MUCH GOOD IS ACCOMPLISHED

EASTERN MAN'S VISIT WILL BE LONG REMEMBERED

MANY BENEFITED BY USE OF COOPER TREATMENT

Mrs. Smith Tells How She Was Transformed from Physical Wreck to Splendid Health

It would be difficult to estimate the amount of good accomplished in Los Angeles and vicinity by L. T. Cooper during his recent visit in this city, whither he came to introduce the medicines which bear his name. During the early part of his stay, before the object of his visit was fully understood, many held aloof, fearful lest his claims might prove to be exaggerated.

The sale of the Cooper remedies in Los Angeles has been tremendous, and since Cooper's departure last week San Francisco there is no sign of a let-up in the demand for his preparations.

'I became exhausted with the least exertion—could not walk a block without becoming weak and faint. I was unable to perform work. My nerves were in a shocking condition, and although I consulted various physicians and tried numerous remedies that were recommended to me, nothing did me any good.'

'I was greatly discouraged, and had about given up all hope of ever being well again, when this Mr. Cooper came to Los Angeles. I was interested in the reports of his work, but had no idea that he could help me. One day a friend urged me so strongly to give Mr. Cooper a trial that I finally consented to do so and procured a treatment of Cooper's New Discovery. I obtained relief almost immediately, with I confess was an agreeable surprise.'

'As a result of taking the full treatment I am now a well woman. I eat anything and drink anything without a sign of discomfort or distress afterward. I have no trouble from gas, as my digestion is perfect. I feel stronger and better in every way than I have in years. I give all the credit to Cooper's New Discovery, which I think is the best of medicines for stomach sufferers.'

PRESIDENT SCORES GRAND SECRETARY FOR INCOMPETENCY Declares Proceedings of Meeting in 1908 at Yosemite Valley Were Improperly Recorded and Much Was Omitted

MARYSVILLE, April 26.—Grand President Charles Belshaw was "mired" somewhere between this city and Colusa in his automobile this morning, and the opening session of the thirty-second annual grand parlor of Native Sons of the Golden West was delayed on that account.

First Vice President Joseph R. Knowland called the session to order at 10 o'clock and introduced T. R. Cooper, a representative of the United States forestry service, who gave an address on forestry and the work of foresters in Germany and the United States.

The committee on credentials reported near noon, the delegates were seated and the grand parlor took a recess until 2 o'clock. Placerville and Georgetown parlors have a proposition to donate to the grand parlor twenty-three acres of grand parlor land, the Marshall monument at Coloma, providing the parlor will maintain there a home for aged Native Sons. Many delegates are favorable to the project.

Bokeley parlor has a plan to make addition to parlors more difficult, by providing that the medical examination be more severe, and requiring the family history of the applicant be given. Monterey and Lake Tahoe seek the next session of the grand parlor, and San Jose wants the Admission day celebration.

Scores Grand Secretary Grand President Belshaw arrived at noon and his report was submitted. It scores the secretary. The report says: "I feel it my duty to call the attention of the grand parlor to the fact the proceedings of the thirty-first session of the grand parlor held in Yosemite valley last year, not only do not contain several of the most important transactions of that grand parlor, but also record some of the transactions as they did not occur."
