

CAPTURE ESCAPED PRISONER Breaks From Officer and Makes Dash for Liberty

Detective Finds the Man Hidden Under a Bed

I. C. Long Accused of Trying to Pass \$20 Wildcat Bill Leaps From Upstairs Window, but is Captured

I. C. Long, who is said to have attempted to pass a \$20 Georgia Bank note, made two darddevil escapes from arrest last evening and was finally captured only when disabled and internally injured by a fall of thirty feet.

According to the statement of F. S. West, a special officer employed at the Alexandria hotel, Long entered a lodging house at 324 1/2 South Broadway last evening about 8 o'clock and attempted to pass a note which was composed of two "wildcat" notes pasted together.

West arrested Long and took him to the central police station. While West was waiting to book his prisoner Long broke away and ran through the wagon entrance to the station, which was open, to the Empire rooming house at 220 Franklin street.

He ran upstairs to the room of the housekeeper, Elizabeth Ellis, No. 23, and concealed himself under the bed. Miss Ellis entered the room soon after and was frightened by Long's legs, which stuck out from under the bed.

Alfred Trident, a private detective, pursued Long after he left the station house, and soon after Long entered Miss Ellis' room Trident discovered his hiding place and came after him. When Trident knelt to look under the bed he was violently kicked by the young man, and when Long flashed a gun the detective, who was unarmed, held the door from the outside and called for help.

As soon as Trident left the room Long leaped from the two-story window, landing on a cement walk at the bottom of a narrow passage. After falling, he made his way to the Hiawatha rooming house, where he was arrested a few minutes after his arrival by Officers McKenzie and Carroll.

Long is scarcely more than a boy, and when taken to the emergency hospital for treatment he stated that he is a baker and had made two men on Main street, who had given him the bogus money to pass. He was given instructions to go to any rooming house, engage a room and tender the \$20 bill in payment.

Long's back was severely strained by the fall, and it is probable that he will not be able to get out of bed for several weeks. If Long had only known it, the California law provides that a person who passes a note of this kind is guilty of no crime unless it is to the taker that the note is good money, when he is guilty of a misdemeanor. Thus Long could not have been held on any charge whatever for attempting to pass the note.

Although he stated positively that yesterday was the first time he had ever passed any bogus money, the police believe that in spite of his youth he is one of a gang which has been flooding Los Angeles with notes of a similar nature for several months.

The notes can be recognized by at least one peculiar feature. Both sides are alike as regards design and color. The only difference is the name of the bank and the signature of the bank's officers.

COLORED TROOPS ORDERED TO MOVE

WASHINGTON, Aug. 20.—Orders were issued today by the military secretary, Maj. Gen. E. C. Ainsworth, for the transfer of the negro troops from Fort Brown, Tex., where there has been serious trouble between citizens and soldiers, to Fort Ringgold, Tex., which is about 100 miles above Fort Brown and is also on the Rio Grande.

KILLS THE NEGRO WHO ATTACKED DAUGHTER

COLUMBIA, S. C., Aug. 20.—Bob Etheridge, the negro who on Thursday last attempted unsuccessfully to criminally assault the 7-year-old daughter of T. H. West, a well-to-do farmer of the Mount Willing section of Saluda county, was taken today by the girl's father to the scene of the crime, where he was shot to death tonight.

HAVANA SITUATION PROVES SERIOUS

NEW YORK, Aug. 20.—A cable dispatch to a morning paper from Havana says that following the arrest yesterday of several prominent men in connection with an alleged conspiracy to assassinate President Palma and overturn the government, Speaker Freyre had a consultation with President Palma last night and decided to summon an extraordinary session of the house this morning to discuss the uprising.

The dispatch adds: "Numerous bands are joining Pino Guerrera. A suspicious looking schooner is off Pinar del Rio. All the coast roads from Havana are closely guarded. Many motorists who attempted to leave the city yesterday were turned back."

"The rebels have seized the mails of the Steamship Consolidation. The government has established a censorship over press dispatches and all telegrams are delayed. The officials maintain silence as to the situation."

COUNTERFEITERS ABANDON CRAFT

ACCIDENT SHOWS EXISTENCE OF PLANT Boat Was Completely Equipped for Manufacturing Bogus Five and Ten Dollar Gold Pieces Out at Sea

LONG BEACH, Aug. 20.—An abandoned boat, floating with sails down and boom sagging, was sighted off the pier shortly before noon today. George Crowder and Ed Riffe, who had been fishing off the outer wharf, went out in a skiff to meet the stranger and found that she carried, among other things, a full complement of counterfeiters' tools.

The boat was half full of water and Crowder could not make a full examination of her. He was unable to tow the boat and, after loading into the skiff such articles as he could get out of her, he released the craft and she soon afterward was beached near the foot of Lime avenue.

Crowder found a pair of dies or stamps, one for making counterfeit \$5 gold coins and the other for making \$10 coins. He also found several strips of metal, from which it is supposed the spurious money was made, and several specimens of the \$5 coin. The boat was supplied with a broadax, a hammer and two saws. These articles Crowder brought to the pier and they were taken in charge by the police.

The craft was first seen early this morning near San Pedro, according to fishermen on the pier. At that time it was gliding along under a full head of sail and was towing a skiff behind. It is supposed that the man or men in it became alarmed, fearing capture, cut loose the skiff and made off.

Several persons claim to know who had rented the boat for the past three weeks and every effort will be made to locate the man. Where he has been at work is a mystery. The boat is about thirty feet long and ten feet wide. It appears to have been used formerly as a launch. The machinery has been removed, however, and the vessel equipped with a full set of sails. The federal authorities at Los Angeles were notified of the discovery.

Officer Vassar went out this afternoon to make a more thorough investigation of the boat, but found that small boys in the neighborhood had stripped her completely.

THREE KILLED IN RAILWAY ACCIDENT

CHARLOTTE, Mich., Aug. 20.—Three Italian laborers are dead, two dying and fifteen are lying in the Charlotte house here as a result of an engine of a work train on the Michigan Central two miles east of here backing into the train while the fifty laborers on the work train were eating their dinner.

A majority of the men were sitting about on several flat cars, which were wrecked and thrown off the track. As soon as the uninjured Italians realized that their fellow men had been injured they rushed for the engine, who ran his engine back up the track and escaped before they could do him harm.

EXPLOSIVES BARRED FROM RUSSIAN PORTS

WASHINGTON, Aug. 20.—The Russian ambassador has informed the department of state that the Russian government, in order to more effectively check the unlawful importation of firearms and explosives into the Russian ports on the Baltic, has decided to extend to the flotilla of revenue cutters charged with the surveillance and prevention of smuggling the assistance of the warships of the imperial navy.

The ambassador adds that there is nothing unusual in this operation and that the instructions issued to the officers of the war vessels are in every case consistent with the provisions of the Russian customs law and the general rules of international maritime law.

UNIVERSITY RECEIVES A VEGETABLE SHEEP

BERKELEY, Aug. 20.—The botanical department of the University of California has on exhibition a species of plant from New Zealand known as the "vegetable sheep," which grows at an elevation of 5000 feet.

The specimen at the university was sent here from the mountains near Christ Church, Otago, by the chief forester of Otago.

BIG SHIP GOES AGROUND ON REEF

MANCHURIA MAY BE A TOTAL LOSS

Vessel Now Pounded by the Waves but Passengers Will Be Saved. Captain Assumes All Blame

HONOLULU, Aug. 20, 5:35 p. m.—It is the general impression this evening that the Pacific Mail liner Manchuria, which ran on a reef off Rabbit Island before daylight this morning, is hopelessly aground and may be a loss.

While it was at first thought that the steamer could be floated without much difficulty, all efforts have so far been in vain and it seems to be the general belief at this time that if the ship is saved it will be effected only by elaborate engineering operations possibly requiring weeks.

She is far inside the reef now and pounding quite heavily. The vessel, standing high out of the water, forms a picturesque spectacle and crowds are hastening from here over the mountains to see the sight.

The steamer is now seven feet further inland than when she struck. The tug Fearless, the revenue cutter Manning and the steamers Kinau and Maui have lines aboard and are tugging at her stern, but are not moving the ship, though holding her from going further on the reef.

The cabin passengers have been landed, but it will be impossible to get them all here tonight. The steamship company has made arrangements for accommodations for the night at Waimanalo and the plantation managers have thrown open their homes to many of the passengers.

The landings were effected without much trouble, except a slight panic among the Asiatics who made a rush for the boats, but they were soon quieted. James F. Smith, governor general of the Philippines, who is on his way to Manila to relieve Governor General Ide, was among the last to leave the steamer. The officers of the ship remained on board.

The road to Honolulu from Waimanalo and the mountains is a difficult one and has been rendered much worse by heavy rains. It is believed the passengers will not all arrive here before tomorrow night. The mails have been taken off the Manchuria but have not yet arrived here. Captain Saunders is quoted as assuming all blame for the stranding of the ship, as he was on the bridge and for three hours before and mistook the land for Makapuu point.

LOS ANGELES PEOPLE ON BOARD VESSEL WRECKED ON REEF

The news of the going ashore of the Manchuria is of especial interest to Los Angeles people, as several well known Angelenos are on board the ill-fated ship, which is one of the largest which plies between San Francisco and the Orient.

Rev. William Horace Day and wife left Los Angeles a week ago yesterday morning and sailed on the Manchuria last Tuesday for Japan and China. Rev. Mr. Day intended to make the trip over to Japan so that he might enjoy some mountain climbing. He is expected to visit Honolulu on the return trip, but it is now thought that he will take in Hawaii during his enforced wait en route to the Orient. Rev. Mr. Day took the trip on account of ill health.

Also on board the Manchuria is Prof. G. N. Steiger, who is on his way to assume the chair of English at St. John's college, Shanghai. Prof. Steiger is a recent graduate of Occidental college and has been for two years a prominent worker in the Church of the Neighborhood. Los Angeles people who booked at the local office are: S. W. King, wife, daughter, and Miss Gray. Mr. King is of the firm of Hawley, King & Co. Mrs. Julia Dent Grant Moore and her daughters and Mr. and Mrs. S. Griffith are among the local people who sailed.

It is understood in Los Angeles that the boat is on the immense coral reef, which has been a great hindrance to navigation, about the island of Oahu, on which Honolulu is situated. It is understood that all the passengers are safe, and little apprehension is felt in Los Angeles.

JOHN D. TO ENDOW CHORUS GIRL HOME

CLEVELAND, Aug. 20.—According to a report received here from the east yesterday, John D. Rockefeller has under consideration a proposition to endow a home for chorus girls to the extent of \$100,000. The project, it is said, was planned by Miss Marie Cahill, the actress, and through a clergyman who is acquainted with Mr. Rockefeller she contrived to present the matter to the Standard Oil head.

Donation will be conditional on the amount being raised by Miss Cahill and those interested with her. The home will serve as a place where chorus girls will be trained and educated for their work, and also as a home should illness or age prevent them from continuing their profession.

JAPANESE POACHERS FACING INDICTMENTS

WASHINGTON, Aug. 20.—Acting Secretary Murray of the department of commerce and labor today received a telegram dated Valdez, Alaska, from Walter I. Lembecky, agent in charge of the seal fisheries of Alaska, informing him that the twelve Japanese poachers captured recently on St. Paul's island while raiding the seal rookeries were indicted last Saturday for violation of the United States law enacted to protect fur bearing seals.

MURDERER ENDS LIFE IN LUFKIN, TEX., JAIL

LUFKIN, Tex., Aug. 20.—The man John B. Roper, with many aliases, who murdered without cause two fellow prisoners, white men, named Tra- wick and Crowder, in the county jail here on August 15, beating them to death with a heavy bucket as they slept, ended his life by hanging himself in his cell late last night, using a strip from a blanket.

He acknowledged a few days ago that he was a member of the Dalton gang at Longview, Tex., in 1892. Sheriff Watts also has positive evidence that Roper was the man wanted in Arkansas for the murder of Sheriff Doyd in 1892, and for whom a reward of \$500 was offered.

Roper had acknowledged various other atrocious crimes in Texas, Louisiana and Arkansas.

COOLIE LABOR TO BIG CANAL

SPECIFICATIONS FOR BIDS ARE FURNISHED Chinese to Be Provided With Free Lodging, Fuel and Medicine—Contractor Must Give Big Bonds

WASHINGTON, Aug. 20.—Specifications for bids to furnish Chinese labor for the construction of the Panama canal were issued today by the Isthmian canal commission.

The basis for bidding is for 2500 coolies, although it is made clear that the commission may call for such additional numbers of Chinese laborers as it may need, should the experiment be successful, but the number shall not exceed 2000 per month.

All proposals must be received not later than 10 a. m., September 20, at which time they will be opened. The usual conditions regarding the competitive bidding for government supplies is prescribed by the specifications. Individuals, copartnerships or corporations competent to fulfill the terms of the proposal will be permitted to bid, but the proposals must be accompanied by a certified check or by a bond of \$50,000.

The bond of the successful bidder will be advanced to \$100,000, which will be forfeited if he should fail to enter into a contract. Proposals are to be expressed in terms of hourly wages, payable in gold currency of the United States, or its equivalent, the labor of not less than 2500 Chinese for a period of not less than two years, which may be extended.

Chinese laborers will be required to work ten hours each day. Overtime will be paid in excess of ten hours and for all the work upon Sundays or holidays at the rate of time and a half. Extra precautions taken.

Extra precaution has been taken by the commission in its specifications to provide against liability for damages or indemnity on account of the death or disability of any laborer or employee by accident or disease. The contractor must accept the responsibility for any such damages maintained by legal claim.

Laborers coming under this contract will be provided free of charge with lodgings, fuel for cooking purposes and medical treatment when sick. No wages shall be paid to any laborer, however, during illness or absence from work, either in quarters or in hospital.

Contractors must deliver the Chinese coolies at either Cristobal, on the Atlantic, or La Boca, on the Pacific coast. The full number of laborers to be furnished under this initial proposal must arrive within the Isthmian canal zone on or before January 7, 1907, or within three and one-half months from the time the award is made.

An individual laborer may be discharged at any time for cause by the chief engineer of the canal works, and when discharged, must be deported by the contractor. Proposals to furnish coolie labor must include the transportation of laborers to either of the parts in the canal zone.

In addition to the bids to supply 2500 laborers the bidders are required to submit proposals for each additional 1000 laborers that may be required by the commission. Laborers are desired from the southern provinces of China, and such persons only will be accepted as are accustomed to a climate as nearly similar as may be experienced on the isthmus of Panama.

No laborers will be accepted who have been brought from any part of the Hawaiian islands. Exacting regulations will be made as to the personal identification of each Chinaman coming within the zone. The contractor is required to give security to the Republic of Panama that Chinese laborers and families shall be promptly deported upon completion of their term of service.

POPULATION INCREASING

HONOLULU, Aug. 20.—Estimates made for the annual report of Governor Carter place the population of the islands at about 205,000. The census of 1900 showed it to be 154,000. The new estimate is based upon the school enrollments. In 1900 the number of pupils was 15,537, while this year it is 21,143.

TABLE OF TEMPERATURES. City, Los Angeles, Max. 92, Min. 62. Boston, 92, 70. Cincinnati, 92, 74. Omaha, 92, 70. St. Paul, 92, 72. Atlanta, 92, 72. Denver, 90, 64. Little Rock, 91, 74. St. Louis, 90, 74. Yuma, 88, 74. New Orleans, 88, 76. Pittsburg, 88, 72. Jacksonville, 88, 74. New York, 88, 74. Spokane, 82, 74. Salt Lake, 76, 62. San Francisco, 96, 54.

HEAT CLAMS MANY VICTIMS

TWO DIE DURING THE DAY IN CHICAGO Twenty-four Prostrated and Thousands Suffer—Southerners Seeking Cool Breezes Sorry They Came North

Special to The Herald. CHICAGO, Aug. 20.—Chicago sweltered and baked under temperature that reached 93 degrees at 3 o'clock this afternoon.

Two deaths and twenty-four serious prostrations have been reported to the police, although it is admitted this does not cover the number of prostrations. Perhaps the worst sufferers were the 10,000 excursionists from Louisiana, Mississippi, Alabama and other southern states, who came on densely crowded trains to get relief from the hot weather.

Humidity is causing great suffering. Men and horses drop in the streets and laborers in basements or on street work collapse under smothering heat. The authorities are relaxing rules and allowing many sufferers to sleep in parks, in streets, in doorways and on roofs, anywhere they can get a breath of fresh air.

Weather forecasters say the only permanent relief must come in the form of a great electrical storm to clear the atmosphere.

REPUBLICANS TO BOOM UNCLE JOE'S CANDIDACY

SPRINGFIELD, Ill., Aug. 20.—The feature of the Republican state convention, which will meet here tomorrow, will be the endorsement of Speaker Joseph G. Cannon as the Republican nominee for the presidency in 1908.

This action was decided upon tonight at a conference of state party leaders held at the state house. All factions in the party are united in the movement to give Speaker Cannon's presidential boom as enthusiastic a sendoff as possible and a resolution endorsing his candidacy will be presented to the convention.

Another interesting event in the proceedings tomorrow will be the endorsement of Senator Cullom for re-election to the United States senate. Senator Cullom carried the recent primaries by a good majority, and no other name will go before the convention for senator.

The indications are the convention will be a harmonious one. The offices to be filled are state treasurer, superintendent of public instruction and four members of the state university. The most interest is centered in the contest for state treasurer, for which there are four candidates.

MINISTER PRAISES JOHN D. ROCKEFELLER

CLEVELAND, Aug. 20.—Indigestion from which he has suffered for three days, kept Mr. Rockefeller in doors at his Forest Hill home Sunday. The Euclid Avenue Baptist church was crowded, many of those present being strangers, led by the announcement that Mr. Rockefeller would be present.

Dr. Courtland Meyer of the Baptist tabernacle, Brooklyn, preached the sermon, during the course of which he denounced Mr. Rockefeller from newspaper attacks. He said: "I have known men to be unjustly accused and made to appear worse than the inside of the gates of hell, still among the friends who know them and live with them they are loved and respected."

BANK FAILURE CAUSE OF ANOTHER SUICIDE

CHICAGO, Aug. 20.—Another suicide was added to the list caused by the wrecking of the Milwaukee Avenue State bank. Edward Kollereb, 45 years old, who two months ago deposited \$250 in the defunct institution, today hanged himself.

The prospective loss of his money is supposed to have unbalanced his mind. Receiver Charles G. Dawes closed the Milwaukee Avenue Co-operative store, the Stensland enterprise, today. Notices were posted on the windows that the store had been closed in preparation for a receiver's sale.

PITTSBURG PASSED BY SAN FRANCISCO

SAN FRANCISCO, Aug. 20.—The California promotion committee issues the following statement today: "San Francisco in her clearings has passed Pittsburg and now holds the position of sixth commercial city of the United States for the first time. Fifty building permits were issued today at a value of \$15,000, and twenty-five of these were for permanent buildings. The removal of debris is being carried on rapidly, many lots having been cleared preparatory to the erection of permanent buildings."

Fights and Dies of Injuries

SAN FRANCISCO, Aug. 20.—An aged man known as Victor, employed by the United Railways as a laborer, died today from injuries received in a fight last night. John Giannichia is under arrest charged with manslaughter. The prisoner admits that he struck Victor with his fist during a drunken quarrel.

COLUSA MAN THINKS HE SAW STENSLAND

COLUSA, Cal., Aug. 20.—Paul O. Stensland, defaulting president of the Milwaukee Avenue State Bank of Chicago, is thought to have been seen in Colusa.

On Saturday afternoon a well-dressed stranger appeared at the Hotel Riverside, engaging one of the best rooms. Later in the evening John Hartog, manager of the Colusa county chamber of commerce, formerly of Chicago, who had a passing acquaintance with Stensland, came into the hotel. Hartog noticed a familiar look about the stranger, who had also scrutinized Hartog carefully.

Shortly after this meeting the stranger left and has not been seen since. E. Polier, proprietor of the hotel, is unable to give any information other than the man had registered as P. Smith and did not occupy the room.

Hartog says the stranger resembles Stensland very much except that he is smooth shaven while Stensland formerly had a beard.

HARBOR TIE-UP IS COMPLETE

SEVEN HUNDRED UNION DOCK HANDS ARE DISCHARGED Refuse to Unload Lumber Schooner Manned by Non-Union Crew and Company is Looking for Men

Special to The Herald. SAN PEDRO, Aug. 20.—Seven hundred men employed in the lumber yards here were discharged by the managers today when they refused to handle lumber unloaded from the steam schooner Coronado which carries a non-union crew. There was no disorder, the men quitting their work quietly and accepting their pay.

This ties up the entire business of the port until some settlement can be made. The lumbermen say they will be able to get enough men to take the places of the strikers in a few days to enable them to resume business. It is said that the freight handlers on the Catalina Island boats will leave their positions tomorrow.

The city marshal has ordered all the saloons in the city to be closed at 7 o'clock every night until further orders. Fifteen special deputy marshals have been sworn in. There are a number of deputy sheriffs on the wharves. So far, however, there has not been the slightest attempt to interfere with the few non-union men now at work.

THINK THAT BOY WAS KIDNAPED BY FATHER

SAN DIEGO, Aug. 20.—Little 11-year-old George Sweega, son of Mr. and Mrs. George Sweega, now living apart, was kidnaped yesterday at the United States wireless telegraph station at Point Loma by a man supposed to be his father.

Mrs. Sweega is visiting friends there, and yesterday they were at the wireless station. In the afternoon a carriage containing three men drove slowly past, and after going some distance returned. Sooty after screams were heard at the station, and on rushing to the scene they found that one of the men had seized the boy and thrust him into the carriage, which was rapidly driven away.

The police have been notified, but no trace of the kidnapers has been found.

TRYING TO SOLVE THE SERVANT GIRL PROBLEM

SAN FRANCISCO, Aug. 20.—The California Promotion committee is trying to solve the servant girl question for California and has sent instructions to its eastern bureau at New York to visit Ellis Island and have the incoming women from European countries told of the advantages of California.

They will be given an idea of the wages paid out here, the class of work and other necessary information.

CUTS WIFE'S THROAT AND MAKES ESCAPE

BLOOMINGTON, Ill., Aug. 20.—Mrs. William Thomas, wife of a miner at Pontiac, Ill., was today murdered by her husband, who cut her throat from ear to ear and smashed her skull with a hatchet.

The murderer escaped to a cornfield and a sheriff's posse is in pursuit.

Smelting Plant Destroyed

RAPID CITY, S. D., Aug. 20.—Fire of unknown origin started last night in the plant of the National Smelting company and owing to the lack of water spread to adjoining properties. Loss about \$150,000, partially covered by insurance. The total value of the plant is \$250,000.

REFUGEES DESCRIBE HORRORS

Quake Victims Are Numbered by Thousands Twenty-five Pillagers Shot Down at Valparaiso

One Thousand Corpses Already Buried—Shocks Cease and Relief Is Now at Hand for the Sufferers

REPORT SAYS THAT ISLAND IS DESTROYED

NEW YORK, Aug. 20.—A report reached this city today that the South American earthquake destroyed the island of Juan Fernandez, off the Chile coast.

It belonged to Chile, and on it were a penal settlement and a fort. This is the island made famous by Daniel De Foe as the scene of the thrilling adventures of Robinson Crusoe.

SANTIAGO, Chile, Aug. 20.—Refugees arriving here from Valparaiso declare that 1000 corpses have already been buried there. The authorities are taking severe measures to maintain order. Twenty-five pillagers have been shot.

The earthquakes in Chile have ceased, the resultant fires have been extinguished and people of the two cities, Valparaiso and Santiago, are taking organized steps to relieve suffering, care for the wounded and bury the dead. The period of sorrow has entered. Dispatches received from Chile today tend to show that the first estimates of casualties and material damage have been greatly exaggerated and that the people of Valparaiso are becoming calmer.

The fear of further shocks has been removed by a statement issued from the observatory, and today it became possible for the first time to organize work and begin a systematic search of the ruins for the dead.

Santiago is coming to the rescue of her suffering sister. Public subscriptions have been opened for money, clothing and provisions and the capitalists and begin a systematic search of the ruins for the dead.

It is still impossible to reach any correct estimate of the dead and injured. The reports from Chile are most conflicting. A large section of the country, however, was visited by the catastrophe of last Thursday and cabled estimates of casualties refer in some instances to the peculiar localities which

THE DAY'S NEWS

Southern California: Cloudy unsettled weather Tuesday, fresh southwest winds. Maximum temperature in Los Angeles yesterday, 69 degrees; minimum, 62 degrees.
