

RIOTING RENEWED

St. Petersburg Scene of More Trouble

Students and Workmen Charged By Police

Large Numbers of Revolutionists, Carrying Red Flags, Parade Boldly Through Nevsky Prospect. Printers Declare Strike

By Associated Press.

ST. PETERSBURG, Oct. 15.—For the first time since the advent of M. Treppoff as head of the government of St. Petersburg demonstrations on a large scale took place here today, the occasion being the removal of the body of Prince Trubetskoy to the Nikolai station for shipment to Moscow. Students, workmen and spectators gathered in thousands in the streets and demonstrators with red flags paraded boldly through the Nevsky Prospect, the main avenue. The crowds and the procession were several times charged and dispersed by mounted police, but fortunately with no grave consequences. The most serious injuries reported are those sustained by two men who were slashed with sabres. Firearms were not employed by the gendarmes or military, and though the collision was provoked by a shot from the crowd and a few instances of stoning occurred, the crowds manifested no inclination to resist the police and troops.

The troops are exasperated over the attacks by the police and the arrest of several members of a coalition committee chosen by a student meeting September 25 and the renewal of the disorders is not improbable.

The serious feature of the situation is that a strike of printers was declared tonight on political grounds, which is to last for a period of three days, but it may be continued longer in case of repressive measures or arrests. The editors of the leading daily newspapers hope to be able to issue a single sheet giving telegraphic news, but the others will suspend publication entirely. The employees of several factories are ready to follow the lead of the printers and the authorities are fully alive to the danger that the strike may become a general one.

The street sales of the Slovo have been prohibited. By command of the emperor the council of the empire has suspended the greater part of its legislative labors and returned to the emperor for consideration to the ministerial departments concerned for submission to the imperial duma.

"GRAFT" FEARED IN UNION LABOR BANK

CHICAGO FEDERATION DECIDES TO ABANDON PLAN

It is Declared That Corruption Would Be Engendered by Temptation of Handling Large Sums of Money. Present Financial Methods Scored

Special to The Herald.

CHICAGO, Oct. 15.—After a long and rapid discussion in which it was declared that banks are all wrong, that no interest should be charged for the use of money, that graft and corruption would be engendered in the ranks of unionism by the temptations of handling large sums of money, the Chicago federation of labor today put off until next week the plan to start a union bank in this city. The movement for the formation of a union bank was started some time ago, and for a time seemed to meet with favor. It was proposed that only union laborers should be directors and the depository of the funds of unionism, where they would be easily accessible in fighting the battles of labor against capital.

The fear of graft was the principal objection against the bank. Many of the speakers referred to the corruption being disclosed in all sections of the country, denounced banks and banking methods and urged the federation to refrain from entering upon a line of business for which it was never created.
