

COLLEGE TRUSTEE TELLS OF PLANS ARCHITECTS ARE PREPARING BUILDING DESIGNS

Roads for Site of Educational Institution for Women to Be Built Soon and All Looks Bright

Pasadena Agency, 16 1/2 East Colorado Street, Telephone Main 752. PASADENA, Nov. 23.—Several of the trustees of the proposed woman's college for Southern California this evening authorized a statement concerning the plans in which that project is at the present time, which is of the utmost importance.

This evening, however, the trustees, or at least some of them, state frankly what they have been doing and also announce something of the business transacted at a meeting held on Thursday afternoon of this week. It seems that they have already been talking with an eastern architect about plans for some of the needed buildings and designs and local designers have also been consulted.

It is believed that matters have progressed so far, even, that some suggestive drawings have been made of the structures which will form the nucleus of the building which is to cluster one of the greatest educational institutions of the state. One of the trustees, Dr. George E. Abbott, states this evening that as soon as the rain packs the dirt a little around and on the site of the proposed institution the trustees plan to have constructed several roads which will permit interested people to drive over and examine the site.

He states most emphatically that the project has not gone by the board, and that it is expected that as soon as the directors now absent return something additional will be given out. He calls attention to the fact that such an institution as is planned cannot be built in a day, a week or year, but that it is the labor of a long time. "We are holding meetings frequently," said Dr. Abbott, "and we have no more intention of dropping the plan than we had when we first took it up. We believe that quiet, persistent work counts for more than noisy demonstration."

Wedding Predicted for Dr. A. H. Savage and Miss Fannie Furmen, and Young People Do Not Deny Special to The Herald. PASADENA, Nov. 23.—The semi-official announcement of an approaching wedding this evening has created a sensation. It is asserted that Dr. Arthur H. Savage, one of the most popular members of the younger social set, and Miss Fannie Furmen, one of the most widely known young women in Pasadena, will be married at high noon Saturday.

DETECTIVE WANTS LIQUOR CASE DISMISSED

Special to The Herald. LONG BEACH, Nov. 23.—Detective Cookson of Los Angeles, the complaining witness in the cases against Dr. W. H. Prittle and Capt. X. R. Hollar, charged with "high noon Saturday," asked Recorder Hart this morning to dismiss the cases. He gave as his reason that he disliked to make the frequent trips necessary to this city. It is conjectured, however, that he is considerably discouraged because of the unsuccessful results of the trials which have come up so far. Two of the five men arrested were discharged for lack of evidence and the third was fined simply because local officers found liquor on the premises.

MALARIA AN INSIDIOUS FOE TO HEALTH

Malaria is an atmospheric poison which we unconsciously breathe into our lungs through the impure air arising from low, marshy places, stagnant ponds, damp cellars, sewer pipes, improperly ventilated houses, decaying vegetable matter, etc. Day after day these germs and poisons are taken into the lungs, and as the blood passes through them it becomes infected with the poison and in its circulation distributes the microbes of disease to all parts of the body. Malaria is a very insidious disease; it gives no warning of its coming until the circulation is filled with the poison and this foe to health has the system at its mercy. The blood becomes polluted, thin and weak and its slow, irregular circulation fails to properly nourish and strengthen the body. Then the entire system is attacked, and if the germs and poisons of Malaria are allowed to remain the strongest constitution will break down. No one can feel well when the system is in a malarial condition; the vitality is weak, the appetite poor, digestion deranged, the complexion grows sallow and the entire body feels the effects of the poison. Malaria must be removed from the system through the circulation and the only medicine that can accomplish this is S. S. S. It not only cleanses the blood of all unhealthy, morbid matter, but destroys the germs, cures Malaria and restores this vital fluid to a strong, healthy condition. S. S. S. is made of roots, herbs and barks combining purifying and tonic properties which keep the blood free of all poisons and the system in perfect condition. While destroying the germs of Malaria and building up the weak, polluted blood S. S. S. gives tone and vigor to the entire system. Book on the blood and any medical advice without charge. NOTES OF INTEREST FROM LONG BEACH

Special to The Herald. LONG BEACH, Nov. 23.—Two thousand feet of new fire hose recently purchased by the city will soon be tested by means of a hydrostatic pump built by Jerry Faulkner, "handy man" of the local department. The hose will be required to withstand a pressure of 450 pounds to the square inch. Faulkner's pump is capable of forcing a pressure of 1000 pounds.

The elders of the Adventist church today appealed to Constable R. M. Lynn to take drastic measures to control a gang of boys who persist in disturbing revival services in progress near Anaheim road and Temple avenue. The fruit peddlers will petition the city council for permission to sell their goods at street corners. Under the present ruling they must keep 150 feet back from the intersections, and their business is to be dull and unprofitable. If allowed the new privilege they are willing to pay \$100 a year for licenses instead of \$25 as at present.

The real estate men of the city will meet in the city hall at 3:30 tomorrow afternoon to discuss various subjects of especial interest to them. Among these will be the annexation question and the question as to whether the real estate dealers' license fee should be raised so as to keep the curbstone dirt seller out of the business.

G. J. Keeney, who has recently been in the employ of the Pacific Mail and Steamship company, today assumed his duties as captain of the steamer Nellie of the Nelson Navigation company. The Alamitos Land company's gauge registered a rainfall of .40 inches this morning. There had been a few light showers before this fall, but none of these had made an impression upon the gauge.

PASADENA'S QUOTA OF BRIEF NOTES OF NEWS

Special to The Herald. PASADENA, Nov. 23.—At the annual meeting of the Men's club of All Saints' church last evening officers for the ensuing year were elected: W. M. Hill was chosen president, with J. E. Jones, vice president; Major A. G. Myers, secretary; C. A. Gillespie, treasurer, and the following executive committee: J. H. Booge, G. A. Backus, Dr. Zullig, Judge H. H. Klamroth and V. W. Goetz.

A rack of clothes set too near the stove caused a lively little blaze this morning at the house of Lafayette Craig, 474 North Euclid avenue. The fire was supposed to be drying and it dried a little too fast for the laundress.

Last evening the alumni of Throop institute elected officers for the coming year. LeRoy Brown was chosen president, Harold D. Little as vice president; Ruth Gaylord, secretary, and Ben Harrison, treasurer. Mr. Brown is a resident of Los Angeles, but the others are Pasadenans.

BUILDER OF CITY PARKS IS SUMMONED BY DEATH

Special to The Herald. PASADENA, Nov. 23.—The body of Albert Zimmerman, former park superintendent for Pasadena, has reached this city and the funeral will be held on Sunday afternoon from the German Lutheran church. Mr. Zimmerman was the one who brought the Pasadena parks from a condition of barrenness to their present state of beauty. He took office immediately after the city had voted the necessary bonds to furnish money to buy the sites and Mr. Zimmerman was entrusted with the carrying out of the designs of the park commissioners.

WANT WORLD'S FAIR HELD NEAR VENICE

Special to The Herald. OCEAN PARK, Nov. 23.—Immediate and definite steps to place before the public the advantages of this resort for holding the projected exposition in the city or any other place in Southern California that might be given consideration, it is said, are to be instituted by the Abbot Kinney company. The plan has already been taken up by the business interests of the section as a whole and every means to further the arrangements will be offered. Mr. Kinney could furnish several sites near Venice, any of which would be of adequate size to serve the needs of the exposition.

CROWN CITY ROADWAYS ARE SOLD BY MISTAKE

Special to The Herald. PASADENA, Nov. 23.—B. F. Ball, one of the pioneer residents of Pasadena—in fact, the owner of much of the original townsite—was somewhat surprised to find today that certain property owned by him years ago had been assessed to him still in spite of the fact that it is now used for public thoroughfare. Not only was he surprised, but the good people of Pasadena were likewise pained to learn that Masonic temple, Mills and Ball alleys had all been sold to the state for back taxes by the county assessor. Just how the mistake came to be made is not known. It is probable that the property when changed from private to public ownership was not properly placed on the county assessor's books. At any rate, Mr. Ball has now owned the lots for years and the city will not allow the state to take away its streets on any such flimsy pretext as that.

WARGAME PICK-POCKET

CROOK FILCHES A VALUABLE TIMEPIECE

Victim Recovers Jewelry and Light-Fingered One Is Allowed to Depart in Peace from Long Beach

Special to The Herald. LONG BEACH, Nov. 23.—Hert Paul, station agent, and Conductor Jones watched a pickpocket filch a gold watch from the vest pocket of J. C. McMillan this morning in front of the Pacific Electric ticket office. The circumstances were such that Paul and Jones thought the pickpocket was a friend of McMillan's and was simply playing a trick upon him. A few moments later McMillan reached for his watch and gave a cry as he found it missing. "Don't be alarmed," said Paul. "Your friend took your watch."

The station agent soon discovered the pickpocket standing near the Pacific Electric tracks about to swing upon an approaching car. McMillan hurried out to him and engaged in an animated conversation, which resulted in the recovery of his watch. Mr. McMillan was pleased to find his remarks and he made no effort to keep the light-fingered gent from boarding the car and making his escape.

BRIEF JOTTINGS FROM THE BEACH

Special to The Herald. OCEAN PARK, Nov. 23.—Before a large and intensely interested audience of women, Owen Lovejoy, who is touring the state under auspices of the Federation of Women's Clubs, today addressed the membership of the Crescent Bay Woman's club on the subject of "Child Labor." Mr. Lovejoy depended largely upon statistics to carry weight in his remarks, and showed that he was well informed on matters relating to child labor at all times and in all countries. His statement that there were in 1906 1,752,000 children under 16 years of age working in the United States astounded his hearers. Following the meeting Mr. and Mrs. Lovejoy were entertained by Marvin R. King, president of the Commercial bank of this city.

Mrs. W. L. Phillips of 1347 Third street today entertained the membership of the Ladies Aid society of the Methodist Episcopal church, when plans were made for the annual Christmas sale of cooked foods, donated by members of the society, which will furnish funds for church relief work.

A contract for the construction of a bank house at Sherman, with accommodation for 200 men, was let this morning by Col. Frank Lawson, who will have charge of the arrangements of the Los Angeles-Pacific railway for housing and feeding the big force of workmen making improvements on the road within the next month.

GIVE RELIEF MONEY TO LOCAL CHARITY

Special to The Herald. SANTA MONICA, Nov. 23.—For the purpose of diverting to local charities the \$300 remaining of the fund raised in this section for relief work at San Francisco, S. W. Odell of the law firm of Tanner, Taft and Odell, was today chosen by the custodians of the money to proceed at once with the organization of a board of charities, embracing in its membership representatives of all the churches, lodges and benevolent societies in the Santa Monica, Ocean Park and Venice districts. It is the intention to make the new organization permanent institution and to that end a public meeting will be held in the near future when plans for incorporation and the appointment of committees to disburse the funds on hand, as well as to receive future subscriptions will be made effective. The organization will be wholly non-sectarian and will have no salaried officers.

LONG BEACH CHARTER MAY MEET OPPOSITION

Special to The Herald. LONG BEACH, Nov. 23.—It is evident that the new city charter now being prepared by a board of freeholders will meet with some opposition if it provides that the first municipal election shall be held early in April.

It is feared that the opposition may be strong enough to defeat the instrument, and City Attorney Monk has expressed the opinion that it won't be safer to put the election off until December. If the election is held in April the present city officials will be forced out of their positions before they have had time to work out the many and various civic improvements. The question of fair play is liable to arouse such opposition to the present intention of the board that they will make the change, postponing the election until December.

The Ladies Aid society of the First Methodist church will give a reception in honor of Rev. Robert McIntyre, the pastor, and his wife and family, expected to be in the city, next Tuesday evening in the social hall. "The Second Dimension of the Christian Life" will be the topic of Rev. D. F. Pasadena Wins Debate Special to The Herald.

PASADENA, Nov. 23.—In a spirited contest on the field of debate tonight the Pasadena high school won over Covina high school by a score of 54 1/2 to 45 1/2. Miss Carol Coman and Mortimer Hall of the Crown City met the Covina team and presented the topic "Resolved, That the present conditions of Russia are such that a truly representative government should be established, based upon an educational and property qualification." Pasadena supported the negative and the arguments advanced by the local team were well made. While sympathy was with the affirmative the masterful way in which the team representing the Pasadena argument presented its views won the debate with the judges. One of the telling points in the presentation of the Covina arguments was lost in the embarrassment of the second round on the Covina side and the rebuttal readily overcame the affirmative on argument.
