NEW YORK, Aug. 30.—Money conditions governed today's stock market. Call loans at 5 per cent, time loans showing a further decline to 4 1/2 per cent, threatened obliteration of last week's low bank reserves were conditions that could not be ignored.

The foreign exchange situation with a further heavy decline in demand sterling to \$48.25 caused increased perplexity. This is also reflected in the rate of freely the first named Secretary Shaw was induced to "facilitate" gold imports and while much talk of impending negotiations continues to be heard of actual engagements there were none up to the close of the market.

The local market portended a further loss to the substructure, the total thus far aggregating over \$4,000,000, or within \$250,000 of their free resources as disclosed by the last bank statement.

Our market got its early strength from London, which reported generally higher prices for Americans and heavy buying orders for this account.

Business here started off with a rush and higher prices for Americans and heavy buying orders for this account.

The market continued animated, though somewhat confused all through the first hour when an opening bid of 10 1/2 for the call loans brought heavy selling for profits. Thereafter the market was dull and narrow, though showing some recovery of activity in the late session when the Hartman issues advanced to a new high record figure.

The market became heavy in the last hour when call money advanced to 6 per cent and prices dropped from 1 to 5 points all around and closed weak at 140 1/2. In the evening, in some quarters there was a disposition to attribute this in a measure to the possibilities arising from the reception of the bonds in the evening.

Bonds were irregular. Total sales, par value, \$1,800,000. The 4 1/2 per cent U. S. 5s advanced 1/2 and the new 4s a point on call.

Black Grapes From Monte Vista in Liberal Supply—Wholesalers Will Observe Labor Day by Suspending Business

Wholesalers voted yesterday at the call session of the produce exchange to observe Labor Day (September 3) by suspending business during the afternoon. Receipts of the produce market yesterday was reported comparatively slow in certain lines. Watermelons, grapes and medium sized apples, 1 1/2 @ 1 3/4; over-supply. Peaches range from 30 to 35c a box; tomatoes, 20c to 40c; cucumbers, 20c to 25c. Hungarian plums are being at \$1.25 @ 1.25 @ 1.25; Simoni, at 50c. Strawberries at 4 @ 5c a box. Receipts of local ranch eggs were 215 cases; butter, 16,870 pounds; cheese, 215 pounds. No change in official quotations. Fresh eggs continue to arrive slowly in carload lots to go into storage. Large eastern butter is taken from storage to fill local and shipping orders. New quinces arrived in the market yesterday, jobbing at 90c @ \$1.00 a box; Monte Vista black grapes job at 30 @ 40c a box; Hamburgs at 75c. Enough barracuda arrived from San Diego to meet local demand. Halibut and sea bass are plentiful, but small fish is very scarce. Two of the largest catches were seen in the fish market, were received yesterday from San Diego. They were captured in Mexican waters. Demand for poultry is satisfactory and prices are firm.
