MARKET MAKES SOME RECOVERY

LIQUIDATION LEAVES WEAK SPOTS. AGGRESSIVE BEARS MAY REVERSE OPERATIONS.

Wholesale Short Coverings of American Securities at London Induces New York to Act in Sympathy at Opening.

[By Associated Press.] NEW YORK, Aug. 27—The stock market made some recovery today, but the undertone was uncertain.

It was plain that the drastic liquidation of the previous three days had left a number of weak spots at which the aggressive bear party might renew its operations.

News of Harriman's health was not altogether encouraging and Wall Street is primarily interested in the future of the Harriman properties.

One of the features was the persistent pressure brought to bear upon United States Steel. It was freely offered and before noon had advanced to the previous day's low price.

The market opened auspiciously in response to London's "short" covering of Americans.

First prices were up all the way from 1-1/2 in Union Pacific, to 2-1/2 in Southern Pacific, with numerous other issues higher by a point.

During the early afternoon business continued dull, with narrow price movements and no definite trend either way.

Just before the close the list sold off on rumors again associated with Mr. Harriman, and for a time the market looked squally.

The closing was decidedly irregular. The final five minutes underwent a change in favor of better prices.

There were no marked changes in the general monetary situation, which reflects the greatest ease all over the country and abroad.

The report of the Missouri Pacific railroad for the fiscal year was rather disappointing, for while total operating revenues increased over \$500,000, expenses increased more than \$1,200,000, leaving a decrease in net earnings of \$700,000.

The bond market was irregular, with much less business than on the previous day. Total sales, par value, \$4,747,000. There were no changes in government bonds.
