RECIPROCITY OR RUIN PLAN TO SPOT THE MEN WHO HANDLED THE SACK FACES PAPER MAKERS Will Try to Uncover Those Who Supplied Illinois Legislators Used Toward Canada Money for Votes

WASHINGTON, May 9.—Adrop of the announcement by Canada of the increased duties on wood pulp and paper, and the prohibition of exportation of pulp wood from Canadian lands, Representative Mann of Illinois, who led the fight in congress during the tariff discussion for lower duties in the United States on those articles, said today: "In view of the Canadian situation, we can adopt one of three policies: "First, pass an act of congress taking off the duty on paper coming from any province which permits the free exportation of pulp wood, wood pulp and paper; second, negotiate a reciprocity treaty with Canada to the same end, and third, content myself with the same and run one-half of our paper manufacturers and greatly increase the price of print paper—how much, no one can tell. Congressional action this year on this feature of the tariff or any other feature, however, is unlikely. The Republican leaders would resist any effort to open up the tariff question and already have done so once or twice in the present session.

CITY COMPELS RAILWAY TO PAY \$500,000 FOR LAND SAN FRANCISCO, May 9.—Over \$500,000 is the sum which the Southern Pacific Railroad company must pay for a block of land in this city, according to an order made today by Superior Judge Murasky. The company negotiated for the property some time ago and the fixing of the price was delegated to a board of arbitration, which decided that the block was worth \$23,327.44. The railroad then refused to buy and suit was filed to enforce the contract, with the result that the company was ordered to pay the sum fixed by the arbitrators.

FOREST RANGER ATTACKED AND LACERATED BY EAGLE BUENA VISTA, Colo., May 9.—J. E. Martin, a forest ranger, was attacked by an eagle yesterday afternoon while riding down the mountainside and, being unarmed, was compelled finally to seek protection among some thick bushes. The big bird circled about him several times and darted down upon his head, tearing his scalp and lacerating his face.

WANTS TO BE GOVERNOR CHEYENNE, Wyo., May 9.—Former United States Senator J. M. Carey, father of the Carey land act, today announced himself as a candidate for governor on the Republican ticket. He is the leader of the independent Republicans who are opposing Governor Brooks.

ROOSEVELT CITES FORMER PREMIER OF NORWAY ROAST

Gunnar Knudsen Uses Colonel's Conservation Boost to Aid Own Campaign COMPELLED TO MAKE DENIAL Teddy Also Emphasizes Fact He Is Not Meddling in Norwegian Politics

CHRISTIANIA, May 9.—Mr. Roosevelt's visit here has been followed by an incident which is making a sensation in Norway. Mr. Roosevelt has severely censured former Premier Gunnar Knudsen, who is now vice president of the parliament, for using his name and quoting him as a partisan in Norwegian politics. The former premier has been making a campaign and introduced a bill in parliament for the conservation of natural resources, chiefly the water power, and the opposition party has been fighting this scheme as an infringement on personal rights. At the recent gala dinner at the castle Mr. Knudsen had a conversation with Mr. Roosevelt in the belief that he was speaking of general principles, expressed warm sympathy in the work. Mr. Knudsen asked permission to make the former president's remarks public. "Tell it to anyone you like," Mr. Roosevelt replied, enthusiastically. There was a considerable stir when the newspapers appeared with Mr. Knudsen's story. Mr. Roosevelt summoned Knudsen and insisted emphatically that he issue a denial, and Knudsen issued a letter to the same effect. The opposition papers are now attacking the former premier.

Senator Overman Favors Provision in New Railway Regulation Measures WASHINGTON, May 9.—Taking up the railroad bill today the senate resumed consideration of the measure. Senator Overman was the principal speaker. Declaring the present law "contains a joker," the North Carolina senator presented an amendment making it unlawful for any common carrier to charge more for a short haul than for a long haul, except with the approval of the interstate commerce commission.

LIBEL SUIT AGAINST THE NEW YORK WORLD DOCKETED WASHINGTON, May 9.—The case of the United States vs. the Press Publishing Co. of New York, which was docketed in the United States supreme court today.

HEPBURN TELLS WHAT HE LEARNED OF SUGAR TRUST WASHINGTON, May 9.—Former Representative Hepburn of Iowa appeared before the house committee on commerce in the afternoon of today and related details of an investigation which, as solicitor of the treasury department, he conducted into affairs of the New York customs office in 1891, in which he discovered conditions similar to those recently unearthed regarding the weighing of sugar.

JAPS SUPERSEDE BRITISH OFFICERS ON STEAMERS SEATTLE, May 9.—The superseding of British officers by Japanese on the Japanese trans-Pacific liners, the officers being removed one by one, generally at this end of the run, is said to be due to the pressure exerted by Japanese public opinion which demands the manning of Japanese vessels entirely by Japanese. The companies would like to retain white captains and chief engineers, but will not be able to keep them. Each month sees fewer white officers on the Japanese liners that arrive on Puget sound.

TORPEDO BOATS ARRIVE FOR STAY AT SAN DIEGO SAN DIEGO, May 9.—Led by the torpedo boat destroyer Whipple, the Truxton, Hull, Froble, Perry and Paul Jones comprising the first and second divisions of the Pacific coast torpedo fleet, arrived in the harbor yesterday afternoon for an indefinite stay. Torpedo boat No. 10 Coronado was completed Friday and Saturday nights. The boats of the third division are expected in the harbor today.

WOMEN DESTROY MEAT AS PROTEST AGAINST PRICES DETROIT, May 9.—An uprising against the high prices of meat that broke out on Hastings street last night was continued today. Crowds of women selected the purchases of customers and destroyed the meat by pouring kerosene on it. Last night three shops were raided and it took a heavy detail of police to restore order.

'KEEP YOUR HANDS OFF' SAYS TAFT TO CONGRESS

President Tells House Executive Department Is Making a Thorough Cleaning WASHINGTON, May 9.—President Taft sent a special message to the house of representatives today to tell why he considers a congressional investigation of the sugar frauds in the customs service inexpedient. It is, he says, because "a congressional investigation at the time would embarrass the executive department in the continuance and completion of the investigation of the appraisers and other officers of the customs service."

WANTS LONG AND SHORT HAUL CLAUSE IN BILL Senator Overman Favors Provision in New Railway Regulation Measures WASHINGTON, May 9.—Taking up the railroad bill today the senate resumed consideration of the measure. Senator Overman was the principal speaker. Declaring the present law "contains a joker," the North Carolina senator presented an amendment making it unlawful for any common carrier to charge more for a short haul than for a long haul, except with the approval of the interstate commerce commission.

CORPSES PEOPLE ROUTE CARTAGO

Only Living Persons in Stricken City Are Red Cross Workers and Soldiers AMERICAN SHIPS RUSH AID Thousand Dead Taken from the Ruins, but Many Are Still Under Broken Walls SAN JOSE, Costa Rica, May 9.—More than 1000 dead have been taken from the ruins of Cartago. No one is allowed to enter the ruins of the devastated city except the Red Cross workers and gangs of soldiers and volunteers employed in clearing away the debris, removing the bodies and dynamiting dangerous buildings. Most of the survivors of the earthquake are now at San Jose. Medicine and food from the American warships are being pushed from Port Limon, but the condition of those who still remain around the city is such that extraordinary measures must be taken to provide assistance and shelter for them. Even in San Jose the residents for the most part are living in tents and wooden structures, fearing to occupy their homes, as the earth tremors continue. No living person has been taken from the ruins in the last two days, and although a thousand dead have been removed, it is known that there are many still beneath the broken walls and timbers. Because of general panic the various organizations engaged in the work of relief find it difficult to reach all the victims. Many survivors are still hungry and helpless. The village of Cat is reported totally destroyed and the village of Entero Rio, partially destroyed. Mexico has contributed a large sum of money to aid the victims and contributions are coming in from other sources. The nature of the earthquake that destroyed Cartago is now being discussed and the general testimony of those who suffered from it goes to show that it resembled an explosion more than the ordinary seismic movement which has been felt throughout the republic during the past two or three weeks.

TAFT ASKS AID FOR THE SUFFERERS AT CARTAGO House Authorizes War Secretary to Loan Canal Supplies WASHINGTON, May 9.—President Taft, as president of the American National Red Cross society, made a strong appeal today for contributions to relieve the distress of earthquake sufferers in Costa Rica. Contributions, the appeal states, may be sent to the National Red Cross, Washington, or to the local Red Cross treasurer. The American Red Cross has received from the city of New Orleans \$1000 as its contribution to the Cartago relief fund. The United Fruit company at Boston has contributed \$25,000, which probably will be distributed through the company's agent at San Jose. United States Charge d'Affaires Monroe at San Jose called that the people are in great distress, but the government feels some hesitation in asking aid from other nations which is assumed to mean that the government will accept contributions gladly. The house today authorized the secretary of war to loan blankets, tents and other stores in possession of the isthmian canal commission to the sufferers.

WILL RAISE \$10,000,000 FOR FAIR IN BAY CITY Gov. Gillett Says He Will Not Stop Jeffries-Johnson Prize Fight NEW YORK, May 9.—"San Francisco will raise \$10,000,000 to gain the Panama canal fair," Governor James Gillett of the Golden state declared today in speaking of the advantages of his state for the Panama Pacific international exposition of 1915 to celebrate the opening of the great waterway. The \$5,000,000 San Franciscans submitted the other day was but half of what the city would do if it were given the chance, he declared. Governor Gillett is here with Mayor McCarty of San Francisco and a delegation of representative Californians in behalf of the state's and particularly of San Francisco's desire to hold the exposition. "What are you going to do about the Jeffries-Johnson fight?" the governor was asked. "It isn't up to me to do anything," he answered. "There is a law in California prohibiting prizefighting, but it contains a clause permitting athletic clubs to hold boxing matches, with the consent of the proper authorities, providing that the number of rounds is limited and that the contestants are examined by a physician beforehand. This is what they say they are going to do and no one knows anything to the contrary."

COMMISSION CUTS RATE ON LUMBER TO COAST WASHINGTON, May 9.—In an opinion handed down by the interstate commerce commission today, it is held that a rate of 75 cents per 100 pounds on a hardwood lumber in carloads from various points west of the Mississippi river to the Pacific coast is reasonable, and that the rate of 85 cents per 100 pounds previously exacted by the railroads was unreasonable. Orders are made in all cases granted in preparation for the charges exacted in excess of 75 cents per 100 pounds on such shipments.

REVENUE FROM CORPORATION TAX LAW EXCEEDS ESTIMATE WASHINGTON, May 9.—Receipts from the corporation tax law exceeded by nearly \$1,000,000 Secretary MacVeigh's estimate of \$25,000,000 made early in December, according to the internal revenue office. When business closed last week \$25,319,715 had been assessed. Half a million more is expected.

NAVAL BILL REPORTED WASHINGTON, May 9.—The naval appropriation bill was reported to the senate today, it carries \$199,770,934 in comparison with \$127,829,893 as it was passed by the house.

DROWNED WHILE BOATING ROSEBURG, Ore., May 9.—News reached here early today that Mrs. Adeo Virdi of this city and Miss Hattie Smith were drowned near Winchester last night while boating. Automobiles carrying the coroner, undertaker and citizens have left here to search for the bodies.

Mr. Hepburn's investigations were made during President Harrison's administration and there have been charges that his reports were held up. Mr. Hepburn found that sugar refineries were willing to pay their import duties from weights of the government scales, but refused to sell sugar on the same scales.

DIRECT NOMINATIONS SPLIT NEW YORK SOLONS Battle in Legislature Expected to Break During the Present Week ALBANY, N. Y., May 9.—The legislative battle over the question of direct nominations for New York state promises to break this week and the outcome is one of uncertainty. The preliminary skirmishes have failed to develop the strength of the followers of the various measures under consideration and the appearance of a so-called compromise bill has only added to the perplexities of the situation. Four hostile armies are now engaged at the capital waiting for the fray. The supporters of the policies of Governor Hughes are rallying around the standard of the Himman-Green direct nomination bill; the Republican "organization" members are preparing to risk their political lives for the "Mead-Phillips" measure, drafted by a

AMUSEMENTS BELASCO THEATER Belasco-Blackwood Co., Props and Mgrs MATINEES Thursday, Saturday & Sunday MR. N. C. GOODWIN One of the foremost figures of the American stage adds his expert testimony to that of thousands of theatergoers who have already seen George Broadhurst's newest play, THE PRICE, at the Belasco theater. Mr. Goodwin saw one of the earliest performances of THE PRICE. Immediately after he wrote as follows to Mr. Broadhurst: "I saw THE PRICE last night and was enthralled. I never left my seat during the entire play. I simply gave myself up to it, and was angry when the performance ended. It is the only time in my recollection, bar Forbes Robertson's Hamlet, that I would have willingly remained and had the play repeated, and THE PRICE is worthy of any playhouse in the world. I must congratulate you on writing a great play." (Signed) N. C. GOODWIN. Mr. Goodwin's experience with THE PRICE is exactly in line with that of every person who has seen this tremendous success. It is simply the biggest, the best play that has ever been given at the Belasco during the six years' career of this playhouse. In New York, where it will soon be played, you'll have to pay two dollars for the same seats that sell here at the Belasco for seventy-five cents, and it's doubtful if you'll see any better all round performance than is being given at the Belasco. This is positively the last week of THE PRICE. It will be followed next week by George M. Cohan's most successful musical play, FORTY-FIVE MINUTES FROM BROADWAY, seats for which are now selling.

FAIRBANKS, Alaska, May 9.—The ice on the Chena river began to break up in front of Fairbanks this afternoon and within a week navigation will begin on the Tanana and the lower Yukon. The first boats are scheduled to leave Fairbanks Thursday, and with their departure will begin the big stampede of the Iditarod gold fields discovered late last fall. Two thousand prospectors have already made arrangements to go down the river to the Iditarod field, and before the season is well started it is expected that this number will be largely increased. The water front of Fairbanks resembles a vast shipyard. Fourteen large steamers and hundreds of small craft are tied up at the wharves, ready to sail. It is expected that a few of the boats will leave this week, but most of them will start down stream next week.
