BOTH SIDES SETTLE DOWN TO STRAIN

Dr. Shepherd to Be Absent from Center of Campaign Until Hearing in Los Angeles

POMONA, Dec. 28.—136 per cent of the people, through the Australian ballot, declare against the formation of a new county, the divisionists will recognize defeat, but not until then. That is the ultimatum.

During the coming week, and up to the hearing before the supervisors on January 5, the campaign will present no spectacular features. The work of both parties will be done quietly, and will be in the nature of a personal canvass.

All up and down the border country divisionists are meeting with stories of misrepresentation on the part of the anti. On all sorts of threats and inducements names for the petition-outs were secured.

The past week, since his return from Imperial, Dr. Shepherd has been right at the front every minute. While in Pomona he has passed most of his time in division headquarters engaged in conference with local and visiting leaders and receiving reports. His presence has been felt throughout Pomona county, in every town he has inspired strength and enthusiasm. Next week Dr. Shepherd will be absent, not returning till the hearing in Los Angeles.

"MARRYING MARY" TO BE SEEN IN LONDON

Daniel V. Arthur Makes Arrangements to Present His Star, Marie Cahill, in the British Metropolis

Marie Cahill is about to invade England. It is expected that final arrangements for the trip will be made in Los Angeles this week, as the comedienne's manager, Daniel V. Arthur, is making a special trip from New York to consult her regarding the venture. He will arrive this morning.

Present plans provide for Miss Cahill's opening in London about the middle of March with the original cast and production of her musical play "Marrying Mary." After her engagement at the Mason this week Miss Cahill will jump to Salt Lake and work rapidly toward New York, taking in Denver, Omaha and the larger cities along the route. The company, according to present arrangements, will leave for New York about March 5.

It is the intention to present "Marrying Mary" for an indefinite run in London, and then send it through the provinces. Returning to London, Miss Cahill will revive "Nanny Brown," her first star vehicle; and later "Molly Moonshine," her musical success of two years ago. Success is these three plays, if it comes, will keep her across the water for two years at least.

Miss Cahill has contemplated an invasion of England for some time. Her desire to appear abroad was intensified by the offer of a theatre in London last spring, made by an English manager who had witnessed her performance.

The first step in Miss Cahill's plans to appear in London was the cancellation of her tour of the south, which was to have followed her engagement here.

ROOSEVELT OPPOSES DEPARTMENT OF HEALTH

President Does Not Favor Creation of New Cabinet Position—Believes Such Action Would Prove Disadvantageous

NEW YORK, Dec. 28.—The committee of 100 on national health announced today that at a meeting of the members a letter had been read from President Roosevelt in which he opposed a national department of health to be under the direction of a new cabinet officer. President Roosevelt, in his letter to Prof. Fisher, chairman of the committee, which was made public today, said:

"I believe that we could have with advantage a board to be put under one of the existing departments, but we need no additional cabinet officers. On the contrary, they would be a disadvantage. While we do most urgently need a re-arrangement of the bureaus and divisions of the present cabinet, we also need to create an executive officer of the government put under some cabinet officer. I am utterly against the creation of any independent bureau not under a cabinet officer."

President Eliot of Harvard stated at the meeting of the committee:

"The committee of 100 is confronted by a dilemma. If less than a federal department, with representation in the cabinet, result little will be accomplished. To work create a new department with a secretary in the cabinet is to undertake the impossible."

The committee is now generally committed to the advocacy of a system of health bureaus within an existing department rather than a new department.

POLICE PROBING DEATH OF WIDOW

POISONING SUSPECTED; DIES IN CONVULSIONS

Small Insurance May Have Been Incentive of Crime—Autopsy Will Develop Cause of Demise

Mrs. Sarah J. Hill, a widow who lived at 910 Hemlock street, died at the county hospital yesterday afternoon at 3 o'clock. She was taken to the hospital from her residence at 11 o'clock in the morning, apparently suffering from poisoning.

She died in convulsions and Dr. D. C. Barber, superintendent of the hospital, reported the case to the police department and asked that the cause of her death be investigated.

A report was current that the woman had been given poison to cause her death in order that some one might be benefited by a small amount of life insurance which she carried in an industrial concern.

No confirmation of this could be obtained last night, and while Detective Hugh Dixon and Charles Craig, who were assigned to the case by Detective Sergeant Kelley, reported that the death of the woman looked suspicious, they had not been able to secure any evidence which pointed to foul play.

The case was referred to Coroner Lantierman. He will have an autopsy performed today and an analysis of the contents of her stomach, in order to determine the exact cause of her death.

Dr. R. S. Peter of Ninth street and Central avenue was called to attend the woman on Friday. He advised her removal to the county hospital. Dr. Peter stated that the woman was suffering from convulsions, which might have been caused by alkaloid poisoning, but as he was unable to correctly diagnose the case he refused to commit himself to a statement as to the cause of death.

At the county hospital it is believed that the woman was suffering from puerperal eczema, but the real cause of her death will not be known until after the coroner's autopsy and the analysis of the contents of her stomach.

Mrs. Hill was a widow, aged 35 years. She had lived in Los Angeles for a number of years, and while possessed of a small property of problematical value had no money except what she earned, and no assets of known value except the insurance.

It was not learned by the police who would benefit by her death if it was brought about by murder, but the investigation will be carried on by the officials under the direction of the coroner until the exact truth is known.

The body was removed from the county hospital last night to the undertaking parlors of Porter & Roberts and will be held for burial subject to the order of the police.
