

PRESIDENT VIEWS PANAMA CANAL

EVERY BRANCH OF THE WORK INSPECTED

Nation's Chief Executive Becomes Thoroughly Interested as Various Details Are Explained to Him

By Associated Press. PANAMA, Nov. 16.—President Roosevelt, who stopped at the Tirol hotel last night, started at 7 o'clock this morning with Mrs. Roosevelt and the other members of his party to make an examination of the Culebra cut.

The weather was overcast, threatening rain. At half past eight the presidential train arrived at Pedro Miguel, where steam shovels were at work.

The president had his train stopped for the purpose of making a personal examination. At this point in the cut the peculiar soil conditions have resulted in more or less frequent landslides, and this fact was brought to the president's attention.

President Roosevelt descended from his train and climbed upon one of the steam shovels, taking a seat alongside Engineer Gray, whom he subjected to a searching fire of questions regarding the work.

During his conversation Engineer Gray took the opportunity on behalf of himself and the other engineers to declare that, unlike the railroad engineers, they were not paid for overtime.

The president promised to look into this. He stayed on the steam shovel about twenty minutes. By this time it was raining hard.

Wanted to See It All. President Roosevelt told chief engineer Stevens that he wanted to see all the works in connection with the excavation, even to the temporary laying of tracks. With this in view he boarded a work train near Pedro Miguel and went on to the next point where steam shovels were at work.

The presidential train continued on the regular line toward Panama. The work of the second steam shovel was observed and the president made a detour to examine the side of the Pedro Miguel lock.

He shook hands with all the Americans he met while walking over the ground. At about twenty-five minutes past nine the president entered the deep portion of Culebra cut, his train going slowly in order that he might observe the workings of the drill machines and shovels. One shovel was decorated with a sign reading "We will do our best to help you build it."

The president spent some time in the deepest portion of the cut where last Sunday 22 tons of explosives were used to throw down 35,000 cubic yards of material.

The rain was now coming down in torrents, and the water poured in rivulets down the funnel-shaped sides of the famous cut. Several charges of dynamite were exploded in order that the president might see the effect, after which he went back to his own train.

PROMOTION COMMITTEE ISSUES SPECIAL CALL. By Associated Press. SAN FRANCISCO, Nov. 16.—Senator George C. Perkins, chairman of the California congressional delegation, has issued a call at the request of the California promotion committee for a meeting of the delegation at California building, Union square, San Francisco, on Wednesday, November 21, at 2 o'clock in the afternoon.

This meeting has been called for the purpose of discussing such affairs as are of interest for the development of the state, and all commercial organizations in all parts of the state have been invited to send representatives who are conversant with the needs of their localities.

All others who desire to present any question to the delegation before its departure for Washington will be given an opportunity at this meeting, which will be public.

Believe Crisis is Impending. By Associated Press. MADRID, Nov. 16.—King Alfonso has been heard to recall to this city his hunting expedition. It is believed that a cabinet crisis is impending. War Minister De Luque is resisting the pretensions of Generals Weyler and Polovjeva to the field-marshalship, vacant owing to the death of Count de Ceste.

Our Talking Machine Parlors offer comfort to the record purchaser. Quiet parlors are provided away from the noise of cars, etc. Our stock of Edison Zon-o-Phone Victor Machines and Records

Southern California Music Co. 332-334 South Broadway, Los Angeles

SCORES WOMEN WHO WEAR BIRDS AND FURS

By Associated Press. CHICAGO, Nov. 16.—Tears and hysterical denials on the part of women delegates who had heard themselves called "barbarians and murderers" marked the close of the American Humane association convention last night.

The women for half an hour had listened patiently while a speaker denounced the wearing of furs and bird carcasses for adornment. Unable to listen further two women finally left the convention hall.

Another burst into tears, while a husband of a fourth arose to his feet in defense of the women who wore furs.

It was the address of J. Howard Moore on "The Cost of a Skin" that caused the stir-up. Nobody but a barbarian would adorn her head with the carcass of a bird and the heads of grinning weasels, said Mr. Moore. "Such things appeal only to the vulgarian."

"Such a woman is about as attractive as if adorned with a string of skulls, for she excites pity and is a murderess. Furs are the most costly of luxuries because to secure them men must be the most conscienceless and inhuman."

"When I think that in this day of advanced action and supposed refinement, brutalities such as are necessary to secure the furs of these little animals are practiced, I am heartily ashamed of the race to which I belong."

Dr. W. O. Stillman was elected president, Miss May Lovell of Pennsylvania, secretary, and James M. Brown of Toledo, vice president.

TEMPORARY INJUNCTION GRANTED BY COURT

By Associated Press. BOSTON, Nov. 16.—A temporary injunction prohibiting the American Fire Insurance company from transacting business in the state of Massachusetts was issued by Judge Morton in the supreme court today.

The injunction was issued as a result of a bill of information filed by Attorney Dan Malone, who stated that later he would ask that the injunction be made permanent and that a receiver be appointed on the ground that the company is insolvent.

The American Fire Insurance company is one of the oldest fire insurance companies in America. It suffered heavily as a result of the fire in San Francisco.

The report of State Insurance Commissioner Frederick L. Cutting shows the assets of the company are \$334,255, that its liabilities are \$369,863 and that its capital stock is \$300,000.

LUMBER DEALERS WANT TESTING LABORATORY

By Associated Press. WASHINGTON, Nov. 16.—At a meeting here of representatives of the lumber manufacturers and wood users' associations resolutions were unanimously adopted advocating the establishment by the government of a completely equipped lumber testing laboratory.

The interests represented also resolved to use their influence to obtain from congress an appropriation of \$200,000 for that purpose.

The function of the laboratory would be to standardize as to strength and durability every American wood, that manufacturers might rely on getting definite results from the use of various forms of wood for desired purposes.

Finds New Alfalfa. By Associated Press. WASHINGTON, Nov. 16.—After twice risking his life and once nearly losing it in the interests of agricultural science, Prof. Hansen, of the South Dakota experiment station of the department of agriculture, has found in Northern Siberia an alfalfa suited to the arid lands of the north, where the winters are bitter cold. The alfalfa Prof. Hansen has discovered has a yellow flower instead of blue.

All the Music Any Time. Everybody loves piano music, yet not one home in a thousand has a talented musician. A home without talent need not be a home without music.

The Pianola Piano makes it possible for every home to hear the finest piano music, and furthermore it makes it possible for the music perfectly. It combines in one instrument the high grade piano and the means to play it. We have three styles of the pianola piano, STECK, WHEELLOCK, STUYVESANT. Prices are extremely favorable and easy terms for payment arranged.

JEWS SHALL NOT SHARE EQUALLY

RUSSIAN LANDS CANNOT BE ACQUIRED

Premier Stolypin's Newspaper Publishes a Long Article to Prepare the Way for Promulgation of Reforms

By Associated Press. ST. PETERSBURG, Nov. 16.—Premier Stolypin's organ, the Russia, today published a long article apparently intended to prepare the way for the promulgation of the reforms in the condition of the Jews as outlined in these dispatches November 13. The paper stated that with the view of allaying the anticipated storm of protest on the part of the reactionists, the projected Jewish reforms will not give the Jews full equality, nor permit them to spread through the country and acquire the lands of the peasants, but they will have the right to live everywhere inside the pale, in the country, as well as in the cities.

The restriction imposed on Jewish merchants and artisans will be revised, including giving them permission to dwell outside the pale. The article reviews the Jewish problem since it was acquired, with Poland, 130 years ago.

It declares that the forcible concentration within the pale of five million Jews, 11 1/2 per cent of the population, has proved a failure and has not prevented the most dangerous elements, the Jewish intelligencia and plutocracy from penetrating into Russia over the golden bridge, while poverty has stricken the residue. The article continues:

"A full equalization of the Jews with the Russian population, however, is impossible at present, because the Jew masses within the pale are in a state of revolutionary white heat and would carry the torch of anation through the whole of the interior."

"It must await the final solution of the agrarian questions which would prevent the Jews through the money power from acquiring the land of the impoverished peasantry and restoring the state of serfitude."

"But without waiting for the convocation of parliament the Jews must be granted the right to live everywhere within the pale and the regulations governing the residence and privileges of the Jews in the interior provinces must be revised."

"Too long has the problem been bandied about from commission to commission until it has assumed its present acute inflammatory character, which is finding expression on the one side with bomb of the Jewish anarchist and on the other side by anti-Jewish excesses."

PRINCE WILL FIGHT TO RETAIN HIS WIFE. By Associated Press. NEW YORK, Nov. 16.—"I shall fight for my rights to the last," said Prince Robert de Broglie yesterday in reply to the cablegram from Paris that his father, Prince Armand de Broglie, had filed demand in Paris for the annulment of his son's Chicago marriage to Miss Estelle Alexander of California. The prince said:

"We shall fight to the bitter end. It is the right of my father and his family have rank, money and influence, but that does not frighten me. We are not to be intimidated. Our love for one another and our child makes us brave. If they force me to it I shall take out naturalization papers and become an American citizen."

In regard to lawsuits, I have also begun action and have retained an eminent French lawyer, M. Friederich Allain of Paris, to attend to my affairs. I shall sue for my rights and for my share in the family fortune. I am confident that justice will win in the end."

ROOSEVELT'S LETTERS ARE SOLD AT AUCTION. By Associated Press. NEW YORK, Nov. 16.—Two letters of President Roosevelt were among the interesting autographs at the sale yesterday of the collection of the late George M. Elwood of Rochester, N. Y. One of President Roosevelt's letters refers to his book, "The Winning of the West," as it was written on June 19, 1891, when Mr. Roosevelt was a civil service commissioner. The letter, which was typewritten, was sold for \$3.28. The other letter, also typewritten, fetched \$1.40.

Mr. Roosevelt's public work has never given him time to carry out this expensive purpose. The letter, which was typewritten, was sold for \$3.28. The other letter, also typewritten, fetched \$1.40.

GIVEN UP FOR LOST. VESSEL REACHES PORT

By Associated Press. PHILADELPHIA, Nov. 16.—After a voyage of 37 days from the Hawaiian islands, during which the vessel was given up for lost, the five-masted schooner Kineo tied up at a wharf here today.

The schooner is commanded by Captain Patten and carries a crew of fifteen men. The captain's log shows a tale of hardship, the vessel during the voyage sustaining many accidents.

The steam gear by which the sails were raised and anchors handled was out of order several times, and all hands including the wife of Captain Patten, were compelled to take their turn at the pumps.

Although sixty days overdue, the crew did not lack food during the trip.

WILL BUILD HOUSE WITHOUT A CHIMNEY

NEW YORK, Nov. 16.—Some time ago a book was published in which the writer gave the reader peeps into the world a hundred years hence. One of the most attractive features was the reform in homes, which were to be entirely smokeless, dustless and consequently germless.

This ideal will be reached by the home which Henry W. Hillman of the General Electric company is building at Schenectady, N. Y.

It will be a house without a chimney, for electricity will take the place of coal and gas. There will be electric stoves in the kitchen and electric heaters in the other rooms. The doors will open and close by the pressure of an electric button, while the laundry in the basement will be operated entirely by electricity. Even the lawn mowers will be driven by dynamos.

Electricity will likewise provide some ingenious burglar alarms. The house and stables are so wired that warning lights are turned on if any person approaches either building after the family has retired to bed.

The electric power to run this scientific home will be supplied by the local company.

DECLARE WAR TO THE END

(Continued from Page One.) line for the council from the Eighth ward, will discuss non-partisanship in local affairs from an ethical standpoint.

At a meeting last night at the residence of W. C. Banks, 127 Kensington road, Angeleno Heights, a club was formed in the interest of the non-partisan city party and especially to promote the candidacy of A. S. Vandegriff, nominee for council from the Second ward. Committees were appointed to arrange for meetings and to thoroughly organize the ward. W. F. Fuller presided at the meeting.

REPUBLICANS DINE AND SAY NICE THINGS ABOUT ONE ANOTHER

Chairman D. C. McGarvin of the Republican city executive committee gave a dinner to precinct chairmen, ward workers and candidates at Al Levy's last night.

From a Republican standpoint the affair was a decided success. About two hundred guests were present and nearly every seat at two long rows of tables in the banquet hall on the third floor was filled.

Dr. Lindley arrived while the guests were discussing the generous menu and he was greeted by a vigorous clapping of hands.

Following the dinner, Chairman McGarvin made a brief speech, complimenting the work of the precinct committeemen, and then he introduced as the toastmaster District Attorney Fredericks. The captain told how wrong it was to be a non-partisan, but he made no attack upon any Republican who received a non-partisan endorsement. Capt. Fredericks made complimentary allusions to the various Republican nominees. He spoke in unusually high praise of the accomplishments and deeds of Dr. Lindley, and as a result the nominee for mayor was overcome with emotion, and for several minutes he was unable to proceed with his speech after being introduced. Afterward the doctor made a vigorous address.

E. A. Meserve heaped so many eulogiums of praise upon George Beebe that the latter was compelled to respond in a speech of thanks.

A. P. Fleming juggled into a meaningless mess President Roosevelt's non-partisanism in civil affairs, and every one present shouted an approval.

Nearly every candidate present was called upon for brief remarks, and if predictions of victory could be made purely on assurance, there would be no good excuse for the other five tickets to remain in the field.

Before the party broke up Chairman McGarvin was given a vote of thanks: "s the host of the occasion."

NON-PARTISANS TO ASK FOR BALLOT RECOUNT OF COUNTY ELECTION. As soon as the board of supervisors has completed its canvass of the votes cast in the recent county election the non-partisan county committee will demand an official count.

It is possible that such a count will result in showing that several non-partisans who on the face of the returns were defeated by small pluralities, really were elected. Charges of fraud are made by the non-partisans.

PLAN WATERWAY TO THE GULF

ASSOCIATION NOW BECOMES A FACT

Direct Connection Between Chicago and New Orleans by Water is Among Possibilities of Near Future

By Associated Press. ST. LOUIS, Nov. 16.—The Lakes-to-the-Gulf deep waterways association became a fact today when the plan for permanent organization and the report of the nominating committee were adopted at the final session of the convention of the provisional association, organized by Congressman William Lorimer of Chicago and several of his congressional associates, who have been in session at the Decon for the last two days.

The statement to the public issued by the convention says: "The proposed deep waterway is to extend from the Chicago drainage canal through the valleys of the Desplaines and Illinois rivers to the Mississippi river at Grafton, Ill., and thence down the Mississippi to St. Louis and is to have a minimum depth of 14 feet throughout. We recommend that for the purpose of meeting the probable future needs of navigation the minimum depth over the sills in the locks should be 21 feet in the initial construction."

"The excessive cost of the project, as shown by the engineers' estimates, was due mainly to the existence of the prominent barrier between the great lakes and the Mississippi valley. This chief obstacle to the prosecution of the project has been removed by the digging of the canal."

"According to the estimates based on recent surveys by the United States engineers, the work remaining to be done in order to complete the deep waterway channel to St. Louis will cost \$31,000,000."

"Pending the inauguration of this work seems important that the United States should exercise such control over the Desplaines and Illinois rivers as to prevent private persons, companies or corporations from erecting any dams or other structures that might present obstacles to the prosecution of the work contemplated by the committees of the United States."

"In conjunction with the deep water enterprise from St. Louis northward it becomes at once a matter of great importance that provisions should be made by congress for the application of work of such substantial character to the lower river as to give fixedness to the channel and stability to the caving banks, accomplishment of which is the necessary basis of any plan for permanent establishment and deepening of that part of the river."

YOUTHFUL HIGHWAYMEN ADMIT THEIR GUILT

By Associated Press. SAN FRANCISCO, Nov. 16.—The young men charged with killing Fred Mullnix on the ocean beach surprised Judge Dunn today by pleading guilty, with the exception of Franklin D. McAuliffe, who will be brought to trial next Wednesday.

Frederick A. J. Peterson pleaded guilty to both the robbery and murder charges, while Walter Westwood and William Mears confessed to the robbery charged against them.

In the latter two cases the murder charge had been placed on the reserve calendar, so that the boys will be sentenced only for their part in the robbery. Punishment will be meted upon the three pleading guilty on next Friday.

PRICE OF MIRRORS TO BE ADVANCED

By Associated Press. CHICAGO, Nov. 16.—The price on all kinds of mirrors will be advanced from 20 to 30 per cent after January 1, according to an announcement made at a meeting of the Western Mirror Manufacturers held here yesterday.

W. B. Jackson, a member of the executive committee, appeared before the twenty-five delegates and said that the increase in the price of raw material and the scarcity of mercury is responsible for the necessary advance in the cost of the finished products.

He said the new rate law has advanced freight rates to such an extent that raw material has advanced 100 per cent.

GOVERNOR HONORS REQUISITION PAPERS

By Associated Press. SACRAMENTO, Nov. 16.—Governor Pardee today honored one requisition and issued another. James McKinney, who was arrested in Los Angeles a few days ago, is wanted in North Carolina on a murder charge and papers for his return were honored by the governor.

Sheriff Veale of Contra Costa county was given a requisition for the return Sam Fukuchi, the Japanese who is alleged to have seduced and run away with Florence Williams of Ramona, Contra Costa county.

The Japanese is held in Portland, Ore.
