The Hospital Thankful are They Who Escape The Surgeon's Knife Thousands of surgical operations are performed every year in our great city hospitals upon women afflicted with serious female troubles. Sometimes the operations are successful—oftentimes they are not. It is safe to say that certainly nine out of ten operations for female troubles might have been wholly avoided. The most valuable tonic and re-builder of the female organism, the medicine with a record of thousands of cases literally snatched from the operating table, is Lydia E. Pinkham's Vegetable Compound. Do not consent to an operation which may mean death until after you have given Lydia E. Pinkham's Vegetable Compound a fair trial. Note what it did for Mrs. Paul Oliver, whose letter follows: DEAR MRS. PINKHAM:—I was suffering from pains in my side and womb. The doctors said to get well I must have an operation performed, but I would not consent to that. I heard of Lydia E. Pinkham's Vegetable Compound and sent for a bottle; the first dose did me good, and after taking the first bottle I could sleep all right and I did not have those pains around my womb which I had all the time before. Now I can ride ten miles in a carriage, my color has returned, and I am full of life. I owe all this to the Vegetable Compound. It has also done wonders for my thirteen-year-old daughter. I will never cease to praise it and recommend it to my friends. MRS. PAUL OLIVER, St. Martinsville, La. Thousands of women, residing in every city and town in the United States, bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills and creates radiant, buoyant female health. For your own sake try it. Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail
