

WOULD CONTROL FARM PRODUCTS

BUTTER AND EGG TRUST IS THE LATEST

Giant Combine Secures Control of Dairy Companies, the Daily Out-put of Which is 100,000 Pounds

By Associated Press. NEW YORK, June 30.—The Herald today says:

Backed by unlimited capital and supported by many of the most prominent financiers of the country, another trust has been planned on American soil, known as the American Farm Products company, and established for the purpose of taking absolute control of all dairy products, chickens and eggs.

It is asserted by those who control the American Farm Products company that it will bring about an increased and uniform price to the producers, a diminished price to the consumer, giving him a superior and purer grade of dairy products and greatly improving present methods of distribution.

The commission merchant's profit will be eliminated and the great corporation will take the responsibility of delivering butter and milk from the hands of the farmer to the hands of the consumer.

Wealthy Men Back Project

Behind the great enterprise are a score of the wealthiest men in America, who have already put in about \$20,000,000 and are prepared to "chip in" additional millions as they are required.

Among eastern capitalists interested in the trust are Levi P. Morton, Thomas F. Ryan, Harry Payne Whitney, Anthony Brady, E. J. Berwin, Kahn, Loeb & Co. and several other large banking houses and individual capitalists.

The headquarters of the company are at 52 Broadway. At a meeting of the board of directors held June 25 these officers were elected:

President, James R. Morse; first vice president, Henry D. Cooke; second vice president, K. L. Wiley; treasurer, Grant

Hugh Browne; secretary, Eugene Del Mars; executive committee, Messrs. Morse, Cook, Brown, Delmars and John Flagler; general manager in Chicago, H. L. Wiley; western board of managers (in Chicago), Horace W. Henshaw, Eben F. Dudley, Lyman B. Kelbowne, W. I. Moody and H. L. Wiley.

Company Well Financed

At the first annual meeting of stockholders held in New York last week a statement was issued showing that the company has a capital of \$15,000,000 of common stock, \$2,000,000 of preferred stock and \$2,000,000 of debt.

The statement showed also that the company up to date has obtained control and operation of butter making plants with an output of 100,000 pounds a day, and is now erecting a single factory in the west which will turn out that amount of butter every twenty-four hours.

Among the large butter refining plants taken over by the company to date are the W. F. Rose company, Chicago; Illinois Creamery company, Elgin; Dudley company, Owasco, Mich.; Alfred G. Wessing company, Kenton, O.; Bigelow Butter company, Boston, Mass.; Purdy Creamery company, A. H. Barber & Company, Chicago, and the Schermerhorn-Shotwell company, Des Moines, Iowa.

Several large concerns supplying milk to the New York market are said to have been absorbed already by the company and eventually it is expected that every concern in the country handling dairy products will come under its control.

It is stated that practically all the patents for refining butter have been purchased.

DUELIST AWAITS SHERIFF

Idaho Man Who Killed Partner Says He Acted in Self-Defense

By Associated Press. GRANGEVILLE, Idaho, June 30.—Michael Sweeney, who engaged in a pistol duel with M. R. Mitchell yesterday near Oro Grande, has arrived at Elk City.

Mitchell was killed and Sweeney has a slight flesh wound in the arm. Sweeney is awaiting the arrival of the sheriff and coroner at Elk City.

According to Sweeney's story, Mitchell had threatened him as a result of business differences over mining property.

There was no one present when the shooting took place. Sweeney says he acted in self defense.

Sweeney is a brother of the Spokane millionaire and politician and is one of the best known mining men of the northwest.

SWELTER AND DIE IN THE EAST

Continued from page one.

reported before noon today. All the victims were infants.

The early morning promise of the hottest day of the year thus far was well on the way to fulfillment before midnight.

The mercury in the government thermometer at the weather bureau was creeping upward at the rate of three degrees an hour and the officials there predicted that the ninety degree mark would be passed during the afternoon.

Reports of prostration due to the extreme weather conditions began to reach the police early and hospital ambulances were kept busy responding to appeals for aid.

Hot Wave Continues

Among the sufferers were four persons whose minds had given way as a result of the intense heat. One of these attempted to end his life by shooting, but he was restrained and taken to a hospital.

Seeking temporary relief from the oppressive heat thousands of persons stormed the public bath houses.

As early as 5 o'clock the crowds were so dense at several east side bath houses that large details of police were sent out to maintain order.

Thousands, unable to sleep in their homes, spent the night in the parks and on the sand at nearby shore resorts. The police estimate that nearly 8,000 spent the night out of doors at Coney Island alone.

The first relief of the day came with a slight breeze which sprang up during the afternoon. The temperature then began to fall slowly, dropping from 89 at noon to 88 at 1 o'clock and to slightly below that half an hour later.

In the meantime, however, four more persons, two infants and two adults had succumbed to the heat, making a total of eight deaths directly due to the weather reported up to 1:30 o'clock. There had been a large number of prostrations during the same period.

Mercury Drops Twenty-eight Degrees

By Associated Press. CHICAGO, June 30.—Relief came to Chicago yesterday afternoon when a violent thunderstorm sent the mercury scurrying down the tube from 93 to 65 degrees—a drop of 28 degrees in one hour. Wind with a velocity for a short time of 56 miles an hour, accompanied the rain and drove it in sheets. Five more persons died as a result of the heat wave and many were prostrated.

Banker Commits Suicide

By Associated Press. NEW YORK, June 30.—James Scheur, a young banker, who resides at 10 Chicago, seventh street, while suffering from the intense heat today sent a bullet through his head, causing a probably fatal wound.

Hot Wave Continues

PHILADELPHIA, June 30.—The hot wave continues. The official government thermometer at 8 o'clock this morning registered 84 degrees, six degrees higher than what recorded at the same hour yesterday.

EVERYBODY WORKS BUT JOE CANNON

SO SINGS THE HOUSE BEFORE ADJOURNMENT

Members Forget Political Differences and Make Merry During Last Day of Fifty-ninth Session

By Associated Press.

WASHINGTON, June 30.—The animosities and political differences of the present session of congress were generally forgotten or laid aside in the house today and the sweet singers among the members joined in the songs that are sung about every hearthstone in the land where the English language is spoken.

Gathered about Mr. Watson of Indiana, who has a fine baritone voice, were Mr. Tawney of Minnesota, who has a high tenor; Mr. Campbell of Kansas, Mr. Webb of North Carolina, and Mr. Olmstead of Pennsylvania and others whose musical qualities are well known, with the house and galleries to join in the choruses, the historic chamber rang with melody during the long and tiresome waits today occasioned by the delay in agreeing to conference reports.

A new element in the musical life of the closing days of the house was developed by Mr. Fulkerson of Missouri, who showed himself a whistler of no mean ability, his trills and runs being suggestive of the vaudeville stage.

Congressmen Sing Old Songs

"Battle Hymn of the Republic" was sung as a solo and chorus, "My Old Kentucky Home," "My Maryland," "Dixie," "My Country 'Tis of Thee," were all given with spirit.

"Give us a song, Mr. Speaker," called a dozen voices during a lapse in the singing. Every eye was focused on Uncle Joe, who blushed like a baby. He suggested as a substitute that Mr. Williams of Mississippi, Mr. Clark of Missouri and Mr. Watson and anybody else who wanted to volunteer to do the singing.

Then Mr. Henry of Texas "by unanimous consent" moved that ten minutes be permitted for debate, five to Mr. John Wesley Gines of Tennessee, who shall discuss "The Crime of '73," and five to Mr. Charles B. Landis of Indiana, who shall discuss the question "All kinds of work for all kinds of men."

This created the greatest amount of merriment. As a time destroyer the house listened to a postmortem on the passage of the Jamestown exposition appropriation, participated in by Mr. Payne of New York, the floor leader of the majority, and Messrs. Maynard and Jones of Virginia. The latter said that Mr. Payne in his speech of yesterday had made a misstatement when he said that the Virginia delegation had pledged themselves not to ask for any other appropriation after the appropriation had been passed for the purpose of making a display in Hampton Roads.

Payne Enjoys Chaffing

Mr. Payne, who has been a persistent opponent of "national shows and state fairs," as he calls these exhibitions, seemed to enjoy the light chaffing which Mr. Maynard and Mr. Jones gave him in being in the minority.

"Everybody works but Fairbanks" was relegated to the limbo of the songs that were, and "Everybody works but Cannon" was sung in the house today by some of the sweet singers from the southland, the chorus running: "Everybody works but Cannon. He sits around all day; Talking in his office, in his fascinating way. He's supposed to be our speaker, but Hinds really makes things go; Everybody works in congress, but Hinds old 'Uncle Joe'."

Asher C. Hinds is the parliamentary adviser at the speaker's desk.

HANDSOME MANSION BURNS

Fire Destroys Country Residence of Ralph Granger in Paradise Valley

By Associated Press. SAN DIEGO, June 30.—Early this morning fire destroyed the handsome country residence of Ralph Granger, president of the Merchants National bank, which was located at Paradise valley, ten miles from this city.

The origin of the fire has not been ascertained, but it is believed to have been crossed wires.

The loss is estimated at \$30,000. Mr. Granger was slightly burned in his efforts to fight the fire. Owing to the location of the mansion, it was impossible for any adequate fire fighting apparatus to get to the scene in time to save it.

CONGRESS' WORK IS NOW ENDED

Continued from page one.

and supplies from the stores of the government nearly equal that sum.

PRESIDENT IS WELL SATISFIED

Believes Work Accomplished Should Satisfy Entire Country

By Associated Press. WASHINGTON, June 30.—President Roosevelt tonight, on the adjournment of congress, dictated a statement concerning the work accomplished during the session.

He says that the present congress has done more along the lines of constructive statesmanship than has been accomplished at any session with which he is familiar. He says that men of genuine patriotism have a right to feel a profound satisfaction in the entire course of this congress.

The text of the president's statement follows: "In the session that has just closed the congress has done more substantial work for good than for any congress at any session since I became familiar with public affairs.

"The legislation has been along the line of real constructive statesmanship of the most practical and efficient type and bills have been enacted which it is fair to say that the enactment of any one of them would have made the session memorable, such, for instance as the railroad rate bill, the meat inspection measure, the pure food bill, the bill for free alcohol in the arts, the consumer reform bill, Panama canal legislation, the joint statehood bill and the naturalization bill.

Well Satisfied With Results

"I certainly have no disposition to blink at what there is of evil in our social, industrial or political life today, but it seems to me that the men of genuine patriotism, who genuinely wished well to their country, have the right to feel a profound satisfaction in the entire course of this congress.

"I would not be afraid to compare its record with that of any previous congress in our history, not alone for the wisdom but for the disinterested high-mindedness which has controlled its legislation.

"It is noteworthy that not a single measure which the closest scrutiny would warrant us in calling of doubtful propriety has been enacted, and on the other hand no influence of any kind has been able to prevent the enactment of laws most vitally necessary to the nation at this time."

COMMENTS ON APPROPRIATIONS

Chairman Tawney Shows How \$880,183,301 Is to Be Used

By Associated Press. WASHINGTON, June 30.—Chairman Tawney of the house appropriations committee made the following statement as to the appropriations for the fiscal year 1907:

"The total appropriations made at this session of congress, including the regular appropriation account, all deficiencies, miscellaneous and permanent annual appropriations, aggregate \$880,183,301.

"This is an apparent increase of \$60,000,000 over the appropriations made at the last session of congress, but is more than accounted for in the three following items:

"For the isthmian canal, \$12,447,000; under the statehood bill, \$10,250,000; toward the construction of new buildings authorized at this session, \$10,321,000, making a total of \$33,018,000, which might properly be added \$5,000,000 for San Francisco.

Other Big Increases

"Other notable increases are \$2,000,000 for inspection of meat products and \$10,600,000 on account of the postal service. The total apparent appropriations made at this session, \$880,183,301, do not constitute in their entirety a charge against the revenues of the government for the next fiscal year, for the reason that there must be deducted deficiencies that are chargeable to the account of the current year and to meet expenditures already incurred on account thereof, approximating at least \$35,000,000. This sum includes \$16,000,000 for the isthmian canal.

There should also be deducted \$75,000,000 for the sinking fund, which may or may not be met in the whole or in part, as it is purely a matter of discretion with the secretary of the treasury to utilize the surplus for that purpose.

"There should also be deducted \$22,000,000, which is estimated and included in the whole sum of appropriations to be paid out of deposits of national banks in redemption of circulation notes of banks.

Deposits Not Credited

"The deposits are not credited as a part of the revenues of the government, and therefore redemptions made from the fund thus arising should not be charged to expenditures. The \$25,456,815 appropriated for work on the isthmian canal is payable from reimbursements to the treasury out of bonds that are authorized to be sold for the purpose and should be deducted from the appropriations for 1907.

"The sums mentioned amount to more than \$129,000,000, and when deducted have apparent appropriations of only \$751,000,000 to be met out of the next fiscal year.

"In my judgment the ordinary revenues of the next fiscal year will amount to at least \$600,000,000. The postal revenues are estimated at \$181,973,000 for 1907, making the total apparent resources of the government for next year not less than \$781,973,000, or at least \$40,000,000 in excess of appropriations that may be charged against them."

Will Visit Indian Territory

By Associated Press. WASHINGTON, June 30.—Senator Clark of Wyoming today called up his resolution providing for the appointment of a committee of five senators to investigate conditions in Indian Territory and it was adopted. The committee is composed of Senators Clark of Wyoming, Long, Brandegee, Teller and Clark of Montana.

FIFTEEN CONVICTS EASILY SCARED

PANIC FOLLOWS EXPLOSION OF TORPEDO

Folsom Prisoners, on Way to San Quentin, Show White Feather When Car Strikes Explosive

By Associated Press.

SACRAMENTO, June 30.—While the special train conveying fifty convicts from Folsom prison to this city, en route to San Quentin, was passing Twelfth and R streets early this morning the engine struck a railroad torpedo, which exploded, causing a panic among the prisoners. Warden Yell and two guards were in the coach with the prisoners, while at either end of the coach was a flat car, each with three armed guards.

When the torpedo exploded the convicts jumped to their feet in terror, believing the guards outside were preparing to shoot into the car. The warden and his guards soon restored order and the transfer was accomplished without further incident.

Fifty able bodied men were turned over to the San Quentin guards. Warden Yell said no notable convicts were among the number, he having kept all the desperate characters. Every precaution was taken to make the transfer safely and it was accomplished without incident other than that noted.

At 4 o'clock this morning a special train was sent from this city to Folsom and at 5:30 the men were put aboard. The train pulled into the prison yard a short distance from the main building and the trip to this city was begun.

Arriving here at 6:30 the convicts were turned over to the San Quentin guards, who put them aboard the steamer Caroline, which will take them direct to San Quentin prison.

RAISES STANDARD OF NORMAL SCHOOL WORK WILL BE ON HIGH SCHOOL BASIS

Students Must in Future Be Graduates of Twelfth Grade—Course Will Be Two Years—State Textbook Triangle Unrevealed

By Associated Press.

BERKELEY, June 30.—By a resolution passed this afternoon by the state normal school board, which is meeting here with the state board of education, all normal schools in the state are placed practically on a high school basis.

The resolution raises the standard of normal school work by providing that none but graduates of high schools shall enter.

The length of the course is placed at two years.

The chief and San Diego normal schools have been admitting ninth grade pupils and this must now stop. Governor Pardee presided this morning and the action taken settles a question that has been pending five years.

The state board of education also met today and Governor Pardee succeeded in smoothing out the tangle into which the board got yesterday over the question of who should take the initiative in purchasing state textbooks. He counseled harmony between the textbook committee and the board as a whole.

JUDGE T. P. HAWLEY RETIRES

Nevada Man Leaves Federal Bench After Thirty-four Years of Service

By Associated Press.

CARSON, Nev., June 30.—Judge Thomas P. Hawley retired from the federal bench today after thirty-four years' service on the state supreme and federal benches.

No successor has yet been appointed. Members of the bench and bar eulogized him and tendered him a banquet tonight. The circuit and district courts were adjourned until July 23, when the famous Blair mining cases will come up.

STARTS EAST WITH REMAINS

By Associated Press.

HELENA, Mont., June 30.—James Tanner, commander in chief of the G. A. R., left here this afternoon for Washington, taking with him the body of Mrs. Tanner, who was killed in an automobile accident last evening.

General Tanner has received many messages of condolence. The following came from the president: "Am inexpressibly shocked and grieved. Accept my sincere sympathy, Theodore Roosevelt."

INSANE PATIENT ENDS LIFE

By Associated Press.

NAPA, June 30.—Mrs. Mollie H. Wood, a patient at the Napa state hospital, committed suicide early this morning by hanging herself with the lacing of her straitjacket.

She was committed from Contra Costa county after attempting her own destruction by pouring oil on her head and igniting it.

A coroner's jury returned a verdict of strangulation with suicidal intent and exonerated the employees of the institution.

DEATHS OF THE DAY

O'Connor Don

By Associated Press. DUBLIN, June 30.—The Right Hon. Charles Owen O'Connor Don, known as the "O'Connor Don," lord lieutenant of County Roscommon and for twenty years member of parliament (Liberal) for Roscommon, is dead. He was born in 1838.

Lawrence Hazen

By Associated Press. CINCINNATI, June 30.—Lawrence Hazen, former chief of Cincinnati detectives, widely known for breaking up gangs which had been robbing Adams Express cars in several states, died today.

Captain Hank Haff

By Associated Press. ISLIP, L. I., June 30.—Capt. Hank Haff, the veteran yacht master, died at his home here tonight, aged 69 years. He suffered from a complication of diseases and had been failing ever since the death of his wife, about a year ago.

STANDARD PIANOS

At greatly reduced prices, even though used, are cheaper in the end than new cheap instruments, whose cases are the only attractive features. Don't spend your money on a cheap piano, the economy comes in by putting just a few dollars more into your purchase. Every piano we sell, new or used, is guaranteed in writing, and our terms are so liberal that every home, even the most humble, may have music.

Time Is Up

Almost, and if you would secure for your home one of the lovely pianos we are offering you must act quickly or the opportunity will have gone by. MUSIC in the home is necessary, it has a refining influence that nothing else can give. The greatest musicians of the world are those who needed, and happily were given, a piano to practice upon when it seemed almost folly to do so, and because of the opportunity given them made of themselves great men. It may be that your son or daughter has in them the talent that, encouraged, would make them know the world over. WILL YOU GIVE THEM THE MEANS to bring out what talent they may have? YOUR HOME WILL BE THE HAPPIER for having a piano in it, it will be more attractive for friends, and it will prove a delightful companion for your wife and children.

The Obligation is All ours

We want you to feel that in asking time payments you are not asking a favor; we are anxious to extend time to
