account, so the forger was not discovered until the check had passed through the clearing house exchange, when it was promptly branded as fictitious. A private detective agency was called in and transfer on the securities at once stopped. The detectives intimate that they have a clew to the identity of the forger, who is believed to have had one or more accomplices.

SALE OF THE WARNER RANCH IS REPORTED

PURCHASED BY SYNDICATE FOR \$900,000

It Is Said This Deal Is the Result of a Project to Construct a Railroad From San Diego to the Eastward

Another rumor is current to the effect that San Diego soon will have an outlet for a railroad to the east, a project that has been under discussion for a long term of years. The latest story is that the Warner ranch has been sold for \$900,000, and that a check for \$90,000, 10 per cent of the purchase price, has been passed to hold the land. The same syndicate is reported to have purchased the Robert Crouch land, 880 acres, at \$30 per acre, lying east of Oceanview; 640 acres of the Doane land in the Doane valley on the west side of Palomar mountains; also the Simon Goldbaum land, 600 acres, and other holdings on the San Luis Rey river to a point east of Escondido.

Los Angeles parties connected with the deals do not deny or fully confirm the reported sales. W. G. Kerckhoff of the Pacific Light and Power company is interested in the proposition, but he will not reveal the names of the members of the syndicate.

The extension of the electric railway line from Los Angeles to San Diego by way of Watts station and Santa Ana has been reported on several occasions. Part of the extension has been constructed off the Long Beach line at Watts, and at the time the improvement was commenced it was stated that the new line would eventually extend to San Diego. For some unknown reason work on the extension has been at a standstill for a number of months. Possibly the acquisition of the land in question will give San Diego the coveted electric service.

TAFT REACHES SACRAMENTO

Advises Sending Deputation to Washington to Lay Subject of Reclamation Before Congress

By Associated Press. SACRAMENTO, Sept. 28.—Secretary Taft arrived in Sacramento at 8:50 and left at 10 o'clock.

On the trip up the river he expressed much interest in the problems presented, and sympathized with the people of this state in their efforts to reclaim such vast areas of valley land. He said that this was a subject on which appeal should be made direct to congress, and that a deputation of Californians ought to be sent to Washington to lay the subject before congress.

After viewing Carquinez straits he said that it would not be desirable to put in a pile bridge with a draw, but he was impressed with the possibility of a bridge constructed on piers, provided it could be arranged to the satisfaction of all parties and interests concerned.

WORKMEN NARROWLY ESCAPE

Are Drenched With Sulphuric Acid, but Jump Promptly into Tank of Water

By Associated Press. SAN JOSE, Sept. 28.—John Villines and Paul Widmer, workmen employed at Hollister by the Alpine Condensing company, were drenched with sulphuric acid today by the bursting of a jar which they were handling. They jumped into a tank of water near at hand before the acid could penetrate their clothes, thereby saving themselves from death. When they emerged from the water their shoes and almost every stitch of clothing fell to the ground in pieces.

Visits German Chancellor

By Associated Press. BADEN BADEN, Germany, Sept. 28.—Signor Tittoni, the Italian foreign minister, arrived here today to see Prince von Buelow, the German chancellor.

JOHNSON MAKES VIGOROUS ATTACK

ASSAILS M'NAB, CORBIN AND THE CONTINENTAL

Declares Building Association Was Bankrupt and Charge of Bribery Was Made Against Senators to Prevent Exposure

By Associated Press. SACRAMENTO, Sept. 28.—Up to the last hour of the Emmons trial today the testimony was confined to the recital of character witnesses summoned by the defense in the effort to impeach George N. Tichenor and Henry Hartling. Then Grove L. Johnson, attorney for Emmons, precipitated his long expected attempt to exploit the affairs of the Continental Building and Loan association. W. J. Palethorpe, an expert accountant, armed with the facts and figures secured as a stockholder, was placed on the stand, but the defense had asked but a single vital question when vigorous objection was made by the prosecution.

The argument that followed included some vigorous attacks by Johnson upon the Continental, Gavin McNab and William Corbin.

The admissibility of the evidence was not decided by Judge Hart, but was left until tomorrow morning.

Palethorpe was asked if he had made an examination of the affairs of the Continental association. Objection was made and Mr. Johnson was asked to explain the purpose of this testimony.

In reply Mr. Johnson said: "We expect to show by this witness the condition of the Continental Building and Loan association at the time the legislature convened and during December, 1904, and January, 1905. We expect to demonstrate the necessity for investigation and to show that the action of the committee was proper. We expect to show that the Continental Building and Loan association was insolvent when the committee started."

"We expect to show the motives of Gavin McNab and William Corbin; that their action was not for any honest purpose, but to prevent exposure. We expect to show that Gavin McNab knew the condition of the Continental and knew it through the report of this expert accountant, which revealed the fact that the company was insolvent, but had nevertheless raised and doubled the salary of the president, Dr. Washington Dodge; the secretary, William Corbin, and the attorney, Gavin McNab."

"We expect to show that Corbin was overdrawn over \$217,000 and that the whole prosecution has been suggested in pursuance of a plot, and was gotten up by the Continental to besmirch the reputations of men who would have investigated its affairs."

STEAMER CHATHAM BLOWN UP

Displacement of Water Visible at Discharge of Five Miles, but Suez Canal Little Injured

By Associated Press. PORT SAID, Egypt, Sept. 28.—The wreck of the British steamer Chatham, with her cargo of ninety tons of dynamite and blasting gelatine, was blown up this morning by mines distributed around and inside her hull.

These were fired by an electric current from Raselech, about five miles away. No serious damage was done to the canal and the authorities anticipate that the passage will be cleared of debris in four days. The railway and Sweet Water canal adjoining are intact.

The explosion was tremendous. The enormous displacement of water was visible from Raselech.

DIVIDES ESTATE BY LOT

San Bernardino Pioneer Chooses Novel Way of Distributing His Property

Special to The Herald. SAN BERNARDINO, Sept. 28.—Bart Smithson, one of the pioneers of the valley, has divided up his estate but there were reasons for the ruction—reasons centuries old. Read about them in The Sunday Herald.

One of the most noted women haters in the world is about to have his pet ambition frustrated by a diplomat in skirts. He has just eched another out of the place he covets because he hates that other's women-kin; now a woman avenges. It's all told in The Sunday Herald.

ROANOKE CATCHES FIRE

By Associated Press. SAN FRANCISCO, Sept. 28.—The steamer Roanoke caught fire as she was lying at the Clay street wharf tonight, and for a few moments there was a panic among her passengers. The blaze started from a cigarette which a stevedore dropped upon a bag of saltpeter in the hold, some distance aft. The only damage was that done by the water which drenched the cargo of wheat, the extent of which cannot be determined until the vessel unloads at San Pedro.

The Roanoke arrived from Portland last Wednesday and sailed for San Pedro tonight.

Registered in San Francisco SAN FRANCISCO, Sept. 28.—George H. Wigmore, wholesale merchant and manufacturer of Los Angeles, is registered at the St. Francis.

DEMORALIZED BY GAMBLING

New York Concerns Moving to Chicago to Get Away From Wall Street Influences

By Associated Press. CHICAGO, Sept. 28.—The Inter Ocean today says: Because their clerks and officials are affected by the Wall street speculation fever, a number of large industries are to move their general offices from New York to Chicago, according to the reports circulated with the announcement that the \$40,000,000 American steel foundries corporation will make such a change next month.

William V. Kelley, president of the concern, said yesterday that temporary quarters had already been rented in the Star building for the general offices of the company.

Mr. Kelley would not discuss the report that the removal was due to the influence of Wall street excitement upon employes with responsible duties.

It is said that there are a number of other firms considering the same move and for the same reported reason. Their names could not be ascertained yesterday, but they are believed to be concerns that moved from Chicago to New York several years ago.

WOMAN AND HER FOUR CHILDREN ARE MURDERED

SLAIN WHILE FATHER WORKS IN RICE FIELD

Family of A. J. Condit of Eona, Tex., Are Victims of Fiends, Only Baby Being Left Alive—Possé in Pursuit of Criminals

By Associated Press. EONA, Tex., Sept. 28.—Mrs. A. J. Condit and four children, a daughter of 13 and three boys from 6 to 10 years old, were murdered in cold blood at their home near here today. The mother and daughter were assaulted and their bodies brutally disfigured. A baby about 2 years old was the only one left alive.

All of them seemed to have been murdered with some blunt instrument. Their heads were crushed and their throats cut with a knife or razor. Officers were informed at once and the entire county is out in possé in search of the murderers. It is supposed there were two of them.

The girl and mother were killed in the house, the boys were killed about 100 yards away. Mr. Condit was away working in the rice fields. A negro boy about 12 years old was plowing in a field near the house and at the time of the killing heard the children screaming. He saw a man running after a woman who was running around the house. Being afraid to go to the house he ran to a neighbor and told of what he had seen.

MEXICANS MUST APOLOGIZE

Grossly Insult Americans on Streets of Parral and Stone Houses of Foreign Residents

EL PASO, Sept. 28.—During the celebration of a Mexican holiday in Parral, state of Chihuahua, some Mexicans grossly insulted the Americans and other foreigners on the streets, and even stoned the houses of the foreign residents. The better element of Mexicans, however, did not participate in the demonstration. The foreigners held mass meetings and put the matter in the hands of the United States Consul Long, who is the only foreign consul in that city. He will demand an apology.

Parral is in a rich mining section with several hundred foreign residents. The Mexican police failed to make any arrests, but afterward explained that their force was insufficient and that it would have precipitated a riot had they attempted to do so.

FOUND BRUTALLY MURDERED

Body of Bricklayer Discovered Horribly Beaten Under Bridge Crossing the Sacramento River

By Associated Press. SACRAMENTO, Sept. 28.—William Spillane, a bricklayer of Alameda county, was murdered last night beneath the north approach of the bridge across the Sacramento river. Spillane was brutally beaten about the head with a blacksmith's hammer, the head of which was broken off.

The body was found this afternoon about 2 o'clock by S. H. Mansfield, a young man from Benicia. Mansfield was walking under the bridge and noticed it lying there. He at first thought the man was asleep and did not go very close. Upon returning in the same direction a few minutes later he noticed that the body had not moved, and upon a closer inspection saw that the unfortunate man had been murdered.

BURGLARS GET BIG BOOTY

By Associated Press. CAIRO, Ill., Sept. 28.—Burglars early today entered the private bank of C. B. Burnett & Sons at Eldorado, Ill., wrecked the vault and carried off between \$800 and \$10,000 in currency and gold. Many shots were exchanged between the burglars and citizens, but, owing to the darkness, none of them took effect. Bloodhounds have been put on the trail of the burglars.

'STEEPLE JACK'S' WONDERFUL FEAT

CLAMBERS DOWN SIDE OF THE FLATIRON BUILDING

Makes Trip Between Street and Twentieth Story Several Times, Holding by Slight Grooves in the Wall

Special to The Herald. NEW YORK, Sept. 28.—Clinging like a fly to the surface of the Flatiron building, John Garrick, the "Steeple Jack," walked down the side of the building from the twentieth story to the street and up again several times today, while thousands below stood trembling.

Women fainted and men turned white while Garrick, as uncerned as though he were strolling along Broadway, was rapidly ascending and descending, clinging all the while to the sheer wall with his fingers and toes in the inch and a quarter deep grooves that indent its surface. And all to earn a \$2 bet. This hair-raising performance is regarded as unequalled in daring in the annals of Steeple Jack work.

Garrick is about 30 years old.

PATIENT HANGS HIMSELF

Body of Hypochondriac Found Suspended Beneath Bridge Over Mormon Channel, Near Stockton

By Associated Press. STOCKTON, Cal., Sept. 28.—The body of Daniel S. Ritchie of Sacramento, 61 years of age, was found hanging under a bridge over Mormon channel in this city today. In one of the pockets was a piece of paper upon which was written "Daniel S. Ritchie, 1515 Thirteenth street, Sacramento," indicating a desire on the part of the deceased to make known his identity.

The officers regard it as a case of suicide. His hands were found loosely tied behind him, but it is believed the deceased did this himself so that, after the fatal leap, he would not be able to help himself.

Ritchie was brought to Clark's private sanitarium last Monday from Sacramento as a volunteer patient by his sister, Mrs. Martin. He was a hypochondriac, and thought he had many ills. Tuesday night he disappeared and it was thought he had gone to Sacramento.

The deceased leaves a widow and two children in San Francisco. He had had family troubles, it is said. A Masonic certificate of membership and a Y. M. C. A. card were found upon him.

NATIVES MURDER JAPANESE

Thirty Fishermen on Kamchatka Peninsula Fall Victims, Ten Others Escaping With Difficulty

By Associated Press. SAN FRANCISCO, Sept. 28.—The Examiner says: Thirty Japanese fishermen were murdered by the natives at the settlement of Uplika, which is situated on the Kamchatka peninsula, and a similar fate would have been visited on ten other men if they had not managed to make their escape to the American codfishing vessel S. N. Castle, which was lying at anchor close to the settlement.

The Japanese belonged to fishing schooners whose home port was Hakodate. The ten survivors were kept on board the Castle for several days, and then, in a large sampan, amply provisioned by Captain Ipsen, they set out for a Japanese settlement some distance away.

The news of the massacre was brought here on the U. S. Castle, which arrived yesterday from a cod fishing cruise in the Okhotsk sea.

SEN. MORGAN PESSIMISTIC

Declines to Accompany Commission in Its Trip to the Panama Canal

By Associated Press. BIRMINGHAM, Ala., Sept. 28.—Senator John T. Morgan of Alabama has written a letter to Chairman T. P. Shonts of the Panama canal commission, declining the invitation to accompany the commission when it leaves New York for Panama. The senator thinks nothing will be accomplished by the trip. His letter says, in part: "Since the ratification of the Hay-Varilla treaty, which I opposed, I have done all that I could and much more than I thought could ever be of advantage to the country to sustain the government in its purpose to construct a canal at Panama. Yet I have not believed that success could crown their efforts."

"You may find the key to unlock the barriers that nature has interposed at Panama. If you should be so fortunate, I will applaud your genius and courage. I will vote to provide you with every reasonable authority and power to accomplish your task and to meet your tremendous responsibility."

FUSION CANDIDATE TO OPPOSE SCHMITZ

JOINT TICKET COMPLETED IN SAN FRANCISCO

John S. Partridge, Nominee for Mayor, Speaks in Favor of Municipal Ownership—Pledges Himself on Water Supply and Geary Street Questions

By Associated Press. SAN FRANCISCO, Sept. 28.—The Republican and Democratic municipal conventions tonight, in separate sessions, completed their labors of preparing a joint ticket for the coming election, and endorsed the nominees heretofore jointly agreed upon. As a result John S. Partridge will go before the people as the nominee of the two parties to oppose Eugene E. Schmitz, the present mayor, who is a candidate for re-election on the Union Labor ticket.

The Democratic convention was a harmonious, peaceful gathering, and its business was transacted with little or no friction. Mr. Partridge appeared upon the platform and promised, if elected, to bring about an era of reform in the administration of the affairs of the city. He also spoke in favor of municipal ownership and pledged himself to the securing of a municipal water supply and bringing the Geary street railway speedily under public operation.

The machinery of the Republican convention did not work as smoothly. The Ruff faction pursued obstructive tactics and were aided by a noisy, disturbing gallery that blocked proceedings at every turn to such extent that Chairman Ryan at times had difficulty in proceeding with the order of business.

Near the conclusion of the proceedings the minority faction served notice on the convention that inasmuch as it had been utterly ignored and not been given any representation on the various committees, it did not feel bound to abide by the action of the convention and would feel justified in taking any action in the immediate future that it might deem proper.

It has not been made clear whether this is intended to foreshadow an independent Republican convention or an endorsement of the Union Labor party's ticket.

PLEADS GUILTY TO MURDER

Chicago Cripple Insists on Surrendering Himself on Charge of Having Shot His Wife

By Associated Press. CHICAGO, Sept. 28.—Jacob Hart, who is without legs, dragged himself into the court of Judge Barnes yesterday and whispered to Assistant State's Attorney Barbour that he was anxious to enter a plea of guilty to a charge of murder. Mr. Barbour explained to Hart the seriousness of such a plea, but the crippled defendant said he understood his position and the plea was allowed to be entered. Sentence will be imposed in his case Friday.

Hart has confessed that he shot and killed his wife, Marie, June 15, 1905. He accused her of being too friendly with other men and when she refused to explain where she had been the night previous he drew a revolver and shot her. He also shot himself in an attempt to commit suicide, but he recovered.

DROPS DEAD IN CHURCH AISLE

PORTLAND, Ore., Sept. 28.—At Sellwood last night, just as an evangelist service was about to open at Bethany Baptist church, Mrs. L. Hoebe J. Adams, a missionary for the Baptists, dropped dead in the aisle as she was about to ask one of the members to preside at the organ. Heart disease was responsible for her death. Mrs. Adams came from New York nine months ago. She was for several years temperance evangelist for the W. C. T. U. of New York. A son, Rev. Floyd Adams, lives in McMinnville, in this state. Deceased was aged 60 years.

WILL BUY OUR OIL

Britons Form Strong Syndicate

Plan to Refine Product of California

Corporation Has Capital Stock of One Million Dollars, and Chief Seats of Its Operations Is to Be in This State

By Associated Press. SAN FRANCISCO, Sept. 28.—A cablegram from London announces the formation in the English capital of a corporation called the Californian Refineries, Limited, with a capital stock of £200,000, divided into £1 shares, its directors being Symon Symons, William Henry MacGarvey, Isaac Liebes, Charles Symons, Thomas Stoker and John Hay.

With the exception of Isaac Liebes they are all Britons, but the principal scene of their operations is to be in this state, with a new and independent departure in the methods of conducting the local petroleum oil business. This company has been organized in London, but the majority of its stock is held by San Franciscans, and its purpose is to erect and operate a refinery for the refining of crude petroleum and making therefrom the usual side products. Its site has not yet been secured, but it will be on the water and probably within a short distance of this city.

The basis of the deal is the property of the Graciosa Oil company, which has 6500 acres in Santa Barbara county. A pipe line is to be constructed to Point Sal on the ocean, where a line of vessels will load the Graciosa oil for shipment to the refinery.

The formation of the California Petroleum Refineries, Limited, was effected through the medium of Jardine, Mathison & Co. of London, one of the principal handlers of coal oil in the world. This company has for many years had a large clientele in Eastern Asia, more especially Japan and China, and has, it is understood, contracted to dispose of the Graciosa petroleum after it has left the refinery.

Woman Falls From Precipice

By Associated Press. SAN JOSE, Cal., Sept. 28.—One of a party of eastern women fell from a precipice near the Alum Rock Park falls this afternoon and was seriously if not fatally injured. She was conveyed to San Francisco. One arm was broken and her spine injured and she was also injured internally. She refused to give her name.

THE DAY'S NEWS

FORECAST

Southern California: Showers Friday; brisk to high southwest winds. Maximum temperature in Los Angeles 71 degrees; minimum 61 degrees.
