UNEASINESS CAUSED BY MAD DOG SCARE

NEW LAW TO BE ENFORCED RIGIDLY

All Canines Must Be Kept Either Muzzled or Chained—Several Cases of Rabies Developed Recently

[Special to The Herald.]
PASADENA, Nov. 19.—The mad dog scare in this city is causing considerable uneasiness since County Veterinarian Roland declared the three cases he had investigated were undoubtedly muzzled or dumb rabbies. Yesterday afternoon a Spitz dog, which is now being held on suspicion of being afflicted with rabies, is reported to have bitten two children. The dog was finally caught by Carl Brandenburg and held at the police station until taken away by the humane officer. At the police station it snapped at the officers who went near it, but the officers believed the dog to be naturally vicious and not mad. This morning Dr. Boucher stated that the dog was undoubtedly in the first stages of the disease, and Dr. Roland also substantiated the statement after investigation.

To Hold Institute
PASADENA, Nov. 19.—The second annual institute of the Pasadena Christian Endeavor union will be held tomorrow and Sunday in the First Congregational church. The institute will commence at 9 o'clock in the morning. The local officers are Mrs. M. F. Bollet, president; C. A. Eggleston, vice president; Mrs. J. H. Howard, secretary; Fred A. Turner, corresponding secretary; and A. B. Williams, treasurer. The committee in charge of the conference is composed of Mrs. Follet, Mrs. Arthur B. Williams and Miss Eva Huntley.

PASADENA NOTES
PASADENA, Nov. 19.—Charles Grimes, who has just returned from the Tom Reed mine, reports that new discoveries of high grade ore have considerably increased the value of the property. The police department of this city has established a shooting range in the basement of the city hall for pistol practice. Shooting may be done to any distance up to 100 yards. Tomorrow's great football rally will be held this morning at the chapel hour. President Scherer urged the members to put their mightiest efforts forward and defeat the Pasadena high school team. The game will be played Thanksgiving day on the Tournament park grounds. Building permits have now reached a total of \$108,000 for the month. Dr. Earnest Loring, president of the board of education of Berkeley, is in Pasadena and will inspect the high school and other educational institutions before returning to the northern city. The Shakespeare club will act as hostess for the children of the Pasadena training society tomorrow at its club building, when donations of singing and reading will be received. It will be in the nature of a thank offering.

HOLLYWOOD HOUSE BURNS WHILE OWNERS PLAY CARDS

Home of Mr. and Mrs. J. H. Lindsay, 140 Eaton Avenue, Destroyed by Fire

HOLLYWOOD, Nov. 26.—While Mr. and Mrs. J. H. Lindsay were attending a card party in Los Angeles this evening, their home at 140 Eaton avenue was destroyed by fire. The origin of the blaze is not known, as none was at home or in the immediate vicinity at the time. Mrs. Charles Corberly, a neighbor, discovered the flames and immediately turned in an alarm, but by the time the fire department had responded the house was a heap of smoldering ashes. The Lindsay home was a two-story frame, containing eight rooms. It was valued at \$50,000, including furniture, and the total loss is more than \$50,000. The Lindsays had not returned up to midnight and it could not be learned whether any insurance was carried.

Vehicles Must Go Slowly
SAN BERNARDINO, Nov. 19.—The narrow escape from a bad accident on the Mount Vernon viaduct over the Santa Fe yards yesterday when an automobile traveling at a high rate of speed collided with the guard rail, partially demolishing the machine, resulted in the posting of notices today by Chief of Police Shay ordering all vehicles to slow down to six miles per hour while on the structure.

Struck by Automobile
SAN BERNARDINO, Nov. 19.—Charles Nab of Colton was injured severely here last night by being struck by an automobile driven by John Waters, a high school lad. Nab stepped off an electric car and started across the street when run down by the machine. His leg was broken and he was otherwise injured. He was taken to the county hospital.

Well Known Carpenter Dies
SAN BERNARDINO, Nov. 19.—I. A. Jameson, a carpenter who has made his home in this city for a number of years, died yesterday. His son Arthur, supposed to be in Los Angeles, cannot be found, and it is feared the funeral may have to be held without his knowledge of his father's death. He was a member of the Elks lodge of Santa Monica.

MUNICIPAL CAMPAIGN IS EXCEEDINGLY QUIET

DOLLARD ONLY CANDIDATE TO STIR UP THINGS

The Major Makes Many Addresses, from Any and Every Vantage Point—Interest Centers in Majority Race

[Special to The Herald.]
SANTA MONICA, Nov. 19.—Contrary to expectations, the municipal campaign in Santa Monica is exceedingly quiet. It was given out previous to the expiration of the time for nominations that this would be the most strenuous campaign since the city was organized, but so far the prediction has failed to be fulfilled. The only voice that has been injected into the campaign has been furnished by Major Robert Dollard, candidate for mayor. Last night he delivered an address to a crowd of citizens from an old lumber wagon drawn up under an arc light in the Seventh ward. To-night he addressed crowds in other sections of the city. If he is unable to find a wagon at hand, a store box is utilized instead. His spellbinding efforts in his own behalf are stirring up voters to a certain extent. Dr. P. S. Lindsey is carrying on a quiet, but nevertheless active, campaign for mayor. His friends claim the election will be a tight one, but it is considered entirely too soon to make any certain prediction as to who will win the majority election. Roy Jones is said to be running as good as any of the candidates for this office and his manager claimed today that Jones is steadily gaining in strength. T. H. Dudley, present mayor, who is making a game fight to retain the office, is reported to be holding the other candidates down to a neck-and-neck race and is crowding them hard. His strength is considered great on the south side. J. C. Hemmings' friends claim that he will experience no difficulty in defeating A. Murray for city clerk at the coming election, but this of course is disputed by the followers of Murray, who has no inconsiderable strength in certain sections of the city. In several of the wards the fight for council is spirited, and from all indications will be so until the end of the campaign. Many of the candidates have signified their intention of attending the non-partisan meeting at the Casino tomorrow night and taking advantage of the opportunity of addressing Santa Monica voters.

Fine to Be Remitted
SANTA MONICA, Nov. 19.—Justice of the Peace Steele today decided to fine M. Bunker, who pleaded guilty to spearing a surf fish \$20, in accordance with the provisions of the state fish and game laws. The fine will be remitted, as the evidence was sufficient to satisfy the court that Bunker was hunting for a pup, and that he was with him by friends and did not intend to violate the law. Sentence will be pronounced tomorrow.

Construction Work Begun
SANTA MONICA, Nov. 19.—Dr. W. Hughes today started work on the construction of his new business block on Third street. The building will be of one story, 75x100 feet, and will cost about \$15,000.

SANTA ANA

ARGUMENTS ARE HEARD IN SUGAR BEET FACTORY CASE
Judge Oster Listens to Attacks on Complaint Filed by H. S. Hadsall

SANTA ANA, Nov. 19.—Judge Oster of San Bernardino, sitting in court here this morning, heard arguments on the demurrer of the defendants in the action of H. S. Hadsall against P. H. Case, P. W. Case and H. W. Hize for half the profits in the building of the Santa Ana sugar beet factory, the sum asked for being \$115,000. Judge Oster sustained the plaintiffs on alleged points of uncertainty in the Hadsall complaint, but sustained the complaint when it set up verbal contracts that could not be fulfilled. The judge declared the matter was one of evidence.

Murderer Applies for Parole
RIVERSIDE, Nov. 19.—Charles Marshall, who, thirteen years ago was sentenced from Riverside county to serve sixty years in San Quentin, has applied for a parole. Marshall, in a drunken run at San Jacinto, shot and killed Albert Larsen and Ed Hamilton, the latter being a deputy sheriff who had just returned from the Hamilton murder and on conviction was sentenced by Judge Noyes to a sixty-year penitentiary term. On account of Marshall's previous bad record, District Attorney Noyes will recommend that the parole be not granted. The murder was committed while Marshall was drunk. He is now nearly 60 years old.

Mess Hall Proprietor Burned
SAN BERNARDINO, Nov. 19.—L. H. Roberts, the proprietor of the big mess hall at the Santa Fe pre-cooling plant in this city, was painfully injured in a fire that destroyed that building this morning. The corps of cooks was preparing breakfast for the large number of men employed on the construction of the big plant when the fire started in the kitchen. Nothing was saved. The building was covered almost fully by insurance.

Woman's Body Lies in Hunt
SAN BERNARDINO, Nov. 19.—Hundreds of friends and acquaintances of Mrs. Mary Bennette Goodell, the prominent club woman who died early yesterday morning, today paid their respects as the body lay in state in the chapel of Barton & Shaw. The funeral will be held tomorrow afternoon at 2 o'clock. Rev. Alvah Grant Fessenden and Rev. Francis Davies, the latter of Colton, will officiate.

LONG BEACH

BELMONT TRUSTEES ADJOURN FOR GOOD

FINAL MEETING OF BOARD IS HELD

Three Anti-Consolidation Officials Are Guests at Surprise Party Tendered by Members of the Heights Association

[Special to The Herald.]
LONG BEACH, Nov. 19.—The trustees of the town of Belmont Heights held their last meeting last night, and after the transaction of a small amount of other business the motion was made, seconded and carried "that we do now adjourn until hell freezes over." And it went on the books in this way. The majority of the board had resisted the efforts of Long Beach consolidationists to the last ditch, but lost. Last night's meeting closed the official life of the trustees, but immediately after the meeting a reception to the three anti-consolidationists was held at the home of the mayor, W. H. Bassett, the members of the Belmont Heights association being the perpetrators of this surprise. To each of the three trustees who were "for" the consolidation the association presented a handsome gold-headed cane. The presented to Mr. Bassett was inscribed, appropriately and truthfully, "To W. H. Bassett, the only mayor of Belmont Heights." The Bassett administration was the first and last to preside over the incorporation and passing of that city. The members of the association declared it to be their intention to work for the best interests of Long Beach in the future.

LONG BEACH NOTES
SAN BERNARDINO, Nov. 19.—Wharfinger Baetzger today asked the city officials to visit the outer wharf and inspect a caisson which had broken loose under the pier. The cement was of such poor quality that when cables were put around the caisson they cut through the cement as if it were cheese. Mrs. S. J. Mar fell ten feet from the top of a ladder today and caught her hand in such a way in wire with which she was putting up vines that the flesh was torn from two of her fingers. Mrs. Mark is the wife of a grocer. The combined boards of the First Presbyterian church last night instructed the trustees to ratify or reject contracts let or decided on two years ago for a \$10,000 pipe organ and for furniture, art glass and a furnace for the new church building. The cost of \$1500, the furnace about \$2500 and the furniture about \$3500.

VENTURA STREETS TO BE ADVERTISED

GREAT PREPARATIONS MADE FOR PAVING JUBILEE

Arrangements Going Forward for the Lima Bean Banquet, When Vegetable Will Be Served in Multitudinous Forms

[Special to The Herald.]
VENTURA, Nov. 19.—Santa Barbara day at the Ventura, starting with the promise to be one of the chief features of the celebration in honor of the paving of all the streets of this town during the first week in December. All of the commercial bodies of Santa Barbara, led by the Commercial club, have been invited, as well as the city officials of Santa Barbara—and the jubilee executive committee will turn Ventura over to them on that day. It will be a kind of love feast between the two cities on the shore of the Santa Barbara channel—and the Santa Barbara folks will bring along the great La Monica's band to honor the feast with two concerts. La Monica's band is one of the best in the state. If not the best, and free concerts will draw thousands to the city. Santa Barbara day, too, will come the automobile parade with silver cups—three of them—for the best decorated autos; and the visiting autoists will be eligible for entry in the parade. The construction of the Ventura's twelve miles of paved streets to the visitors. The streets Ventura has always been famous for its beautiful view of the mountains and fertile fields. It is a matter of pride that the water from the reservoir to irrigate and place cultivation. During the past few years the plans of the company, it is said, have been changed and rechanged and it is now a matter of conjecture whether the waters will be diverted into the San Bernardino valley for the purpose of placing under cultivation thousands of horizontal acres of fertile land or dropped down into the Mojave desert, there to convert the arid wastes into blooming orchards and fertile farms, if the water is diverted from the Little Bear valley reservoir, which is on the Mojave watershed, to this side of the range. Victor C. Smith, general manager of the company, refuses to commit himself and declines all information as to the intention of the concern. To conduct the water to this valley, which was the original intention of the men behind the company, it would be necessary to bore a tunnel through the very heart of the San Bernardino mountain range, and it is hinted that it is for the purpose of constructing a tunnel for the big machine, has been purchased and quietly transported to the scene of activities. Scores of experienced miners have also been secured. It is known, for the purpose of boring tunnels. Since litigation has been threatened the company has guarded the plans of its future moves with great care.

Woman's Body Lies in Hunt
SAN BERNARDINO, Nov. 19.—Hundreds of friends and acquaintances of Mrs. Mary Bennette Goodell, the prominent club woman who died early yesterday morning, today paid their respects as the body lay in state in the chapel of Barton & Shaw. The funeral will be held tomorrow afternoon at 2 o'clock. Rev. Alvah Grant Fessenden and Rev. Francis Davies, the latter of Colton, will officiate.

SAN BERNARDINO

SAN BERNARDINO MAY HAVE NEW GAS PLANT

BUILT AT COLTON

General Manager Bell Declares Company Has Made No Arrangements for Erection of Central Supply House

[Special to The Herald.]
SAN BERNARDINO, Nov. 19.—Z. T. Bell, general manager of the San Bernardino Valley Gas company, denies his company has made any arrangements for the erection of a big central gas plant at Colton to supply the various systems in the valley. When the independent companies of San Bernardino, Redlands and Colton were taken over it was at the time stated to be the intention to construct a central distributing plant at either San Bernardino or Colton. Mr. Bell hints that it is possible that the plant will be constructed in this city. The only drawback to the plan is the difference in the rates on oil, it being possible to place that commodity in Colton, although only three miles distant, cheaper than here. The fight now being waged with the railroads over freight rates may cut down this inequality.

INDIAN LEADER GOES TO HAPPY HUNTING GROUNDS

Chief Azul Anton of Pimas Passes Away After Reaching the Century Mark
SAN BERNARDINO, Nov. 19.—Death has closed the career of Azul Anton, the famous chief of the Pimas Indians of Arizona. The report of the death of the aged chief, who lived throughout the southwest, was brought here by Mine Rider Archibald, one of the men who patrol the international boundary between the United States and Mexico. More than 100 years old, Azul Anton played an important part in the early history of the great desert. As a hunter he was famous for his skill in the support of Anton, the chief of the powerful Pimas tribe, he attained fame during the administration of that president. His friendships toward the white settlers resulted in the invitation of President Garfield to visit him at the White House and as a guest of the government he was taken to Washington, New York and Philadelphia, where military maneuvers were held for his benefit. Shortly after his return from this visit an Apache uprising was threatened. The Wallapais joined with this tribe and their chiefs went into the region of the Pimas Indians to protect the territory. The old chief was one of the old warriors who was said to be more than 100 years old, occurred at the head of the chief of his tribe. The old chief died until his death. Eight years ago Anton, with a number of his tribesmen, together with an Apache, visited this city as the guests of the management of the first street fair held here.

IRRIGATION COMPANY GETS IMPROVED AIR COMPRESSOR

SAN BERNARDINO, Nov. 19.—Bellevue is to move to start on the last lap of its great irrigation project, the Arrowhead Water and Power company has received and installed a new and improved air compressor for tunnel boring purposes. The construction of the immense dam at Little Bear valley, one of the largest, is nearly completed, and there now only remains the building of the aqueducts to carry the water from the reservoir to the lands that it will irrigate and place cultivation. During the past few years the plans of the company, it is said, have been changed and rechanged and it is now a matter of conjecture whether the waters will be diverted into the San Bernardino valley for the purpose of placing under cultivation thousands of horizontal acres of fertile land or dropped down into the Mojave desert, there to convert the arid wastes into blooming orchards and fertile farms, if the water is diverted from the Little Bear valley reservoir, which is on the Mojave watershed, to this side of the range. Victor C. Smith, general manager of the company, refuses to commit himself and declines all information as to the intention of the concern. To conduct the water to this valley, which was the original intention of the men behind the company, it would be necessary to bore a tunnel through the very heart of the San Bernardino mountain range, and it is hinted that it is for the purpose of constructing a tunnel for the big machine, has been purchased and quietly transported to the scene of activities. Scores of experienced miners have also been secured. It is known, for the purpose of boring tunnels. Since litigation has been threatened the company has guarded the plans of its future moves with great care.

BUSINESS PERSONALS

Quzinol Massage Cream

Is the result of years of experimenting. We have brought it to a point where we feel safe in asserting that there is no better massage cream on the market. Take a little of the cream in the palm of the hand, add a little water to thin it, then apply the cream to the skin, rubbing, massaging, using a circular motion until all impurities are absorbed and rolled out with the cream. This will open the pores of the skin, giving healthy circulation and life; it daily use cleanses the pores, softens the skin, leaving soft, velvety complexion; in a condition with a lot of grease or hair, making the use of face powders absolutely unnecessary. Our cream contains no hair-growing or poisonous ingredients; is an antiseptic toilet preparation, keeps the skin soft, healthy and beautiful; maintains the bloom of youth, and to build up a run-down skin. You will find it unequalled to preserve and beautify the complexion; chaps, roughness, wrinkles, sunburn and tan. Look for our Quzinol Signs. All preparations compounded and prepared by us are guaranteed under the Pure Food and Drugs Laws of 1906. Price, 25c. Wholesale, 10c.
