

SETTLEMENT OF DISPUTE NOW SOUGHT

MARINE ENGINEERS PREPARED TO MAKE CONCESSIONS

CONFERENCE WITH SCHOONER OWNERS IS PLANNED

Basis of Compromise Not Announced but New Basis of Arbitration Is Agreed Upon at San Francisco

By Associated Press.

SAN FRANCISCO, March 4.—Negotiations looking to a settlement of the differences between the Marine Engineers' association and the steam schooner owners of the coast will be opened tomorrow...

The new committee, the third that has been appointed by the engineers...

Just what the basis of the compromise will be is not definitely decided, but it is understood the engineers will go to the owners prepared to arbitrate the dispute upon the basis of indicated horsepower of the vessels...

The owners have already stated they would arbitrate on this new basis, and there is a likelihood that a compromise will be effected before the end of the week.

May Demand Full Crews

It is understood the engineers will insist upon full crews for long voyages, but will meet the owners half way concerning ships traveling short distances...

The steam schooner Francis H. Leggett, which was compelled to put back to port Monday on account of inability of her engine crew to run the vessel...

An agreement was signed today between the marine engineers and the owners of the schooner Sea Foam, whereby the vessel will be allowed to ship with association engineers to Alton, with supplies...

It was learned today that the owners had sent to the Marine Engineers' association at Cleveland, asking for fifty engineers...

Passersby See Woman DEAD; THINK SHE IS ALIVE

Corpse Sits Four Days in Chair as if Gazing on Street—Pathetic Vigil for Husband Closed

By Associated Press.

NEW YORK, March 4.—Although Mrs. Margaret Dunn died, physicians say, while seated in a big armchair gazing out of the front window of her house on Berry street, Williamsburg...

Passerby, in the interim, who saw Mrs. Dunn at her accustomed place at the window, merely glanced up at the familiar sight and thought nothing of her constantly maintained position.

According to her friends it had long been a habit of Mrs. Dunn to maintain her vigil at the window. She was not without a reason for it. Her aged husband, it is said, disappeared about a month ago while apparently temporarily deranged, forgetting where he lived while out walking...

Yesterday two little girls of the neighborhood, getting no response to their customary greeting, a wave of the hand, entered the house to speak to their friend. When she failed to answer they became alarmed and an investigation revealed the fact that the aged woman had died in the window since Saturday. Her husband is still missing.

Irish Girl Asphyxiated

SAN FRANCISCO, March 4.—Only six weeks away from her old home in Ireland, a beautiful girl 18 years, whom her employers knew only as "Nellie," was accidentally asphyxiated last night and was found lying dead in her bedroom at 1677 Fulton street this morning...

The gas was escaping from a half open jet, and the body of the unfortunate girl was found where she had fallen when struck by a half-smothered condition to turn it off.

JAPANESE FOREIGN OFFICE DENIES MAKING "THREATS"

TOKIO, March 4.—Officials of the foreign office today made the following statement to the Associated Press:

"Japan has issued no ultimatum and has made no threats to China in connection with the steamer Tatsu Maru's illegal seizure."

"We are depending on the good sense of the Chinese government to release the vessel, express regrets and pay damages."

The situation is unchanged.

The Japanese steamer Tatsu Maru was seized February 7 at Macao by Chinese customs cruisers on the charge that her cargo consisted of arms and ammunition was intended for Chinese revolutionists, although consigned to a merchant of that place.

EGYPTIAN TOMB MAY BE MOVED TO FIELD MUSEUM IN CHICAGO

Ancient Structure Weighing 250 Tons to Be Taken Apart and Brought to America by Archaeologists

By Associated Press.

CHICAGO, March 4.—An ancient Egyptian tomb, weighing 250 tons, situated near the pyramids, twenty miles from Cairo, may be removed to Chicago as a specimen for exhibition in the Field museum of ancient history.

A representative of the museum is making preparations for the transportation of the relic, according to reports from Cairo.

The tomb is near the pyramid Sak-kara, and is one of the objects of interest most frequently visited by tourists in Egypt.

A great task is before the museum authorities in removing the relic bodily from Egypt to Chicago. It will be taken apart and shipped to America in sections.

It is believed Prof. George A. Dorsey, who is making an extensive tour in securing relics and specimens for the museum, has recommended the removal of the tomb.

Dr. J. H. Breasted, the University of Chicago scientist, who visited Egypt in March in search of ancient relics, has visited the tomb several times and studied it.

RUEF FILES AFFIDAVIT IN TROLLEY BRIBERY CASE

Declares That First Persons to Try to Induce Him to Accept Immunity Were Two Supervisors

By Associated Press.

SAN FRANCISCO, March 4.—Abraham Ruef today filed another affidavit in the trolley bribery case, in which he was jointly indicted with Patrick Calhoun, Thornton Mullaly, T. J. Ford and Eugene E. Schmitz, in which document he makes the statement for the first time that the first persons to try to induce him to accept immunity and give testimony against the others indicted were from Supervisors James L. Gallagher and Andrew M. Wilson.

The purpose of this affidavit, he says, is to show the court that he gave up an important safeguard in the French restaurant case because he had faith in the word of the prosecution when they later offered him immunity, and he signed a contract with them.

He says on May 15, 1907, he made the stipulation that he was to be given immunity upon the dismissal of his application for bail pending before the supreme court.

Detective Burns, he says, informed him previously that these supervisors would call on him and talk the matter over and that they would not put up any obstacles in the way of provisioning the northern ports which have no rail connections with San Francisco, when the owners have not been able to get any non-association engineers to run these boats.

It was learned today that the owners had sent to the Marine Engineers' association at Cleveland, asking for fifty engineers...

REFUSES TO GIVE ANY INFORMATION TO POLICE

Second Hand Dealer Now Serving Sentence on Chain Gang Will Not Tell Where He Obtained Goods

Efforts to secure information from Mr. Kish, proprietor of a curio store at 629 West Washington street, who now is serving a sentence of fifty days in the city jail for failing to furnish the police a list of second hand goods over and over again, under license, the person from whom he secured the large quantity of stolen goods which were found in his store by the officers have been futile. He refuses to tell and maintains a stolid indifference.

Fully 100 pieces of the stolen silverware have been identified by Police Stenographer Hills, who has charge of the property. Some of the goods said to have been stolen in Seattle and San Francisco have been recognized from descriptions given in circulars received from those cities.

POSTOFFICE APPROPRIATION BILL UNDER DISCUSSION

WASHINGTON, March 4.—The post-office appropriation bill, technically, was under consideration in the house today, but the discussion under license of general debate took a wide range. Speculation in cotton, finance, the tariff and a number of miscellaneous matters in turn occupied the whole time of the session.

Mr. Sims of Tennessee spoke in favor of the Burleson bill to abolish dealing in counterfeit money. Chaney, an independent, and Lindberg of Minnesota talked on the financial question. Mr. Hitchcock of Nebraska pleaded for the placing on the free list of wood pulp and paper, and several others secured the floor for brief periods.

General debate on the postoffice appropriation bill will conclude tomorrow at 2 o'clock when it will be read for amendment.

107 AUTOMOBILES IMPORTED TO NEW YORK IN ONE MONTH

NEW YORK, March 4.—Curious contrasts appear in the report of George Wannamaker, appraiser of customs of the port of New York, made public yesterday. It shows that 107 automobiles were imported last month, more than three times the number imported in February, 1907.

Concurrent with this marked rise in the value of automobile imports comes a notable falling off in precious stones and pearls brought into the country, the report revealing the fact that imports of the last month were valued at \$200,432.23, as against \$4,000,000 for the same period last year.

New Hotel to Be Built

STOCKTON, March 4.—The directors of the new hotel company have called for the third payment on the stock and plan to proceed with the building of the \$500,000 structure on the site purchased last fall. The company paid \$125,000 for the block of land to be covered by the hotel building, and the funds have been subscribed to complete the great structure.

Safe Blowers Busy

CINCINNATI, March 4.—Safe blowers early today robbed the Mount Orab bank in Mount Orab, Ohio, forty miles east of Cincinnati, of \$8000, and escaped in a buggy. The explosion shattered the vaults, partially wrecked the bank building and shocked the entire village.

SOME CITY EMPLOYEES LOSE THEIR WAGES ON ARBOR DAY

Special Session of City Council Needed to Insure Wages for the Park Department Men

Only a special session of the city council with an enabling ordinance passed will insure a half day's pay for all employees of the city who work by day labor on Saturday, Arbor day.

Other employees who are on weekly or monthly payrolls will draw their half day's pay regardless of holiday.

There are nearly 400 laborers on the department rolls and Arbor day will prove a financial loss to them in some respects.

Mayor's Secretary Herbert D. Kennedy looked up some councilmen yesterday afternoon with a view to having a call issued for a session.
