

WHO DISAPPEARS; IS FEARED INSANE

WANDERS FROM HER HOME IN DEMENTED CONDITION

Is a Relative of Charles Lewis and Has Made Her Home on North Los Robles Avenue, Pasadena

Pasadena Agency, 77 North Raymond Avenue, Phone: Sunset 1807, Home 2124.

PASADENA, April 28.—Police officers have been searching up to a late hour tonight for Mrs. Coates, reported to be wandering from the city in a demented condition. Mrs. Coates is a relative of the late Charles Lewis, 645 North Los Robles avenue.

STRANGE FATE PURSUES AN INDIANA COMPANY

Special to The Herald. FRANKFORD, Ind., April 28.—A strange record seems to belong to Co. C, 138th Indiana Volunteer Infantry. This is the company which, when President McKinley visited his call volunteers, made the world's record in getting under marching orders and into camp at Indianapolis.

The company had been enlisted by Capt. D. F. Allen, who has since been promoted to major, and composed of men from all parts of Clinton county. It was midnight when Capt. Allen issued the order for the state troops to assemble at the state fair grounds, Camp Durbin. The fire bell was rung, telegraph calls sent all over the county ordering the men to report, and at 3 o'clock in the morning of the same night the entire company boarded a Monon train and were at the camp a little after daylight.

They were there before the camp had been opened, in order to enter had to climb the fence. The company is keeping up its remarkable record as to the manner of the death of its men. There have been eight deaths, and all but two have been from violent or unnatural causes.

L. S. Merritt, the first to die, committed suicide in this city. The second, Fred Griner, committed suicide in this city. Herbert White was killed in the Galveston flood.

Bert Irwin, the fourth to die, was injured by barrels falling on him. Blood poisoning followed. The fifth one to meet an unusual death was Charles Donner, who was killed in the wreck when the Great Northern train was wrecked near Spokane, Wash.

The last one was Reed Otterlin, killed by the blowing up of a locomotive on which he was firing, near Las Vegas. The only two to die from natural causes were Ashley Jennings, who expired at the Leiter hospital, Camp Thomas, Chickamauga park, Ga., during the war, and Jerry Falls, who died of consumption at his home near this city.

NOTES OF INTEREST FROM LONG BEACH

Special to The Herald. LONG BEACH, April 28.—Capt. Chas. Reed, formerly in charge of the City of Long Beach, is reported to have gone to take charge of the new steamer Anvil, which he intends to run in opposition to the local boat.

The Bath House company has completed a building in front of the junction of the strand and the ground has been brought up to a level. The water is now kept back, and the pavilion is made a much more attractive luncheon place.

The Ebell club will hold its annual business meeting in the election of officers tomorrow afternoon. Mrs. J. J. Penny has been urged by a large number of the members to accept the presidency for the coming year.

Yesterday afternoon Sarah Van Rensselaer, the crack forward of the local basketball team, won the tennis championship of the high school, playing off the finals on the high school court.

WED TO SAME MAN FOR THE THIRD TIME

Special to The Herald. RIVERTON, Wyo., April 28.—Mrs. Amanda Glover, divorced wife of George Glover, a sheepman, who formerly lived in the Newfork region in this state, was married to Henry J. Waters, a Montana railroad man, for the third time.

Mrs. Glover has been married five times, three times to one man, and she has been divorced four times, never having lost a husband by death. Waters is her first husband, and she says that since he is the only one she really loved, he will be the last.

She was first married to him twenty-two years ago and divorced him within three years. Then she married Hiram W. Lomiller.

After divorcing him she was remarried to Waters. Within a year she again divorced him and soon afterward married Glover. A year ago she obtained a divorce from him and has now again married Waters.

KINNEY COMPANY WILL BUILD ITS BATH HOUSE

VENICE, April 28.—Because of the wide disparity in bids for the construction of the cement plunge in the proposed ocean front bath house building, the Kinney company has rejected all proposals and tomorrow morning will probably have the work done by day.

Twenty-six in number, were opened bids, and ranged from \$3900 to \$17,000. The specification called for a cement bath 100 by 150 feet, and the Venetian officials couldn't see why the bidders and not all arrived at about the same figures.

The bath house is to be located on the ocean fronting the broad promenade between Horizon and Zephyr avenues and will be opened to the public about June 1.

New Lake Avenue Methodist Church

GOVERNOR BUCHEL DEDICATES CHURCH

FORMALLY OPENS PASADENA EDIFICE

Five Thousand Dollars Raised at the Morning Services and \$2500 in the Afternoon, Leaving but \$10,000 Indebtedness

Over a thousand people were in the audience which gathered at the morning service in the Lake Avenue Methodist church, Pasadena, yesterday, and the first service since the completion of the \$48,000 structure was as consecrated as could be desired by the most ardent wisher and many were the congratulations received by the pastor, Rev. V. Hunter Brink.

Five thousand dollars were raised at the morning service to aid in completing the building fund. In the afternoon service there was an additional fund of \$2500 raised, leaving a total indebtedness of less than \$10,000. This indebtedness has been assumed by the trustees of the church.

The services opened in the morning by the singing of that old Methodist hymn, "Holy, Holy, Holy," and the reading of the apostles' creed. Rev. S. A. Thompson, presiding elder of the Los Angeles district, offered prayer. The choir sang beautifully the anthem, "The Lord Is My Strength."

The sermon by Rev. Henry A. Buchtel, D. D., L. D., governor of Colorado, was most inspiring. Governor Buchtel chose for his topic "The Future Religion," and discussed the fundamental principles dominant in the religion of the future. He declared that the religion of future years would mean the coming in contact with God. It must make men good.

Religion and Business. He dwelt at some length on the combination of the future religion and business, how the business man could be a Christian and still keep in the struggle with the adversities of the world of barter and trade. Men of today are doing it, and those who have been men of the world all their lives and who have practiced all the tricks of their trade are discarding their non-chalant views of Christianity and accepting the teachings of the lowly Nazarene.

With a consecutive arraignment of facts, clearly put, decisively expressed, the governor reviewed the progress of the church of today and the assuming of principles that will influence and eventually work into the religion of the future, a religion founded on the same principles as the religions of all time, and still enlarged in its scope to take in the expanded and expanding views of the world. He mentioned the future religion as a religion of peace, where strife between churches will be forgotten, and proved his saying by pointing to the development of the past half century in this line. He pictured the world forging how to war and the nations settling their differences through international peace congresses. That, in substance, was the true picture of the future religion.

Financial Condition. The sermon was followed by a rendering of a report on the finances of the church by Secretary Isaac Springer of the board of trustees. The statement showed the church to have on hand practically \$30,000 with which to meet the indebtedness of \$48,000 incurred through the erection of the church.

Governor Buchtel then made a financial appeal, which was heartily responded to by the contribution of \$6000 made by the enthusiastic church members.

The morning service closed with a sense of thanksgiving for the beautiful structure which will henceforth be the home of the Lake Avenue Methodists.

In the afternoon there was a service held at the church, in which all the sister churches of the city were represented through their pastors, and extended a greeting to the new church which has risen to prominence among them. The session opened with prayer by Rev. Dr. A. W. Lampert, D. D., pastor of the First Methodist church of Pasadena.

Responds to Greetings. Governor Buchtel made a response to the greetings of local churches, voiced by their pastors in a fellowship and platform meeting. He spoke on the condition of friendship now existing between the churches of various denominations instead of the differences which have existed in the past. Instead of the antagonistic feeling which dominated the church policies of the past there now reign good cheer and rejoicing in the prosperity of a brother church. The once enmity displayed by all established churches, when a smaller church rose to a position in which it claimed recognition and to a prosperity which could stand the construction of

Special to The Herald. PASADENA, April 28.—Fire this afternoon threatened the residence of Dr. C. A. Hellstrom of 104 North Los Robles avenue. The blaze started in the cellar under the house, and originated from the kindling of a pile of inflammable material by the heat of a furnace. The combustible material had been placed immediately in the rear of the furnace and caught fire from the highly heated jacket of the furnace. The alarm was turned in and the Villa street fire department, after an excellent run, arrived in time to extinguish the flames with the chemical apparatus before any damage had been done to the house. For a time the flames seemed to be uncontrollable and the cellar appeared to be a seething furnace, but a few dashes of the chemical water utterly extinguished the blaze.

KID M'COY'S SISTER SELLS REAL ESTATE. Special to The Herald. LONG BEACH, April 28.—Miss George Selby, a sister of "Kid McCoy," is one of the most prosperous of local realty dealers. Miss Selby is a young and pretty woman and very energetic. She came here a total stranger nine months ago, opened an office in August on an upper floor of the Long Beach National Bank building, and by earnest work has built up a strong business, handling Pomona, Hollywood, Los Angeles, Altadena and Long Beach properties. Her sales have amounted to \$138,000, including a \$30,000 deal just closed.

PASADENA MAN IS ARRESTED FOR LARCENY. W. C. Weight, wanted on a larceny charge, was arrested in Pasadena yesterday morning by S. O. Richardson, a deputy constable. Weight was brought to Los Angeles and lodged in the county jail.

Weight was arrested on a warrant sworn to by Mrs. A. Richards, who claims the prisoner sold some household furniture which belonged to her and kept the money, amounting to \$10.

The furniture was in a house which Mrs. Richards sold to Weight. Weight claims the furniture went with the house. Mrs. Richards claims it did not, and swore out a warrant for the arrest of Weight.

Mining Claims Sold. A \$30,000 mining deal has been successfully negotiated at San Bernardino. L. E. Moore and W. D. Tomlinson, discoverers of Crackerjack, selling the Blue Basket and Ram's Horn mining claims to Joseph Hutchinson and F. V. Martin, wealthy operators of Goldfield. The purchasers have made a mint of money through their Goldfield mines. They are Pittsburg men. They state that the outlook at Crackerjack is most encouraging, and to their minds the district is every bit as good as any of the Nevada claims. They propose to install machinery at once to develop their purchases. Moore & Tomlinson have many other valuable holdings in the district, and they, too, propose to continue development.

Copper Mining District. The Avawatz mountains (Crackerjack district) reached from Silver Lake on the Tonopah & Tidewater railroad in connection with the Rowan-Courtright stage company. Stages leaving Silver Lake every Tuesday, Thursday and Saturday, returning from Avawatz every Wednesday, Friday and Sunday.

Avawatz is a new townsite in the Crackerjack district, half a mile from Crackerjack, one and a half miles from Copper City, four miles from Cave Springs and eight miles from Denning Springs. Suitable hotel accommodations at Silver Lake and Avawatz. Freight service from Silver Lake semi-weekly. H. E. Needham, general agent, 247 Pacific Electric building, Los Angeles, Cal.

Everything you want you will find in the condensed page—a modern encyclopedia. One cent a word.

Special to The Herald. PITTSBURG, Pa., April 28.—Mabel Mercer, the 19-year-old daughter of George T. Mercer, custodian of the county buildings, is the heroine of a regular "shilling shocker" romance. She was in love with the heir of a rich man. Her father pursued her, and, pressing the cold muzzle of a revolver to her head, compelled her to go with him. He put her in an asylum. She escaped from a high window and rejoined her lover, who was waiting for her in a leafy lane with an automobile. He became ill. She nursed him back to health. Her father was still obdurate. She ran away and joined a theatrical company.

The young man in the case is Carl Borntraeger, 19 years old, the ward of H. C. Frick. His father was one of Andrew Carnegie's partners, and the boy will come into \$2,000,000 on his 21st birthday. Carl and Mabel fell in love with each other while she was in a Pittsburg academy. Last Thanksgiving they eloped to New York, but were brought back by H. C. Frick and Capt. Mercer. The young man was ill for a long time and the girl insisted on nursing him back to health. Then he was sent away. Then the girl ran away of her own accord and joined a theatrical company. Her father appealed to Superintendent of Police McQuaid and the girl was finally located in New York. Her father went there and, playing a revolver against her head, forced her to get in a cab and accompany him to Philadelphia, where he placed her in the asylum. Then followed her sensational escape.

Special to The Herald. BANGOR, Me., April 28.—In the course of a hot debate in the legislature this week on the question of abolishing the state liquor agency, Representative Brown of Auburn made the statement that under present conditions the rich people can send to Boston and get their whiskey for \$3 a gallon, but if a poor laboring man wants a quart in Auburn he has to buy it at the agency at the rate of \$6.72 a gallon. Mr. Brown, who has been an itinerant preacher, took a text from the Bible. He said he hunted all over the state house to find a Bible and finally one of the messenger boys found one under a pile of rubbish in a closet. He said he brought the Bible with him into the house of representatives so the members might see it. He said he should favor the adoption of some plan by which the laboring man can get "good rum at cheaper prices."

Special to The Herald. CLEVELAND, April 28.—John D. Rockefeller's name is no longer good enough for the great boulevard he gave the city. The city administration has seen fit to change the name of the upper driveway in Rockefeller park from Rockefeller boulevard to East boulevard, throughout the long stretch from Gordon park to Wade park. Residents in houses and apartments along what has been Rockefeller boulevard are indignant. The change was authorized some time ago, but some affected knew nothing of it until signs bearing the new name were put up within the last few days. They consider the change an insult to Mr. Rockefeller. "He may be enough of a business man to realize that there are a lot of fools at the city hall, and pay no attention to what they do," said one real estate owner. "It looks to me like serving notice on him that the city wants no more of his gifts."

Special to The Herald. LONG BEACH, April 28.—"I steal whatever of value I can get hold of at times when I run short of money with which to buy cocaine." This pitiful statement is attributed by Officer Phillips of this city to W. N. Reynolds, whom he brought down from Los Angeles last night to answer to several petty larceny charges here. Reynolds said he had used the "dope" for twenty-five years. His mental and physical condition is wretched and he was suffering severely when located in Los Angeles. Officer Phillips some time ago traced a number of small thefts to Reynolds.

Special to The Herald. EL DORA, Ia., April 27.—The following placard has found a prominent place in many of the drug stores of the capital city of Iowa, and has for its purpose the discouragement of loving conversations, which have become the bane of the drug clerk's existence in that city: THIS IS A BUSINESS TELEPHONE AND IS NOT TO BE USED FOR LOVE MAKING.
