

SENDS PARDEE ITS ULTIMATUM CONSOLIDATION COMMISSION WANTS CALL ALTERED

Message to Governor States Amendment to 1903 Statute is Insufficient—Only Opposition Made by Unimportant Places

To the Honorable George C. Pardee: The city of Los Angeles and vicinity demand an inclusion in a call for a special session of the legislature for the amendments...

"If you will not help to bear the burden of our government you cannot have the benefit of our new water system."

This was the sense of a resolution passed last night at a heated meeting of the Greater Los Angeles committee...

Hold Indignation Meeting The meeting was in the order of an indignation gathering concerning the action of Representatives Pendleton and Stanton...

A resolution was passed to address letters to be sent personally to each senator asking him to state what his position is and as to whether he will support the committee in their new request from the governor.

Representatives from the Pasadena board of trade stated last night that that organization has not been represented by Senator Hahn and that what he has said has been his own personal opinion...

"No Consolidation, No Water" The Pasadena board of trade committee on consolidation and municipal improvement was requested by Assemblyman John A. Goodrich as spokesman...

The proposition that was made was flatly turned down by the Greater Los Angeles committee, for the members considered that the sum and substance of it was this:

"Give us your water—we need it. We want to consolidate with you for we do not care to help bear the burden of your government."

The committee considers that the statements that have been made by the mayor of Pasadena and other representative citizens that they do not want to become part of Greater Los Angeles because they do not wish to be ruled by corrupt Los Angeles officials and that they do not want to have "red light" districts, are but excuses to get out of helping to pay for the water which they badly need.

The proposition made by the Pasadena committee caused a resolution to be passed that was in the sense that no town will be allowed to have a part of the Owens river water that will not help to bear the part of the expense of getting it. The committee considers that the only fair way in which a city can bear its share of the expense of getting the water will be to consolidate with Los Angeles...

Pasadena Opposes Greater City The Pasadena committee has determined to send President Linnard of the board of trade and Chairman Simons of the committee to Sacramento to talk over the situation with Governor Pardee...

CORNELL DEFEATS HARVARD'S CREW

ITHACANS CAPTURE SECOND ANNUAL BOAT RACE

Bostonese Lose by Three Lengths, Whereas Last Year Their Opponents Had a Gain of Seven Lengths

By Associated Press. BOSTON, Mass., May 25.—Cornell won her second annual boat race with Harvard this afternoon by about three lengths. The official time was: Cornell, 10:41 3/5; Harvard, 10:52. Distance one and seven-eighths miles. At the quarter-mile stake Cornell was in the lead and soon had pulled her shell one-quarter of a length ahead of Harvard. At the mile stake Cornell, with her long and deliberate stroke, had made the lead one and one-fourth lengths over Harvard. In the last quarter of the race both crews made a magnificent spurt, but Harvard was unable to do better than keep down to three lengths the gain of its opponent.

BOTH SURE OF WINNING Britt and McGovern, Who Fight Monday Night, Are Confident of Taking Laurels

By Associated Press. NEW YORK, May 25.—Britt and McGovern are adhering to the oldest rule of a prize fighter—the claim of being a sure winner. No two fighters ever stepped into a ring with more confidence than these two will in Madison Square Garden on Monday night. It will be Britt's first fight in the east. Their confidence has caused them to look further ahead than Monday night with a view toward meeting Battling Nelson.

Harry Pollack, manager of the Twentieth Century Athletic club, last night wired Billy Nolan, Nelson's manager, who is in Los Angeles, asking upon what terms Nelson would box the winner of Monday night's battle. Pollack stipulated ten rounds with no decision, on either June 18 or 25.

ONE NIGHT A WEEK FOR GIRL Charity Worker Declares Domestic Should Have Use of Sitting Rooms That Often

Special to The Herald. ORANGE, N. J., May 25.—Speaking before the charities conference of the Oranges this afternoon, Miss Elizabeth M. Rhodes of New York, secretary of the International Research committee, which has been conducting a research into the employment agency problem, declared that housewives ought to let their servants have the use of the sitting room one night a week.

"If you trust them with your husband, your children and yourselves," said Miss Rhodes, "why not trust them with the use of your sitting room at least one night a week? A girl would rather meet her friend outside than entertain him in the kitchen. After she has been working hard all day in the kitchen there is a limit to her desire to be in the same room in the evening. In a letter I received from a maid recently she stated she had stayed in one place for nine years because her

mistress allowed her the use of the sitting room." Failure in this line on the part of the mistress was, Miss Rhodes declared, the main cause of the nomadic habits of the domestic. "While there is no aristocracy in America, there is one distinction, and that is against domestic help."

FINDS NEW WAY TO CURE FISH Companies to Be Formed to Use the Patent of Dr. Lamb of New Jersey

Special to The Herald. SEATTLE, Wash., May 25.—Dr. Walter Lamb of Palmdale, N. Y., is the entree of a process of preserving codfish and halibut dry without the use of large quantities of salt and entirely without boric acid. Brady & Co., local fish dealers in Seattle, are forming a company to manufacture on the American Pacific coast, and the doctor has gone to Vancouver, B. C., to form a similar company there. The first experiment with this new method of preserving fish was made by E. B. Dudden, a local dealer in fish.

The new process requires no expensive apparatus. Its promoters say it is simple. The fish is boiled before being placed in the can, with the addition of just enough salt to flavor it, then entirely cleared of bones, placed in an unsealed can, and boiled again a few moments. The second boiling simply warms the air and causes it to rise out of the hole in the top of the can, which is then sealed. In this condition it will keep indefinitely. Codfish prepared after Dr. Lamb's formula has already been introduced as "fish cheese" in the east and in Newfoundland, and the promoters say it has become popular, the flavor excelling that of the fresh fish.

Speaking of the new method of whitefish preservation, Philip J. Brady yesterday said: "While it is all new to us, it will apparently be valuable for the reason that in catching halibut the small ones are thrown back into the water, hence the larger portion is thrown away. This is particularly true of those who catch halibut for fletchers; they save only the larger ones. When canned salmon was first thought of we little dreamed of its future possibilities. Why should not the same thing be done in canning fresh codfish and fresh halibut?"

NOTHING TO DO WITH CASE United States District Judge at Kansas City Says Treasury Department Can't Run His Court

Special to The Herald. KANSAS CITY, Mo., May 25.—The treasury department at Washington must not try to run the United States court in Kansas City. Judge John F. Phillips of the United States district court will not permit it. He said so this morning.

Leslie Lyons, assistant United States district attorney, was calling several old cases in the district docket. "This should be dismissed," he said, referring to a liquor case, "but under a recent ruling of the treasury department the district attorney cannot dismiss without first writing for permission."

"Ruling of the treasury department?" Judge Phillips exclaimed. "What has the treasury department to do with this court? I don't recognize its authority to instruct this court. After a while I'll have to write to Washington to ask the treasury department before I can make an order. If the district attorney thinks the facts warrant a dismissal, such action will be taken."

It was so ordered. The Herald will sell you \$5 worth of records and give you a six month subscription to The Herald and a \$25 Talk-o-Phone absolutely free.
