

AMUSEMENTS

BELASCO THEATER
Belasco-Blackwood Co., Proprs. and Mgrs.
Matinees Thursday, Saturday and Sunday.
Third and Positively Last Week of This Great Hit

Over 10,000 Los Angeles theater goers have already seen this great performance of Charles Klein's world-famous play, and still the Belasco theater is entirely too small to accommodate the crowds that want to see the greatest of all great plays.

THE LION AND THE MOUSE

This is positively the last week of this supreme success—it's going to be played just nine times more at the Belasco theater. If you overlook this big play you're missing the greatest success of the year. "The Lion and the Mouse" is easily the most sweeping success that has ever been given at the Belasco theater. Remember that "The Lion and the Mouse" is presented at the regular Belasco prices. Every night, 25c to 75c. Matinees Thursday, Saturday and Sunday, 15c to 50c.

RICHARD BENNETT IN HIS ORIGINAL ROLE OF JEFFERSON RYDER. FLORENCE REED AS SHIRLEY ROSSMORE. DAVID M. MARFORD AS JOHN RYDER, AND EVERY OTHER POPULAR BELASCO PLAYER IN THE CAST OF THIS TREMENDOUS TRIUMPH.

NEXT WEEK—Hoyt's noted comedy success, "A DAY AND A NIGHT IN NEW YORK." Special musical numbers. A host of pretty girls, as well as every Belasco favorite. Seats now on sale.

GRAND OPERA HOUSE
The Home of Clean, High Class Melodrama.
TONIGHT AND ALL THIS WEEK
The Grand Stock company presents Julius Mortimer's famous melodramatic success.
A MAN'S BROKEN PROMISE
Popular Grand Opera House prices prevail.

A LADY'S BEAUTIFUL GOLD WATCH GIVEN AWAY ABSOLUTELY FREE AT THE MATINEE TODAY.

MOROSCO'S BURBANK THEATER
The Home of Success.
LOS ANGELES' LEADING STOCK HOUSE

ALL WEEK MATINEE SATURDAY
The incomparable Burbank stock company in Francis Wilson's great hit.

WHEN KNIGHTS WERE BOLD
A LAUGH THAT LAUGHS FIRST TIME IN STOCK
CRITICS ENTHUSIASTIC—READ WHAT THEY SAY!

"Delicious fantasy. I found myself laughing quite indecently."—W. Herbert Blake in "Herald."
"Big bit of work. I was frankly so delighted with the entire performance and every individual in the cast that I would require a column or more in which to properly savor over."—Othman Stevens in "The Examiner."

Regular Burbank prices. Nights, 25c, 50c, 75c, 10c, 15c, 20c, 25c, 30c, 35c, 40c, 45c, 50c, 55c, 60c, 65c, 70c, 75c, 80c, 85c, 90c, 95c, 1.00. Matinees, 10c, 25c, 50c, 75c, 1.00. Next week—Oliver Morosco's Great Detective Drama, "SHERLOCK HOLMES."

VETERANS ASK TO BE MUSTERED OUT

Officers Declare Honorable History of Disbanded Regiment Ignored and Forgotten by the State

(By Associated Press.)
SAN FRANCISCO, June 28.—Three retired veteran officers of the California National Guard, "Citizen soldiers" who have seen active service under the state flag, when the call for volunteers has gone forth, traveled to Sacramento today to lay before Governor Gillett a petition signed by eighty-three members of their former commands, now the First and Third companies, coast artillery, asking that they be mustered out of the service.

The paper was drawn up in the form of a round robin and voices the protest of the rank and file against the disintegration and loss of identity that has come upon the First California Volunteer infantry, the beginning of which was laid in the days of the San Francisco vigilantes in 1855.

Claim Rights Ignored
The mustering out of the two companies is asked because the members believe their rights have been disregarded when they are made coast artillery after forty years of service as infantry, and because they were proud to belong to the unit and its history, they declare, forgotten or ignored.

The officers carrying the petition were Maj. Charles L. Tilden, who led a battalion of the regiment through the Philippine campaign; F. A. Will and F. A. Taggart.

The companies are those known as the "Nationals," and are the only remaining organizations of the First regiment of infantry, N. G., which was disbanded after the disaster of 1906 because its army was destroyed.

New General Manager Appointed
MINNEAPOLIS, Minn., June 28.—George R. Huntington was today appointed general manager of the Minneapolis, St. Paul & Sault Ste. Marie railroad, to succeed Edmund Pennington, who was elected president after the death of Thomas Lowry.

Taft Gives Roof Dinner
WASHINGTON, June 28.—President Taft gave a state dinner tonight on the roof of the west wing of the White House. The dinner party was made up largely of senators, a noticeable number being present from the south.

Library Men Meet
BRETTWOODS, N. H., June 28.—The library association of the American Library association's annual conference were begun here today and will continue until July 5.

Balloon Zeppelin at Metz
FRIEDBERG, HAPFEN, June 28.—The balloon Zeppelin No. 1 started late tonight for Metz, where it will be permanently stationed for military purposes.

Bishop McFaul, Who Places Ban on Big Universities

JAMES A. McFAUL OF TRENTON, N. J.

TRENTON, N. J., June 28.—Bishop James A. McFaul of the Roman Catholic diocese of Trenton stirred the heads of the big universities, such as Yale, Harvard and Princeton, when he denounced them as teaching and inculcating immorality in his address to the graduating class of the College of St. Francis Xavier in New York city. President Hadley of Yale declared he believed the bishop had been misquoted, but Bishop McFaul replied that he not only had been correctly quoted but that he had much more to say along the same lines. In a subsequent interview the bishop was quoted as saying: "I shall instruct every Catholic in my flock to send his son to one of these universities is comparable to committing his soul to perdition."

NEW YORK GETS COOLING SHOWER

HEAT IN EMPIRE STATE METROPOLIS BROKEN
STORM CAUSES ONE DEATH AND SEVERAL INJURIES

Many Succumb in East During Severe Torrid Period—Mortality Report Shows 200 Additional Victims

(By Associated Press.)
NEW YORK, June 28.—The second of a series of cooling thunderstorms broke with the violence of a cloudburst late this evening. There was a sudden drop in the temperature.

The storm was responsible for the death of one man and the injury of several.

At the Polo grounds the game between New York and Brooklyn was about to begin, when lightning struck the flagpole in center field, smashing the upper portion of the staff into splinters and tearing down the pennant flag which the New York team won in 1905.

Before relief came today two deaths were added to the long list of temperature victims. There were a score of prostrations.

The maximum temperature was 86, but the humidity was great.

Summing up the results of the heat wave, Health Commissioner Darlington, in his weekly mortality report, today noted an increase of nearly 200 deaths more than the corresponding period last year.

TEN PERSONS SAID TO HAVE DIED FROM HEAT

CHICAGO, June 28.—Ten deaths superinduced by the excessive heat have been reported to the police today. Numerous cases of prostration have been cared for at the hospitals.

A cooling breeze swept over the city tonight and brought temporary relief. An emergency order has been issued to the police to allow men and boys to sleep in the city parks.

The Salvation Army will take 25,000 poor children on a lake trip tomorrow.

Senators Discard Vests

WASHINGTON, June 28.—Intense heat brought a variety of picnic clothing when senators assembled today to take up the tariff bill. Vice President Sherman was attired in white and he used a big palm leaf fan. Vests were generally discarded by the senators.

Heat Still Remains

PHILADELPHIA, June 28.—With the humidity at the highest point since the beginning of the hot spell, this city today is still in the grasp of intensely uncomfortable weather. At 1 p. m. the temperature was 85 degrees. There were many prostrations.

NEW COMPANY INTENDS TO BUILD DOCKS AT OAKLAND

Business Men Incorporate to Supply Shipping and Railroad Facilities for Terminal

OAKLAND, June 28.—Incorporation papers for the Oakland Dock and Terminal company, a \$5,000,000 concern, which purposes to build and operate docks, piers, coal yards, factories and all manner of enterprises connected with shipping and railroad terminal points, were filed today with the county clerk.

The promoters of the company include F. M. Smith, the borax magnate, who virtually controls the Key Route and Oakland traction systems; E. A. Heron, G. E. Pratt, Harmon Bell and F. C. Havens, all prominent in Oakland business and realty circles.

The incorporation papers state that the completion of the bulk head between the Key Route and Southern Pacific piers, begun several years ago, is one of the first objects to which the company will devote its energies.

FIND SMUGGLED OPIUM ON LINERS AT SAN FRANCISCO

Contraband Drug Found in False Bottoms in Ship's Stores—Arrests Made

SAN FRANCISCO, June 28.—A search of the transpacific liners Chiyu Maru and Asia resulted today in the arrest of two Chinese charged with smuggling opium and the seizure of 122 five-ounce cans of the drug, hidden between the inner and outer shells of the steamers.

The customs officers observed two Chinese acting strangely and seized a suit case they carried. This was discovered to contain forty-two cans of opium.

The cans were attached to long strings, and the search of the steamers revealed other strings projecting from the space mentioned. When these were pulled up the other cans were found.

On the Asia opium was found concealed under false bottoms in several cans of paint among the ship's stores.

Income Tax Will Be Defeated

WASHINGTON, June 28.—The resolution submitting to the states the question of amending the constitution so as to give congress the right to levy a direct tax on incomes was brought up in the senate in advance of the administration program for the adoption of an amendment to the tariff bill imposing a tax on net earnings of corporations. It is rumored today that the capitol that this resolution will be defeated.

Falls in Cotton Rate Change

WASHINGTON, June 28.—Southern senators today ineffectually endeavored to take long staple, or Egyptian, cotton off the free list and to place it on a duty of four cents a pound, which Senator McLaughlin and covered bagging for cotton, gunny cloth and similar fabrics.

It has been expected that the southern senators would demand much time for the discussion of this question and there is no doubt that if he accomplished nothing else the chairman of the finance committee vastly expedited the final disposal of the schedules when he permitted the amendment to prevail. The amendment was agreed to and it was immediately followed by an agreement to the entire paragraph which has included binding twine in the free list.

The action by the senate will merely have the effect of throwing the rate on cotton bagging into conference. The house bill levies a duty of three-tenths of one cent a pound on cotton twine and the finance committee did not change it.

Catgut, Too

Senator Culberson, however, announced that before the bill was finally acted on he would offer an amendment placing the cotton twine on the free list. The various articles known as catgut, consolidated under the name of "animal intestines," were left on the free list, amid laughter.

Mr. Aldrich structural iron and steel when valued at less than nine-tenths of a cent a pound were assessed a duty of three-tenths of one cent a pound and when valued at more than nine-tenths of a cent a duty of four-tenths of a cent a pound.

Ineffective efforts were made by Senator Stone to have structural iron and steel on the free list, and by Senator Cummins to slightly lower duties on nearly all of the important products of iron and steel.

A duty of 1/2 cent per pound on zinc instead of one cent a pound as proposed.

TARIFF TO GIVE WAY TO DEBATE ON INCOME TAX

SENATE CONCLUDES DISCUSSION ON DUTIES

LEVY ON CORPORATIONS AND PROFITS TO BE CONSIDERED

Greater Part of Time of Session Is Taken Up with Consideration of Cotton Bagging and Cotton Twine

(By Associated Press.)
WASHINGTON, June 28.—After seventy days of almost continuous debate the senate today at 3:45 p. m. concluded its discussions of the Payne-Aldrich tariff bill. Five minutes afterward the senate adjourned for the day to permit preparation for the corporation and income tax debate which will begin tomorrow.

The early adjournment afforded the tired senators a little much-needed relaxation from long hours in the overheated chamber.

Mr. Aldrich told some of his friends he would take a few days off for a water trip if it develops that the income tax discussion is not likely to be extended. In this event Senator Flint will take charge of the bill and Senator Root, who has declined to be attorney general, will draft the corporation tax amendment, will take charge of the measure.

There has been some discussion of the corporation tax amendments until the next regular session, but this has not met with favor.

It is now expected only one vote will intervene between the assembling of the senate tomorrow and the taking up of these questions of internal taxation. Senator Tillman has pending an amendment providing for a 10-cent a pound tax on tea and it is said this provision will not lead to further debate. No intimation has been given of other amendments and the discussion probably will be allotted minutes from the tariff to the internal revenue.

Cummins to Open Income Tax Debate

It is understood the opening speech will be made by Senator Cummins of Iowa in support of an income tax amendment as part of the tariff bill in contradiction to the tariff bill in corporation tax and an independent resolution looking to the insertion of an income tax through the medium of a constitutional amendment.

Today's proceedings consisted of a general clearing up of the passed-over provisions. Cotton bagging and cotton twine, and incidentally, binding twine occupied much of the senate's time.

Early in the day Senator McLaughlin moved to place bagging on the free list, and contrary to the general expectation the resolution prevailed.

The southern senators, however, were not so fortunate in their effort which they also desired to have admitted freely. Senator Culberson proposed the charge down in ties. He came within seven votes of winning, the vote standing 21 to 23.

The vote on duty on structural iron and steel valued at more than nine-tenths of a cent a pound was increased from three-tenths to four-tenths of a cent a pound, being an addition of one-tenth of a cent.

The rate on steel of a lower value was left unchanged. On zinc in pigs there was also an addition of half a cent a pound over the house rate of 1 cent.

Ineffective efforts were made to have school books, salt and Egyptian cotton placed on the dutiable list. Senator Bacon, who offered the amendment for a duty on cotton, said at the same time that the duty on tea another rates placed on wool, cotton wool and steel valued at \$5,000,000 a year. He proposed 4 cents a pound. Senator Tillman also declared that by the adoption of his 10-cent rate on tea another \$5,000,000 could be added to the treasury receipts.

Made Slight Increase

The senate made a slight increase in the duty on structural iron and steel when valued at more than nine-tenths of a cent a pound.

It was decided to put structural iron and steel on the free list was voted down, as was a motion by Mr. Cummins to reduce the duty.

Before the schedules could be taken up Mr. Clark gained the floor and with a view to eliminating from the corporation tax amendment any authority by which the corporations may own the stock of other companies, introduced a modified form of the original text of the measure and Mr. Culberson proposed a modification by which the information gathered by the commission of internal revenue concerning corporations shall at any time be available to either the house or senate or any committee of either body.

Senator Aldrich forced the taking of the schedules at the first moment.

Cotton Bagging Free

Cotton bagging was the first item to be considered. Mr. Aldrich accepted an amendment placing it on the free list. The amendment was offered by Senator McLaughlin and covered bagging for cotton, gunny cloth and similar fabrics.

It has been expected that the southern senators would demand much time for the discussion of this question and there is no doubt that if he accomplished nothing else the chairman of the finance committee vastly expedited the final disposal of the schedules when he permitted the amendment to prevail. The amendment was agreed to and it was immediately followed by an agreement to the entire paragraph which has included binding twine in the free list.

The action by the senate will merely have the effect of throwing the rate on cotton bagging into conference. The house bill levies a duty of three-tenths of one cent a pound on cotton twine and the finance committee did not change it.

Catgut, Too

Senator Culberson, however, announced that before the bill was finally acted on he would offer an amendment placing the cotton twine on the free list. The various articles known as catgut, consolidated under the name of "animal intestines," were left on the free list, amid laughter.

Mr. Aldrich structural iron and steel when valued at less than nine-tenths of a cent a pound were assessed a duty of three-tenths of one cent a pound and when valued at more than nine-tenths of a cent a duty of four-tenths of a cent a pound.

Ineffective efforts were made by Senator Stone to have structural iron and steel on the free list, and by Senator Cummins to slightly lower duties on nearly all of the important products of iron and steel.

A duty of 1/2 cent per pound on zinc instead of one cent a pound as proposed.

SIDETRACK TARIFF BAY CITY GAINS FOR AEROPLANE HETCH-HETCHY

SENATE ADJOURNS TO SEE WRIGHT BROTHERS FLY
COURT DECIDES IN FAVOR OF MUNICIPALITY

HIGH WINDS PREVENT ASCENT AND CROWD GETS PEEVISH
BOND SALE BEGINS; LOS ANGELES FIRM GETS FIRST LOT

Noted Aviators Finally Decide Against Attempt with New and Untried Machine in Face of Uncertain Air Currents
James H. Adams Company Awarded Entire Amount of \$240,000 at a Premium of \$3050

(By Associated Press.)
WASHINGTON, June 28.—Owing to a strong wind the Wright brothers failed to make their expected aeroplanes flight at Fort Myer this afternoon. The senate has set aside the tariff bill to allow its members to witness a flight of the aeroplane. These, together with several thousand others, sized in the hot sun on the fort drill grounds, but the Wrights decided the wind was too strong and too uncertain for a flight with a new and untried machine.

Gen. James Allen, the chief signal officer, he intended to make an unofficial trial flight after 7 o'clock this evening. The field was cleared by a squad of cavalry and everything made ready for a flight.

A brisk wind was blowing from the west at 5 o'clock, and heavy storm clouds appeared, accompanied by a few scattering drops of rain.

Wind Causes Trouble

Orville Wright stated he did not mind the rain, but the wind was the objectionable feature. The wind died out and everything appeared to be ready for the trial when a fresh wind began blowing from the south.

The officers of the signal corps, the balloon detachment and the cavalry guard were the only persons permitted on the field, with the exception of a corps of photographers who had obtained the consent of the Wrights to snap the machine as it went down the starting track.

Wilbur Wright, in looking for the operator of a moving picture machine, the use of which he desired to prevent, neared the impatient crowd. He told them he usually put his machine away when the crowds in France were full, but a number of senators requested him to let them examine the machine at closer range. To avoid being questioned the Wrights retired to the aeroplanes shed until all but the privileged few again had been ordered off the field.

The wind had showed no signs of abating at 6:30 o'clock, and the trial was then abandoned.

PRESIDENT REYES PLANNED FLIGHT WITH GREAT CARE

Issued Manifestos as Chief Executive Until He Got Safely Out of Country

CHICAGO, June 28.—A special cable from Panama says that, reports from Bogota state that when General Reyes fled the capital, leaving Senator Hoiglin as the acting president, he already had decided to quit the country, fearing personal violence.

He covered his retreat strategically, issuing manifestos and official decrees until he reached Santa Marta late at night, where he took a steamer for England, traveling incognito.

Gen. Gonzalez Valencia, the vice president, will assume the presidency until his term expires. He will reorganize the government in accordance with the majority in the coming congress. He will be supported by all parties.

CALHOUN SECURES FURTHER DELAY OF SECOND TRIAL

SAN FRANCISCO, June 28.—Attorneys for Patrick Calhoun, president of the United Railroads, secured today a delay until Wednesday of the arguments on a motion for a change of venue for Calhoun's second trial on a charge of offering a bribe to a supervisor. They asked for permission to withdraw the plea of not guilty.

The defense contends that at the time of the grand jury investigation the grand juror, assistant District Attorney Francis J. Heney was a federal employe and therefore not qualified to act for the district attorney.

Appointed Receiver

GRASS VALLEY, Cal., June 28.—Henry C. McKee, a San Francisco attorney, has been appointed receiver for the sixteen to one and Bonanza King mines in Alleghany, in the suit brought in San Francisco by M. Vanderbeugle. The latter demands an accounting of all moneys and ore received by E. H. Wilson since their copartnership.
