

BUSINESS MEN VISIT ARIZONA

CHAMBER OF COMMERCE EXCURSION POPULAR

MANY POINTS OF INTEREST FOR LOCAL MERCHANTS

Glad Hand Trip Lasting Six Days Will Bring Southern Territory into Closer Relations with Los Angeles

Bound for Tucson, Benson, Douglas, Bisbee, Globe, Bowie, Wilcox, Mesa, Tempe, Phoenix, Prescott, Ash Fork, Williams, the Grand Canyon of Arizona, Kingman and Needles, over the Southern Pacific and Santa Fe railway lines, a party of 125 representative business men of the city, members of the Los Angeles chamber of commerce, left the Arcade station yesterday afternoon in a special train of nine coaches. It was the second "Glad hand" business excursion of the chamber for the present year, and is designed to bring trade relations with the merchants of the flourishing Arizona cities and the wholesalers and jobbers of Los Angeles closer and more binding, and also for extending acquaintance and seeing the country.

The excursion committee in charge included Walter Raymond, G. G. Johnson, Percy H. Clark, C. N. Campbell, D. E. Lather and D. C. McGarvin, for the chamber, with Seymour Swartz in charge of car 1; Marion R. Gray in charge of car 2; G. G. Johnson, car 3; Chester F. Hong, car 4; Fred Alles, car 5. The train was in charge of N. R. Martin for the Southern Pacific and J. J. Byrne for the Santa Fe, while Secretary Wiggins of the chamber of commerce and his assistants were watchful for the general comfort of the guests of the organization.

The first stop will be at Tucson this morning, and as provision has been made for hospitable entertainment at the principal cities on the route, the party is assured of a most enjoyable trip. All points of interest will be visited, the tour through the Grand Canyon being a special feature of the journey. The train is scheduled to return at 10 o'clock next Monday night. Banquets at Phoenix, Prescott and other points on the itinerary have been arranged at which good fellowship will prevail. The glad hand speakers for the chamber of commerce are Secretary Wiggins and John S. Mitchell, who each summer has proven himself a prince of entertainers for the Arizona hosts on their trips to Los Angeles and the beaches.

ROBERTS CHILDREN GIVEN TO FATHER

MOTHER'S SACRIFICE RESULTS IN DISAPPOINTMENT

Expected Contest Over Boy and Girl Ended When Rev. E. J. Harper Returns Them to Parent

The mysterious disappearance of the two children of Mrs. Susie A. Roberts of Nashville, Tenn., last seen in an automobile leaving the home of Rev. and Mrs. E. J. Harper, 322 Wilton place, with whom the children have been living for many months, was explained yesterday by a statement of Attorney H. H. Appel that on his advice Mr. Harper placed the children on a train Sunday evening to send them back to their father in Nashville. Mrs. Roberts accused the neighborhood with Rev. and Mrs. Harper, their guardians. She was told by the maid that her employers had left with the children in a motor automobile, and that baggage had been placed, and that she knew nothing of their destination or of the possible time of their return. Mrs. Roberts secured the neighborhood for information, but learned nothing further than the maid had told her.

Attorney Appel advised Mr. Harper to return the children to their father in order to escape being a party in the litigation and to simplify the proceedings.

INVENTOR ARRAIGNED ON CHARGE OF FRAUD

Woman Says False Pretenses Were Used to Induce Her to Buy Stock in an Oil Company

Paul E. Oswald, an inventor and son-in-law of Fred E. Wheeler, a capitalist, who was arrested Saturday was arraigned in Justice Summerfield's court yesterday on a charge of obtaining money under false pretenses, preferred against him by Mary S. McLean, and his preliminary hearing was set for March 25 at 10 o'clock. Oswald is at liberty under \$2500 bail.

Oswald is alleged to have sold to Mrs. McLean \$80 worth of stock in the Stewart Oil Expansion company on the false representation that he had sold to that company the rights to the States rights to a process which he had invented whereby he claimed he could produce three and a half barrels of alcohol out of one barrel of crude oil without any residue at a cost of 3 1/2 cents a gallon.

SAYS MORAL CHARACTER IS REASON FOR CITY'S GROWTH

T. E. Gibbon Tells Polytechnic High School Students Why Los Angeles Makes Great Strides

In an address to 1500 students of Polytechnic High school at the auditorium in the Polytechnic building yesterday T. E. Gibbon extolled the beauties and advantages of Los Angeles. "We should be proud," he said, "to live in a city which has come to be regarded by the world as the most magnificent and the most progressive in the world. It is an illustration of the value of moral character in a city. In the years between 1850 and 1900, before the earthquake and fire, San Francisco increased a little more than 16 per cent in population, while Los Angeles in the same period increased more than 100 per cent. San Francisco is a wide-open town—notoriously so—and before the fire there was one saloon to every 150 inhabitants there. Los Angeles has fewer saloons than any other city of its size in the United States. It has been called a 'long hair' town, yet I submit the fact that Los Angeles has more theaters with a larger seating capacity than any city of its size, which is evidence that its people believe in amusements.

"We have the three most modern instruments of government—the initiative, the referendum and the recall—which is the only progression in government since the days of the Roman forum. These three governmental instruments have given us a superior municipal administration."

WOODRUFFS ARRESTED

J. L. Woodruff and Ollie Woodruff, against whom a complaint was issued by the district attorney's office Monday, charging them with grand larceny, were arrested in San Bernardino yesterday by Deputy Sheriff G. T. Hewers of San Bernardino and Deputy Sheriff Bert Heffner of Los Angeles and lodged in jail. The Woodruffs are charged with having stolen a horse which they had rented from Lewis F. Lowe. They will be arraigned today in Justice Summerfield's court.

Attractive and Dependable They'll Give the Limit of Satisfaction

1200 of them—a dozen different late models! The daintiest productions of the season—waists that should sell at a half more and then not be high-priced! India linen, Victoria lawn, batiste and soft mulls are the foundations. Trimmings of delicate blind or stiletto embroidery, in floral or geometrical designs, are in evidence. Baby Irish, German Val. and Armenian lace insertions, with medallions of Tenerife lace and clusters of fine pin tucks give the delicate, airy effect. Yokes are either square or circular, and backs and sleeves are trimmed in perfect harmony with the fronts. A most wonderful display of good values—one all women will go wild over.

SCHOOLBOYS PREPARE FOR AERIAL CONTEST

Kite Day Will Witness Competition of Miniature Aeroplanes, Balloons and Unique Flying Things

The inventive Los Angeles small boy and girl is deeply engaged just now in problems of aeronautics. Kite time has arrived and marbles and tops are discarded for the enthusiastic building of aeroplanes and kites—box kites, tailless kites, star kites, "dragons," "birds," "tandems," "windmills" or any one of a score of other designs. April 9 is "kite day," when every boy or girl who attends grammar school in the city, or who has attended during the past year, is eligible to enter the kite tournaments on Arlington Heights, which will be under the direction of Charles M. Miller, supervisor of manual training in the city schools.

There will be ten classes in which kites may be entered, one class reserved for hot-air balloons and two classes for miniature aeroplanes. Each class is subdivided to allow for several differences in detail, so that there are in all forty-seven different chances to capture an award. No prizes other than diplomas are awarded, but, judging from last year's tournament, gold, silver and bronze cups seven feet high could not insure more jealous guarding of dragon and trolley kites from rival eyes, or more strenuous rivalry in producing unique designs. The sloyd teachers of the city schools will act as judges.

Although the program, as outlined below, seems rather long to be confined to the two hours between 2 and 4 on the Saturday afternoon scheduled, Mr. Miller gives assurance that every facility to aid the boys in finding the proper place on the grounds for their class will be provided and there will be plenty of judges, so that all events can be run off without delay.

Following are the classes open to entry:

Division 1—Open to boys and girls of sixth grade and under:

Class A—1, best tailless kite; 2, best star kite; 3, best bird kite; 4, best boy kite.

Class B—1, smallest tailless (to be flown on 100 feet of thread); 2, smallest box kite (to be flown on 100 feet of thread); 3, best compound kite (two or more kites in one).

Class C—1, strongest puller (four-foot kites and under); 2, best tandem (appearance); 3, strongest pulling tandem.

Division 2—Those in division 1 may enter this division if they prefer:

Class D, exhibition—1, bird, animal or insect kite (hollow form); 2, dragon kite; 3, tandem, largest number of kites on one line.

Class E, exhibition—1, most artistic kite (all kites considered); 2, best decorated plain kite; 3, best decorated box kite; best color harmony.

Class F, test feats—1, strong puller

CITY ACCEPTS INDEMNITY BOND ON TEMPLE BLOCK

Title Company's Check Is Returned and New Certificate of Title Submitted to Council

A bond for \$3210 was submitted by the Title Insurance and Trust Co. to the council yesterday to secure the city against any possible loss on account of leases of the Temple block. After receiving the bond the council permitted Lee C. Gates, representing the trust company, to withdraw a check for the same amount, which he had deposited with the council. At the same time the trust company submitted a certificate of title to the Temple block property with the objectionable features of the former certificate removed.

When the council accepted the Temple block last week it was with the provision that the sellers guarantee the city against loss of damages on account of some of the leases on the property. These leases provide that in the event the lease is terminated the owner of the building must pay the lessee certain sums.

The Story of a Medicine

Its name—"Golden Medical Discovery"—was suggested by one of its most important and valuable ingredients—Golden Seal root.

More than forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, teachers and writers on Materia Medica who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or hang-over-coughs, and all those wasting affections which if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath.
