MANY HARDSHIPS ENDURED IN MOUNTAINS Trails—Bits of News from Redlands

REDLANDS, Aug. 18.—Reports from the mountains are that the storms of the past several days continue and that they have caused bad washouts to roads and trails and inconvenience to campers. At Redlands a party in the canyon had a narrow escape from being swept away by a ten-foot wall of water, carrying quantities of debris, down the steep canyon. Warnings were given by a man in time for the crowd, made up principally of women, to get to the mouth of the canyon before the worst of the flood had reached them. In Wilshire canyon, that section, the road is badly washed out and Supervisor Horton and a large crew of men will be engaged for a week or more to repair it.

BEVERLY, Mass., Aug. 18.—Reports reaching Beverly daily from Washington and New York that the constitutionality of the new corporation tax is to be tested, have not disturbed the president in the least. He so declared himself today. The tests and the protests, the president said, were all anticipated. Himself a lawyer of some eminence, and father of the corporation tax idea, Mr. Taft is thoroughly convinced the tax will stand any test that may be applied to it. Attorney General Wickersham, a corporation lawyer of note, and Senator Root collaborated on the government challenge with the executive bill and the measure as enacted, they believe will survive any attempt to nullify it.

Most of the bluejackets then returned to their ships, but small detachments, representatives of each of the four powers, were left behind in occupation of the bastion of the Canea fort and with it the Greek flag that has threatened to bring about war between Turkey and Greece. A combined landing party, composed of detachments from the ships of the four powers, was sent ashore before sunrise today and the task of removing the Hellenic emblem was carried out in a few minutes without any attempt at interference on the part of the islanders.

Cretons Are Passive Four warships of the protecting powers assembled in Canea harbor yesterday afternoon, their presence being an outcome of the difficulty which had arisen between Greece and Turkey since the evacuation and an indication of the purpose of the powers to maintain the status quo.

Yesterday the foreign consuls at Canea notified the Creton government that the Greek flag would be hauled down this morning, and they warned the government that if it failed to consent to the evacuation of the island, Creton would follow any attack made on the international landing party.

On receipt of this warning the Creton authorities issued an appeal to the people to obstruct in any way the action of the powers. The action of this morning means that the protesting powers have returned to Creton island and the situation is again much as it was before July 27.

It is asserted that he introduced her as his wife when he went to order a suit for which he tendered a \$25 check in payment of a deposit, receiving \$10 in change. It was discovered later that the signature on the paper had been forged.
