INSULT IS RESENTED; WOMAN THREATENED

UNIDENTIFIED SUSPECT IS UNDER ARREST

Plucky Victim Alleges Man Drew a Dagger, but She Fought Assaultant and Avoided Blow; Then Ran

[Special to The Herald.] PASADENA, Dec. 4.—George Phillips, a Greek, was held this afternoon in bonds of \$1000 for an alleged assault made at an early hour this morning upon Mrs. Louis Fried of 35 Waverly drive.

Mrs. Fried states to the police that while she was walking along the street an unidentified man made an insulting remark to her and when she resented it she says he drew a dagger from his clothing and made a lunge at her. The woman, it is said, showed unusual pluck and struck at the man, and then, avoiding another blow from his knife, she ran into the lobby of the Hotel Miramonte.

Phillips was arrested by the police in the Greek lodging house at 919 South Fair Oaks avenue. The man had been arrested previously for a similar alleged offense and is said to answer the description given by Mrs. Fried of the man who attacked her, though it was so dark her identification is not complete.

Phillips will have his preliminary hearing before Justice Klamroth next Monday morning.

CHARTER AMENDMENTS TO BE READY NEXT MEETING

Most Important Change Proposed in City's Authority is Substitution of New Assessment Plan

PASADENA, Dec. 4.—Charter amendments to the number of three or four probably will be considered at the meeting of the city council next Tuesday, as City Attorney Perry Wood stated this afternoon that he has the recommendations for the charter commission in such shape he believes he will have them ready by that time.

By far the most important of the amendments is that relating to the assessment of property. If the amendment is approved the city will be empowered to pass an ordinance making the assessment of Pasadena property as made by the county the official city assessment, instead of having a separate assessment by the municipality. The plan is to have this done by ordinance, after the charter is amended to make such measure valid. By this means, if it is found the new plan is unsatisfactory, the council could change back to assessment by the city simply by adopting an ordinance repealing the new one.

PRELIMINARIES TAKEN TO GET STORM SEWER SYSTEM

PASADENA, Dec. 4.—Petitions have been put in circulation asking the city council to call an election for voting on bonds to build a storm drain system. While no amount is stated, it is generally understood \$250,000 will be needed to build the system. The petition states that of all municipal matters pending there is none more important than protecting property from damage caused by storm waters.

ATTORNEYS APPEAL TO SAVE MAN'S LIFE

ACTION SEEMS USELESS IN FACE OF NEW LAW

Recent Statute Provides Exception to Judgment Must Be Made Within Three Months—Old Law Gave One Year

[Special to The Herald.] SAN BERNARDINO, Dec. 4.—As a last resort an appeal has been taken by the attorneys for Ed Silver on the judgment of the death sentence under which Silver is now confined in the penitentiary for the murder of Deputy Sheriff Will Smithson at Daguet near Yuma, a year ago.

The supreme court recently affirmed the verdict of guilty in the case, but before the papers could be returned here an appeal on the judgment was taken. However, it is believed this appeal is too late to be effective, as the new law provides that an appeal on judgment must be taken within three months, the old law giving one year and the attorneys for Silver probably overlooked the new law.

This will probably delay the case for thirty days or so, when Silver will be returned here for sentencing.

Railway men in all parts of the southwest are being organized into the new organization.

The principal stockholders in the company are all Los Angeles people.

The lodges have a combined membership of more than 600 and would make one of the largest lodges in the state, and also be in a better position for building and the pushing of the growth of the order here.

There will be a large reception by the two Masonic lodges to the grand lodge officers next Thursday evening, when most of the officers of the grand lodge in this part of the state will be present. The third degree will be exemplified on Corner C. D. Van Wile.

COMMODORE OBJECTS TO BIG PILOT FEES

COMPULLED TO PAY \$200 FOR MAN AT WHEEL

Sailed with Antiquated Chart—Many Things Needed to Make San Pedro First-Class Harbor

SAN PEDRO, Dec. 4.—It was not until 3 o'clock this afternoon that the French cruiser Catina weighed anchor and sailed for Venice, where she will stay until tomorrow, when she will clear for Mexico ports.

The commodore expected to take aboard five head of cattle, but was in Venice when the commodore program had been arranged for himself and officers, and after two of the cattle had been brought on board he left without taking the other three.

Some comment was made yesterday on the pilotage charges made at this port, and the \$200 as charged the harbor was termed exorbitant.

In justice to the port pilots, however, it ought to be understood that it is their duty to be in readiness to offer their services, and as the commodore put up his flag and asked for a pilot it was only right that they should be called upon to do so.

While the old chart he was using had been corrected October 14, 1906, according to a rubber stamp on it, it evidently was not within the province of the commodore to correct it, in correcting an old map, all the lines of help marks.

Be that as it may, the chart was a very ancient one, and no blame can be attached locally for its condition. As far as the pilot fees are concerned, they are regulated by the state, and undoubtedly are too high. The legislative committee was in Los Angeles on November 16 a request from the pilots that the rates be reduced was introduced by former State Assemblyman W. H. Wickersham.

There are many things to be done before San Pedro will be in a position to invite the commerce of the world or the cruisers of our own or foreign powers to make a regular call here.

For one thing, San Pedro has no facilities for coaling a vessel. If the French cruiser had desired to purchase coal here another difficulty would have been encountered.

Some of the Los Angeles guests at the reception yesterday blamed the improvement of the Santa Ana river to protect adjacent lands from the winter's floods, today awarded a contract for constructing a ditch and dikes along the right-of-way from the end of the present channel a distance of three miles to a point where the waters will enter ditch No. 1 of the Bolina drainage district, which is supposed to be large enough to carry the storm water safely in flood season.

Two Los Angeles firms submitted bids for the work, but a local man, A. Talbert, was selected to do the work, which includes clearing the right-of-way of brush and willows.

ASK GOVERNMENT TO MOVE DREDGER TO ANGEL'S GATE

Propose to Deepen Channel So Big Vessels Can Get Into Southern Pacific Slip at San Pedro

SAN PEDRO, Dec. 4.—In order that the American-Hawaiian Steamship company may have no difficulty in bringing its big liners from the isthmus into the harbor, the chamber of commerce has suggested that the government be requested to move its dredger, which is now working up near the turning basin, out to Angel's Gate and deepen the channel so that the big boats can get into the Southern Pacific slip and there discharge.

In order to get the United States government to divert temporarily the dredger from its present operations the San Pedro chamber of commerce is preparing a resolution which will be presented to the board of directors of the United States government, with a recommendation that he take up the matter with Washington.

INTERESTING BAZAAR IS HELD BY WOMAN'S CLUB

Monrovia Young Women and Matrons Present Pleasing Program—Sales Booths Prove Attractive and Profitable

MONROVIA, Dec. 4.—This afternoon and evening the Women's club gave a most entertaining and successful bazaar at the club house. The club rooms tastefully decorated presented a most pleasing spectacle.

The evening's entertainment was opened by a musical farce entitled "Circumstances Alter Cases," presented by Miss Ethel Hall and Kenneth Carter. Later in the evening several young women presented the pantomime of "Cinderella." Miss Helen Reed as Bluebird and Miss Eloise Armstrong, Cinderella, were especially commendable. Miss Margaret Cross, Mary Atwood and Mae Baker also took prominent parts.

The booths, however, proved to be the success, financially, of the evening, the domestic booth, in the charge of Mrs. Alice Castello, and the fancy work booth, presided over by Mrs. C. W. Moore, proved attractive features, as did the delicatessen booth, in the charge of Mrs. Hugh Haven.

Another notable feature was the fine arts department, conducted by Mrs. George O. Munroe. A large number of pictures were on exhibition by Messrs. Black and Boudry, two Monrovia artists. Prof. A. C. Connor also contributed a large number of paintings, consisting chiefly of California landscapes, in which he excels. The entire bazaar was ably managed by Mrs. W. A. Chess, Mrs. Ben Crews and Mrs. C. F. Moore.

Miss Mabelle Winslow has left for Salt Lake City, where she will remain for a while holding with relatives.

Mrs. Richard Barry will entertain the Hatchet club Saturday at a theater party.
