THIS IS AN APPEAL TO YOU!

It's the Need of More Advertising

Cannot we stop our own countrymen from emigrating to Canada? When we stop to consider that each year there are from 75,000 to 100,000 well-to-do American homeseekers leaving the United States for the Canadian northwest, does it not appear to you that we are not doing our utmost to attract them? Can it be possible that we, with thousands of acres of virgin soil still undeveloped and climatic conditions that have no equal on earth cannot offer these people a home where life is worth living?

You are not doing all that can be done. The Pacific Monthly is devoting its pages to further this good work—now and always. We feel there is a need here for just our kind of magazine to carry on this work—BUT WE NEED YOUR SUPPORT. You have lands for sale. Make this magazine your Special Representative to carry your offer to the American homeseeker who does not know of them.

YOUR SUPPORT WILL ENCOURAGE US
CAN WE NOT EXPECT IT?

Electric Belts

are valuable according to the amount of power they generate, how strong and the quality of the works; not on account of the CLAIMS made by anyone, but on account of the PROOF ADVANCED by the manufacturers PROVING that the belt is the very strongest and the most perfect working appliance of its kind. That's why Brantverne's electric belts are worth more than a dozen times the prices charged for them, and as Brantverne sells the largest number of belts and MANUFACTURES them, he can undersell every one and give better quality for less money than others can afford to sell for. Why pay a big price for an inferior appliance when Brantverne sells a powerful 6-cell dry battery belt with rheostat regulator, electric suspensory (the best) and elegant satin finished case, ALL FOR \$5, complete, just as if you paid some dealer from \$10 to \$60 for it. Wise men investigate; they don't take another man's word for it, and that's what we want you to do, investigate. We show the goods and prove them the best by convincing tests and proofs. Remember this \$5 belt is special for a short time only and tests several times as strong as any other sold at double or ten times the price. Brantverne is a genuine manufacturer and can show you his factory; that proves it. Who else can? Brantverne's high grade dry cells cannot be bought anywhere else and imitations of them CANNOT test half the power nor last one-tenth as long. High grade appliances at BOT-TOM prices. Cut out this ad. and bring or send it and get our elegant powerful, complete, finely finished belt for \$5. Call or write for free book and big catalogue lists.
