JURY SWORN IN TO TRY COOPERS

TWELVE MEN ACCEPTED AFTER LONG DELAY

WOMAN WHO SAW CARMACK FALL FIRST WITNESS

Actual Taking of Testimony Will Begin Tuesday--Four of the Jurors Cannot Read or Write

[By Associated Press.]
 NASHVILLE, Tenn., Feb. 13.—Without further change the jury was sworn this morning in the case against Colonel Duncan B. Cooper, Robin J. Cooper and John D. Sharpe, charged with the slaying of former Senator E. W. Carmack.

The state asked for several days in which to gather its witnesses. The court suggested that the taking of testimony begin Tuesday morning, and this was agreed to.

Every one connected with the case drew a long breath of relief today when the state announced that it was satisfied with the jury selected.

For twenty-five days the court, attorneys and officers had been trying to get competent jurors. It was necessary to draw five venues of 100 each and one of fifty-nine before the jury was secured. As it is, four of the jury can neither read nor write, and two of these speak English only indifferently.

One man of the twelve swore he had not read a newspaper since before the killing, and some had not read one for ten years.

Mrs. Eastman, who was talking to Senator Carmack when he was killed, probably will be the first witness called.

HELD UP AND ROBBED BY MASKED BANDITS

Charles McKenna of 157 East Avenue Forty-nine was held up and robbed at 1 o'clock this morning at Avenue Fifty and Pasadena avenue by two masked men, of \$450 and a gold watch.

The robbery was committed at the point of a revolver which one of the men aimed at McKenna, and ordered him to throw up his hands. The second man, who also was armed, searched him and took his property.

The robbery was reported to the police within a few minutes after it occurred, and while detectives were sent to the spot at once no trace of the robbers was had.

WANT SEISMOGRAPHS IN RUSSIA TO WARN MINERS OF GAS DAMP

ST. PETERSBURG, Saturday, Jan. 30.—A report has been presented to the Russian meteorological congress, in session here, on the use of seismographs to prevent mine disasters.

These disasters are usually preceded for several days by slight movements of the strata by which explosive gases are released, or which indicate coming earth slides.

The installation of seismographs would give ample warning of disasters arising from these two causes.

RESUME TAKING TESTIMONY IN SUIT AGAINST HARRIMAN

Many Prominent Men Subpoenaed in Cleveland to Give Evidence as to Railway Merger

CLEVELAND, Ohio, Feb. 13.—The taking of testimony in the government's suit under the Sherman anti-trust law to dissolve the merger of the Union Pacific and the Southern Pacific and subsidiary railways in which E. H. Harriman, Henry C. Frick, H. H. Rogers and Kuhn, Loeb & Co. also are defendants was resumed here today.

The evidence taken here is similar to that taken in New York, Pittsburgh and Cincinnati. Prominent railroad men and big shippers have been subpoenaed.

Several traffic managers representing large shippers were examined. The testimony was all to the same point, indicating that there was no competition between the Union and Southern Pacific Railway companies for freight traffic to the Pacific coast points.

It was testified that both roads were jointly represented by the same agent in the Cleveland territory, who solicited business impartially for both lines.

Most important in the evidence to this effect was the establishment of the fact that each company formerly maintained a freight solicitor in this district and that these solicitors were actively opposed, while since the inauguration of the Harriman regime the solicitors have based their action principally on the local and transit conditions on the two lines.

F. W. Boltz of Cleveland, traffic manager of the National Petroleum association, testified the rate on oil to California from all points east of Chicago had been raised to \$1 per 100 pounds.

This had seriously crippled small independent dealers, as the Standard Oil company, in which Harriman is supposed to be interested, could ship by steamer from New York and was not compelled to use the railroads, while the Union Pacific profited greatly by the rise.

This condition, he stated, could hardly ensue if the Southern Pacific and Union Pacific were competing.

STORM BREAKS IN NORTH AFTER DOING BIG DAMAGE

Expected Flood in Sacramento Valley Averted--Vineyards Under Water

SAN FRANCISCO, Feb. 13.—From Redding to Los Angeles there is intelligence today of an interruption to the steady rainfall of the last few days.

Cloudy weather, with intervals of sunshine, prevails at San Francisco, and showers are predicted by the weather bureau for this portion of the state.

Reports from points throughout the Sacramento valley indicate that the expected flood has been averted. The congestion of passenger traffic at Santa Barbara has been relieved, and all trains within the state are reported on schedule.

As the result of the storm a number of vineyards to the east of Fresno are under overflow water, though it is not thought that any serious damage has been done as yet.

The waters of Dry creek, which for a time threatened to flood the city, are receding, and unless heavy rains set in now all danger from that source is past. Men have been on guard on the banks of the stream for the past three days.

At Clovis, ten miles east of Fresno, Dry creek overflowed and the waters extended to the outskirts of the town. Indications at present are for more rain.

WHISKERS CUT; MAYOR INDICTED

PROMINENT LOUISIANANS IN QUEER MIXUP

Attorney Loses Hirsute Appendage at Election and Charges It Was Done to Intimidate Him

[By Associated Press.]
 NEW ORLEANS, Feb. 13.—Attorney E. A. O'Sullivan of New Orleans was ruthlessly shorn of his flowing whiskers at a recent election, and as a result Mayor Paul Felix and four other prominent citizens of Kenner, La., were indicted today on a charge of conspiracy and agreeing to arm themselves with pistols, guns, scissors and other weapons, to injure, oppress and threaten certain voters.

As Mr. O'Sullivan, legal adviser of opponents to Felix, approached a voting booth, it is said, a number of his political opponents hopped out and unkindly refused to permit him to enter.

"We'll cut off his whiskers," one said. The delighted politicians fell to with a will and the barber act was quickly and painfully, if not artistically, performed.

Other persons at the polls were intimidated to some extent also, it is charged, but their whiskers were not disturbed, and so they left the prosecution to Mr. O'Sullivan.

MAN WITH AWL ATTACKS MANY WOMEN IN BERLIN

Southeastern Section of City in State of Panic--Numerous Girls Assaulted

BERLIN, Feb. 13.—A series of attacks on women and girls has set the southeastern and eastern districts of Berlin in a state of panic.

Three women were attacked Tuesday evening by a man who used a sharp instrument, believed to be an awl, wounding them on the lower portions of their bodies. One of his victims bled to death and the others were badly wounded.

On Wednesday there were two similar assaults on girls. This afternoon in the vicinity of Lichtenberg another girl was attacked in the same manner, but she ward off the weapon with her hand, which was severely cut. Her cries of alarm brought an excited crowd, members of which, suspecting the criminal had taken refuge in a neighboring house, searched it from cellar to roof, but he was not found.

A dozen men were arrested, but all were released on establishing alibis.

This evening an armed youth about 20 years old was arrested. Two of the victims of the stabber declared they recognized him as their assailant, and he was detained.

FEDERAL OFFICIAL IS CONVICTED ON CHARGE OF HAVING "BLIND PIG"

NEWMAN, Ga., Feb. 13.—Judge W. E. Dent, United States commissioner, was found guilty in a city court here yesterday on a charge of keeping whisky for sale and was fined \$100.

Five barrels of whisky consigned to Henry Smith, Newman, were seized by the chief of police, who discovered that Smith was none other than Judge Dent, and a warrant was immediately issued for the commissioner.

Judge Dent admitted the taste for whisky was in him and explained to the court that, being an old man, accustomed to his toddy, he feared the prohibition movement, now sweeping the country, would deprive him of his usual drink, whereupon he decided to lay in a supply for the future.

LACK CONFIDENCE IN PREMIER OF TURKEY

CHAMBER OF DEPUTIES VOTES ITS MISTRUST

Unprecedented Scene Attends Adoption of Resolutions Reflecting on Grand Vizier Kamil Pasha at Constantinople

CONSTANTINOPLE, Feb. 13.—After a lengthy sitting today the chamber of deputies passed a vote of want of confidence in the grand vizier, Kamil Pasha, by 198 to 8.

The chamber also directed the president to communicate to the sultan a resolution requesting him to appoint a prime minister possessing the confidence of the house.

As a consequence the grand vizier has handed in his seals as an officer of the sultan.

The want of confidence vote was the result of Kamil Pasha's refusal to appear before the chamber today and explain recent ministerial changes.

The scene in the chamber was unprecedented. The galleries were crowded, many of the foreign diplomats and several members of the imperial family also being present.

The session was marked by intense excitement, and during the course of an animated debate Deputy Ismail Hakki referred to the grand vizier as a liar.

A storm of protests against this epithet arose, but the president remained impassive.

Communications from the former minister of war and marine, protesting against their removal by the grand vizier, were greeted with cheers.

Copper Brad Lodged in Engraver's Throat is Forced Down by Simple Remedy

A half loaf of bread was the unique remedy prescribed by the police surgeons yesterday morning in the case of John Caldwell, a photo engraver, when he appeared at the receiving hospital almost strangling from a large copper broad that had lodged in his throat.

Caldwell was adjusting a machine, had placed the piece of metal in his mouth and accidentally swallowed it.

Caldwell demurred at the task of eating the dry bread, but soon got rid of his prescription. The bread forced the metal down into the stomach.
