CANDIDATE'S LEGAL STATUS UNDECIDED

CITY ATTORNEY TO PASS ON MERSEREAU CASE

Judge Magee Declared Eligible—Former Councilman Loughery Spoken of as Possible Entry in the Mayoralty Race

[Special to The Herald.] PASADENA, Feb. 13.—Whether or not Councilman J. D. Mersereau is eligible to run as a candidate for the mayoralty is a point which will have to be decided by the city attorney, J. Perry Wood. Until he reports there will be no meeting of the opposing Magee and Mersereau factions in the Municipal party.

Mr. Wood expects to make his report Monday, and it is probable the meeting, at which it is hoped harmony may develop, will be held that evening.

It is believed that there is no question about the eligibility of Judge Magee, as the city attorney holds that residence in Lamanda Park, recently taken into the city, counts as residence in Pasadena.

There was talk today of a possible third candidate in the Municipal party, a man on whom the two opposing factions could unite. The man mentioned is former Councilman W. B. Loughery. He is generally regarded as a safe, conservative man, but has repeatedly announced that he cannot afford to give up his business for the mayoralty, which demands practically all the incumbent's time.

SITE FOR POSTOFFICE TO BE DETERMINED SHORTLY

Telegram Received from Washington Saying Decision Will Be Reached in a Few Days

PASADENA, Feb. 13.—Postmaster J. W. Wood is in receipt of a telegram from Washington to the effect that a decision will be reached by the treasury department within a few days regarding the site for the new postoffice to be built in this city during the coming year.

It is believed it is the site at the corner of Worcester avenue and East Colorado street, which has been favored by many of the business men of the city, will be selected, but the telegram is silent on this point.

PAYS \$150,000 FOR LOCATION; WILL ERECT \$200,000 HOUSE

PASADENA, Feb. 13.—William E. Hindry, owner of large mining interests in Mexico, has purchased between three and four acres of land at the end of Prospect park tract, and will build a residence on the property. It was bought from the Ernest Park Realty company, the price paid being \$150,000. The outlook from the site is hardly to be excelled, as it commands a view of the Arroyo Seco, the La Canada bench and the mountains from Las Casitas to Old Baldy.

Mr. and Mrs. Hindry and their daughter have been residents of Pasadena for some months past, coming here from El Ora, Mexico, where Mr. Hindry was general manager and part owner of the Esperanza Mining company. The residence to be built will be of reinforced concrete and will cost in the neighborhood of \$200,000.

PASADENA BRIEF NOTES

PASADENA, Feb. 13.—Jason J. Sheppard, commander of John F. Godfrey post, G. A. R., has been made a colonel on the staff of the commander in chief of the national army, and the Canadian and shoulder straps arrived today. Another tag day, this time in favor of the Emergency league, is planned for March 13, on which date officers and members of the league will canvass the city to secure funds for carrying on the work.

Judge Powers and his wife, the former a member of the supreme bench in the state of Pennsylvania, arrived in Pasadena today, being called here by the serious illness of a relative, Mrs. Mary Ladd Bacon.

FIFTY tourists, composing one of the Raymond-Wentworth excursions, arrived at the Hotel Green this evening from San Diego. Mr. and Mrs. George A. Smythe of 1575 North Raymond avenue announce the engagement of their daughter, Elizabeth, to Edward R. Milliken. The wedding has been set for March 4 at the home of the bride's parents. Throp students were addressed today by G. O. Shields, editor of Shields' Magazine, on the importance of protecting the birds of America.

SANTA ANA Office 315 N. Spangmore. Home Phone 315.

SANTA ANA BRIEVITIES

SANTA ANA, Feb. 13.—The Santa Ana river is higher tonight than at any time for the last six years and is still rising. The flood has broken over the banks at Seventeenth street and has made its way south over the Newport road to the lower level, where it joins the water that is pouring over hundreds of acres of farming land to the east and west of the river bed. Sai Fukuda, Japanese contractor, whose team fell into an abandoned cesspool today at the rear of the Grand opera house, probably would have been at the loss of one horse and perhaps two had not a number of his countrymen happened along in time to rescue the animals from what would have been sure death in a few minutes.

VENICE Home 4015. Sunset 1581

Shakespearean Play at Venice VENICE, Feb. 13.—Joseph de Grasse, an actor who is well known to the theater patrons of Los Angeles and vicinity, will appear in the role of Shylock in "The Merchant of Venice" at the Venice Auditorium Monday night. Miss Ida May Park is the leading woman, appearing as Portia.

SANTA MONICA Cor. Oregon ave. and Third street. Home phone 1178.

BELIEVES CORPSE IS HER HUSBAND'S BODY

Man Washed Ashore at Santa Monica Is Identified Partially by Woman from Salt Lake City

SANTA MONICA, Feb. 13.—Mrs. William M. Conny of Salt Lake City, who has been searching Los Angeles and vicinity for a number of days in the hope of finding traces of her husband, nearly positively identified the body which was found on the beach at Venice yesterday morning as that of the missing man.

The body of the woman were present at the first view of the body, and were certain the penknife found on the body belonged to their father. Mrs. Conny returned to Los Angeles and brought out another child in order to make identification sure. The boy was equally certain the knife was not that of his father.

The missing man left his home in Salt Lake City about three months ago and came to Los Angeles in search of work. The wife and children were to follow, but the illness of the former delayed them for some weeks, and when she had recovered her mother was taken ill and the family reunion was delayed again.

Receiving no reply to numerous letters, the wife came to Southern California in the hope of finding the missing man. The fact her husband was a railroad man, the switch key found on the recovered body served to further strengthen her belief the corpse is that of her husband.

OUTLAWS LOSE GAME AT LAST OF MATCH

Last Half of Ninth Inning Santa Monica Juniors Make the Runs Which Win Exciting Contest

SANTA MONICA, Feb. 13.—The Santa Monica Juniors took the Outlaws into camp again today by a score of 8 to 7.

The contest developed into a tie until the last part of the last inning, when McDonald came to bat after two outs were already chalked against the team and one man on second base. The youngster took a chance swipe at the pitcher and landed for a two-bagger, bringing in the much-desired run and making a fitting climax to an exciting situation.

The lineup was as follows: Outlaws—Fanning, catcher; Bray, pitcher; Steel, first base; Whitney, second base; Parton, shortstop; Burgoyne, third base; Brown, left field; Earle, center field; Baxter, right field. Santa Monica Juniors—Gilroy, catcher; McTier, pitcher; McDonald, first base; Webb, second base; Kent, shortstop; Doane, third base; Jacobson, left field; Jackson, center field; Jones, right field.

The Juniors have accepted the challenge of the St. Vincent's Juniors for a game at the home grounds February 20. The lineup on that occasion will be much the same as today and a close contest is in prospect.

SANTA MONICA PLAYS A TIE WITH HARVARD

Ball Game Called in Tenth Inning by Umpire Because of Darkness When Score Stood 8 to 8

SANTA MONICA, Feb. 13.—The baseball game between Harvard Military school and Santa Monica high school team this afternoon was called in the first part of the tenth inning with the score standing 8 to 8. Harvard was at bat and had a man on third base, who started for home on a passed ball, but was scored off and returned to his base. Fitzwilliam got it into his head that he was a blocked ball and ordered the runner home, counting a run for Harvard. Coach Morgan and several others demurred and the rules were dug up and the umpire acknowledged his error.

By this time it had become so dark that further baseball was impossible and the game was called. The lineup was as follows: HARVARD. SANTA MONICA. Throp..... c..... F. Hoyt. Robb..... r. f..... J. Lugo. Mund..... 2b..... R. Stephens. Knight..... 1b..... R. Stephens. Brothers..... ss..... G. Hoyt. Brothers..... 3b..... H. Jackson. S. Crutcher..... 2b..... H. Hoyt. Whitman..... 1b..... M. Thurston. Husons..... c. f..... F. Lugo.

RECENT NEWS OF REDLANDS TOLD IN BRIEF PARAGRAPHS

REDLANDS, Feb. 13.—At a meeting of the Merchants and Manufacturers' association today telegrams were ordered sent to Senator Willis and Assemblyman Flavelle, asking them to oppose the passage of the resolution now before the legislature which asks congress to pass the parcels post law. Rev. Charles F. Blaisdell and family of St. Louis are reported to be on their way to Redlands, where they expect to arrive Monday. Mr. Blaisdell has been called to the pastorate of Trinity Episcopal church, to succeed Rev. A. M. Porter, who went to Albany, N. Y., recently.

Plans are being made here by the Young People's Union of Christian Endeavor Workers for a Bible institute which will be held in the First M. E. church Tuesday, Wednesday and Thursday. Rev. R. Pratt of New York will be one of the principal speakers. This city was visited by the first hailstorm of the season late Friday afternoon. It lasted several minutes and was followed by a heavy shower. The precipitation for the storm amounted to 27 of an inch, making the total for the season 11.03. San Timoteo creek, for the first time in several years, is about to overflow its banks, the water coming down in a deluge from the mountain sides late in the evening.

A large crowd greeted W. D. Hayward, who was acquitted in Idaho of the murder of ex-Governor Steuneman, last evening, when he spoke in Fraternal hall on "The Class Struggle in the West." He held the close attention of all present for his address, which consumed one and a half hours, some of his remarks being greeted with much applause.

SAN BERNARDINO Office 608 Third Street. Phone: Home 875. Sunset Main 168.

FRESHMEN AT HIGH SCHOOL ARE DUCKED

First Hazing of Year at San Bernardino Takes Place—Authorities as Yet Have Taken No Action

SAN BERNARDINO, Feb. 13.—A half dozen members of the February freshmen class of the high school yesterday morning were given an involuntary bath in the large fountain at the high school grounds.

When the freshmen made their appearance on the school grounds previous to the opening of the session for the Lincoln memorial exercises they were seized promptly by a party of upper classmen and much against their will given a liberal bath.

When the freshmen managed to escape they were dripping wet and had to make their way home in the chilly morning weather looking more like drowned rats than anything else.

This is the first outbreak in the line of the hazing process this year, and whether the school authorities will take any cognizance of it remains to be seen.

LONG BEACH No. 4 Pine Street. Phone Home 250

BOARD OF EDUCATION TO ERECT NEW SCHOOL HOUSE

New Bids for Site at Long Beach Ordered to Be Advertised

LONG BEACH, Feb. 13.—A school site is to be purchased by the board of education. It must not be less than 100x150 feet in size and must be near Fifteenth street and Elm avenue. The president and clerk of the board were instructed this morning to advertise for bids, which will be opened a month from today.

Bonds for the site were voted at the same time as the bonds for the Burnett school building. On the new grounds a smaller building than the Burnett structure will be erected for the use of the lower grades.

LONG BEACH ITEMS

LONG BEACH, Feb. 13.—Harry Wright, the balloonist, who has made sixteen ascensions here, has been injured on each of his trips into the air save three. Tomorrow afternoon he will make his first trip in his new balloon, which he and his wife recently completed.

When Sergeant George Austin dreams of black cats the police expect to hear of robberies. The omen has been followed in the past by robberies on duty, Austin reported he had dreamed of three black cats. A little later the reports of three holdups were received.

The drying out of the new Carnegie library has been begun. Contractor Crowell probably will not finish his work on the building until the tenth of the month. The removal of the skeleton of the whale from the open-air place in which it has been exhibited to the basement of the library will present a difficult problem.

Funeral services for Mrs. Mary Hughes, a pioneer of Long Beach, who died at Alessandro February 3, will be held at Brown & Fry's funeral home tomorrow afternoon at 2 o'clock. Mrs. Hughes resided in Long Beach from 1885 to 1907.

EARTHQUAKES CONTINUE TO BE FELT IN MEXICO

Eruption of Mount Colima Spreads Cinders Over Several Towns. Forests Ablaze

MEXICO CITY, Feb. 13.—Rumblings and earthquake shocks continue to be felt in the vicinity of Mount Colima, and the eruption has not ceased, although cinders are not spreading over such a large area. During the eruptions ashes and cinders fell on the towns of Colima, Tuxpan, Capatzen and other towns in the vicinity, and forests were set on fire by the discharge from the smoking mountain.

Wild animals rushed into settlements almost tame from fright, and people rushed from their homes. News from Concalman, Patzeuro, Ario and Tacamambrio is that the earth has been trembling there almost constantly since the eruption commenced, and the people are terrorized.

Today there were a number of loud subterranean detonations, followed by a rain of hot sand, which covered a large area and completely killed the vegetation. Neighboring towns and villages are covered with dust and ashes. A stream of lava a mile long is flowing from the double crater. No loss of life is yet reported.

CANNON CONSENTS TO GIVE STATEHOOD BILL A CHANCE

WASHINGTON, Feb. 13.—Speaker Cannon has agreed to recognize Representative Hamilton of Michigan on Monday for the purpose of bringing up the bill admitting New Mexico and Arizona to the Union as separate states.

Governor Curry and a party of prominent citizens of New Mexico are here to boost the bill and urge its passage. It is not believed the bill can pass the senate at this session. The delegation from New Mexico conferred today with Mr. Beveridge, chairman of the senate committee on territories, and urged the passage of a bill at this session. Mr. Beveridge explained to the delegation that at this late day it would be impossible to pass any bill in the senate.

Bill Favorably Reported WASHINGTON, Feb. 13.—A bill to establish a United States court of appeals for patents was favorably reported from the house judiciary committee today by Representative Tyrrell of Massachusetts. The measure was urged by the American Gas association, boards of trade and manufacturing associations for ten years.

TELEGRAPHIC BRIEFS

TO FLUSH STREETS—Forty flushing machines will be put into operation in the downtown streets in Chicago in the spring. They are being manufactured in St. Louis at a cost of \$700 each. With these the streets will be flushed thoroughly at least twice a week.

CLOSERS BIG DEAL—The United Smelters and Copper company, Wyoming, capitalized at \$12,000,000, has purchased all the property in Carbon county owned by the Pennsylvania-Wyoming Copper company, including the Ferris-Hagerly mine, smelting works, power plants, etc. The consideration is about \$10,000,000.

WIRELESS TORPEDO—A wireless torpedo invented by an engineer named Gabet, was successfully launched at Chalons-on-Saone, France, in a test. The torpedo is said to be ten times more powerful than the Whitehead. It measures thirty feet in length, weighs 8000 pounds and carries an explosive weighing 1800 pounds.

THING USES MATCHET—Miss Agnes Critchfield of the Cook county hospital, Chicago, suffering from an attack by an unidentified man. She was walking on the street when struck with a hatchet, her jaw being broken and a large gash cut in her cheek. When she recovered consciousness she said she did not know the man who attacked her.

BUDGET ADOPTED—The representatives in the diet at Tokio passed yesterday the budget for the fiscal year 1909. Some very slight amendments were made to the budget as originally proposed by the ministry. An unexpected feature yesterday's session was the fact that members, irrespective of party affiliations, unindulgently supported the amended budget.

STARTLING STATISTICS—W. L. Curtis, in a special article in the Record-Herald of Chicago, yesterday under a Washington date confirms what he characterizes as an "astounding statement" by President Roosevelt recently, that the loss of farm products due to injurious mammals, is estimated at \$120,000,000 annually, and the loss through disease is reckoned at \$53,000,000 annually.

MANY ELK STARVE—Members of the legislature at Cheyenne, Wyo., received word that 20,000 elk are starving in Jackson Hole, Wyo. The deep snow, covered with a hard crust, prevents the elk from getting to the grass, and the hungry animals are breaking into the hay stacks of farmers. The farmers are on guard day and night. The legislature will make some provision for feeding the elk.

SETTLERS WANTED—The Canadian Pacific railway, to further an aggressive immigration scheme, has sent Assistant Land Commissioner Doupe and Chief Immigration officer, to the western and middle states to locate agencies on a large scale, with a view to settling particularly in the west. The company's lands in western Canada. More than \$1,000,000 will be spent in this enterprise.

OBJECTS TO SENTENCE—State's Attorney Wayman at Chicago has begun an investigation into the case of James Neill, who asks release from the penitentiary on the grounds that an error was made in the length of the penitentiary term. He pleaded guilty to a charge of larceny two years ago, with the understanding he was to be committed to the penitentiary for one year. When he arrived at Joliet he discovered the sentence was for twenty years.

ALASKA'S INSANE—The problem of the insane in Alaska has been presented to congress. Secretary Garfield of the interior department has recommended an additional appropriation of \$75,000 for immediate use, because all of the money provided for contract care has already been expended. The Alaskan insane, under contracts, now are cared for by a sanitarium at Portland, Ore., at the cost to the government of \$248 a year per capita.

GIRL ENDS LIFE—After unsuccessful attempts at the hospital, daughter of former City Magistrate Wahl, made an attempt and ended her life in New York. She was found by her father and her daughter lying unconscious on the bed, and although a physician was summoned and she was kept in the hospital for an hour, dependency resulting from over-study is supposed to have prompted her. She was 17 years old, and lived at Pelham, N. Y.

FAVOR STOPPERS—Recommendation for the granting of a ten-day stopover privilege failed in the senate. The round-trip tickets has been made to the railroads forming the Western Passenger conference, and the railroad chiefs have accepted of the plan will be served by one of the roads, with the result that all will be in favor of the stopover privilege made effective.

IS GIVEN CHARTER—The Canadian Pacific railway has been granted a charter by the Canadian government to build a line from the railway through southern Alberta from Calgary to the international boundary, and a branch to the coast. The line will be continued south from the boundary, connecting at Butte, Mont., with the Chicago, Milwaukee & St. Paul.

OFFICER RISKS LIFE—Policeman John Frey of Chicago risked his life yesterday to save the lives of two other men after fifty of their fellow workmen had refused to volunteer to rescue them. Frank Cullen and J. J. Smith had crawled into a car tank and had been overcome by gas fumes. A crowd gathered, but no one dared go into the tank car. Finally Frey threw off his coat and crawled into the small opening at the top. He brought both men out, falling unconscious himself as he reached the ground.

OPPOSE JAPANESE—While there is a consensus of opinion that the anti-Japanese memorial which has been introduced in the senate, should be passed, the bill is too drastic for adoption, it seems certain that with amendments which will be offered it will pass the house. The Silver Bow delegation, twelve strong, and most of the Democrats, favor it and enough Republicans have signified their intention to support such legislation to make it almost certain that the house, which has a Democratic majority of five, will send the bill to the senate.

TO INSPECT TREES—A measure important to the farmers of the country, as well as nurserymen, has been favorably acted on by the house agricultural committee. Representative Foster of Kansas, chairman of the committee, is author of the bill. It provides for government inspection of nursery stock at ports of entry to be insisted upon by the secretary of agriculture. An appropriation of \$100,000 is carried by the bill, which also provides for the purchase of stock of insects infested with injurious insects.

Patrolman Hurt by Fall Neighboring towns and villages are covered with dust and ashes. A stream of lava a mile long is flowing from the double crater. No loss of life is yet reported.

Lecture at Mammoth Hall Edward Adams Cantrell will give at Mammoth hall, 517 South Broadway, at 3 p. m. this afternoon, the second of his series of lectures on "World Conceptions, Ancient and Modern."

ELECTION HELD BY YACHT CLUB

MEETING RANKS AS LARGEST IN ITS HISTORY

Members Stay at San Pedro to Witness Official Dory Races for Cup Offered by The Herald

One hundred members of the South Coast Yacht club gathered at the club building in San Pedro last night for the annual meeting and election of officers. The meeting was the largest ever recorded in the history of the club. Much interest was manifested, there being several slates. The following were elected:

K. R. Bradley, commodore; R. C. P. Sme, vice commodore; C. H. Lane, treasurer, rear commodore, and K. J. Blich and John C. Gaffey, directors at large, to complete the board for the coming year; the other officers, such as secretary, steward, etc., are appointive.

The annual report was read by Secretary Lester C. Best and adopted unanimously. Many topics of importance were discussed, among other things plans for the coming summer regatta being taken up. All the club members remained over at San Pedro last night, some sleeping at the club house and some aboard their yachts. They will be on hand today to witness the dory boat races.

An official race of the series will be held today in the outer harbor and all the boats will be present. The Herald trophy cup is now on exhibition at A. J. Whitley's jewelry store. It will be presented to the winner of the series.

HIGH SCHOOL GRADUATES HOLD FINAL EXERCISES

One Hundred and Fifty Receive Diplomas from President of Board of Education

Pupils of the 1909 winter graduating class of the Los Angeles high school held their closing exercises at the hill top school before a large assembly of students last night in Auditorium. Principal W. H. Heath of the Los Angeles high school made the opening address of the evening, congratulated the students on their excellent work, and turned over the graduating class to Joseph Scott of the board of education. The latter, after making a short address, presented them with their diplomas.

Several musical selections were rendered by the members of the class, after which the girls of senior B class distributed flowers to the graduating members of the school. One hundred and fifty pupils were graduated.

The Want Ad "Plays Its Part" in Human Affairs

Look out of your window and watch the people who are passing. That man with the anxious face is out of work, and "looking" for it; that woman walking around, somewhat aimlessly—as he might have had to do before there was such a thing as want advertising—is a woman in a hurry is on her way to answer a want ad in person—the other woman is going shopping, and to have a servant wanted ad printed in tomorrow's paper. That young fellow answered a want ad yesterday and now has his letter appointing an interview.

The other young man, bawling along, is going to take a look at a furnished room advertised in today's paper. These are the people who have properties to sell or rent, and people meeting and passing them who want to buy or rent just such properties. The woman who wants a servant and the servant who wants a place, walk along a few paces apart—all of them, a thing as want advertising is doing. In one hour—if your window looks upon a busy street—there will have passed in review before you people with every sort of want, and other people able and willing to satisfy every one of these wants.

With a little imagination you can picture the work the want ads should do for these people, and you will do, for some of them, within a few days.

Common Sense

Leads the most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle-wrappers and attest its correctness under oath, are daily growing in favor. No SECRETS. No DECEPTION.

The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formulae, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized.

Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs.

Examine the formula on their bottle-wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unequalled endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials although the latter are received by thousands.

Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

Only \$8 a Month

Saved Regularly for Fifty Months Is Creating Fortunes for Those Who Do It Our Way

We are favorably known by every banker and every newspaper publisher in Los Angeles, and by every public chamber of commerce in California.

We mean every word of the above heading. We are organizers of Plans to create new wealth which in new communities usually goes to waste.

By one of our new Plans we have established seven widely known farming town communities in California—Wasco, Alpaugh, Clark colony, etc., but this "\$8 Plan" has brought to do with colonization.

You stay at your present avocation and without effort or care on your part and without one penny of your money being at risk, you lay aside \$2 a week for only four years and create an available Board Advisory asset that rapidly becomes a snug fortune of from \$2000 to \$5000, repeating itself without labor every ten years.

We are not stock, oil, mining, invention or town lot promoters. We organize the creation of new wealth.

In all new communities there are valuable sources of economic wealth going to waste.

We can show you beyond your power of disbelief. We want all the school teachers, all the wage earners, all the salaried folks, all the professional men, to heed this call. We want to help you force yourself to save and acquire the means to tell you how \$2 laid aside by you weekly will create a snug fortune, in a way not jointly mixed with any other member, but individually and separately.

Write for FREE BOOKLET, or Send 10c for reprints from 5 government bulletins about this opportunity and a sample of the product, and also 3 months' trial subscription to the Western Empire Magazine, a lovely orchard and garden home industrial journal of California.
