

SEND RIGS TO OIL LAND EXPERIENCED MEN WILL TEST UTAH LANDS CITY OFFICIALS ARE READY TO INVEST HEAVILY Drilling Will Be Begun at Various Points in Virgin River Valley to Learn Extent of Rich Deposits

With almost enough stock spoken for to float the initial expense of sending machinery to the new oil mesa at Virgin valley, Utah, the city hall coteries which struck it rich in oil in Utah has decided to send three standard rigs to the scene instead of one.

Incorporation papers were signed yesterday for the Los Angeles Utah Oil company of California, they having been drawn up in the law offices of Rogers & Schenk.

Charles H. Fuller, president of the Pioneer Truck company and member of the police commission, has accepted the presidency of the new oil company. Paul W. Schenck will be secretary-treasurer.

"We plan to raise and spend \$20,000 in six months on the wells at far separated points on our holdings. "I have heard nothing but oil since the big well was struck at Virgin City last week, and this new field has already caused a big awakening among Los Angeles oil men.

"A score of local oil men have joined the rush that is going into the new field from Menapa, Modena and Lund, on the Salt Lake railroad. We have two men on the ground to protect our original locations, which are reported to be in the heart of the oil producing zone. They know every foot of the country.

Ed Clamptitt will go up to superintend the preliminaries of work as soon as the council finishes its work of tax equalization on Thursday. The fire at his wells this afternoon was unfortunate, but this can be attended to by others.

"I cannot give a definite answer to my many inquiries until Monday or Tuesday, when our proposed directors will make an official announcement to make. "It is likely that we shall hold onto the proposition pretty closely among ourselves, although we have evidence enough now so that we want to go right ahead putting down wells.

"The new Utah field is directly tributary to Los Angeles, being just halfway to Salt Lake and about forty miles off the Salt Lake railroad. Our oil wells and the Salt Lake houses should keep an eye on the trade.

"We have received word that over 10,000 acres has been located the past few days, but the oil-seekers are having trouble in the Virgin river country. Several automobiles have been shipped to Lund from here, and the congestion of travel inland will doubtless soon be relieved."

OIL EXCITEMENT REACHES FEVER HEAT AT VIRGIN By Associated Press. ST. GEORGE, Utah, July 20.—Oil excitement is at fever heat. Petroleum locations made in the vicinity of Virgin during 1906 and 1907 number 225, covering an area of about 23 square miles.

But some ground is probably covered by more than one filing and other rush of locations has been begun since oil was struck. Locations heretofore made have been in the region above and east of Hurricane fault. Many locations are now being made west of the fault and east of Washington field.

WEALTHY JAPANESE WILL TEACH ORIENTALS MOTORING Buys Four Fastest Automobiles He Can Find in All England

By Associated Press. NEW YORK, July 20.—K. Okura, son of the steel king of Japan, who has been studying at Cambridge, has arrived here from Europe with four of the swiftest automobiles he could buy in the London market.

They are mostly of French make and he is going to take them home to Japan via San Francisco and show his countrymen how to drive a car.

Okura had a secretary and a retinue of servants. At a recent race in England he arranged with Wagner, the expert chauffeur, to drive his car.

Wagner hurt his arm at the last minute and could not drive. The little Japanese jumped in and made the race as owner and driver, finishing second.

STREET CAR CREW SHOT FOUR OTHERS INJURED WHEN BUILDING IS WRECKED

STRIKE BREAKERS ARE FIRED ON FROM AMBUSH Deserted Car Turned Loose and Runs Down Hill with Frightful Speed, Demolishing a Small Building

By Associated Press. SAN FRANCISCO, July 20.—As a result of an attack upon the strike-breaking crew of a car late tonight two men were shot and wounded, four persons were injured in the wrecking of a building by a runaway car, many others were severely clubbed by the police and more than a score of arrests made for rioting.

While a car of the United Railroads, in charge of J. Taitzky and Motorman Morris Felle, reached the end of its run on top of the hill at Twenty-ninth and Noe streets about 9:30 o'clock and the crew was just starting on the return trip, three unknown men standing in the darkness about fifteen yards away opened fire on the car with revolvers.

Conductor Taitzky had just raised his left arm to signal the motorman to go ahead when a bullet smashed his elbow. Almost at the same moment Motorman Felle dropped to the floor of the car with a bullet in his right thigh.

Another car was coming up the hill at the time and upon arriving at the top the crew left it standing. The car with the wounded men with all possible speed to the car barns at Twenty-ninth and Mission streets.

They will leave tomorrow morning with Fred H. Magill and wife for Clinton, Ill. Shortly after their arrival the sheriff and Mrs. Campbell visited the Magills in the county jail.

The latter were pleased to see the Illinois sheriff and his wife, with whom the conversation did not include the death of Mrs. Pet Magill and the charge against her husband and his second wife.

Magill, however, expressed his wish to return to Clinton. Magill was seen by reporters during the sheriff's visit, but he firmly declined to say a word about his case.

The future movements of Mrs. Magill, who is somewhat doubtful, Sheriff Campbell this evening said: "I believe that when the time comes for us to start east to Clinton the daughter will appear. It is my firm conviction that she will be the most important witness in the case, although on which side I cannot say at this time. This will undoubtedly depend upon what statements she makes."

To a reporter Sheriff Campbell said: "Cyrus Jones, the Dewitt county coroner, who conducted the inquest at the time of the death of Mrs. Pet Magill, stated to me before I left that Frederick Magill handed to him the names of the six men whom he wished selected for service on the jury at 8 o'clock in the morning. This action on the part of Magill led to suspicion."

The coroner told me that Magill, after selecting the names of the men who he wished on the jury, he had telephoned to three out of the six."

INTERNATIONAL CONGRESS OF ALL-ISRAEL PLANNED Jews Will Form Order to Protect Their Oppressed Brethren

By Associated Press. NEW YORK, July 20.—Delegates from all the Hebrew organizations in the United States will be invited to attend the meeting in Carnegie hall next October to establish an international Jewish conference.

Arrangements to this end have been made by the executive committee, of which Dr. Jules Weise is chairman. It is expected that fully 200 delegates will attend.

Abraham S. Schomer is the promoter and president of the organization which is to act as a bond of union for the Hebrews of the world.

It is proposed to call the body the international congress of all-Israel. The advantages urged are that it will be able to act authoritatively in case of oppression or massacre and be entitled to recognition from the czar of Russia or any other ruler.

Headquarters probably will be in London. Discover Asphaltum SHOSHONE, Wyo., July 20.—The discovery of thick beds of asphaltum in the Shoshone oil fields at the eastern base of Copper mountain is reported.

Many large samples of an excellent quality of this material have been brought into town within the last few days from these oil fields.

JOAN OF ARC OF CUBA DIES AT HAVANA HOME Woman Wielded Machete in Island's Struggle With Spain

By Associated Press. NEW YORK, July 20.—Cable advices from Havana, Cuba, announce the death of Senora Juan Quesada, the Cuban Joan of Arc, at the age of 70 years.

Senora Quesada was the best known woman in the island. She came of a good family, but despite the comforts and luxuries which her circumstances gave her she chose to aid her countrymen in the field and wielded a machete in the ten years' struggle against Spain.

Patrick Karsfield Gilmore, who in those days conducted the Twenty-second regiment band at Manhattan beach, often publicly honored the woman patriot by playing Cuban national hymns whenever Senora Quesada was in the audience.

FEDERAL JUDGE FINDS JURY HAS JURISDICTION Refuses to Quash Indictment Brought Against Standard Oil Company

By Associated Press. MEMPHIS, Tenn., July 20.—Judge McCall of the federal court today decided that the federal grand jury which returned an indictment of 1524 counts against the Standard Oil company was acting within its jurisdiction.

The Standard Oil company attorneys had moved to quash the indictment, alleging that the grand jury had no power to indict officials living in other states, even though the alleged crimes were committed in Tennessee.

This motion Judge McCall has overruled. The effect of the decision will be that officials living in Indiana may be brought here to testify. It is believed that John D. Rockefeller will be brought here as a witness in the case.

SHERIFF ARRIVES TO TAKE MAGILLS TO TAKE MAGILLS BELIEVES DAUGHTER WILL BE IMPORTANT WITNESS

Illinois Officer Will Take Alleged Slayer of First Wife Back to Clinton, Leaving Today

By Associated Press. SAN DIEGO, Cal., July 20.—Sheriff Harvey Campbell of Dewitt county, Illinois, accompanied by his wife, arrived in this city by the afternoon train.

They will leave tomorrow morning with Fred H. Magill and wife for Clinton, Ill. Shortly after their arrival the sheriff and Mrs. Campbell visited the Magills in the county jail.

The latter were pleased to see the Illinois sheriff and his wife, with whom the conversation did not include the death of Mrs. Pet Magill and the charge against her husband and his second wife.

31 KILLED IN WRECK SEVENTEEN INJURED AND SOME MAY DIE OF WOUNDS

Excursion Passenger Train Heads into Freight Crew of Freight Blamed for Accident for Having Forgotten Train Orders—Six Coaches Are Demolished

By Associated Press. SALEM, Mich., July 20.—Thirty-one people were killed and more than seventy injured in many of them seriously, between this village and Plymouth today when a Pere Marquette excursion train, bound from Ionia to Detroit, crashed into a westbound freight in a cut located at a sharp curve of a mile east of Salem.

HARRY WILLIAMS, 17, Ionia. E. J. PIXLEY, conductor passenger train.

Herman and Daniel Hess, aged 15 and 18 years respectively, were the sons of Charles Hess. A widow and six other children are left by Hess. The passenger train of eleven cars, carrying the Pere Marquette shop employes of Ionia and their families to the Michigan metropolis for their annual excursion was running at a rapid speed, probably fifty miles an hour, when it struck the freight train.

It struck the lighter locomotive of the freight train with such terrible force as to turn the freight engine completely around. The wrecked locomotives this afternoon lay side by side, both headed eastward.

Only a few of the freight train's cars were smashed and it took only a few hours' work to remove all traces of them from the scene.

Six Coaches Wrecked Behind the two wrecked locomotives six cars of the passenger train lay piled in a hopeless wreck. Four of the passenger coaches remained on the track undamaged and were used to convey the dead and injured to Ionia; one coach was undamaged and only its forward trucks off the rails.

These were the rear five cars. The two coaches next ahead of these were telescoped. The next car forward stood almost upright after the wreck, its forward end resting on the roadbed.

Fireman Knowles died on the relief train en route to Detroit, bringing the list of dead to thirty, with a possibility that more bodies might be found in the wreckage and that several of the injured may die.

CROZIER CONFIRMS PLANS FOR ARSENAL AT BENICIA Extensive Construction Work to Be Done on Pacific Coast

By Associated Press. WASHINGTON, July 20.—General Crozier, chief of ordnance, has confirmed the plans for its improvement. The Benicia arsenal in California for the improvement of the plant of which congress has made an appropriation.

General Crozier found the affairs of the arsenal in good shape and confirmed the plans for its improvement. Owing to the high price of material and labor upon the Pacific coast, it has heretofore not been found advisable to undertake the manufacture of small arms or big guns on the Pacific coast, but now to maintain the force of trained mechanics and keep open the line of supply of ordnance material necessary to make the Benicia arsenal of greatest value to the war department, General Crozier has planned to have constructive work undertaken there to a moderate extent.

COUNSEL WANTS TO FIGHT PROSECUTOR DUEL MAY OCCUR FROM HAU TRIAL

Defense Appears to Be Trying to Throw Suspicion on Servant Formerly Employed in Molitor Household

By Associated Press. KARLSRUHE, July 20.—Mysterious incidents are multiplying in connection with the trial of Karl Hau, the college professor of Washington, D. C., on the charge of murdering his mother-in-law, Frau Molitor, at Baden Baden, November 6, 1906.

Soon after the court opened today another tilt between opposing counsel occurred, during which Herr Deltz, counsel for Hau, announced that he had sent his representatives this morning to Dr. Bleicher, the state attorney, in connection with remarks made by the attorney at the sitting yesterday, and that Dr. Bleicher had refused to receive those reports.

Herr Deltz later informed the newspaper correspondents that he intended this as a preliminary step to a duel. Dr. Bleicher said last evening that the criticism made by Herr Deltz of the expert testimony was insulting.

Another sensation today was the sudden summoning of a witness made by Herr Deltz of the two witnesses from Karlsruhe. Artist is Witness One of these witnesses is a young artist named Leniek, who recently was confined in the same prison with Hau upon both a charge of which he has since been acquitted and the other is Leniek's counsel, Dr. Vogel.

The latter swore his client had an interview with him in which he declared he had important information which he had obtained from Hau while they were both in prison and which was calculated to give an entirely different aspect to the case.

At this point court was adjourned until this afternoon to take Herr Deltz' motion under consideration. It has now become clear that the line of action of the defense is to throw suspicion on a man named Welland, who was in the employ of the Molitors as a servant.

The appearance of Welland, however, does not correspond with the man that was seen following the Molitors. A mysterious circumstance is that Welland disappeared soon after the murder and the prosecuting authorities have not been able to ascertain his whereabouts.

In view of the introduction of such points as the foregoing, the hearing of the case will be prolonged into next week.

TRAIN STRIKES AND KILLS AGED MAN

By Associated Press. SAN FRANCISCO, July 20.—Peter Sheridan, an aged man who lived at 126 Chery street, was struck by a train at Bernal street near College Hill this morning and was killed.

The engineer sounded the bell but Sheridan did not heed it and was struck before the train could be brought to a stop. Sheridan was 65 years old and was formerly employed as tender of the Fourth street bridge.

ATTEMPT TO KILL CABINET REIGN OF TERROR EXISTS ALL OVER KOREAN EMPIRE

JAPANESE TROOPS ARE BEING SENT TO SCENE People Are Inflamed by Successful Murders, and Riots and Bloodshed Are Looked for in Any Place

By Associated Press. SEOUL, July 20.—The streets were being cleared at noon when deadly rifle firing was heard in different parts of the city, presumably by the deserters from the Ping Yang regiment, whose plotting continues.

A concerted effort was made at 2 o'clock this (Sunday) afternoon to murder the entire cabinet. After haranguing at the Temple of Heaven a mob of 2000 marched a mile to the mansion of Iwanung, which they sacked and burned.

The same fate was then visited on the homes of the prime minister and others. The mob then proceeded to the home of the minister of war, near the old palace, but here they were met by Japanese guards, who repulsed the visitors, wounding and killing many.

Marquis Ito delayed his arrival at the emperor's audience an hour, while the foreign consuls general awaited. Ito Heavily Guarded He approached in great state and with a heavy guard, especial precautions being taken while passing the palace, where the suspected battalion of Korean imperial guards was closely entrenched in the streets opposite the palace.

The number of machine guns was doubled, covering all the main approaches to the palace. Troops are patrolling the main streets of the city in the face of a mob inflamed by the news of the murder.

The anger of the Korean mass appears now to be directed less against the Japanese than against the Korean ministers, all of whom they have vowed to kill. The environs of the American and British embassies are guarded on account of their proximity to the palace.

TOKIO SUSPICIOUS OF EMPEROR'S ABDICATION

By Associated Press. TOKIO, July 21.—When the news of the probable abdication of the emperor of Korea was first received here it was construed as a cunning move to escape the consequences of The Hague incident. It is suggested in a certain quarter that the abdication should not be recognized until the problem caused by the Korean government's action at The Hague is definitely and finally settled.

What form this abdication will take, however, will be a matter of great importance to Marquis Ito's plan until after his formal audience with the new emperor is held. The result of this audience will first be made known in the official report from Korea and then published here. The feeling is growing that the time has come to put a finishing touch to Japanese suzerainty over Korea.

It is premature to surmise, however, what form this abdication will take, but the riotous and mutinous behavior of the Korean soldiers in Seoul, attributed solely to Korea's international affairs and necessitating the imperial appeal to Marquis Ito and then published here, a frank confession of the administrative impotency of the Korean government.

For the sake of peace and the development of the peninsula it is expected that the new arrangement will greatly extend the scope of the November convention and enable the Japanese to exert full power over the internal administration of Korea.

It is rumored that this has already been effected in such form as not to further require Marquis Ito's personal weight, and he will soon return to Tokio.

PEOPLE INFLAMED BY SUCCESSFUL MURDERS

By Associated Press. PING YANG, July 20.—All the shops here are closed. There is great excitement among the natives, who are unaware that abdication has been accomplished.

The safety of Japanese residents is problematical, as the departure of a regiment for Seoul leaves only 800 Japanese troops in the city. The shops of Seoul have been closed all over the city for six hours. Today the crowds are greater and the native spirit is higher, necessitating a greater show of military force, as the people are inflamed by the successful killings of yesterday.

General Hasegawa has two machine guns placed in the palace square. Not only is the Korean army regarded as incompetent to cope with the situation, but the numbers of the Japanese troops are wholly inadequate.

Arrangements have been made for reinforcing them from Shimonsaki. Hostilities are directed wholly against the Japanese.

Other foreigners are safe. Much apprehension is felt for the safety of Japanese in the interior places when the Korean masses learn, as they will in a few days, of the momentous events that have occurred.

PALACE GARRISONED AND GATES WATCHED

By Associated Press. SEOUL, July 20.—At 11:30 o'clock last night Gen. Hasegawa's troops garrisoned the palace and were stationed at the gates of the city and all important places during the night.

The Ping Yang regiment, said to be the best in the Korean army, was disbanded on account of having furnished yesterday's mutineers and also because it was suspected of plotting to capture the palace in attempted coup d'etat.

The students of the military school are reported to have attempted to collect military supplies on a hill overlooking the city. The Korean army is widely distributed over the country and is not feared. Yesterday's disorder extended to the suburbs for a distance of two miles, where a station master on the Champo railway is reported to have been killed.
