

SISTERS AT INSTITUTE

BISHOP CONATY PRESIDES AT SESSION OPENING

MUSIC, GEOGRAPHY AND HISTORY ARE FEATURES

Lecturer Does Not Believe That War Study Instills Patriotism of the Right Sort but is Harmful

The annual sisters' institute of the diocese of Monterey and Los Angeles opened yesterday morning in Columbia hall, Santa Monica. It will continue with two sessions daily until Friday night.

Bishop Conaty, who has the institute in charge, presides at the sessions, and yesterday made helpful remarks on the various addresses.

James F. Chamberlain of the Los Angeles normal school opened the institute yesterday morning with an address on "Geography in Its Relation to Other Studies."

The speaker dwelt on geography as taught in former years and as taught at present, making his talk very interesting with applications to be given to the children. This series on geography will be continued by Prof. Chamberlain daily through the session.

At the afternoon session Miss M. Teresa Finn, supervisor of music, St. Louis, Mo., spoke on Music from the Child's Standpoint. She said in part:

"I have had seven years' experience with 25,000 pupils a year and I have yet to find the child that does not like music. It may take time, but it will come. "The first year it may take to learn to get on the right key. Give them songs that are a part of their lives. And give them gestures in the first year. The boys love to march, and the girls love to sing the dolly songs.

Not Answer Expected

"Most children know the 'Mother Goose' rhymes and you can make use of these in little songs.

"One afternoon in the school down in the Anheuser-Busch brewery district in St. Louis I was teaching a class. I wanted them to say do, te, la instead of the old do, ce, la, and I, trying to impress the te on their minds, asked them what their mother had in the afternoon about 5 o'clock, and a chorus answered, 'beer.' You cannot always depend on the answers of the children.

"The tone should always be kept soft. The volume should be sacrificed for the softness.

"I remember one class of the homeless, really had children in an institution in St. Louis. The older boys had decided to put their teachers out.

On the first day I went there they simply told me they had decided to put me out. They openly made fun of me at BEUTEL if a dozen times, but I didn't pay 15, native. But after that I never had a Los Angeles teacher class than those boys.

NELSON OTT the music.

aged 25, a few humorous remarks on the life of a teacher. He then introduced the topic of Keyes, superintendent of WALLACE Hartford, Conn. Prof. Keyes took up the topic, "The Purpose of History in the School Curriculum." He said in part:

"It is a great pleasure for me to address teachers whose devotion is unquestioned. Usually in an institute there are devoted ones and those simply the passengers.

Livelihood Not All

"Many people send their children to school simply to learn to read and write and to elpher. Simply to win their bread and butter. It is not simply to earn the livelihood.

"It is to equip oneself to be honest, to be worth while, in every civilized land both church and state pour forth money into the schools. The church and the state would not be justified in spending this money were it simply to equip bread winners. The great command is 'repeat and improve yourselves.'

"The schools endeavor to make men and women of character. If the pupils forget all they may learn, if they bear the stamp of manhood and womanhood then their education has not been in vain.

"The purpose of history is to give to youth ideals of life. It is the wisely chosen experience of the wisely chosen men that gives the ideals of manhood. History is the story of the experiences of individuals and of nations.

Server Important Factor

"Do not try to teach of equal value all the events of any one man's life. It is not the soldier or the ruler that is the important factor. It is the server. The true leader will be the true server.

"I once heard a congressman say that he was the hired man and that he had done his chores as he thought he should. The great ruler is the great server.

"In the higher position the server is simply made servant to a larger number of people.

"Thank God he has given us a forgettery as well as a memory. I protest on our boys and girls being fed so largely on the stories of wars and of great rulers.

but hate yours. We love our friends but hate our neighbors.

"It is no evidence of love for my own that I am pursuing with fiendish zeal some other's ideals. There has been too much of 'me and my wife, son John and his wife, us four and no more.' Today we are reaping the fruits of past history teaching.

"It is one of the sins of modern life. It says that we are a body of people and the others are a people from our legendary foes, people we have fought with or would fight with if we had the chance.

"The wise teacher will not say, 'My country, right or wrong.' But she will say, 'My country, may she be forever right.'

No Place for Hatred

"The new history will have no place for hatred. In its place it will have love for country, something more than ancestors. It will mean love for our brothers and sisters and the boys and girls, the men and women of the coming generation.

"It will not say, 'Are you ready to die for your country?' but 'Are you ready to serve your country in peace, not to die, but to live for her, and perhaps not even get your name in the newspapers?'"

Bishop Conaty made a brief address in which he said that the hatred engendered for the various nations in history was little compared to the theological hatred of the various religions. "However, the sun has been allowed to shine, truth is mighty and will prevail," said the bishop.

The session will open at 10 o'clock this morning with an address by Miss Elizabeth Sullivan on "Methods in Grade Work." Prof. Charles Chamberlain will speak on "Geography in the Third and Fourth Grades."

This afternoon Prof. Keyes will deliver the second of his series on "History," and Miss May Cotter will speak on "Oral English."

FINED FOR SELLING LIQUOR TO MINORS

Police Justice Lectures Officers for Sending Children for Strong Drink in Order to Secure Evidence

C. O. Wolff, a wholesale liquor dealer with a store at 2208 Central avenue, was fined \$100 by Police Justice Frederickson yesterday on a charge of selling liquor to minors.

In giving his decision the justice took occasion to lecture the police department's methods in procuring evidence where minors were concerned.

He said that it was not a very praiseworthy thing to persuade small boys to go to liquor stores and buy liquor, for they might have the desire to do it again.

He said he did not blame the patrolmen who were instructed to get evidence but he thought it would be better for the officers to "lay off" the offenders.

Neighbors in the vicinity of Wolff's saloon say that he has been in the habit of selling liquors to boys and it was through their complaints that the practice was discovered by the police.

HUSBAND CLAIMS WIFE TREATED HIM CRUELLY

Secures Divorce on Ground That Spouse Used Knives and Forks as Weapons of Offense

Michael Wester was granted an interlocutory decree of divorce from Johanna Wester yesterday by Judge James in the superior court on the ground of cruelty.

The Westers had been married ten years and have two children.

On the stand yesterday Wester said his wife had threatened to pour hot water on him, and did on several occasions throw knives, forks and other kitchen utensils too numerous to mention at him, and had abused the children shamefully.

They formerly lived at Patterson, N. J., where Mrs. Wester is now.

He came here with the children two years ago, after Mrs. Wester had been arrested and fined for undue cruelty to the children. No contest was made.

FALLS FROM LADDER AND DEATH MAY BE RESULT

Broken Jawbones and Severe Concussion of Brain Make Victim Frantic with Pain and Resists Treatment

George Boehch, a young Austrian twenty years of age, fell from a ladder at the Llewellyn Iron works yesterday afternoon and received injuries which may result in his death.

Both jawbones were broken and a severe concussion of the brain resulted. The police surgeons say that the concussion may cause his death at any time.

When taken to the receiving hospital Boehch was insane with pain and fought the doctors and police, who were trying to hold him down so that he might be treated.

He was finally quieted with a drug and his wounds dressed.

Boehch is an electric helper and lives at 632 Aliso street.

Self-Reducing Corsets

THE NEMO FOR STOUT WOMEN

Hundreds of satisfied women are wearing the Nemo Self-Reducing Corsets. It's the most popular corset set for stout women. It's the most popular priced corset. Ask about the models we show at \$3.50. Third floor.

JAPANESE ADMITS HIGHWAY ROBBERY

ARRESTED AFTER HOLDING UP MAN AND WOMAN

Offers to Take Forty Dollars to Homes of Patrolmen if They Will Kindly Excuse Him from Jail

George Koboyashi, a Japanese, was arraigned before Justice Chambers yesterday on a highway robbery charge.

His preliminary examination was set for today at 11 o'clock and bail was placed at \$300.

Koboyashi was arrested by plain clothes men Wallace and Graham at ten minutes after 12 yesterday morning at the corner of Eighteenth and Hope streets just fifteen minutes after he is charged with having held up two persons at the corner of Twenty-first and Figueroa streets.

He admits that he aimed a gun at the faces of Harry B. Skanks and Miss Nellie Grant while they were returning to 47 West Twenty-second street Sunday night. The couple had been to a reception and were returning home. The Japanese says he took a watch from Skanks and a very fine purse from Miss Grant.

After rifling the purse Koboyashi says he threw it away and followed the dark streets on his way to the business district. He says he hoped to get some more booty from other pedestrians on his way.

That is where his luck left him, for he had been walking only fifteen minutes when the plain clothes men on their wheels overtook him and sent him to jail.

Meet Japanese's Victims

The two officers were doing some observation work in the neighborhood of the robbery and happened to meet the robbed couple soon after the deed was committed. When given a description of the robber they started in to scour the surrounding country in hopes of locating the highwayman.

Their efforts were soon rewarded, for they found the Japanese shuffling alone in the dark, watching a man at the intersection of Eighteenth and Hope streets. When arrested the Japanese took the officers to Washington and Figueroa streets, where he found the woman's purse which he had thrown away.

On the way to the station the Japanese asked the patrolmen where they lived. When they told him he said: "You excuse me. I come your house tomorrow. Bring you \$40. Then it'll be all right. You like that?"

The policemen laughed and pursued their way to the station.

knows the things taken are worth considerable to the Melzer family.

He says that the robbers came to the house Sunday night but he does not know the time.

They carefully took the screening from the side door of the back porch and slipped inside.

Then they "jimmied" the back door and when inside "no further violence was

necessary for all the doors were unlocked. Mr. Melzer is a wholesale liquor dealer. The thieves left the same way they entered.

Another daring robbery reported was that of the house of Samuel Reina at 2000 East Hunter street.

"The robbers entered the house by means of a pass key, and carried away two watches and forty dollars in cash.

This robbery was also committed Sunday night.

Samuel Ruth, 222 South Main street told the police yesterday that his room was entered and fifteen pairs of shoes taken. He does a small business in shoes and this was his entire stock.

An attempted robbery was reported by William Brown, 2004 East Hunter street, just a few doors away from the house

of Reina from which the two watches and \$40 in money were taken.

The thieves entered the house by means of a pass key but were evidently disturbed, for they departed without carrying away anything of value.

The detectives have faint clues on all of these jobs and have hopes of catching some of the robbers.

100,000 SHARES OF THE CAPITAL STOCK OF THIS COMPANY ARE OFFERED FOR SUBSCRIPTION AT \$100 PER SHARE

This company has been organized to loan money on income property in San Francisco on what is known as the bond and mortgage plan. This involves the issuance of bonds secured by first mortgages on income property, and the sale of guaranteed mortgages.

AN EXCEPTIONAL OPPORTUNITY TO MAKE MONEY. EARNINGS OF CAPITAL STOCK SHOULD CERTAINLY EXCEED 12 PER CENT PER ANNUM

A FEW WORDS TO INVESTORS—

As to Bond and Mortgage Companies: The first was founded by Frederick the Great of Prussia in 1770. The system proved so sound that these companies spread over Europe, and within the past few years have been introduced into America. The cities of Paris, Berlin and Vienna have been built largely through these companies. Their success has been phenomenal. The European companies have outstanding bonds aggregating billions of dollars. Their securities are of such high order that they have been able to borrow money as cheaply as 2.60 per cent per annum. We cite the credit Foncier of Paris as a model. At the time of the Franco-Prussian war the bonds of this company sold higher than French Government bonds. Similar companies operating in New York, Chicago and elsewhere in the United States have met with great success. One such company has now outstanding loans upon New York real estate exceeding \$95,000,000. The capital stock of these companies in America is earning from 12 to 16 per cent per annum. This company should care more on account of its exceptional opportunity.

As to San Francisco: San Francisco is the financial heart of the great empire of California. It is the child of California. As California grows in dignity and importance—and it is rapidly growing—San Francisco will grow correspondingly. San Francisco is being rebuilt; its vast business requires better accommodations. Since the first \$100,000,000 has been expended for new buildings, but \$200,000,000 more will be required for the construction of the new city, and \$200,000,000 of this within the next five years. Money is urgently needed. Of this there can be no question, and the security offered cannot be excelled. The total of the city's assessment roll, based on a 60 per cent valuation, is \$429,000,000—a gain of \$53,000,000 in the past twelve months. San Francisco is entering upon a period of unparalleled prosperity; from foreign commerce; from the rapid development of California, with a population of but 2,000,000, yet an area larger than that of Italy, which sustains a population of 32,475,000; and from the \$25,400,000,000 of business east of California, a considerable portion of which is turning its attention toward trade with the Orient, with its hundreds of millions who are becoming weaned away from the simple wants of ages, and hungry for the products of the west, for which trade San Francisco is the natural gateway.

There is no investment safer than that offered by the SAN FRANCISCO BOND AND MORTGAGE COMPANY, and owing to the exceptional conditions, the net earnings of its capital stock should considerably exceed 12 per cent per annum.

PLAN OF OPERATION

The paid in capital is loaned on approved mortgages. These mortgages are assigned to a trustee, and against them the mortgage bonds of the company are issued. No change in securities is permitted without the consent of the trustee, who must first be satisfied that the value of the mortgage to be substituted is at least equal to that of the one to be withdrawn. The money realized from the sale of these mortgage bonds is loaned, and the new mortgages are assigned to the trustee, against an issue of additional bonds, which in turn are sold, the process being repeated as often as the business warrants. In addition to this, mortgages guaranteed by the company are sold to investors at a lower rate of interest than called for by the mortgages, the company profiting by the difference.

The San Francisco Bond and Mortgage Company has three sources of profit:

1. Interest earned on its paid up capital.
2. Difference between what it earns on mortgages and what it pays on bonds, which is usually 1 1/2 per cent.
3. Difference in interest on guaranteed mortgages sold by it, which is usually 1 per cent.

Stock subscriptions will be received in LOS ANGELES at Merchants Trust Company, 209 South Broadway, until July 31, 1907; also in San Francisco at the offices of the company, 30 Montgomery street

—AND AT—

SAN FRANCISCO NATIONAL BANK, Merchants Exchange Building.
