

MUINEERS HERE BROUGHT TO TIME

WHITE FLAG IS RAISED AT SVEABORG

Details Are Lacking, but Impression Prevails That Hostilities Temporarily Are Over—Many Disorders Elsewhere

MEETING AT VIGO

Special to The Herald. VIBORG, Aug. 1.—It is reported here that the Russian fleet stationed at Vigo, Finland, has mutinied, imprisoning their officers and sailing to the assistance of the mutineers at Sveaborg.

DETAILS EAGERLY AWAITED

St. Petersburg Citizens Know Little of Actual Conditions at Sveaborg

By Associated Press. ST. PETERSBURG, Aug. 2, 12:15 a. m.—St. Petersburg is anxiously awaiting news of the outcome of yesterday's battle between the mutineers and the government forces at Sveaborg. No definite information has been received here, owing to the damage done to the land telegraph wires. The advices received by the government by wireless telegraphy have not been divulged.

The most importance is attached to the conduct of the fleet. According to semi-official intimations the crews of these vessels are still under the control of their officers, but private advices say that a portion of the crew have been confined below decks for fear of mutiny.

There was a rumor in circulation here tonight that four of the ships of the Baltic squadron were in complete mutiny and roaming at large in the gulf of Finland, and that the commandant at Cronstadt had been notified to be prepared for an attack by the vessels.

Dispatch Lacks Details. It is worthy of note that a dispatch to an official agency from Helsingfors announcing the arrival of the fleet at Sveaborg and the fact that it opened fire does not mention what it fired against.

Vice Admiral Birleff presumably has gone to Helsingfors to assume personal command of the fleet, as it now develops that Grand Duke Alex. Michaelovitch, the emperor's brother, is not with the fleet, as previously reported, but at Gatchinaw, the emperor dowager's mansion.

The most intense anxiety still prevails with regard to a possible uprising at Cronstadt and the general spread of the revolt through the naval establishments. A personal visit by a correspondent of the Associated Press to Cronstadt shows that the authorities there received timely warning of the events at Sveaborg and nipped a possible revolt in the bud.

Were Prepared for Trouble. They had the situation well in hand Tuesday night and quietly placed detachments of infantry at the doors of the marine barracks and removed the carbines from the racks in the building. Yesterday morning the 1500 sailors composing the seventh echelon, quartered at Cronstadt, whose loyalty had been doubted, found themselves prisoners. The correspondent saw them looking out of the windows of their barracks and unable to communicate with the outside. The streets of Cronstadt are swarming with troops of the loyal regiments and the newly arrived men of the twenty-fourth division, who serve to overawe disaffected elements.

The commandant at Cronstadt ordered the confiscation of newspapers from St. Petersburg in order to prevent the news of the outbreak at Sveaborg from reaching the islanders. This measure was fairly successful.

Agitators Dispersed. A group of agitators who went over to Cronstadt in the same boat with the correspondent of the Associated Press attempted to hold meetings and communicate news of the Sveaborg happenings. They were dispersed, however, and fled before the leveled rifles of the soldiers.

The officers of the navy department at Cronstadt are besieged by the wives

and relatives of officers on board the ships at Helsingfors who are frantic over the reports that the crews had arisen and killed their superiors. As the correspondent was crossing from Cronstadt to Oranienbaum he saw the imperial yacht Poletar lying with steam up at the pier below the imperial residence at Peterhof.

HARBOR TRAFFIC PROHIBITED

Large Crowds Gather on the Quays to Hear Cannonading

By Associated Press. HELSINGFORS, Aug. 2, 1:31 a. m.—Except in the vicinity of the fort the town presents practically a normal aspect. During the evening large crowds assembled on the quays listening to the cannonade and watching the dense columns of smoke rising from the islands. All traffic in the harbor has been prohibited. After nightfall the governor issued an order closing all public houses.

Regular traffic has been resumed with St. Petersburg. The railroad bridge between Riihimaki and Ryttylas, which was blown up by members of the "Red guard," having been repaired. Prior to the blowing up of this bridge members of the "Red guard" seized the Fredericksburg station and stopped the St. Petersburg mail train.

The white flag has been hoisted on one of the islands, but it is premature to say whether the revolutionaries there have surrendered or not. In any event, however, the fire from the battleship Slava and another warship undoubtedly had its effect.

Slava Struck Several Times

The mutineers report that the Slava was struck several times by their fire. During the afternoon a boat put out from Sveaborg and was bombarded. The occupants, who were members of the "Red guard," were taken into custody.

Last evening the strike committee declared a general strike to begin at 7 o'clock, but no sound of firing has been heard. The mutineers would be bombarded. Up to midnight, however, there were no evidences of this strike.

The senate has issued special orders to all governors to adopt measures to maintain public order and security and to strengthen the regular forces with civilians. The revolutionaries of Finland have issued an appeal to the troops to support the people in a fight for land and liberty.

The commander of the fortresses appealed personally to the men, but his words were unheeded. The mutiny speedily assumed an aggressive character. The commander of the sapper battalion was fired upon by the fortresses. The mutineers were stoned to death and thrown into the sea. A midshipman named Dellvrou, attached to one of the torpedo boat destroyers, went out and hauled down the flag from Skatuden fortresses while the mutineers were firing on him. He received four bullets in the breast and died in a hospital during the night.

REPORTS CAUSE EXCITEMENT

M. Herzenstein Assassinated at His Country Home in Finland

By Associated Press. ST. PETERSBURG, Aug. 1, 2:25 p. m.—The greatest excitement prevails as a result of the startling news from Sveaborg, and the deepest apprehension regarding the situation at Cronstadt.

There is little doubt that the rising of the "Gibraltar of the Baltic" was a premature attempt to execute a wide-spread military conspiracy which involves the seizing of the fortresses of Sveaborg, Cronstadt and Sevastopol as bases for the revolting Black sea and Baltic sea fleets.

Both telegraph and telephone communication with Cronstadt was cut during the night, but no sound of firing has been heard. Although it is learned that a summons to revolt was issued there, the chief point now in doubt is whether the main part of the Baltic fleet, consisting of a battleship and three cruisers, which were hurriedly sent from Revel to Helsingfors upon receipt of the news of the mutiny at Sveaborg, has joined the rebellion.

The squadron is understood to be under the present command of Grand Duke Alexander Michaelovitch, brother-in-law of Emperor Nicholas.

Receive Telegram

A telegram claiming to be from the commander of the fortresses has been received here, but its meaning is not clear. The dispatch says: "The entire crews of four warships have mutinied."

Other dispatches mention the crews of the torpedo boat destroyers and other ships on the spot as revolting, while another dispatch says: "For a time, with a portion of the crews locked below decks, the loyal men of the crew fired upon the mutineers."

The commander of the artillery, General Aggief, was a prisoner during the night. The Cossacks and troops ashore at Helsingfors have regained entire possession of Skatuden island.

There is no exaggeration in saying

that the blow coming thus suddenly from an unexpected quarter has caused dismay in the government circles, and the feeling of alarm is increasing by the bad news from the interior.

The strikes are spreading rapidly. The whole of the Donets basin, the center of the mining and smelting industry, is in the grip of the strikers, 20,000 walking out at Donetsk last night, while from the vicerey of the Caucasus comes news that the garrison of Deshliagar, commanding the famous iron gate at Derben, received the news of the dissolution of parliament by resigning, killing their commanding officer, installing themselves in complete control of the city and placing their sentinels before the post, telegraph and other government buildings.

Revolutionists Jubilant

The revolutionists are wildly jubilant. Although the mutiny at Sveaborg occurred unexpectedly, they decided that they must take advantage of it and try to immediately precipitate the general engagement between the government and the people for which they have been preparing.

They declare that the supreme confidence that the military support will break where they are least expected and that the government will find, when the test comes, the army divided against itself and that any supposed military loyalty will be found on the side of the people.

The workmen's council here and at Moscow have already issued warnings to the workmen's organizations throughout the country to hold themselves in readiness to strike, and revolutionary military committees are acting with energy.

They declare that the crews of the warships at St. Petersburg are ready and that if the Cronstadt squadron mutinies all the ships in the Baltic will soon be in their hands. The imperial palace at Peterhof is under the guns of Cronstadt fortress. Revolutionary emissaries have been dispatched to the ports of Revel, Riga and Libau and if they are successful the capital will be immediately hemmed in by troops.

General Strike Ordered

The proletariat organizations of Finland yesterday issued orders to begin a general strike throughout the grand duchy at noon today. The proclamation exempts the electric light, gas and water works in the cities.

The Reich, in an editorial today, does not conceal its gratification at the quick march of events, saying: "Before the government could even induce a few men enjoying a measure of public confidence to countersign its promises of the liberal reforms, the first blow has fallen, not delivered by the peasants or workmen, but by an army, whose loyalty the premier was vaunting."

The Reich thinks that a civil war is at hand. The liberals in general believe that the government will now be forced to discard all pretense of reform and that a military dictatorship is at hand. Admiral Birleff, the minister of marine, is reported to be on the point of starting for Helsingfors.

DETAILS OF MURDER LEARNED

M. Herzenstein Assassinated at His Country Home in Finland

By Associated Press. ST. PETERSBURG, Aug. 1.—The report of the murder of M. Herzenstein, the former member of the outlawed parliament, in which he was a prominent leader of the constitutional Democrats, is confirmed. It turns out that he was assassinated at his country home near Terki, Finland, by men in the pay of the Black Hundred organization.

M. Herzenstein was walking along the seashore with his wife and daughter when several shots were fired at him from an unoccupied building. M. Herzenstein was hit twice and fell dead. His daughter was wounded in the hand. The murderers escaped.

A remarkable fact is that three hours prior to the murder a telephone message was received at a newspaper office from Moscow asking for news of M. Herzenstein and saying that he had been assassinated.

M. Herzenstein was of Jewish descent and very wealthy. His attacks on the minister of finance in the lower house of parliament attracted widespread attention. He supported the constitutional Democratic scheme for land expropriation. His family had renounced the Jewish faith and became orthodox Russians several generations ago. He occupied a prominent place in Moscow society and was a popular idol among the peasants.

BUTCHER IS UNDER ARREST

Smilde being laid to him until he saw a Herald lying in the shop. After reading a murder had been committed he became frightened, and driving away with the butcher cart telephoned to his employer to send after the cart in Pasadena avenue, as he was obliged to go home.

"Lane said he roomed with the Dobs and went downtown last night with the husband, little expecting to see the Dobs in company with Smilde. "I think, however, Lane knew the man before. According to his story he tried to shake hands with Smilde, who was under the influence of liquor, and the other refused to be friendly.

Blow Causes Death

"It was then he hit Smilde in the face, he said, and followed it up with other blows." Smilde's autopsy was performed on Smilde's body at Bresler Bros. morgue yesterday afternoon by Dr. Campbell. He said he found a severe blow had been dealt the deceased upon the chin and at the base of the brain there was a fracture of the vertebrae. He found a hemorrhage in the brain, caused, in his judgment, by the blow on the chin.

The inquest will be held this morning at 9 o'clock and additional facts may be brought out.

Coroner Trout said several witnesses had been summoned who saw the fight in the street and who professed to be able to identify the assailant. Detectives say Lane was arrested some time ago on a battery charge. "The alleged is of a quarrelsome disposition. He is powerfully built, about 25 years of age and has a face marked by strong passions.

MANY CLAIMS BEING SETTLED

Large Sums of Money Distributed by Insurance Companies at San Francisco

By Associated Press. SAN FRANCISCO, Aug. 1.—Large sums of money are being distributed this week by the sound insurance companies which have now settled practically all of their individual losses and are rapidly adjusting the policies assigned to commissions.

While there is no way in which to ascertain the exact amounts being paid it is certain that more rapid progress is being made in settlements these days than at any time since the fire.

The number of claims daily is as great as ever, while the amounts run into four, five and six figures.

STANFORD ELECTS PRESIDENT

Horace Davis Succeeds Judge S. F. Leib, Who Declined Re-election. Other Officers Chosen

By Associated Press. SAN FRANCISCO, Aug. 1.—At the annual meeting today of the board of trustees of Stanford university, Judge S. F. Leib of San Jose, who has been president of the trustees for eight years, declined re-election, and Horace Davis was elected in his place.

Other officers elected for the current year were as follows: Vice president, Timothy Hopkins; treasurer and business manager, Charles U. Lathrop; secretary and assistant treasurer, George E. Crocker.

Upon the recommendation of President David Starr Jordan, about thirty student assistants were appointed in various departments of the university.

The board of trustees decided that it would adhere to the "open shop" principle in the work of repairing the university buildings and not accede to the demands of the striking workmen that all employes be unionized.

HARRY THAW IS TO STAND TRIAL

INSANITY PLEA WILL NOT BE OFFERED

Man Accused of Murdering Stanford White Induces His Mother to Dismiss Attorneys Engaged to Defend Him

By Associated Press. NEW YORK, Aug. 1.—Yielding to the persuasion of her son Harry Thaw, Mrs. William Thaw today dispensed with the service of the firm of Black, Olcott, Grubb & Bonnyng, whom she had retained to conduct the defense of the young man on the charge of murdering Stanford White.

Following a family council held last night at the residence of her daughter, Mrs. Carnegie, at Roslyn, L. I., and at which Mrs. Harry Thaw was present, Mrs. William Thaw this evening sent the following letter to her counsel: "Gentlemen—After fully considering the question I have decided that my son's opinion is the right one.

"Will you therefore kindly deliver to Messrs. Hartridge and Peabody, 149 Broadway, all documents, letters, notes, memoranda, data and all papers you have for me, and a full statement of your account?"

"Thanking you for your courteous attention to my wishes during the past two weeks, I remain, very truly yours, "M. C. THAW."

Disagreement Arises

The firm referred to was engaged by Harry Thaw to take charge of his defense a few days after the tragedy. A disagreement occurred between the prisoner and Mr. Olcott on the question of the line of defense to be adopted, Mr. Olcott insisting on the plea of insanity, which Thaw was unwilling to accept.

It is understood that Mr. Hartridge does not intend to conduct the case single handed. He has been in daily communication for a week with several prominent criminal lawyers. A number of these lawyers have already been retained to assist in the defense and are now at work on different ends of the case. One of the most noted lawyers in the United States will conduct the trial in court.

DEATHS OF THE DAY

Dr. W. E. Taylor

By Associated Press. SAN FRANCISCO, Aug. 1.—A cablegram received in this city announced the death of Dr. W. E. Taylor in Honolulu. Dr. Taylor was medical inspector, United States navy, for years, but was retired in 1881 on account of an injury received at Manila. He was professor of surgery in the University of California from 1881 to 1898, and in 1890 he was elected coroner of this city. He was instrumental in getting the bill for the affiliated colleges passed.

A. Alexander

By Associated Press. BAKERSFIELD, Cal., Aug. 1.—A. Alexander, for thirty-five years a resident of Lassen and Kern counties, died at his home here today. He was apparently in perfect health until this morning, when he was seized with an attack of the heart and expired before medical assistance could be rendered.

Professor A. H. Thompson

By Associated Press. WASHINGTON, Aug. 1.—Professor A. H. Thompson of the United States geological survey died in this city last night, aged 67 years. He was associated with Major Howell, his brother-in-law, in the exploration of the Grand canyon of the Colorado.

Edmund Russe

By Associated Press. PARIS, Aug. 1.—Edmund Russe, a member of the French academy, who acted as counsel for members of the commune in 1871, is dead, aged 87 years.

E. C. Ivins

By Associated Press. SAN LUIS OBISPO, Aug. 1.—E. C. Ivins of this city, a prominent Democrat, died today after a lingering illness.

ENCOUNTERS FLOATING MINE

Steamer Ningpo Strikes Death-Dealing Object and Has Narrow Escape

By Associated Press. VICTORIA, B. C., Aug. 1.—The danger of floating mines has again been illustrated by the collision of the steamer Ningpo with a floating mine 120 miles from the mouth of the Yangtze.

The vessel was considerably damaged and had a narrow escape from destruction. Owing to the large number of mines in the sea of Japan, Japanese steamship companies are suspending navigation of their steamers at night.

The American bark, Agenor, which was sold to Sale 2 Fraser of Yokohama after being raised near Kobe, has been wrecked under suspicious circumstances off the Japanese coast near Pushima on her first voyage. Witnesses in a case brought against the owners, and Pilot W. Hill by underwriters who insured a flour cargo on board, said that the vessel was scuttled by holes being bored in her bottom.

Votes to Increase Indebtedness

By Associated Press. SAN JOSE, Aug. 1.—The election to extend the limit of the municipal bonded indebtedness from \$500,000, as provided by the present charter, to five per cent valuation of the city's assessed valuation, was carried today, the vote being 5 to 1 in favor of the proposition.

DECLARATIONS STATE TAXPAYING SYSTEM

DECLARES IT A SCHOOL FOR PERJURY

Report of State Commission on Revenue and Taxation Says a High Premium is Paid for Dishonesty

By Associated Press. SACRAMENTO, Aug. 1.—"Our present system of taxation is a school for perjury, puts a penalty on honesty and pays high premiums for dishonesty."

This assertion is made by the state commission on revenue and taxation in its report, which was made public today. This commission was appointed by the legislature of 1905, and consists of Governor Pardee, Senators Curtin and Ward, Assemblymen McCartney and Treichsel, with Carl C. Phenix, expert on taxation and public finances, as secretary.

There are seventy-one pages of the pamphlet and it discusses fully the necessity for a new system of taxation and explains the method favored by the commission.

The preliminary report is made in order to invite criticism for the guidance of the committee. Some of the more important findings of the commission follow: "In general the present system of taxation does not meet the demands upon it. It is antiquated, having been adopted fifty years ago, and has not been revised to keep pace with modern conditions.

Handicaps Growth of State "It is full of inequalities which impose a hardship on the growth of the state, a handicap which only the vigor and inexhaustible energy of our people can carry.

The taxes paid by farmers in California are equivalent to an income tax of 10 per cent. This is in contrast to many other industries, for example, the taxes paid by manufacturers, which amount only to 2 per cent of the income. The persons engaged in agriculture, with an average early income of about \$500, pay \$50 per capita per annum in taxes. The persons engaged in manufactures with an annual income of \$750 pay \$17.50 per capita per annum.

"Our chief tax, called a general property tax, has in fact become a real estate tax. Only from 15 per cent to 18 per cent of the entire taxes are levied on personal property.

"The amount of personal property on the tax rolls today is hardly larger than it was in 1872.

Money and Credits Escape "Money and credits escape taxation almost entirely. Our laws in regard to the taxation of this class of property are full of absurdities and utterly unenforceable. It is unwise to retain local taxation. It establishes at once a national bank pay no taxes at all except in real estate.

"State commercial banks to live at all, in face of this competition, are forced to evade taxation whenever possible. Savings banks are the only class of banks which pay their full quota of taxes.

The remedy proposed by the commission is the separation of state from local taxation. It establishes at once a home rule in matters of local taxation. It abolishes at once any necessity for equalization between counties and proposes to cure the evils state equalization falls to reach.

MOROSCO'S BURBANK THEATER

Sixth and Main. Phone 1270. FOURTH RECORD-SMASHING WEEK ANOTHER PAVED HOUSE LAST NIGHT—500 PEOPLE TURNED AWAY

Owing to the fact that there have been thousands unable to gain admission to the Burbank Theater during the past three weeks, Manager Morosco will run the new American play still another week. Never before in the history of Southern California theatricals has a play run three weeks save once, and that was the other Morosco-Cottrell success, "THE JUDGE AND THE JURY"

"The Halfbreed" has not only broken this remarkable theatrical record in point of attendance and in a financial way during the first three weeks, but will pack the popular playhouse for still another seven days, thus creating a record for the Burbank that will doubtless remain unbroken for several moons to come.

The cast will remain exactly the same, save in that Mr. Harry Glazier will play the role of Ross Knott, formerly played by William Desmond, and William Bernard will essay the Frenchman, "Pardeux," the role Mr. Ginn played with such marked success. Messrs. Desmond and Ginn leave for New York Sunday to play their original roles in "The Judge and the Jury."
