Prizes included a Japanese brass vase, a card case and bouquets of chrysanthemums. Clever Conceptions Of the Styles

While custom rules that shapes and colors and effects must be what fashion dictates, yet our modes are entirely original. We insist that where beauty is at stake graceful lines must prevail. Our designers have studied the ideas contained in the imported models and developed and adapted them to the more conservative American taste. We welcome the most critical inspection.

How and Why Our Prices are Lower

There are three strong features which determine the cost—material, labor and design. The difference between this house and many whose stocks are inferior to ours is that our prices are based on material and labor—the style is yours for the asking. We are widely imitated, and many of our finest creations are copied and sold at an increased price. That is why discriminating people prefer our goods.
