

# LANDLORDS FORCE US TO QUIT BUSINESS

## Here Are Facts and Figures Which No Doubt the Notice We Show You Below Will Prove

Rubber Goods for the Cost of Rubber.

Our landlord refuses to even give us until the first of the year when we would have a chance to dispose of our large stock before the holidays, but insists on the surrender of these premises by 12 o'clock the night of Dec. 14, 1909. After many vain attempts on our part to induce him to allow us to stay until the first of the year, and not being able to secure his permission at a reasonable rental for these few days, we are forced to throw this entire stock of merchandise, valued at over \$40,000.00, at your mercy. We absolutely guarantee every one and all that this is an absolute legitimate forced out sale, and are willing to donate \$1000 to charity if the notice we show you a copy of is not genuine. This sale positively lasts for only 5 days, and if you value money at all you cannot resist the temptation to purchase this line of merchandise at the prices we are quoting you, as we are sustaining a loss of over 50 per cent, but we have no place to go and positively must turn our merchandise into cash. Below we show you the notice we received from our landlord and also a few of the many bargains we have to offer. Yours truly,

**FANCY LAMP POSTS TO ADORN PICO ST.**  
DESIGN SUBMITTED TO BOARD OF PUBLIC WORKS

Street Signs in Keeping with Beauty of Supports Also Planned, Section to Be Made Later

Designs for the ornamental lamp posts to be placed on Pico street from Main to Vermont, were submitted to the board of public works yesterday by the Meyering company. The designs are easily the handsomest that have been erected on the principal business streets. The board did not make a selection yesterday, but took the matter under advisement.

It is planned to carry the line of ornamental posts from Vermont to the western city limit on Pico and a provision to this effect is now being circulated. Each lamp will have a tungsten light and each post will have lights of 400 candle power.

The posts will also have ornamental street signs. This idea originated with S. G. Marshutz, who has been active in the cause of the new lights. If a certain design is accepted, the street signs will be painted on the top globe, which is of keystone shape. If the round globe is used the signs will be of iron.

## Pure Drinking Water First Essential to Health

"Yes, I think the climate is lovely," remarked the tourist, "but I just can't stand the water."

"Oh, I see," replied the old resident. "I remember I suffered from a glass of water a week when I first came to California. It was about three months ago when I reached Los Angeles and Puritas Bottled Water. I was in heaven with that first glass and how I drank and drank! In fact, I've been drinking it ever since."

"No, not expensive at all. Only 40 cents for five gallons—delivered anywhere in the city, and it's the only twice distilled and ozonated water put up hereabouts. We never think of using anything else."

"Your hair? Yes, Puritas solves that trouble, too, as well as any skin irritation. Drink plenty of it, now—you'll like the climate even better in a week."

Phone—Home 10053; sunset Main 8191. We deliver Puritas promptly.

## HOTEL ROSSMORE MUST CLEAN UP IMMEDIATELY

Mrs. Heidt, who conducts the Hotel Rossmore, 116 West Sixth street, was before the board of health last night to show cause why her permit to conduct a lodging house should not be revoked.

Inspector West reported that the Hotel Rossmore was dirty to the last degree, and in the basement, which was a filthy hole, he found a man dying of tuberculosis.

Mrs. Heidt explained that she had taken the dying man in off the street and given him lodging without a cent of rent, but the board did not consider this sufficient explanation for the condition of her premises. She was given one week to get the man out of the basement and clean up her place or her permit will be revoked.

## MUST NOT FEED GARBAGE TO CATTLE GIVING MILK

In its crusade for pure milk the board of health last night suggested an amendment to the milk ordinance that probably may be adopted by the council.

This amendment prohibits the feeding of garbage or any other refuse to cattle from which milk is obtained to be sold in Los Angeles. On account of the high price of grain and hay, milk inspectors have found dairymen using garbage for cattle food, but this practice must be stopped.

The amendment also compels all persons handling milk to keep it at a temperature of not more than 50 degrees until it is delivered to the consumer.

## TROLLEY HALTS RECKLESS DRIVE

**JACK LANKERSHIM BUMPS INTO STREET CAR**

Police Allow Automobile Driver to Go on Learning He is the Son of the Wealthy Local Capitalist

The conductor of Redondo Beach car No. 167 narrowly escaped death last night shortly before 11:30 o'clock when a big Stearns automobile, driven by Jack Lankershim, son of Col. J. B. Lankershim, crashed into the rear end of the street car, smashing the fender and partly tearing off one of the steps. The car was standing still at Spring and Second streets when the collision occurred, and the conductor had just finished placing the trolley in position. Had he delayed a second more he would have been crushed between the auto and the rear end of the car.

Lankershim was at the wheel, according to Harry Wright, the mechanic, and another man in the car who refused to give his name to the conductor or to the patrolman, who dispersed the crowd which quickly gathered. The machine, according to some of those who saw the collision, had rounded the corner from Spring street at a terrific rate. As the street car was standing not more than forty feet west of Spring street, and as the pavement was wet, Lankershim was apparently unable to control his car, so fast was he going.

When Wright was asked for an explanation of the collision, he declared that Lankershim "was just a little careless." The moment the auto struck the car, Lankershim shifted his seat at the wheel and Wright was given charge of the auto. Lankershim sat hunched up, apparently oblivious and not caring in the least about the events going on around him.

As soon as Wright, in a tone of bravado, told the policeman that "this is Jack Lankershim's car. You know who he is," the policeman walked away with the statement, "That's all right."

Wright backed up the auto and whizzed away west on Second street at a terrific rate of speed, endangering the lives and limbs of pedestrians.

At Broadway the auto was halted with a jerk in front of a cafe near Second. Twenty minutes or so after stopping at the cafe, Lankershim and his two friends started at break-neck speed south on Broadway, vying a zigzag course until Third street was reached. Here the machine was brought to a sudden stop by the vigorous use of emergency brakes, just in time to prevent a second collision with a car crossing Broadway.

## BLIND SENATOR SCORES PRESIDENT FOR SILENCE

Gore of Oklahoma Says Taft's Message Was "Something Like the Pleiades"

NEW YORK, Dec. 9.—United States Senator Gore of Oklahoma was in New York today.

"I am inclined to think we will have plenty to do in Washington this winter," he said, "with President Taft trying to launch his policies and at the same time attempting to carry out the Roosevelt policies."

"The president's message was something like the Pleiades—conspicuous for what is missing. For example, there is nothing about interstate commerce, so we are in a fog as to what he wants in that direction."

## TITLED COUPLE BESIEGED BY CURIOUS SYCOPHANTS

Baron and Baroness Von Wilmowski Forced to Barricade Themselves in Hotel

CHICAGO, Dec. 9.—Baron and Baroness Philo von Wilmowski, the latter the younger daughter of the late Alfred Krupp, famous cannon maker of Essen, Germany, yesterday encountered their first difficulties in traveling incognito.

When it became known that they had been staying at a local hotel since December 4 a steady stream of callers began to make life a burden.

Foregoing the formalities of sending up cards or even calling up on the house telephone, visitors broke into the sight-seeing program so effectively that last night the baron and baroness barricaded themselves in their suite, issued orders that no telephone calls were to be rung and no cards sent up.

It's as easy to secure a bargain in a used automobile through want advertising, as it used to be—and still is—to secure a horse and carriage.
