

PASADENA NOTES FOR ALL BUT TWO HOSPITAL AND JAIL PLANS FAIL OF APPROVAL

Only a Small Vote is Cast in Crown City at County Bond Election and Count is Quickly Completed

Pasadena Agency, 16 1/2 East Colorado Street, Telephone Main 733. PASADENA, Nov. 22.—Very little interest was taken in local elections over the outcome of the bond election for county improvements today.

Pasadena's totals on the various propositions were as follows: Court house, yes 366, no 216; hospital, yes 256, no 285; jail, yes 276, no 284; home, yes 374, no 199; farm, yes 326, no 243.

It will be seen by this that all but the hospital and jail propositions carried in Pasadena.

RAIN DAMAGES NEW ROADS Storm Causes Fissures in New Fill South of the Arcadia Hotel

SANTA MONICA, Nov. 22.—A cold, drizzling rain, at times accompanied by sleet, fell over this section today. The precipitation, which was the first of the season, amounted to .63 of an inch at 3 o'clock and stopped a few hours later.

The storm will necessitate the repaving and repulverizing of many thoroughfares in the city, which were being prepared, under contract, for oil pavement. On Ocean avenue the recent fill over the arroyo south of the Arcadia hotel showed several fissures to-night and precautions were taken to prevent accidents to passing teams.

Chairs crossing the fill were operated at reduced speed and any further cracking of the earth may cause the complete tying up of traffic at that point.

MUST ASK FOR BIDS FOR BUILDING SITE

SANTA MONICA, Nov. 22.—Because of the action of the board of city trustees in taking out of escrow the check for the municipal building site recently bid in from the Abbot Kinney company, there will have to be a re-advertising for bids to cover the extent of the doing over of all the work that characterized the board meetings leading up to the acceptance of the Venice site.

The inability of the Kinney company to give the city an unclouded title to the property is the reason which caused the board to refuse to give any further consideration to the site. Several proposals to the city of land lying east of Venice, which the owners will donate for city hall purposes, it is said, have been made to the board.

BEACH WILL DISCUSS CONSOLIDATION PLAN

OCEAN PARK, Nov. 22.—The question of consolidation of the Santa Monica bay section with Los Angeles will be discussed tomorrow at the weekly meeting of the Community league. Walter Haas, former city attorney of Los Angeles, will deliver an address on the subject and will be followed by other well known speakers on municipal affairs. Governor La Grange of the Soldiers' Home will also be present to deliver a postponed talk on the subject of good roads.

CALL ELECTION TO ANNEX ALAMITOS

LONG BEACH, Nov. 22.—At an adjourned meeting last night the city trustees adopted a resolution calling an election upon the annexation of all of Alamitos south of the Pacific Electric right of way and to the Orange county line. The election will be held December 24. Petitions which had been circulated were found to contain far more than the required 400 signatures. The entire district will be divided into three precincts, two within the city and one outside.

NOTES OF INTEREST FROM LONG BEACH

LONG BEACH, Nov. 22.—This afternoon Justice Brayton granted Mrs. Mabel Manning two weeks in which to plead to the charge of malicious trespass brought against her by Attorney George Spicer, into whose office it is alleged she forced an entrance and then damaged his property to the extent of several hundred dollars.

C. J. Walker, for many years a prominent real estate dealer, has given up his work in that line and will hereafter devote his attention to the affairs of the People's bank, of which he is president.

Dr. H. Russell was tried yesterday on the charge of having disturbed the peace in a local newspaper office. The jury disagreed and the case was set for retrial December 6.

A committee has been appointed to receive and disburse the Bixby hotel relief fund raised at the rally in the auditorium last Monday night. D. M. Cate was chosen chairman of the committee.

Union Thanksgiving services will be held here next Thursday as usual. At a meeting of ministers today it was decided to invite Rev. Andrew Mitchell, pastor of the Friends' church, to deliver the sermon.

BUNKO MEN ARE BUSY AT BEACH

LOS ANGELES MAN IS MADE VICTIM

Changes Twenty-Dollar Bill for Sport, but Fails to Get the Twenty. Fake "Marshal" is Involved

LONG BEACH, Nov. 22.—With his pocket lighter by \$20 by reason of an unfortunate meeting with a trio of "bunko" men, Alvin W. Mitchell, 110 North Spring street, Los Angeles, boarded a car for home last night after having made an unsuccessful attempt, in company with Officers Harover and Austin, to locate the men.

Mitchell was walking eastward along the Pike when he was accosted by a stranger who opened a conversation concerning the Bixby hotel. Mitchell consented to walk back with the stranger to look over the building again, it being understood that he should then go to the Pacific Electric station together and take the 5:15 car for Los Angeles.

The first day of school, which included the old fashioned roll call and "other things," was also full of excitement and those taking the part of the scholars were so realistic in their contentions that many of the audience could easily close their eyes and imagine themselves back in their own particular district school.

The teacher naturally wanted each scholar to shine while delivering his or her essay or declamation, and of course the scholars, or most of them, forgot to shine.

It would be doing an injustice to mention any particular one of the boys and girls without mentioning them all. However, if the audience was more thoroughly entertained with the capers of any one or two of the children than with the others it was when Fred Goulding as Sim Dipse and Robert J. Burdette, Jr., as Billy Crowfoot settled down to portraying the part of the average schoolboy of ye olden times.

The program follows: SCENES: Scene I—Examination of Teachers. Scene II—First Day of School. Scene III—Closing Exercises of Term. CHARACTERS: Committee: Uriah Perkins, L. C. Lacy, Jacob Bilker, A. L. Griffin, John Smith, Fred Goulding. Applicants: Miss Dashiway, Miss Abbot, Miss Sharp, Miss L. Dooler, Miss Simple, Miss Ethel Goodrich, Hegakiah Pendergraas, Walter Cuthbert, Visalia.

Mrs. Dipse, Miss Irving, Miranda Dipse, Miss Abbot, Mrs. Snooks, Miss Eyrle Parker. SCOLARS: Mattilda Billings, age 10, Lillian Teasle, Faithful Snooks, age 10, Elizabeth Jones, Samantha Piper, age 12, Ethel Goodrich, Jorusha Dickson, age 11, Dorothy Hunt, Glorinda Geysler, age 13, Lois Murray, Ruth Ketchum, age 13, Hattie Lind, Susan "Cowfoot," age 13, Bertie Kirk, Mally Brown, age 15, Ethel Jones, Reinhable Jones, age 16, Marion McClure.

It is announced this evening that a handsome two-story building is to be built in South Pasadena. It is probable that the Masons will have quarters on the second floor and that the newly organized First National bank will use a part of the ground floor. The building is to stand at the corner of Mission road and Fairview avenue.

PASADENA HAPPENINGS TOLD IN TABLOID FORM

PASADENA, Nov. 22.—If the weather will permit the baseball teams of the bankers and business men will meet on Raymond field on Saturday afternoon at 3 o'clock. The Elks have also scheduled a game for the same time. The Elks will be between the married and unmarried men of the order.

Manager J. H. Holmes of the Hotel Green has tendered the use of his hostelry on New Year's evening for the big annual ball given in honor of the Tournament of Roses. The directors of the Tournament association have practically accepted the offer.

The list of prizes for the Tournament of Roses this year is announced this afternoon. The prizes are very much alike to those of last year, save that in one or two instances they are more valuable. One change is in the classes. No high school nor technical school is to compete either for grammar school or six-in-hand prizes. This rule comes into effect as the local high school took all such prizes last year.

Work has been resumed after considerable delay on the new school house for the east side. The contractor was obliged to stop work for some time owing to the fact that he could not obtain the lumber he desired. Finally he secured material in Seattle, and now work is resumed and will be pushed as rapidly as possible.

It is announced this evening that a handsome two-story building is to be built in South Pasadena. It is probable that the Masons will have quarters on the second floor and that the newly organized First National bank will use a part of the ground floor. The building is to stand at the corner of Mission road and Fairview avenue.

CALIFORNIA DEVELOPERS POSTPONE THEIR MEETING

PASADENA, Nov. 22.—The meeting scheduled for this evening at the Hotel Maryland in the interest of the newly formed California Development association was called off at the eleventh hour because word was received that several of the most important men could not attend. U. S. Grant wired from San Diego that he had been decorated and a number of others were similarly held from.

The gathering is only postponed and will be held at some future date. Just when is not yet known, but it is probable that the date will not be far distant, as the need for the work is pressing.

If You Want to Make Money Get Aboard The "Mayflower"

(The Ship That Brought Prosperity to Millions)

The assays made by Dr. Stephen Bowers, ex-State Examiner of Mines, go to show exceptional values in low grade ores— from \$24.00 to \$70.00 per ton

IT is proposed to put in a reduction plant at once and to have it in operation within ninety days. The ore is in the "Mayflower" in quantities; that has been fully proven, for over \$20,000 has been spent in perfecting the Bon Ton group—10 shafts have been sunk, 8 side cuts have been made and that group of mines consisting of five full claims has been fully developed up to the point of the inauguration of a stamp mill to bring out the values. With this valuable property is the "Mayflower" group of mines consisting of seven claims, lying alongside of the Eldorado Consolidated mines. This group contains rich ore, all of the low grade ore, but very rich.

That look good to you? Well, as a matter of fact the same vein of rich ore runs through the "Mayflower" property. That has been proven by tapping the ledge at various points, and while none of the assays equal the \$1000 or \$7000 mark of the Eldorado, yet enough has been shown to satisfy the "Mayflower" company that the mines are far better than many of the mines being exploited at Goldfield and other camps as "wonders." In this case there is no element of guess work, enough is known of the character of the ores to say that the "Mayflower" is a good paying proposition, and to place the property on a dividend paying basis, it is proposed to sell only 200,000 shares of treasury stock at 15 CENTS PER SHARE.

Upon No. 14 claim of the Eldorado group ore was struck recently that assayed \$7000 and the run of the mine at certain points is \$1000 per ton. Does

The proceeds from this sale of stock will be used in paying for a 10-stamp mill already contracted for, to be installed within ninety days.

Now as to the Location of the Mines

The Bon Ton group is within three and one-half miles of the town of Dale, Riverside county, and there is a large number of mines in active operation within a radius of three miles of the Bon Ton. More than 200 tons of Bon Ton ore has already been reduced at a good profit, and about that amount of ore lies upon the dump awaiting the erection of the stamp mill. You have been waiting for a good thing for a long time. DOES THIS LOOK GOOD TO YOU? If you are interested call at the offices of the Mayflower Consolidated Mines today and get the full information regarding the best proposition you have ever received. Shares in other mines not so good are selling for \$2.75 to \$3 per share and the Bon Ton has only reached the 135-foot level. It is known that richer deposits of the precious metal lie in the veins deeper down, as in the case of the "Old Virginia Dale," only three miles away, and which at one time was supposed to be a dead one, but which has subsequently proved to be a veiner and is now working every day. If you wish to get in on the ground floor on this proposition this is the time to act, for not more than 200,000 shares will be sold and then the stock will be taken off the market. The company has already been requested to list the stock with the different stock exchanges, but as this is a legitimate mining proposition the offer has been refused. You now have an opportunity and your opportunity is your fortune. Will you miss your inheritance? Call at the office today, for the stock in the "Mayflower" at the price quoted will not last long.

FALLING WALL BURIES WORKMEN

Portion of Building Left Standing in San Francisco Topples Over. One Victim Dies of Injuries

By Associated Press. SAN FRANCISCO, Nov. 22.—The side wall of a brewery at Eighth and Harrison streets was blown over during a heavy wind storm today, burying two laborers who were caught under tons of masonry.

The injured workmen, Santo Matos and Jesus Reyes, are so badly injured that it is believed they cannot recover. Several workmen were engaged in removing debris left by the fire from beneath the wall and when a warning was given that the wall was dangerous, all left work with the exception of Matos and Reyes.

Companions of the buried men shouted for help and a volunteer crew was soon at work removing the pile of fallen bricks. It was found that Reyes, who was dug out first, had both legs broken, a fractured skull and several ribs crushed.

Despite the fact that the rescuers worked to their utmost they were half an hour in reaching Matos, who regained consciousness. His pitiful cries for help inspired his fellow workmen to efforts that were almost superhuman. Matos also sustained a fractured skull and internal injuries.

The injured men were removed to the central emergency hospital. Reyes died this afternoon, and Matos' condition is extremely critical. Another wall on California street, between Sansome and Battery streets, was blown down today and three workmen injured by falling bricks. Althrough the workmen, L. Robertson and O. Sogali, laborers, and A. Kline, a teamster, were under the wall when it began to fall, they ran several feet before they were caught by the falling bricks and were not buried in the debris. Their injuries consisted of scalp wounds and other lacerations.

FIFTH OF AN INCH FALLS ON CROWN OF THE VALLEY

PASADENA, Nov. 22.—Rain started at 10:27 o'clock this morning and lasted until well along into the afternoon. In all 1.9 of an inch fell and it was far the heaviest rainfall so far of the season. Many contractors still working on the streets rushed their men at building temporary embankments to turn the water away from the work in case a flood should be started. However, the rainfall was too slight to do any damage.

HEARD AROUND THE CORRIDORS BY THE EAVESDROPPER

PRETTY WOMAN WAS UNITED STATES CONSUL

The only girl who has ever acted as United States consul is at the Alexandria, Egypt.

She is Miss Frances Butz of New York, at least that is the way she registers, and it is a fact that she is the assistant manager of the New York office of Miles Bros., the moving picture firm, but she is a native of California.

That is not telling how Miss Butz became consul and it is a story well worth the telling. Had it not been for the fact that petticoats are not provided for in the United States constitution she would probably be consul yet and Miles Bros. would never have discovered her.

For five years Miss Butz was in the office of the United States consulate at Dawson, Alaska, and on October 23, 1905, Henry D. Saylor, who was then consul, received word that his father was seriously ill. He had to leave his post without a minute's notice and there was no one to fill his place. Miss Butz jumped into the breach and carried on the business of the office. She took affidavits, presented decorations, made her reports and did the numerous other things that fall to the lot of a consul. When a vice consul was finally appointed to the regret of all concerned congress had nothing to do but ratify her acts.

"They tried to have me appointed consul, but the constitution could not be stretched to admit petticoats, so here I am with the Miles Bros."

Miss Butz was formerly a newspaper girl and she began her career as a baby reporter in the office of a Visalia (Cal.) paper owned by her father. She was private secretary to Norris D. Gregg, director of concessions and missions of the St. Louis exposition and the man who practically had charge of the preliminary business administration of the fair.

Miss Butz has an enviable reputation as a business woman in many parts of the country. She is a very important part of the business of Miles Bros., and a much better press agent for Harry Miles, who is in Los Angeles at this time, than he could ever be for himself. Mr. Miles, who is the senior member of the firm, is here to make the moving pictures of the Burns-O'Brien fight, next Thursday.

"Please don't think that because we are here to make prize fight pictures that that is the only thing we do," said Miss Butz. "In fact, that is a very small part of the business and it is the largest firm of the kind in the world."

"We have over a million feet of film in circulation and that does not include any of the prize fight work, for that is all done on contract."

"I have never attended a prize fight in my life," and as she said it I thought it seemed difficult to connect her with prize fights.

"She is such a little woman with such a limitless store of energy."

OREGONIAN APPROVES WORLD'S FAIR PLAN

Jefferson Myers, president of the Oregon-Jamestown exposition commission arrived in Los Angeles yesterday from Jamestown, Va., where he went to represent the state of Oregon in plans for the Jamestown exposition.

Mr. Myers has contracted for a site big enough to hold the exhibition of the three Pacific coast states and he is discussing plans with the Los Angeles chamber of commerce relative to the part which Southern California will take in the exposition.

Mr. Myers says that the Jamestown exposition will be a good thing for the Pacific coast states and that the south is expecting much from us. He was advised of the plans for the
