FORWARDS TO BEAR BRUNT OF BATTLE

Light Back Field Gives It Added Responsibility in Opposing Charges of Heavier Teams

A light back field working behind a strong line will be Pomona's method of advancing the ball during the approaching season, and when it lines up with the other teams of the southland its forwards must be called upon to assist materially in giving the opponents a close rub, for the 150-pound backs would be powerless before the charges of the heavy men who form the majority of the opposing elevens.

Since before noon the decrepit old man lay on the sand bed of the river bottom exposed to the sun, but passers-by thought he was drunk and did not offer any help.

FIGHTERS AWAIT TAP OF THE GONG EVERYTHING IN READINESS FOR BOUTS

Pugilists Are All Here Except Mayfield, Who Arrives Today, and All Are in Good Condition—Pavillion Closed Today

Everything is in readiness for McCarey's pugilistic extravaganza tonight and all the scrappers are in the ring and in nearly every instance the fighters are evenly matched and the card promises to be more entertaining than the usual semi-professional affair of this nature.

Jack Cordell and his sparring partner arrived on the Owl yesterday morning and after the noon hour Cordell did some shadow work at the pavillion and looked to be in the pink of condition as a result of two weeks' hard training at the Hayes Valley Athletic club.

The rangy looking lad has mixed in four professional affairs, taking the decision in three and scoring a knockout in the fourth. He bested Jack Clifford in their fight at the Grass Valley club and secured a clean fifteen-round decision over Herrera in Oakland eighteen months ago, following it up in like manner with Charley Selger at Oakland.

His knockout was registered against Jack Kain in the Mechanics pavillion last month. Cordell asserts he is in much better condition than in any of his previous fights and appears confident that he will make a telling impression upon the Angel boy when they get together this evening.

In the Angel camp the same confidence prevails and it seems to be a case of toss and take your choice. Judging from Cordell's condition it hardly appears as though Angel will be able to beat him down in ten rounds, even though he should possibly put it over him at the boxing game, and if Cordell's supporters are correct in their claims Cordell has developed something of a wallop himself since his last meeting with Angel. The men will fight at catch weights, Cordell tipping at 136.

Mayfield Comes Today

Mayfield, who will go on with Kid Gorman, did not arrive yesterday, but which Los Angeles this morning. He is described as a fighter of no little ability, depending, however, more upon strength than science, and has a record somewhat similar to his opponent of tomorrow night as regards the knockout.

Kid Solomon appeared in the ring yesterday for the first time during the week, and when asked as to what he thought would be the outcome of his go with Billy Walsh said: "I think I will get the point and win, and I might accidentally put home a knockout blow."

However, no one has accused the Kid of believing his name and with visions of the inexperienced Walsh before him, the Aliso street boy is probably wondering just what round he may turn the trick.

The usual afternoon crowds were on hand yesterday to watch the training stunts and the entertainment furnished them was more than ordinarily interesting.

Following the fighters several juvenile ambitions were gratified by an invitation to strip and "knock each other's head off." Eight thick and thin, husky and consumptive, bold and retiring, hump backed and deep chested youngsters resounded.

Another "Young Fitz" After various ludicrous stunts by the youngsters, the prize winning event was pulled off: Jerry Something, hailing from Bosting, whose hair was so dazzling in hue that it was necessary to pour water on it to keep the fire department outside the buildings, hooked up with "Cotton Top" Lano, a local.

Jerry was touted as a pocket edition of Fitzsimmons and when appearances and resemblances are considered Jerry might modestly plead guilty. His sun-crowned tip made him the butt of all jokers, and when he assumed an attitude of a broken-backed man in the ring the crowd went wild with joy—probably it was joy.

Quick as a cat and as "foxy" as Lanky Bob, Jerry started in to earn a reputation early in his career, but ran plump against Cotton Top's small but terrific fist.

When these youngsters began to mix it the scene was the liveliest ever. Nothing before—or since—has ever been done as it was done by them. They hammered one another like heavyweights and both retired at the conclusion of the third round with bursting headaches and proud bruises.

At one stage of the fight Cotton Top had Jerry on the grog wagon in great style and one more punch would have brought the restful sleep, but it was not forthcoming.

The doors will open at 6:30 o'clock this evening, but will be closed to the public during the day.

JOHNSON LOSES HIS ROLL

Negro Heavyweight Champion Says Clara Kerr Annexed It and a Diamond Ring and Necklace

Troubles of champions never cease, says Jack Johnson, claimant to the heavyweight negro championship of the world. He blew into Los Angeles Saturday night and that same period of darkness had not departed ere Johnson's roll did likewise. Also a diamond ring and necklace.

Johnson wears an ebony-hued damsel, Clara Kerr by name, fastened upon his cash and jewels and yesterday, at his especial request Clara was seized by the cruel hand of the law and will be transported from the arid Tucson region to a more equable clime in the Los Angeles city jail.

Clara was arrested yesterday upon the specific charge of taking \$154, a diamond ring and a necklace from Johnson Saturday night.

Johnson was "all in" financially yesterday, it is said, and this is startling to those who when taken in connection with Johnson's sweetest, or three things and everything of a pugnicous order, barring James the Undeafened, wherein Johnson agreed to bet \$2000 on his ability to do certain things to certain ambitious heavyweight pugilists.

TOMMY SULLIVAN WANTS TO FIGHT

FEATHERWEIGHT CHAMPION IS COMING WEST

After Over One Year's Practical Retirement, Sun-Crowned Scrapper Decides to Re-enter the Prize Ring

"Brooklyn" Tommy Sullivan, legitimate featherweight champion of the world, now physical director of the Missouri Athletic club at St. Louis, wants to come to California and fight this winter.

Tommy gained the title by knocking out the king of sprinters, Abe Attel, in St. Louis last winter. The knockout was clean and easily demonstrated Tommy's right to the title, which is now claimed by Attel.

Sullivan is quoted as "aching" for another battle and is said to be very "wuffy" because of Attel's claims to the title. Since his fight with Attel Sullivan has been in retirement. Previous to the fight he entered into a contract with the Missouri Athletic club whereby he virtually retired for a period from the ring.

When Attel was in the height of his glory around St. Louis last October Sullivan was urged to go in and trim him. The directors of the club released him from the contract for two weeks to permit him to train for his fight with Abe. With this brief preparation Sullivan entered the ring and outpointed and outfought Attel at every stage of the game, ending with a knockout in the fifth inning.

Since this fight Sullivan has been under contract with the club and unable to enter other contests. He claims the featherweight championship and seems to have a clear title to it.

Tiring of the monotonous duties of physical director, Tommy seeks re-entrance to the ring and wants to be matched against some "live" ones in his class.

Manager McCarey, who is booming the pugilistic game hereabouts, may be able to take Sullivan in charge and put him against a few of the more clever boys in his class during the "wet" season. Frankie Neil is his first choice and it is probable that negotiations between them will be opened at once.

Sullivan is expected to arrive in Los Angeles within the next two or three weeks, when active steps for his re-entry into the ring will be taken.

COFFEE CLUBS IN CALIFORNIA

From the New York Times. Some time ago the California town of San Diego started a coffee club to afford a place of entertainment and recreation where no intoxicating liquors or cigars or tobacco in any form should be sold, and the success of the enterprise has been in every way satisfactory and gratifying. A private company started the institution, and it was provided that no profits should be divided, whatever accrued being continuously capitalized with the view to

BAD BLOOD INVITES DISEASE

The blood supplies nourishment and strength to every part of the body when it is rich, pure and healthy. When from any cause it becomes diseased or weak it cannot supply the nutriment the system needs, and the body is unable to resist the diseases and troubles that are constantly assailing it to break down the health.

I have used S. S. S. and found it to be an excellent blood purifier and tonic. My blood was weak and impure, and as a result my system became very much run down and debilitated. I lost twenty or more pounds in weight, had no appetite and was in bad shape. Seeing S. S. S. advertised I began its use, and am well pleased with the results after using it for some little while. My system and general health have been wonderfully built up, and I do not hesitate to give S. S. S. the credit for it. H. MARTIN, Warren, O., 60 Second St.

Rheumatism, Skin Diseases, Scrofula, Catarrh, Old Sores, Malaria, Contagious Blood Poison, etc., are the results of bad or diseased blood, and until this vital fluid is cleansed and made pure, strong and healthy, these diseases will continue. The greatest of all blood purifiers and tonics is S. S. S. It has been curing all diseases of the blood for more than forty years by going down to the very root of the trouble, forcing out all poisons and impurities and building up every part of the system by its fine tonic. S. S. S. cures Rheumatism, Skin Diseases, Scrofula, Catarrh, Old Sores, Malaria, Contagious Blood Poison and all other blood troubles, and cures them permanently. S. S. S. is the acknowledged king of blood purifiers and the greatest of all tonics. Books on the different diseases, and any medical advice you may wish will be given without charge.

establish other houses of like kind. A second one has been opened in the same city and there are similar places in Los Angeles, Santa Clara, Petaluma and Bakersfield. They are all successful financially and socially. In Los Angeles the two clubs are visited by from 1000 to 1500 persons daily. It costs about \$2000 to launch a club, but once going it pays its own way and prospers, becoming in time the parent of others. It is estimated that the saloon business has been cut down one-half in the towns named. It is possible that California has found out an expedient for the promotion of temperance more efficient than the one which Maine thought she had discovered a generation or so ago, but which in late years does not seem to work with its pristine smoothness. At any rate, the initial success of the Pacific coast experiments is gratifying and promising, giving sign that it may not be unworthy of trial elsewhere.

HAGGERTY'S INDIAN VIEWS NOT GENERALLY SHARED

CONFIDENCE IN COACH HEMPEL IS EMPHATIC

Local Football Experts Expect Sherman to Improve Under Trainer, and Northern Universities Have Not Shown Better Than Last Year

The assertion by Coach Haggerty that the northern universities would in all probability take the measure of the Indians when they met gave rise to much of the pro and con yesterday and most of the knowing ones are inclined to disagree with the view assumed by the St. Vincent coach.

They are not able to figure where the Stanford and Berkeley teams can have improved in any degree over last year's form and estimate that the Indians will have acquired some of the speed which Hempel injected into the Pomona men during his two seasons at the Claremont institution.

Haggerty asserts that both the universities are putting up the fastest game ever played in the north and, moreover, declares that the pace of last year was slow compared with the way they are tearing things to pieces at the present.

If this is true—and Haggerty's trip should have given him an insight to the status of football in the north—Hempel may have a more serious proposition on his hands than most people imagined.

However, the majority are skeptical and desire to be shown. In any event, the prophecy of the tactician coach will bear watching.

Murrieta, one of St. Vincent's ends, who took part in the recent games, may be obliged to leave Los Angeles sometime this week and will possibly not be a member of the squad during the remainder of the season.

Manager Demens of the high school team anticipates the results of next Saturday to be close and is not looking for a large score for either side.

GERMAN AHEAD IN CHESS MATCH

By Associated Press. NUREMBERG, Germany, Oct. 2.—The eleventh game of the chess match between American Expert Marshall and Dr. Tarrasch of this city was played at the local club today, when the game was drawn after only twelve moves had been recorded. Marshall introduced the Ruy Lopez opening and selected the so-called Morphy variation, Bishop takes Knight. A wholesale exchange of pieces followed and the position was then simplified as to warrant the result. The present score: Tarrasch, 5; Marshall, 1; drawn 5.
