

The Kurtzmann

A Piano of Great Intrinsic Merit at a Moderate Price

\$375 to \$500 FOR UPRIGHTS \$800 FOR GRANDS

Can be Bought on Terms of \$6 Monthly

If your piano investment is to be a moderate one select a Kurtzmann. The Kurtzmann is one of the few pianos whose artistic and intrinsic worth extends beyond the price. The Kurtzmann at \$375 stands as a giant among contemporary values. You can pay less for piano not so good. But if you pay the Kurtzmann price see that you get Kurtzmann quality. There is only one way to get this quality at the price, and that is to get the Kurtzmann piano. Famous musicians—among them Ellen Beach Yaw and Tom Karis, include the Kurtzmann. Let us demonstrate its merits to you.

The New Victor and Edison Records are ready here for you.

Geo. J. Birkel Co.

Steinway and Cecilian Dealers

THE CITY

Strangers are invited to visit the exhibits of California products at the Chamber of Commerce building, on Broadway, between First and Second streets, where free information will be given on all subjects pertaining to this section.

The Herald will pay \$10 in cash to any person furnishing evidence that will lead to the arrest and conviction of any person caught stealing copies of this Herald from the premises of our patrons.

Membership in the Los Angeles Realty Board is a virtual guarantee of reliability. Provision is made for arbitration of any differences between members and their clients. Accurate information on realty matters is obtainable from them. Valuations by a competent committee. Directory of members free at the office of Herbert Burdett, secretary, 825 Security bldg. Phone Broadway 1596.

The Legal Aid society, at 222 N. Main, is a charitable organization maintained for the purpose of aiding in legal matters those unable to employ counsel. The society needs financial assistance and seeks information regarding worthy cases. Phone Home 7233; Main 5388.

The Herald, like every other newspaper, is misrepresented at times, particularly in cases involving hotels, theaters, etc. This publication would like to take notice of any representative of this paper is equipped with the proper credentials, and more particularly equipped with money with which to pay his bills.

AROUND TOWN

To Attend Humorists' Convention Frank Seagriff, president of the American Press Humorists' association, will leave this week for Detroit to attend the annual convention of the association.

To Address Good Government Club S. A. Waldron will speak before the Good Government Organization club of precinct 25 tomorrow night at 8 o'clock in the Park Congregational church, corner of Metcalf and Temple streets.

The Good Government Organization club of precinct 16 will be addressed at 7:30 o'clock tonight by Will D. Gould in the Methodist Episcopal church, Alvarado and Reservoir streets.

Train Equipment Improved The equipment of the Owl train between Los Angeles and San Francisco, leaving Los Angeles at 6 o'clock in the evening daily, has been improved by the addition of an eight-compartment observation car.

To Open I. C. S. Club House The formal opening of the I. C. S. fraternity club house at 1317 South Flower street will be given Friday evening, September 3, at 8 o'clock by Los Angeles chapter, No. 56, of the I. C. S. Fraternity of the World.

Mulatto's Case Continued Police Justice Frederickson yesterday continued the case of Henry Weaver, a mulatto, accused of assisting Irene White and Jean Jones, telephone operators, until September 2. The negro admitted having spoken to the young women.

Ice Man Discharged Frank Frazier, an ice man, has cause to appreciate the recent hot spell. He was arrested for driving his ice wagon over a newly paved street, but owing to the fact he did so to serve customers who were sorely in need of ice he was discharged by Police Justice Frederickson yesterday.

Embezzlement Charge Dismissed Harry Hirschfeld, charged with embezzling \$8 from a kosher meat market, where he formerly was employed, was discharged by Police Justice Frederickson yesterday. After hearing the testimony it was found that there was insufficient evidence against Hirschfeld and he was discharged.

Seymour Now Proud Father Joseph P. Seymour, Jr. was the happiest man at the central police station yesterday. The cause for his unusual happy frame of mind is due to the fact that a 6½-pound boy arrived at his home early yesterday morning. "He will be an attorney some day," declared Seymour. "He appealed and was discharged."

George A. Smith Indorsed The candidacy of George A. Smith for mayor was indorsed by the Twenty-first Precinct Republican club at a meeting last night, at which 100 members were present. The candidacy of S. A. Austin for councilman at large was indorsed. S. A. Austin was elected president of the club and I. Finkelstein secretary.

Monte Vista Protest Sustained The protest against the Monte Vista storm sewer was sustained by the city council yesterday. The city engineer reported to the council yesterday that the protest was denied, as not representing a majority of the frontage, but there were 100 or more protestants present and councilman Wallace moved that their plea be granted.

To Address Reform Board Rev. Wiley J. Phillips, editor of the California Voice, and R. W. Reynolds, officer of the Los Angeles Humane society, will address the Second Ward Central Club of the Good Government organization in the Methodist Episcopal church, south, at 1035 Sunset boulevard, next Friday evening at 8 o'clock.

Carpenter Struck by Auto In attempting to cross the street in front of an automobile at Fifth and Spring streets yesterday J. C. Popple, a carpenter of 287 India street, Pasadena, was struck by a motor car driven by G. H. Reed of 612 San Pedro street and knocked to the pavement. The injured man was taken to the re-

GAME UNFAIR SAYS HOPKINS

COUNTY ASSESSOR SHOWS WHAT STATE IS DOING

Northern Counties Have Shown Decrease While Southland Has Been Piling Up Her Millions for Taxation

(Continued from Page One) excessive, misleading and absolutely valueless; made without any basis or proper knowledge of value of property. I do not care to and will not criticize the assessor or his assessment roll. "Any man can tear down a building, but it takes a master mechanic to build one." But you can obtain equalization only by comparison; therefore, you will pardon me if I refer to some other counties in the state, as we cannot compare Los Angeles county with itself, except by comparing one year with another.

Prior to this year this county has not appeared before you for consideration since 1903, and in that year its assessment was not changed. What have we done since? Look at your own statistics and you will see that that year we returned a total of \$164,712,785. The next year, in round numbers, we gave you an increase of more than \$30,000,000, in 1905, \$39,000,000; in 1906, \$22,000,000; in 1907, \$30,000,000; in 1908, \$24,000,000, and in 1909, \$21,000,000 more, this year reporting \$420,022,550. AN INCREASE IN SEVEN YEARS OF MORE THAN \$250,000,000, OR AN INCREASE ALONE OF \$68,000,000 MORE THAN THE TOTAL ASSESSMENT OF ANY OTHER COUNTY IN THE STATE, EXCEPT SAN FRANCISCO.

Bear in mind that the two years past have been years of extreme financial depression. Look the state over and see if you can find anything even approaching this. Drop in San Francisco Look at the only county that has a larger valuation than Los Angeles county. In 1903 San Francisco was also before you. You fixed its value at \$45,856,445. The next year it dropped \$43,000,000 and this year it stands at \$42,856,197, or \$53,000,000 less than before.

Take the next county nearest us in valuation. In 1903 Alameda county was before the board at a valuation of \$126,477,981. It lost \$20,000,000 the next year; was assessed for \$120,000,000 in 1906 and this year is assessed for \$122,000,000 more than in 1903. Here is the showing of these three counties for the seven years past:

Los Angeles, a gain of\$255,000,000 Alameda, a gain of\$82,000,000 San Francisco, a gain of\$53,000,000

Taking the matter up in a different form, I desire to show you three counties of Los Angeles, San Francisco and Alameda paid 55 per cent of the entire state tax and in 1909, the present figures of these counties are left untouched, that they still pay the same 55 per cent. But Los Angeles county is now required to pay not quite 11 per cent of the entire state tax, this year on the present figures will pay more than 21 per cent and surely be satisfied to the most enthusiastic booster.

Matter of Comparison We do not enter any complaint about the assessment of the two other counties, but we do enter a protest to you only for the purpose of comparison, but we do ask to be allowed to give you our normal manner of giving you "official assistance" from abroad.

How have we increased the value of our property? By the untiring energy of our citizens, by the assistance of the building up of the county and state; by the issuing and sale of millions of dollars worth of bonds; by the money thus obtained in building public improvements, water works, good roads, schools, etc., mortgages of future and investing the money in betterments, thereby creating new values and wealth for the present.

No Niggardly Policy These bonds are yet unpaid, but we will pay them out of our own resources and are glad and willing that the state at large shall profit by these increased values created by the money raised from our own bonded indebtedness, but in the meantime we do not want to be compelled to pay more than our just proportion of the expenses of the state.

Do you wish to penalize a community for bringing millions of foreign money into the state, for making public improvements when by so doing we have increased the value of the state and created new wealth? Do you wish to draw a fruit rancher in taxes before he has paid for his water system, by aid of which he has transformed a blistering desert into an orchard? For years tax experts have been seeking a system whereby the burden of taxation could be lifted from the land, and have charged that a great proportion of other states have done this. Yet this board has taken the realty only of this county as the measure of value to use as the basis of arriving at the correct assessment of the county, ignoring over \$132,000,000 in value of other classes of property.

Pertinent Facts Cited I desire to call your attention to the assessment of \$69,534,580 of personal property almost as much as the state, and to the assessment of 90,000 poll taxes, AS MANY AS FIVE COUNTIES OF THE STATE. These may be insignificant items, but we who pay do not think so.

I also would call to your notice the assessment of franchises, street railways and other public utility companies, one of these street railways alone being assessed for one and one-half times as much as the entire assessment of the three steam railroads within this county. Look not only at the per cent of value used, but also at the per cent of property assessed, compare the total of one county against the total of another.

STATE BOARD'S METHODS SHOWN

AFFIDAVIT CHARGES ATTEMPT TO RAISE FIGURES

County Assessor Hopkins Addresses Board and Gives Figures to Show What Taxes Southland Pays

(Continued from Page One) changed his original figures, was not forthcoming. Mr. Garland of the realty board went to the home of Mr. Hart and obtained an affidavit which caused the real sensation of the meeting.

The letter of Mr. Hart which caused the great surprise was as follows: To the State Board of Equalization: I hereby, of my own free will and choice, do confirm and maintain that the first figures in my appraisal of the present market value of the several properties submitted to me by the state board of equalization, all such property being situated in the city and county of Los Angeles, are as near true and correct, in my own opinion, as it is possible for me to render, and are made and based upon a thorough knowledge as a bank appraiser in Los Angeles for twenty years.

And furthermore, by an earnest request from the state board of equalization in the parlor of the Hollenbeck hotel, Friday, Aug. 27, at 5 p. m. to the effect that I compromise and get together with and stand with the distorted and extremely high appraisements on the same property by the other two appraisers, Mr. Harpham and Mr. Varcoe, and against my better judgment and protest, I submitted to such a compromise, which I now regret.

Brown cried out that such a letter was a lie and false in every particular and that the board did not use any influence to have Mr. Hart change from his original figures. Controller A. B. Nye stated that he was sorry that Mr. Hart had written such a letter, but that it was appreciated by the Los Angeles county delegation that ensued when Mr. Garland had finished reading.

Chairman Brown then demanded the affidavit, but Mr. Garland replied that he did not know whether he would give it to the board.

County Assessor Hopkins arose to the occasion at this point and stated that he would have copies of the affidavit made and give the original to the state board for future reference.

The reading of the letter and the argument took all the spice out of the meeting, and half an hour later the board of equalization adjourned, to take up further consideration at the meeting to be held in Sacramento, when the real work of the state tax apportionment will be decided.

County Assessor E. W. Hopkins was the real cross examiner during the morning session, and by his questions sought to show that the appraisers selected by the state board were not competent to judge of property valuations. He was well seconded by the Los Angeles realty board and a number of persons were called to testify under oath that the land valuations were excessive.

Real estate men and property owners from Pasadena, Long Beach and Hollywood were called and, in every case, the witnesses agreed that the valuation was excessive.

Mr. Harpham and Mr. Varcoe, two of the men selected by the state board of equalization to assess values, testified that the figures they had submitted were fair and equitable, but the witnesses had disputed the statements and Mr. Garland of the realty board went on record as saying that he challenged the opinion of the two members and expressed surprise that Mr. Hart, after submitting a minority report, was influenced to change his figures from a low point, to what he termed an "exorbitant valuation."

County Assessor Hopkins, in his questioning, sought to show that work of the realty board had not been done properly and was successful in eliciting the information that most of the appraising was done by means of telephone instead of a minority report, was influenced to change his figures from the appointed to furnish proper land figures, and that the report should be discredited.

Chairman Brown then gave an idea of the method of the state board by saying that entire dependence was not placed on the appointed appraisers and that others were appointed, to gain information, who kept their work secret.

Mr. Harpham admitted that he placed values on property that he had not seen and Assessor Hopkins made the remark that he believed the most of the work was done by hearsay, in spite of the large salary that was supposed to have been paid for conscientious work.

Assessor Hopkins argued that a serious mistake had been made in appointing appraisers who were not qualified to perform the work and ridiculed the plan of having the three members effect a compromise in order to ascertain a figure of valuation for Los Angeles property.

That the result of yesterday's meeting will make a bitter fight before the final adjournment of the state tax levy is made is certain, but George M. Black of the realty board grasped the opportunity offered by State Controller A. B. Nye and stated that he would forward a minority report in order to have the state board made aware of the real financial conditions.

Mr. Black argued that at present real estate business was at low ebb and had been for more than three years, and that sales made during the present time for cash resulted in a real financial loss.

The members of the board, evidently perturbed, concluded their work in Los Angeles at 5 p. m., and left last night for Sacramento where consideration of the valuation of northern counties will be taken up.

In an interview before leaving Los Angeles, Chairman Brown said: "We always have this same trouble. Persons do not realize that our only object is to attain an equitable division of the tax rate. "We have to employ secret methods, else we could not reach real facts. It has been strenuous work in Los Angeles, and we expected to meet with much opposition. We will digest the facts at Sacramento and, although the taxpayers of Los Angeles county object to such high valuation, we will endeavor to give each county a square deal."

We will digest the facts at Sacramento and, although the taxpayers of Los Angeles county object to such high valuation, we will endeavor to give each county a square deal."

Many people, even in this enlightened day, secrete money about their houses. A fire or a robbery would cost them their savings—but they will not realize their risk.

Other people regularly have considerable sums of cash, either kept on hand at home or carried about on the person. This is not a safe method—a little thought will convince you of that.

Deposit your money in this great Bank, where it will be secure and earning for you. When you need it, it will ordinarily be ready for you, together with what it has earned.

If you're frequently in need of money for daily expenses, follow the modern method—have a Checking Account with this Bank. Carry a Check Book—pay by check.

Make a "Special Ordinary" deposit, against which checks may be issued without presentation of Pass Book.

It will earn interest at three per cent, figured on your minimum monthly balances of \$300, or more. Interest is credited monthly.

The location of this Bank, the most central in Los Angeles, makes it most convenient to all.

Valuable papers—deeds, mortgages, contracts, insurance papers, receipts, etc.—should not be kept in your pockets or at your home, or even in your office.

Place them in our Electrically Protected Safe Deposit Vaults. They'll be secure there from fire, theft, loss or misplacement.

Individual boxes of generous size, in our Chrome Steel Vaults, at rentals from \$2.00 yearly upward. Vaults open from 8:00 A.M. to 5:30 P.M. Inspection invited.
