

HORSES' TAILS WILL STAY ON BY STATE LAW

All Docked Horses Registered

New Statute Makes it a Criminal Offense to Cut Off Flowing Appendages of Equine Beauties

Every dog has his day and so does every horse, and at present the horse's sun is dawning on the horizon and his day has returned.

Every owner of fine horses in Los Angeles county in the cities, the towns, the farms and the villages is taking a wonderful pride in his horseflesh this weather; there is nothing too good for an animal, and, best of all, there will be no more horses in the future submitted to the docking process to make them pretty and unnatural.

By a law of the state legislature in behalf of the horses, the docking of horses' tails has been made a criminal offense. It is a crime for a horse surgeon to perform such an operation; it is a crime for the owner of a horse to sanction an operation, and it is a crime hereafter for any man in the state to have in his possession a horse whose tail has been docked since the law went into effect.

During the past three weeks every docked horse in the county has been registered with Andrew Francisco, chief deputy county clerk. The last animals from the Douglass stables of Los Angeles have been registered.

Most of the Douglass animals are not docked. Mabel Rex, the finest animal of the stable, for Mabel was registered under the name for many years, has one of the finest appendages of any of the California mares.

The Blossom stables of Pasadena have many fine animals of the docked variety. Mesmore's horses of Los Angeles also have a few of the docked ones in their midst, but most of the Mesmore animals are full tailed.

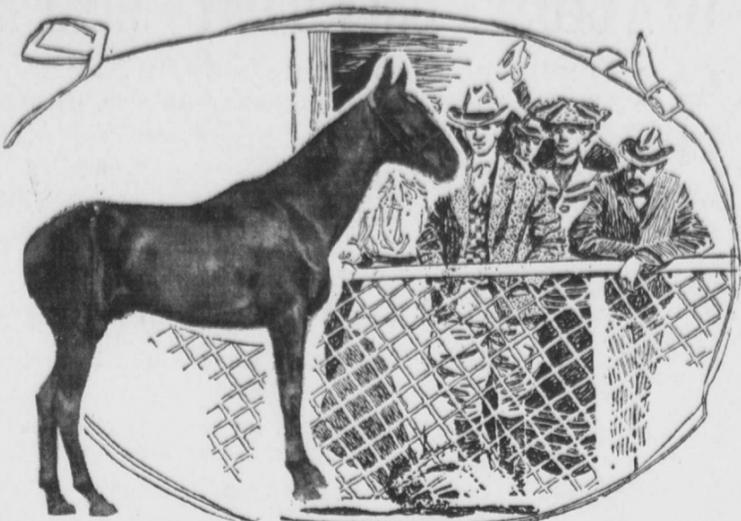

Polo Ponies Docked

The owners of fine polo ponies were among the hardest hit, for a polo pony is not considered a very great animal unless he has his tail docked properly.

Hogan, another well known horseman, registered his ponies during the week to escape being left out in the

MUTILATION OF HORSES FORBIDDEN BY NEW LAW

MUTILATED HORSE

ANDREW FRANCISCO

EMPRESS OF NORFOLK WITH BEAUTIFUL TAIL

cold after the limit of time had been reached.

"I have put my horses down in the book in good shape," said Colonel Wyatt, the manager of the Mason opera house, grinning broadly after having properly registered his animals.

Many Files in California

"The horse is a pretty animal, no matter what happens to it," said Colonel Wyatt. "A horse with a docked tail has its pretty points, as well as a full tailed animal. Of course it is a disfigurement to a certain extent, and the fact that the docking process became so fashionable caused much misery to the horses.

Horse Becoming a Luxury

As for the horse, according to the statements of well known horsemen of the southwest, the animal is becoming a luxury. The automobile, on taking charge of the heavy carting and the chief work of the city, relieved the horse of one of the burdens they had borne so long.

The automobile served another purpose in relieving the horse. In former days, when a youthful genius had to get rid of some excessive spirits, he generally took a horse out on the road and nearly rode or drove the animal

valuable piece of property, especially since people appreciate the fact that the horse is to be recognized by state laws.

In the future a docked horse will be a rarity. When one appears on the court house, grinning broadly after having properly registered his animals, the animal of that which it ought to have had.

An example of horse of the dock tailed style is the photograph of a fine dock tailed filly from the Warren stables. The other photograph is that of Emperor of Norfolk, a world famous animal whose magnificent tail has caused him to be one of the highest prized horses in the world.

to death. Now with the automobile these youthful specialists can take an auto out on the road and run at a rate of sixty miles an hour until they are killed and the auto wrecked, and the horse suffers no damage.

But, according to the contention of the horsemen, the horse is now being put on a basis that he should have long ago attained, that of a rare and valuable piece of property.

When a horse was stolen by rustlers in the early days of California no complaint was made until several scores had disappeared, and then a posse went out and lynched the thief. Now if a single animal disappears there is trouble. Last week a complaint of the loss of a horse from the Antelope valley sent officers scurrying in every direction, spending as much time in search of the animal as they would have in search of a man.

The opening of the great track at the owner's ranch next summer will be another great boost for the horses, and altogether the horse is having a little horse laugh all to himself and rejoicing that his day has returned.

HONOLULU PASTOR WILL CELEBRATE HIGH MASS

Rev. F. H. Valentine, pastor of St. Augustine's chapel, Walkiki, Honolulu, and secretary to Bishop Liebert of Honolulu, is visiting Los Angeles and will celebrate solemn high mass this morning at the Cathedral of St. Vibiana.

This afternoon Father Valentine will officiate at the christening of the infant of old Honolulu friends, which will occur at St. Vincent's church. This evening Father Valentine will celebrate the vesper service of the Holy Cross church.

Father Valentines will speak at this church on the work of the Catholic church in Honolulu and at the leper settlement at Molokai. He is well known in the Hawaiian islands as an eloquent speaker and is much interested in the work being carried on there. He has been stationed in Hawaii eighteen years.

SUSPECTED MAN BOUND OVER FOR HIS TRIAL

PASADENA, April 20.—Bound over to stand trial was the finish of the hearing before Justice McDonald of the man who first gave his name as J. H. Burns and later changed it to Brown, and who was arrested by Patrolman Jack Pierce on suspicion of being the man who held up and robbed Conductor Comer in his rooms a week ago today at the Hotel Mitchell. Brown will be held in jail until he is tried unless some one comes to his aid and puts up the bail of \$2000 fixed by the court.

At the hearing it was remarked by Deputy District Attorney Donnel that the case against Brown was a very weak one. The witnesses testified that the man looked like the man who they saw running from the Mitchell after the robbery. None were sure, not even Conductor Comer, who said the man that held him up might have been Brown, though he would not be positive.

Brown is supposed to have been washing windows at the Charter Oak, immediately in the rear of the Mitchell, at the time the robbery was consummated. L. G. Childs, proprietor of the Charter Oak, stated that he did not know Brown had left the building, but was unable to prove an alibi.

Hoochiers Favor Fairbanks

LAPAYETTE, Ind., April 20.—At a meeting last night of the Republican editors of the Tenth Indiana congressional district resolutions were adopted unanimously endorsing Vice President Charles W. Fairbanks for the Republican presidential nomination.

A VETERAN OF THE SPANISH WAR

Expresses His Great Faith In Pe-ru-na

Pe-ru-na is a Tonic Especially Adapted to the Prevention and Relief of All Catarrhal Affections Due to the Vicissitudes of Climate and Exposure Experienced by the Soldier.

An Old Soldier's Praise

Mr. F. R. Cox, Avis, Pa., writes: "I was taken with hemorrhages of the stomach and had from one to three a year."

"The doctors said my stomach could not be cured, and it was only a question of how soon one of these spells would kill me, and I was given up several times, as they had no hope for me."

"I finally wrote to you, and you said if it was not a cancer or a tumor, Pe-ru-na would cure me."

"I commenced taking Pe-ru-na right away, and have never had one of those spells since."

"I am an old soldier, one of Phil Sheridan's Rough Riders, and pretty nearly played out now, but I have a pretty good stomach again."

Assistant War Correspondent Recommends Pe-ru-na

Mr. H. B. Manley, assistant war correspondent, during the war in China, 58 Spark st., ex A. G. Pittaway, Ottawa, Can., writes:

"When a man travels in extremely hot or cold climates he realizes how valuable a friend he has if he carries a bottle of Pe-ru-na."

"I know of no article in my traveling outfit which I have learned to praise higher."

"If you are suffering with the extreme heat, Pe-ru-na restores you, or if you are afflicted with a cold, influenza or bronchitis, Pe-ru-na restores you in a short time."

"Or if you suffer with sleeplessness or if your appetite is poor, again Pe-ru-na acts as a good, true friend and is the tonic needed."

"I have tried it for months and am only too glad to acknowledge it as a true, loyal standby in times of trouble. I do not hesitate to recommend it to all."

T. T. Markland, a well-known business man of Cincinnati, Ohio, address R. R. No. 1, Mt. Washington, Ohio, writes:

"I find that in my case Pe-ru-na is a flesh builder. I am now able to work every day and have gained ten pounds. I took your Pe-ru-na according to directions and the result was more than I expected. I took no other medicine but Pe-ru-na, and it accomplished what you thought Pe-ru-na would cure me and it has. I am 73 years old and can attend to my business as usual."

ABLE TO WORK AT THE AGE OF SEVENTY-THREE YEARS

MAKE BRICKS OF STREET SURFACE

PROPERTY OWNERS ENTER PROTEST

Residents of Bunker Hill District Say the Highway Has Been Dug Out and Valuable Clay Sold

Residents on Bunker Hill avenue, between Alpine and New Depot streets, are greatly enraged at the work which is being done there by Contractors Withers & Crites, who were recently given the contract by the city to grade that street.

A number of the property owners appeared at the city hall yesterday and filed protests with the board of public works, and if officials of Los Angeles did not at once see that work which had been done by the contractors was righted several damage suits would be filed.

"The contract for grading this street was let in February," said J. W. Atkins, 829 Bunker Hill avenue, one of the protesting property owners, last night, "and up until that time we did not know it was going to be a contract job. We all supposed the work was to be done by the chain gang and I had been so informed by city officials."

"We were greatly surprised when we heard of it, but decided to let it go on, despite the fact that we will now have to pay assessments for the work, where otherwise it would not have cost us anything."

"About a week ago the contractors showed up with men and teams and it did not take us many days to see what they were doing. First, the men 'moved the loose dirt' from the surface of the street and then they came to the clay from which bricks are made."

"When they struck this clay, the proprietors of a brickyard, appeared on the scene and this clay was loaded into the wagons and carried to the brickyard of the firm until now the street is several feet below grade."

"The residents have spoken to the contractors about it, but have been given no satisfaction, and we fear it is the intention of the contractors to build the street up to grade by filling in with loose dirt. If this is done it will mean the ruination of the street, as during wet weather it will be impossible for horses to travel on it."

"The brick clay which was removed makes an ideal foundation for a street and it should never have been taken away. It will take a long time now to put the street in even as good condition as it was before, and we doubt if the contractors are even intending to do this much."

"The property owners there spoke to Councilman Clamptt about the matter, but we received little satisfaction from him. In fact, Clamptt told us that we had done nothing to support his election and he did not see why he should take any great interest in the matter. His neglect has enraged the property owners there greatly and we will probably hear more about it later on."

Regular daily service of Los Angeles Limited will resume April 22. This superb train leaves First street station, Los Angeles, at 2:45 p. m. for Omaha and Chicago via Salt Lake route, Union Pacific and Northwestern lines. New booklets of the Limited may be had at 601 South Spring street.

COL. ARTHUR L. HAMILTON. Gallant Porto Rican Soldier Gives Praise to Pe-ru-na

Col. Arthur L. Hamilton of the Seventh Ohio Volunteers writes from 259 Goodale st., Columbus, O., as follows:

"Besides having the merits of Pe-ru-na fully demonstrated in my family, I have a number of friends who have taken it for catarrh and stomach trouble and all unite in praising it. As a remedy for catarrh, I can fully recommend it."

In a later letter to Dr. Hartman, Col. Hamilton writes: "My command used your Pe-ru-na during our service in the Spanish-American war and I will say this, that if the war department records are consulted, it will be found that the casualties in my regiment were less than in any other regiment of the army corps while at camps Alger, Meade and Bushnell. The total deaths in my regiment during the seven months' service were seven out of a total number of 1400. Of course, cannot help but think that Pe-ru-na certainly was a great benefit to my command."

In a recent letter Colonel Hamilton says: "I have used Pe-ru-na myself and in my family for the last seven years. I have already written you about the good results I experienced with your remedy during the Spanish-American war."

In old age the mucous membranes become thickened and partly lose their function. This leads to partial loss of hearing, smell and taste, as well as digestive disturbances.

Pe-ru-na corrects all this by its efficient operation on all the mucous membranes of the body. One bottle will convince any one. Once used and Pe-ru-na becomes a life-long standby with old and young.

Pe-ru-na Contains No Narcotics

One reason why Pe-ru-na has found permanent use in so many homes is that it contains no narcotic of any kind.

Pe-ru-na has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of the catarrh.

Almost Nervous Prostration

Rev. A. M. Smith, Hahira, Ga., writes: "For the past two or three years I have been troubled with nervousness, at times resulting in almost nervous prostration. Recently I have had very severe attacks, and was induced by a friend to try Pe-ru-na. This I have done with more than satisfactory results, and consider Pe-ru-na the best medicine on the market for what it is recommended."

"To all who suffer with nervousness in any form I would say, 'use Pe-ru-na.'"

RACE TRACK FOLLOWER ACCUSED OF ROBBERY

Joe Graham, a race track follower, was arrested last night by Detectives Jones and Boyd on a charge of grand larceny.

Graham is alleged to have found S. E. Hoy, a guest of the Westminster hotel, on the street in an intoxicated condition and on pretense of taking him to the hotel inveigled him into a room on North Main street, where he robbed him of a gold watch and \$100 in money.

GIRL'S FATHER FEARS MURDER

(Continued from Page One)

Father Believes It Murder

Mrs. White screamed for help and Deputy Constable George Thornberg, who was passing, ran to the house. When he entered the room he found the body of the young woman as he searched and on the floor, at the side of the bed, was a .40 calibre buldog revolver, one chamber of which was empty. In the hand of the young girl was a small package, which she had evidently purchased after leaving the grocery store. It contained a new shirt waist pattern.

A telephone message was sent to the central police station and the ambulance was sent to the house and the girl taken to the receiving hospital. There Drs. Goodrich and Garrett made an examination of the wound and pronounced it fatal. The bullet, which is located somewhere in the back of the skull, was not found, although probed for. During the operation the young woman, who seemed to be conscious, gave no evidence of pain nor would she say a word in answer to questions, though it was evident that she understood what was said to her. Later she fell into a comatose condition, from which she had not aroused up to 7 o'clock, at which hour she was removed in an ambulance to her father's home.

Wound Is Fatal

When informed of the fact that his daughter was shot, and evidently by her own hand, Mr. Quinn stated emphatically that such was not the case, and while he refused to give his reasons therefor said that he knew she could not and did not do it. The fact also that she had purchased a new shirt waist but a few moments before the deed was committed is believed by Deputy Constable Thornberg to indicate that the girl did not shoot herself.

John Grand, the girl's alleged lover, was employed as a shipping clerk by the Newberry company for a long time. He resides at 1733 Brooklyn avenue. A week ago, however, he left his place at the store without giving any reason and disappeared from his usual haunts. Last night a search was made for him by the police to see what, if any, light he could throw on the act of the girl, but he could not be found.

From all the circumstances surrounding the case it is believed that Miss Quinn went almost directly from the store of her employer to the home of her friend. Not finding her at home she obtained an entrance to the house through the front window. The pistol with which the deed was committed is the property of Mr. White and had always been kept in the bottom drawer of a dresser in his bedroom. Miss Quinn knew of the weapon and was familiar with the place it was kept.

SCRIBES MUST VISIT THE WHITE HOUSE BEFORE DARK

By Associated Press. WASHINGTON, April 20.—Secretary Loeb announced hereafter that newspaper men will not be allowed to congregate in the White House grounds after nightfall, or to go to the door of the White House in search of information.

Secretary Loeb said today that while newspaper men would be permitted to go to the White House door and ask questions at night they will not be permitted to loiter around to seek interviews with the visitors inside.

The object of the rule is to discourage interference with the White House visitors at night.

A WONDERFUL DISCOVERY

Anyone who has ever felt the pangs of toothache, the grip of the forceps, or the buzz of the dental burr, will welcome any discovery that prevents needless suffering, or the disfigurement of the human face, due to ill kept, decayed or missing teeth. The universal need of a harmless preventative, led a skillful and experienced dentist to experiment with mineral substances used in dentifrices; only to discard them one by one, on account of their injurious grit. Disappointed, but undismayed, Dr. Deichmiller continued his researches until he finally discovered a VEGETABLE compound which contained all the elements of an IDEAL tooth powder. This was given a year's careful test in his own and some colleagues' private dental practice; and pronounced by all so perfect that it was decided to extend its use to the public under the name of DENTALON.

The various tests revealed the startling truth that where cleanliness reigns there can be no decay. That worn teeth do not decay. That an ounce of prevention saves more teeth than a pound of gold. That DENTALON has rare cleansing qualities, yet absolutely no grit to wear away the enamel, make the teeth sensitive, scratch or tarnish the dentists' gold work, nor irritate the gums. The simple, harmless VEGETABLE compound of which DENTALON is made absorbs offensive odors and purifies the breath more permanently than mineral-made tooth powders. DENTALON is just coarse enough to give that natural, cleansing, massaging friction so necessary to stimulate the circulation, and by its antiseptic oils imparts a wonderfully soothing, healing and hardening quality to diseased gums and loose teeth. The many genuine merits of DENTALON convinced these critics that it filled all the requirements of an IDEAL tooth powder.

From all the circumstances surrounding the case it is believed that Miss Quinn went almost directly from the store of her employer to the home of her friend. Not finding her at home she obtained an entrance to the house through the front window. The pistol with which the deed was committed is the property of Mr. White and had always been kept in the bottom drawer of a dresser in his bedroom. Miss Quinn knew of the weapon and was familiar with the place it was kept.
