

BURTON GUILTY

Senator Convicted on All Counts Shows No Emotion When He Hears Verdict

His Council Will Present a Bill of Exceptions in Court Monday and Will Ask for an Appeal

By Associated Press.
ST. LOUIS, Nov. 25.—Senator J. R. Burton of Kansas was tonight found guilty on all six counts in the indictment upon which he has been on trial for the past week in the United States circuit court, charging him with having agreed to accept, and having accepted, compensation from the Rialto Grain and Securities company of St. Louis, to appear for the company in the capacity of an attorney before the postoffice department. The verdict was brought in at 12:50 o'clock, two hours and twenty-five minutes after the jury had received the case.

Senator Burton was ordered to appear in court Monday morning when, his counsel announced, a bill of exceptions would be presented and an appeal asked for. Court then adjourned. From the time the jury went out Burton was pacing the court room with long even strides. The verdict was reached, notified Judge Vandewater. Senator Burton took his accustomed seat at the table with his counsel. His features were set, but expressed no visible sign of emotion from the time the jury entered the room until the verdict had been read. His facial expression did not change during the reading of the verdict, and the separate answers by the jury of "guilty" to each count.

Senator Burton, accompanied by his counsel, descended in the elevator to the ground floor and together they departed for his hotel. The senator was permitted by the marshal to have his freedom on the promise of his counsel to produce him in court at 10 o'clock next Monday morning. Senator Burton was indicted on eight counts, two of which were quashed before the case went to trial. The penalty provided by the statute is not more than two years' imprisonment nor more than \$1000 fine on each count and the forfeiture forever of the right to hold any position of trust or profit under the United States government.

Unless the verdict is reversed in the supreme court Senator Burton's seat in the upper body of the national congress will at once become vacant. The term for which he was elected expires March 4, 1907.

SOCIETY WOMAN SURPRISED AT RUMORS

Says There is No Truth in Report of Her Betrothal to Charles Wiggins of St. Louis—Says Man is Simply a Friend of Her Family

Special to The Herald.
SANTA BARBARA, Nov. 25.—Mrs. Mitchell Scott of St. Louis, emphatically denies she is engaged to Charles Wiggins, prominent St. Louis society leader and club man. Mrs. Scott returned today from San Francisco and was interviewed by a Herald reporter at her residence on Garden street. "There is no truth in the report," said she. "I can't imagine how such a story could have been circulated. Mr. Wiggins has long been a friend of our family, that is all. I don't know what to say, this is such a surprise to me. Mr. Wiggins comes through this city once or twice a year on his way to his mines in Mexico, and usually stops over and gives us a call. You can deny the report in the paper if you wish, but I would prefer that you say nothing about it."

Chicago's Mayor Says It is Not Up to Him to Close Saloons on Sunday

By Associated Press.
CHICAGO, Nov. 25.—Surrounded by a hundred women, some angry and others weeping, Mayor Dunne sat in his office and met their demands that saloons be closed on Sunday by a repetition of his declaration that it is not up to him to enforce the law upon that point. They were not satisfied with this response, for they represented the Cook county organizations of the W. C. T. U., but they left the city hall saying that they would "try that he will change his mind." At the close of a six hour service of song and prayer, constituting the program of the annual "self denial" meeting held in Willard hall, almost the entire body of temperance advocates descended upon the mayor.

SEBASTOPOL REVOLT IS BEYOND CONTROL

Mutineers and Strikers Parading City and Carrying Red Flags

Vice Admiral Chouknin Takes No Measures to Restore Order—Officers Hope That Sailors Will Return to Their Duty

By Associated Press.
ST. PETERSBURG, Nov. 25.—In view of the alarming news received today of a mutiny at Sebastopol, the proceedings of the zemstvo congress at Moscow and other developments in the Russian situation paled into insignificance. The formidable revolt in which sailors of the fleet, shore equipages and infantry garrisons are participating appears at the present to be beyond the power of Vice Admiral Chouknin, commander of the Black sea fleet, to control, as the dispatches say nothing of counter measures being taken or of the attitude of the other regiments of the regular garrison.

The mutineers and riotous strikers are parading the city with red flags without interference and it may be possible, as was the case at Odessa, that the rearward battalions of the fleet (formerly the Kniash Potemkin) and other vessels of the Euxine fleet dominate the situation and prevent active measures being taken to quell the mutiny, even if Vice Admiral Chouknin has sufficient loyal troops at his disposal.

Officers of the admiralty hope that the mutiny may end like that at Cronstadt, when the sailors, after a night of drunken revelry and disturbance, returned to duty, for the most part without compulsion. But the Sebastopol outbreak seems to be on a different scale.

The dispatches say nothing as to the reasons for the mutiny or of the demands of the mutineers and no details are obtainable at the admiralty, though the conjecture is advanced that demands for better food and the release of reservists might partly be responsible for it. The lack of good officers is frankly given by one of the highest officers of the naval staff as the principal and underlying reason for the alarming conditions in the Euxine fleet. As a result, practically all the senior officers were drafted for service with the fleet in the far east during the war and the force of commanding officers at Sebastopol is now only about one officer to over 400 men, and many of these are utterly incapable.

The revolt of the Black regiment is the most serious feature of the situation. It is the first time an infantry regiment, as a whole, has mutinied, and the question on the lips of everyone in the capital is how long it will be before it is followed by others, perhaps even the St. Petersburg garrison.

ZEMSTVOISTS OPTIMISTIC

Believe Troubles Will Be Settled Without Much Fighting

By Associated Press.
ST. PETERSBURG, Nov. 25.—The interesting views of a number of leaders of the zemstvo congress regarding the present situation telegraphed to the Associated Press from Moscow are generally optimistic in tone as to the future of Russia, provided Count Witte follows the policy outlined in the resolutions of the congress. Some of them contain suggestions for the formation of a coalition ministry.

Prince Paul Dolgoukoff, whose palace at Moscow was the meeting place of this and the previous zemstvo congresses, is one of the most eminent liberals in Russia. He telegraphed: "Count Witte is sincere, he will adapt our program and if he does not haggle over the bargain his position will be greatly strengthened; he will receive support throughout the country and will scatter the agrarian and labor disorders and rowdiness and perhaps worse, which have been inevitable for some time, owing to the belatedness of the reforms wrested by the low and not voluntarily given from above. But in spite of the revolution with its terrors of bloodshed and the accompanying economic and financial crises, we are passing through an emancipation epoch from which Russia will emerge strengthened and regenerated. The zemstvo workers, tempered in the long struggle against arbitrary power, must exercise a steady influence both against reaction and license."

Alexander Stakovich of Orel, another of Russia's conservative leaders, gave a more optimistic view. He wired: "Owing to the profoundly religious temperament of the Russian masses, their peculiar good nature and inborn slavishness, which naturally produces indifference on the one hand and the more peaceful, passive, revolutionary methods of the twentieth century on the other, I believe Russia will astonish the world by its strikingly small number of victims by which she will purchase her emancipation upon thoroughly democratic lines and find new solutions for national questions."

ATTACKING DURNOVO

Radical Papers Pursuing Same Plan as Against Treppoff

Special to The Herald.
ST. PETERSBURG, Nov. 25.—The radical papers are pursuing the same plan that they did in the case of Gen. Treppoff, the former assistant minister of the interior, and have now openly jumping from the camp against M. Durnovo, minister of the interior, accusing him of being the enemy of the constitution and the supporter of reaction. They also join in a general demand for the removal of the governors and other officials thus far removed, making a special point against M. Nledhardt, the former prefect of Odessa, who is called the "Russian Nero," and who, although removed from the prefecture, remains in the ministry of the interior.

"All the military satraps must be brought to justice," is the cry of the radical papers. The new appointment, Baron von Molken and M. Rheinbot, to be acting governors respectively of Tomsk and Kazan, are likely to draw their broadsides, Nolkien being the deputy chief of police of Warsaw, still limping from the effects of the explosion of a bomb thrown at him, and Rheinbot being the former governor of the province of Nyland, Finland,

who threw the capital into a fever of excitement some time ago by sending a dispatch announcing that a St. Bartholomew's night was to take place at Helsinki, the chief town of Nyland, for which he was removed from Finland.

The approval of these appointments is charged to M. Durnovo, minister of the interior, and not to Premier Witte. The fact is that under the present conditions the government is embarrassed by the paucity of material to fill responsible positions and it is largely a choice between men practically all of whom have done something to arouse popular resentment.

A popular address is being prepared tendering the thanks of the country to Count Witte for his services at Portsmouth and for his present endeavors to pacify and regenerate Russia.

AUTONOMY FOR POLAND

Resolution Indorsing Stand of Previous Congress Adopted

By Associated Press.
MOSCOW, Nov. 25.—Late tonight, after two days devoted to a continuous discussion of the Polish question, the resolution proposed by the committee indorsing the stand of the previous congress for autonomy but favoring the Jewish Defense association, at the national assembly for settlement was adopted unchanged by the zemstvo congress.

In the debate preceding its adoption a representative from Georgia in a violent speech demanded autonomy for the ancient kingdom of Georgia and other Russian provinces. The Pan-Slavists emphasized this as an argument against beginning the disintegration of the empire with autonomy for Poland. M. Artzbashev of Kazan said the Polish delegation declared that autonomy did not mean separation, but he asked: "Where is the guarantee for this?"

"Let the Russian nation not forget that the Polish eagle once floated over Moscow and that Russians swore allegiance to the Polish king," he said. M. Guchkoff, speaking on behalf of Count Witte, supported the proposal for the Jewish Defense association, and the government was ready to do this soon as it was possible, but it opposed autonomy because he said it would leave the Lithuanian, Teuton and other nationalities in Poland at the mercy of the Poles. The speaker, however, accepted the proposition to postpone the question of autonomy until the national assembly meets.

Schiff Aids Fund

By Associated Press.
NEW YORK, Nov. 25.—Jacob H. Schiff yesterday sent his check for \$100 to the Jewish Defense association, an East Side organization which is collecting money for the Jews in Russia. This movement has heretofore been opposed by their uptown co-religionists, says the Tribune, but the East Side believe that the Jewish contribution will be followed by others from those who have thus far concerned themselves only with the succor of the victims.

Contributions to the Jewish national relief fund for the benefit of the Jews who have suffered in Russian atrocities amounted tonight to \$27,574.

ST. PETERSBURG, Nov. 25.—Twenty-four additional squadrons of Don Cossacks have been ordered to be mobilized to suppress agrarian disorders. NEW RAILROAD PLANNED

Line to Be Constructed From Burlington's Branch in Kansas to Pueblo

By Associated Press.
DENVER, Colo., Nov. 25.—John F. Vallery, general agent in Denver of the Burlington railway system and member of the law firm of Wolcott, Valle & Waterman, today incorporated the Denver & Beavertown railway company under the laws of Colorado. It is the purpose of the company, which is an adjunct of the Burlington, to build a railroad from a point on the Burlington's St. Francis branch in Kansas to Pueblo, giving the Burlington a complete line between the Colorado Fuel and Iron company's iron mines near Guernsey, Wyo., to its steel plant at Pueblo.

The Beaver Valley company, it is announced, will also build 100 miles of track from Oberlin, Kansas, to Wray, Colo., to save a "back haul" on freight originating on the St. Francis and Oberlin branches which extend southward from the main tracks. The new trackage will connect both ends of the branch roads with the main line.

Naval Demonstration Against Sultan of Turkey to Be Made—Torpedo Boats to Keep Up Communication

By Associated Press.
ATHENS, Nov. 25.—The international fleet assembled at Piraeus for the purpose of making a naval demonstration against Turkey in support of the demands of the powers for financial control of Macedonia, sailed at noon today under sealed orders. British and French torpedo boats were left behind to keep up communication with the fleet.

NO EXCUSE FOR REVOLT

Strong Warning Sent to Bulgaria, Servia and Greece

By Associated Press.
PARIS, Nov. 25.—It was learned at the foreign office today that Austria and Russia, in behalf of the powers, have addressed a strong note to Bulgaria, Servia and Greece, warning them that the powers' naval demonstration against Turkey should not be made a pretext for revolutionary movements in the part of these countries against Turkey.

It is now definitely determined that the objective of the demonstration will be the island of Mytilene, where the customs will be seized, but the international fleet will not act within twenty-four hours and probably not within forty-eight hours.

In the meantime the ports and the ambassadors continue their discussions with some prospect that Turkey will yield before the fleet acts. Information reaching official quarters leads to confidence that Turkey's resistance to the powers will not go to the extent of military or naval measures of defense. An official who passed the Dardanelles during the last few days said today that Turkey's few available warships at the Golden Horn were worthless hulks. Moreover, the official view is that the sultan will not permit the firing of a shot which might precipitate war. Turkish land operations, said the official, are equally unlikely.

The island of Mytilene has a garrison of several hundred troops, but the French officials say these were withdrawn to a remote part of the island when the French landing occurred in 1901, owing to the sultan's desire to avoid the possibility of an armed conflict. Austria is not moving troops toward the southern frontier, despite reports to the contrary. The statement that she contemplates a movement on Salonica is categorically denied. There is practically no doubt that the note of the present ultimatum was deeply agitated by the stand of the powers leading to the belief that the response of the porte would be reconsidered.

AUSTRIA WANTS TO QUIT

Will Withdraw as Soon as Another Power Sets Example

By Associated Press.
VIENNA, Nov. 25.—Austria will continue to take part in the international action against Turkey so long as the powers act unanimously. But if any power desires to withdraw and does withdraw Austria will also withdraw. Austria is not moving troops toward the southern frontier, despite reports to the contrary. The statement that she contemplates a movement on Salonica is categorically denied. There is practically no doubt that the note of the present ultimatum was deeply agitated by the stand of the powers leading to the belief that the response of the porte would be reconsidered.
