

PART II

NEW YORK STOCK AND BOND MARKET

NEW YORK, May 2.—There was an active rebound in prices of stocks today to the highest level of the week, for those which have been most conspicuous in the movements, which were mostly in the transcontinental group. The movement was a continuation of the buoyant rise in progress when the market closed yesterday, and it was equally lacking in special news developments to explain it. Advances were practically wiped out in the final reaction. The aggressive operations in St. Paul were resumed from the same sources that served to impress speculative sentiment yesterday.

There was a decline in the private discount rate yesterday in Paris, and the London money market had the benefit of large disbursements.

How Had Do You Want Your Money to Make More?

I have one eight-room and one seven-room house that are worth your time looking into. The parties that have these for sale actually need the money, though it seems strange. This is no "going-back-east-death-in-the-family" health-won't-stand-this-climate" bluff. These people have pressing reasons for selling at once.
