

WILL ACCEPT CORY REPORT

TRUSTEES TO ASK FOR \$200,000 BOND ISSUE

NEED LARGE SUM FOR STREET LIGHTING

Pasadena Council Holds Executive Session and Decides to Adopt Expert's Suggestions in Regard to New Municipal Plant

Pasadena Agency, 77 North Broadway, Phone: Sunset 1807, Home 2124.

PASADENA, Nov. 8.—After a thorough discussion of the Cory report in executive session tonight, the city council decided to ask for additional bond issues in two propositions, aggregating \$200,000, to carry out the recommendations of the report.

One of the propositions is to issue \$50,000 for the purpose of completing the lighting plant as it now stands, so that additional street lights can be put in the outlying districts and to furnish energy for the cluster lights in the business district. The second proposition is to vote \$150,000 to equip the plant for commercial lighting. It is proposed after the bonds are voted to resume construction work and to give the people who are now clamoring for light the relief asked as speedily as possible. The work of enlarging the plant for commercial lighting will be taken up afterward.

The date for the election to vote the bonds was left for the regular session of the council next Tuesday to decide. Mayor Earley said tonight that it was the purpose to call the election for as early a date as the law allowed. At tonight's conference Councilman Barnes was unable to be present and Councilman Dyer is still a patient at the hospital.

CITY MAY USE DUCTS IN SUNSET COMPANY'S CONDUITS

Special to The Herald.

PASADENA, Nov. 8.—As a conciliatory measure to the city the Sunset Telephone company, through General Manager Bradley, today notified Mayor Earley that all objections to the municipality using a portion of its conduits for electric light wires have been withdrawn.

Some time ago when the city proposed to assess a special tax on each pole maintained by the Sunset company, Manager Bradley came here and held a conference with Mayor Earley and other city officials at which it was suggested that the pole tax might be withdrawn in consideration for concessions, one of which was the use of the company's conduits on Colorado street and Fair Oaks avenue for feed wires from the municipal light.

Manager Bradley thought the fire underwriters would object to such an arrangement, but promised an agreement in case the underwriters acted favorably. Today the information came that all objections are waived. The city not only gets the use of two ducts in each of the conduits, but also is granted the free use of cross arms where needed or the Sunset poles.

PASADENA DOCTORS WANT SMOKE NUISANCE ABATED

Special to The Herald.

PASADENA, Nov. 8.—The Pasadena Medical society will take steps to abate the smoke nuisance in Pasadena. At its meeting last night Dr. Lockwood and Dr. Zull were appointed a committee to look into the matter and recommend to the city council an ordinance regulating the alleged nuisance.

The society also elected Dr. Sherry president, Dr. J. E. Jones clerk and Dr. Hoag counselor.

The society will ask the council to adopt such measures as will prohibit the illegitimate practice of medicine. The committee on pure foods was instructed to co-operate with the council.

THROU PUPILS TO GIVE VAUDEVILLE ENTERTAINMENT

Special to The Herald.

PASADENA, Nov. 8.—The student organization of Throp Institute is preparing to give a vaudeville entertainment prior to the holiday vacation. Some of the best entertainers among the pupils are now engaged on the preliminaries of the program, which will include a wide variety of songs and comic specialties.

FOUR WARSHIPS TO PAY VISIT TO LONG BEACH

Special to The Herald.

LONG BEACH, Nov. 8.—Positive confirmation of the report that the four warships from Santa Barbara would anchor at the Long Beach pier was received today in a telegram from Admiral Dayton to James A. Miller, secretary of the chamber of commerce.

Admiral Dayton stated that the vessels will arrive off the local pier about 10 o'clock Sunday morning. The ships will leave Santa Barbara at 4 o'clock tomorrow afternoon.

TWO AUTOS ARE STOLEN WHILE OWNERS WATCH SHOW

Special to The Herald.

LONG BEACH, Nov. 8.—While Norris and Rowe's circus was in progress last night at the Santa Barbara would anchor at the Long Beach pier was received today in a telegram from Admiral Dayton to James A. Miller, secretary of the chamber of commerce.

FIRST STEP IN BUILDING SHIPYARD TO BE MADE

Special to The Herald.

LONG BEACH, Nov. 8.—The work of laying out the line for the first building of the Craig Shipbuilding company will begin tomorrow. Today A. L. Becker, superintendent, and Joseph Pugh, President Chag's representative, went over the big site, making preliminary plans.

RECEPTION TENDERED. PASTOR IS GENERAL

PASADENA, Nov. 8.—Heartily welcome was extended Rev. J. Loba, the new pastor of the West Side Congregational church, and Mrs. Loba at a public reception tendered them this evening.

The church parlors were decorated with loads of chrysanthemums, which were donated in large numbers by Mrs. J. W. Scoville. Many ladies of the church assisted Dr. and Mrs. Loba in receiving, and besides the regular members many Pasadena residents outside of the circles of this church called and paid their respects.

In the dining room refreshment tables were presided over by Mrs. Clarence Austin, Mrs. Roy Davis, Mrs. Revel English, Mrs. Sylvester Seago, Mrs. John Traylor and Mrs. Will McQuilling. The table covering was a fine piece of Mexican drawn work brought here from the City of Mexico by Mrs. J. P. Baumgartner.

Dr. and Mrs. Loba, who recently came here from Evanston, Ill., are valuable additions to Pasadena's social circle.

SEA, SMASHING PIER. ENDANGERS WOMAN

PATROLMAN RESCUES CHILDREN IN PONY CART

Making Temporary Bridge of Planks Torn by Waves, Officer Quiets Animal and Leads All to Safety

Special to The Herald. LONG BEACH, Nov. 8.—Driving out on the long pier today in a pony cart, a woman and two children were placed in an extremely perilous position, and for a time it was feared that before help could reach them they would be washed into the sea, which was running high, and threatened to tear away a part of the structure.

The woman had driven to the end of the pier and was returning when a huge wave dashed against the massive piles, shaking the foundations of the pier and forcing upward a number of planks in the floor. The pony and cart stood on planks which had remained intact, while in front of the animal and to the rear of the vehicle the planking was torn up bodily and cast adrift.

The woman screamed for help and Patrolman Shallenberger, attracted by her cries, made his way as best he could to the place where the pony, almost overcome with fright, was plunging madly and threatening to carry the cart and its occupants into the water.

Shallenberger, after much exertion, succeeded in replacing the planks, but as he was about to lead the animal to safety, another and stronger wave carried the woman and children were taken from the cart and placed in a position of safety. The woman, who was screaming in fright, fastened on the officer returned to get the woman and children.

Picking the children up, he first carried them across and placed them in the cart, returning for the mother. It was necessary to lead the thoroughly frightened animal to the end of the pier.

Other damage was done today by one of the most severe storms known here for some months. The tide was at its highest point for a month, and through the large openings forced in the floor of the pier the water dashed up on the long promenade.

STAGE BANDITS CAUSE CRIME AMONG YOUTHS

Chicago Judge Denounces Plays in Which Desperadoes Are Made to Appear in Heroic Roles

By Associated Press. CHICAGO, Nov. 8.—"I think it is time for the people of Chicago to exhibit moral stamina enough to annihilate plays in which bandits and desperadoes are made to appear in heroic roles, and I am going to start the ball rolling now."

With these words Judge Pett, sitting in the Sheffield avenue court, began a bitter denunciation of the trash, or "vicious, theater, and perhaps laid the foundation for work for reform along this line.

The judge had before him several little boys whose minds had been poisoned by the character of plays he referred to.

As a result of what he learned the judge ordered the police to have the manager of the small theater in Lincoln avenue brought before him, and that means the boys and girls hereafter will be excluded, the house closed or a different kind of play presented.

Five charges of burglary rest against each one of the boys. They were arrested in a vacant lot, where they were sitting around a bonfire feasting upon preserves and other sweets stolen in the neighborhood.

Skeleton keys and revolvers were found in their possession, and in addition to the sweets they confessed robbing houses of property valued at \$50 within the last fortnight.

MISSING SON OF WEALTHY FAMILY FOUND IN HOTEL

By Associated Press.

SAN FRANCISCO, Nov. 8.—Albert Krippendorfer, missing son of a Cincinnati millionaire, has been found at the St. Francis hotel, where he has been staying since the night of November 5.

When young Krippendorfer disappeared from the office of the company in Chicago, where he was employed as secretary, on the night of October 23 his family supposed that he had been murdered and his body concealed.

This theory was strengthened when a man reported to the police that he had seen two suspicious looking men lurking about the offices of the shoe company when the young man disappeared.

"I have nothing to say," said Krippendorfer when seen at the St. Francis hotel. He was shown a dispatch from Cincinnati telling of his disappearance, but he said: "I am not talking to the newspapers. I don't want to be bothered."

STOLE ROOSTER WORTH ITS WEIGHT IN GOLD IS CHARGE

Rial Lester and Argel Moore were arrested at the Santa Fe railroad station last night and booked at the central station on a charge of petty larceny. They are alleged to have stolen a valuable rooster which has a pedigree several years long and is worth its weight in gold.

WIRELESS STATIONS. BUILT IN ALASKA NEW SERVICE READY TO BE PUT IN OPERATION Air Line Messages Intended to Take Place of Cable and Telegrams, Which Are Interrupted During Winter Season By Associated Press. WASHINGTON, Nov. 8.—The new wireless telegraph stations at Fairbanks and Circle City, Alaska, are ready for operation, according to advices just received by Brig. Gen. Allen, chief signal officer of the army. The stations are 140 miles apart and are designed to have a radius of about 500 miles. Stations are planned at various points from Nome to Cape Flattery and before a year has elapsed the signal corps expect to have in operation wireless connection from Bering straits to Puget sound. This is intended to supplement the Valdez-Sitka cable and the land telegraph lines, which in the severe seasons are difficult to keep in working order. There are wireless stations in operation at Nome and St. Michael, a distance of 107 miles across Norton sound. The station at Nome will be enlarged and a station at Port Gibbons and another station will be constructed at Valdez by the navy department, and these will be operated with naval wireless stations at Sitka and Cape Flattery. It is likely that stations will be constructed at Eagle City and Gulkana in order to replace land lines between those two points which traverse the roughest country of Alaska. The wireless system between Nome and St. Michael has been operated without a break during the past year and has been used for commercial business. These stations have demonstrated the fact that the wireless system for Alaska is far more feasible for the transaction of commercial business than are the land lines.

COUNTERFEIT BANK NOTES ARE BEING CIRCULATED Chief of Secret Service Finds Rather Crude Imitation of Paper Issued by San Francisco Institution By Associated Press. WASHINGTON, Nov. 8.—Chief Wilkie of the secret service reports the discovery of new counterfeit \$10 national bank notes. The counterfeit is on the Wallis Fargo Nevada bank of San Francisco and is a poor photographic reproduction printed on heavy bond paper, with no silk fibre. The treasury numbers have been traced over the red ink; the back of the note is better than the front, being a fair imitation of the genuine, except the coloring around the charter number, which is a muddy green. Brock Resigns Presidency PHILADELPHIA, Nov. 8.—At a meeting of the board of directors of the Tonopah Mining company, held here today John W. Brock resigned the presidency and James Austin, vice president, was elected to succeed him. C. E. Lord, who was recently elected a director and president of the Tonopah & Goldfield railroad, was made vice president of the mining corporation. Farrington to Succeed Pearce By Associated Press. SAN FRANCISCO, Nov. 8.—The Call will say tomorrow that W. C. Farrington of New York will be chosen general manager of the Pacific Coast Steamship company, to succeed W. S. Pearce, recently resigned. Mr. Farrington, it is stated, is allied with the Harriman interests. Gillett Honors Requisition By Associated Press. SACRAMENTO, Nov. 8.—Governor Gillett today honored the requisition of the governor of Minnesota for the return to that state of William Smith, who is wanted for breaking a prison parole. Smith is under arrest at Oakland.

"JACK THE RIPPER" MURDER MYSTERY IS EXPLAINED By Associated Press. BERLIN, Nov. 8.—The series of crimes resembling the "Jack the Ripper" murders in London in 1888-89, only that here the victims were little girls instead of women, has been cleared up through the confession of a printer's apprentice named Paul Minow, an epileptic, 22 years old, who recently was confined in an asylum for the insane at Herzberg. The authorities of the institution were informed that Minow had been talking in a rambling manner of the murders, crimes and encouraged him to talk, with the result that he freely related in a heartless fashion how he had been taunted by his mother and sister with laziness, had gone out into the streets in a rage and had vented his feelings by stabbing four little girls, one after the other.

EARTHQUAKE DESTROYS A VOLCANIC ISLAND Captain of Whaler Recently Returned from Arctic Tells of Terrific Submarine Disturbances By Associated Press. SAN FRANCISCO, Nov. 8.—Captain Tilton of the whaler Herman, arriving in port this morning from the Arctic, reports that a terrific earthquake occurred at Unalaska about a month ago and that McCulloch peak, which was created by an earthquake nearly a year ago and extended over 800 feet above the sea, has dwindled to almost nothing as a result of submarine disturbances. This peak resulted from a volcanic eruption in the Bogoslof islands and was discovered by the officers of the United States revenue cutter McCulloch. The place was visited by a party of Boston scientists, who recently reported that the peak was increasing in height. The earthquake shocks which are believed to have caused this sudden shrinkage were felt for miles around McCulloch. The place was visited by a party of Boston scientists, who recently reported that the peak was increasing in height. The earthquake shocks which are believed to have caused this sudden shrinkage were felt for miles around McCulloch. The place was visited by a party of Boston scientists, who recently reported that the peak was increasing in height.

GENERAL BOOTH BIDS AMERICA FAREWELL Head of Salvation Army Makes What is Expected to Be His Last Speech in This Country By Associated Press. NEW YORK, Nov. 8.—At a monster open air demonstration General William Booth, the founder of the Salvation army, who is to sail tomorrow for Europe, after what probably will be his last American "campaign," tonight bade his soldiers in this country and the Americans generally farewell. General Booth made his final address from the steps of the city hall to thousands of adherents and friends of the Salvation army. After the meeting General Booth dictated the following farewell words to the people of America: "Farewell, America! You have given me a right generous welcome. On this visit I have seemed to have come nearer to the heart of the nation than on any other occasion. Fain would I have stayed longer with you. Indeed, I would have wished that some method might have been invented by which I could have been constituted one of your own sons and so taken a practical step toward the realization of that fatherhood of the people which must of necessity be the first step to that brotherhood of nations on which so many hearts are set. But I understand this to be impossible without sacrificing my fatherland. "My visit has been a busy and, I hope, a successful one. I have noticed, among other things to be revealed to me, the fact of an improved understanding as to the object and methods of the army, together with the existence of higher appreciation of its value and influence."

"SOMETHING DOING" Standard Street Pattern COR. FIFTH ST.

DROPS SACK OF CHICKENS AND RUNS FROM OFFICER O. Gallano was arrested on San Fernando street last night after a chase of several blocks by Patrolman Baldwin and booked at the central station on suspicion. Gallano was walking along Clover street carrying a sack over his shoulder. A number of small boys called to him, and he dropped the sack and ran. The sack was found to contain a dozen chickens. HOTEL COMPANY ABSOLVED; CONTRACTOR IS DEFENDANT Alexander Bovay Brings Suit for \$25,000 Damages Against F. L. Spaulding, Builder of the Bixby Following the decision of Judge Wilbur relieving the Long Beach Hotel company from responsibility for the accident which caused the death and injury of a number of workmen engaged in the construction of the Bixby hotel at Long Beach, suit was filed in the superior court yesterday by Alexander Bovay against F. L. Spaulding, contractor. Bovay is one of the men who suffered severely when the roof and floors of the hotel caved in. The first suit brought by Bovay was against the hotel company and the contractor. Facts were not sufficient to prove his case against the contractor, so he dropped the suit against Spaulding and continued the prosecution of the hotel people. Judge Wilbur decided that the guilt was not on the hotel company. He asks for \$25,000 damages. INJURED CONDUCTOR SUES FOR LARGE SUM Alleges Equipment of Street Car Was Defective and Asks Court to Allow Him \$15,000 Damages Alleging defective equipment of car No. 27 of the Los Angeles Railway company was responsible for the accident which resulted in his injury, George M. Smith, a conductor employed by the railway company, filed suit in the superior court yesterday in which he asks judgment against his employers for \$15,000. Smith alleges the accident occurred September 28, 1907, at South Park avenue and Forty-second street. The car lurched, throwing the conductor to the street and severely injuring him. Smith says the accident could not have happened had the guard rail been in place across the entrance on the left side of the front platform. A defect in the apparatus which holds the rail in place, he says, caused it to slip down. He claims the injuries sustained necessitated a surgical operation.

IDENTIFY CAR VICTIM AS RAILROAD FOREMAN The body of the man struck and killed by a car at First and Broad streets Thursday night has been identified as that of Henry Harvey, a construction foreman for the Tidewater & Tonopah railroad. Harvey had been in this city three weeks and had been living at 301 Aliso street. ACCEPT PAVING ON NEW MARENGO BRIDGE Paving of the roadway for the Marengo avenue bridge has been completed satisfactorily to the city engineer and the work will be accepted by the city. This is the bridge made necessary by the new line to Covina, as the bridge crosses the interurban tracks. Rock Island Tries New Coach By Associated Press. CHICAGO, Nov. 8.—A self-propeller steam coach, the first to be operated in the United States, is to be put in service next week on a branch of the Rock Island railroad. The car made a trial trip today from Chicago to Joliet and returned at a speed of from forty to fifty-five miles an hour was maintained over a greater part of the route. Ptomaine Kills Two By Associated Press. SAN DIEGO, Nov. 8.—Word comes today from Delmar of the death of two men, Tom Kelley and Peter McManus, on a ranch east of that town. The first report was that it was a case of murder by poison and that two others at the same place were sick. Later came the report that it was a case of ptomaine poisoning. Collins Loses Appeal By Associated Press. SAN FRANCISCO, Nov. 8.—The petition of George D. Collins, charged with bigamy, for a writ of habeas corpus, was denied by the appellate court today. Collins claimed he was extradited on one offense and tried and convicted of another, in violation of treaty rights.

FORESTER HARPER SPEAKS ON ORNAMENTAL TREES University Improvement Association Members Discuss Work of Improving Agricultural Park A poorly attended meeting of the University Improvement association was held at the assembly hall of the Southern California university last evening, but an address by Forester Harper on the subject of ornamental street trees well received. A vote of thanks for the excellent instructive address was called for by Mr. Bowen and responded to with a rising vote. Discussion of the work of the association in reference to the Agricultural park improvement was the most interesting subject in the program. Regrets were expressed by several speakers on the zeal of certain members that interfered with the well laid and time honored plans of the association, and it was pointed out by Mr. Bowen that from 1886 the active members of this society had won in all contests in regard to this important property and that now they were about to realize their hopes. The president of the association reported progress in the street nomenclature and numbering and spoke of the appreciation by the city council of the work of this association and its co-operation in this important matter. The future meetings of the association are to begin at 7:30 instead of 8 p. m. Decides Evans Was a Parisian PHILADELPHIA, Nov. 8.—The orphan's court of this city has decided that Thomas Evans, the famous dentist who died in Paris several years ago and over whose estate there has been much litigation, was a Parisian and that the state of Pennsylvania has no right to collect the collateral inheritance tax on the property located in France. The proceedings brought by the register of wills raised the question of residence of the dentist and involved the collection of 5 per cent of the taxes on upward of \$1,000,000 to \$5,000,000. Evans was originally a resident of Philadelphia and Register Irvine declared he had never announced his intention of permanently residing in France.

50c President Suspenders 25c This bargain needs no comment; President suspenders are known the country over. Medium and heavy weights; 8 to 10 today, at 25c. Limit two pair.
