MUTILATES EAR TO FIT DESCRIPTION

CHINESE TRIES TO DECEIVE OFFICERS

Alleged Bogus Papers Mention Mole, and Celestial Explains He Cut It Off and Shows the Wound

Deliberately mutilating himself, in order to make his appearance conform to alleged false identification papers, Wong Ho, said to be in this country in violation of the immigration laws, sought to deceive the United States officers at San Bernardino but was detected in his wily scheme and was taken to the county jail yesterday in company with four other Chinese.

According to the story told by the inspectors, they rounded up a bunch of Chinese at a big vegetable garden between San Bernardino and Redlands. Out of the number three were said to be identified as having been spotted by officers in Ensenada. Another, Lee Shan, was unable to produce a certificate, and Wong Ho produced a paper in triumph which he thought would satisfy the officers. Description Does Not Fit

In comparing the certificate's description with that of the Chinese one of the inspectors saw that the Chinese was lacking a mole behind the right ear. He remarked upon this to one of the other men and proceeded to examine other Chinese, lined up for examination. About half an hour later he came back to Wong Ho, and that wily celestial, in broken English, managed to tell the officer that he was formerly marked with a mole back of the right ear, but had concluded to cut it off. An inspection revealed a fresh wound back of the Chinaman's ear. It had

been treated with some oriental styptic to stop the bleeding, but the wound spoke for itself.

The Chinese exhibited no emotion at the exposure of his trick, but stoically threw his bundle across his shoulders and marched down to the railroad station with the others. **Given to Federal Officer**
The Chinese brought to Los Angeles yesterday were Lee Sing, Wong Do, Wong Ho, Lee Shan and Mar Toy. The officers accompanied their prisoners to the office of the United States marshal and formally turned their men over to the custody of the federal court. The Chinese were taken to the county jail to await examination before one of the United States commissioners. John Canfield of San Diego, Immigration inspector, was an important factor in the arrest of the Chinese, and G. H. Tuttle, J. C. Nardini and J. E. McClymont, agents of the government department of commerce and labor, did some good work in locating the alleged offenders of the immigration laws.

POSTMASTER FLINT WANTS DIRECTORY TO BE COMPLETE

Postmaster Motley H. Flint is very desirous that the name of every resident of Los Angeles appear in the new city directory. The canvass for the directory will close April 20, and it is of great importance to the postal service that the directory be as complete as possible. It is said that Los Angeles is one of the most perplexing cities in the country from a postal service viewpoint, as there are so many strangers, tourists and residents continually moving about the city and having no regular address. It is especially desired, says the postmaster, that those living in hotels and rooming houses and also those lately arrived in the city should file their permanent address with the directory publishers. All citizens who have changed their residence since the first of the year are also requested to give their new address to the directory people. Homeless children received and placed in houses for adoption. April Rev. O. V. Rice, Superintendent Children's Home society, 244 Bradbury building, Los Angeles.
