MILLIONAIRE SOCIETY MAN WILL SERVE CITY

Mayor Earley Appoints John Vischer Eliot as Member of City Commissioners

PASADENA, May 11.—This city is to have a millionaire society man as a member of the board of fire, park and police commissioners, when John Vischer Eliot, silk importer of Los Angeles, whose home is in Pasadena, is appointed. His name was presented to the city council yesterday by Mayor Earley, with the indorsement of Prof. C. C. Bragdon and Councilmen Barnes and Fogg. Mr. Eliot has resided in Pasadena for nineteen years, and about two years ago was married to Miss Rowena Blossom, daughter of Benjamin Blossom of New York and Pasadena, the ceremony being one of the most elaborate ever held in this city. They are both prominent members of the Anadale Golf club. Their residence at present is at 2100 W. 11th st., Pasadena. Mr. Eliot is a member of the city council, pending the erection of a mansion on grounds in Oak Knoll. Mr. Eliot succeeds W. D. Medill, whose term expired last week and who refused a reappointment. The appointment of Sherman Washburn as member of the library board and Dr. Van Slyke as member of the board of health to succeed themselves was confirmed by the council. Pursuant to a request from eighteen enthusiastic horseback riders, the council will consider the building of a bridge path in connection with the proposed improvements in Arroyo drive. Ignoring the threats of the Campbell-Johnson interests to enjoin the city against further work on the west side storm drain unless the course is changed, the council instructed Contractor Day to proceed with the work.

ENGINEER IS PREPARING PLANS FOR NEW BRIDGE

PASADENA, May 11.—City Engineer Van Orum started preliminary work yesterday on the survey of the west approach to the proposed new bridge, known as the "low" structure on the site of the present Scoville bridge. Chairman Knight of the board of trade bridge committee stated that as soon as the survey is completed and the cost of the approach and the extent of the grade is known, a meeting of the board will be called to consider the matter of a bond issue to the voters. The cost of a high bridge crossing at the foot of Colorado street and abolishing the treacherous curves leading to the present bridge has been known to the committee for some time and when figures on the low structure are furnished it is thought that citizens will be given an opportunity to choose between the two. Engineer Van Orum states that he expects to be able to figure out a present per cent grade. The present grade is nearly eleven per cent. To reduce the grade as proposed will require the purchase of minor cuts and property and the removing of tons of dirt.

CAR AND AUTO COLLIDE: PASSENGERS SHAKEN UP

PASADENA, May 11.—In a collision yesterday morning on East Colorado street at the city limits, when her automobile collided with a Lamanda Park car, Mrs. S. W. Alford of South Pasadena, her maid, Margaret Brown, Dr. W. E. Nichols and the chauffeur, "Squire" Eldridge, were considerably shaken up and received minor cuts and bruises. The motorman applied emergency brakes without avail. The automobile was damaged to the extent of several hundred dollars. The occupants were taken home in a passing automobile.

LEAGUE ELECTS DELEGATES

PASADENA, May 11.—Miss Ellen Louise Hickey, president of the Pasadena chapter of the American Woman's league, was elected last night as delegate from the local chapter to the first national convention of the league to be held in St. Louis June 9, 10 and 11. Miss Josephine Chapman was elected as alternate. The indorsement of the local chapter for state delegate to Southern California was given to Mrs. Claudia Hazen White of Los Angeles, who has obtained over 400 members for the league in Los Angeles county. Twenty-seven new members were added to the Pasadena chapter last evening, making a total membership of 221.

TO JUVENILE COURT

PASADENA, May 11.—The second act in the "Cha-choo" or sneezing drama was enacted yesterday in Judge McDonald's court when the bottle of powder used by George Young and Nelson Miley, to cause the sneezing in a local theater to sneeze during the performance Monday night was opened as evidence. The testimony was taken between a check and the judge after perceiving his opinion on the case remanded the offenders to the juvenile court. College chums of the accused were on hand to witness the performance.

EDISON COMPANY BUILDS POWER LINE TO HARBOR

Dredgers to Be Run by Juice to Be Supplied by Electric Concern

SAN PEDRO, May 10.—By terms of a contract closed by the Southern California Edison company the North American Dredging company will next month become the largest individual consumer of electric power in Southern California with one exception. All of this power will be used in harbor development work during the next three years. The contract calls for a minimum price of \$15,000 per year. No other concern uses so much power with the exception of the cement plant at Colton. In order to comply with the terms of contract and have the current ready June 16 the electric company has a force of over fifty men rushing about the harbor, laying poles and wires. The line is a permanent one and calls for an expenditure of more than \$10,000. Heavy copper wire and fifty-foot poles cost \$16 apiece aboard ship at northern ports. Officials of the company say that they expect the harbor section to be one of the greatest power centers of the south on account of the growth of manufacturing industries. A permanent right of way over the Miner fill, where most of the dredging will be done, has been secured. Work on the power building on the fill was completed today and the big transformers are being installed. These are portable so that they may be loaded on flat cars and hauled to any other part of the harbor where the dredging company may secure contracts.

FOUR AT WORK

The dredging company now has four dredgers in the harbor. Two of these are small electric dredgers now common on the contract with the Bannings on the Mormon island fill. As soon as this work is done they will be transferred to the outer harbor to work on the Miner fill. The big scowling steam dredger Pacific, the biggest digging machine on the coast, now at work in the outer harbor, is to be changed from steam power to electricity. Whether the dredging company expects to put additional dredgers at work on the Miner fill or not has not been announced, but the contract for power to electricity. The fact that the dredging company expects to get a premium for completing the work within a specified time indicates that the outer harbor is to be the scene of big developments during the next few months. The fact that so much money is being spent to build a permanent power line to the outer harbor tends to confirm the report that the oil company, which is financing the Miner fill, expects to locate some big industrial enterprises on the 173 acres in the concession.

UNLIGHTED AUTO RUNS DOWN BOY; SPEEDS AWAY

SANTA ANA, May 10.—Four-year-old George Williams, son of A. H. Williams, a hardware merchant of this city, was last night run over by an automobilist who was driving his machine without lights. As the boy lay unconscious in the street, injured, bruised and cut, the automobilist fled at full speed. The young boy is suffering from concussion of the brain, besides cuts and bruises, and is injured in the abdomen, where a wheel of the automobile passed over him. The boy's feet also were lacerated by the chain. It is thought he will recover.

SETS UP STRANGE PLEA TO SAVE BANK CASHIER

Official Thought He Was Justified in Anything to Save Concern

PORTLAND, Ore., May 10.—Admitting that his client had embezzled and failed and misappropriated the funds of the defunct Farmers and Traders National Bank of La Grande, Ore., which failed in 1908, former United States Senator C. W. Fulton today set up a peculiar plea in his opening address in behalf of J. H. Scriber, former cashier of the bank, who is undergoing trial in the federal district court here on a charge of misappropriation. Senator Fulton said Scriber had become possessed of the idea that he must save the bank at all hazards, and that this belief prevailed on his client's mind. He thought, in his delusion, that every means was justifiable to secure the end desired.

DEATH BECKONS AMERICAN ARTIST AT CAPRI, ITALY

NEW YORK, May 10.—Cable advice reached here today announcing the critical illness of Charles Coleman, the veteran American painter, at Capri, Italy. He is suffering with pleurisy, with which he was attacked while on board the Belmont yacht four days ago. His age, it is said, makes his recovery doubtful.

FAMOUS PAINTER NEAR DEATH

NEW YORK, May 10.—The condition of John La Farge, the artist, who is suffering from a general breakdown, was reported today as very grave. Mr. La Farge's heart is not responding to stimulants, and his age tells against him.

CRIMMINS CONTINUES TO DENY HE KILLED COLE

Coroner's Jury Returns Verdict of Death from Wounds by Unidentified Persons

SAN BERNARDINO, May 10.—Dan Crimmins, accused of the murder of Charles Cole at the race track Sunday night, today continues to deny that he has any knowledge of the crime. The coroner's jury this afternoon returned the verdict that Cole came to his death as the result of a knife wound, the knife being in the hand of some person unknown to the jury. The sheriff and the coroner introduced no evidence to show who committed the crime. That the sheriff is searching for others who are known to have been at the race track is known. Crimmins has not weakened from the role of a man too intoxicated to know what he was doing, or what transpired at the race track. The fact that the hair found in the grasp of the dead man does not resemble that of the accused, and that the blood on Crimmins' clothing and shoes may have been from his own injuries received in his fight encounter with Cole during the early part of the evening throws much doubt on the theory that Crimmins is the one who killed the man with whom he had been quarreling. The car barn gang, so-called because its members wear plain clothes men and detectives were searching the dark corners of the east side this morning in an effort to round up members of the so-called "car barn gang," who last night attacked and fatally injured Policeman Lawrence Cummings, a young bluecoat who endeavored to interfere with their depredations. Cummings, who is the third policeman to suffer serious injury at the hands of the gang, is dying in the Harlem hospital with a fractured skull. CHAMBERS WILL STICK A FINGER IN WAGE PIE

Washington Judge to Be Third Arbitrator of the Railroad Employees' Differences

WASHINGTON, May 10.—Judge William Lea Chambers of this city was today appointed as third arbitrator of the controversy between forty-nine railroads, operating in the territory west of Chicago and the Brotherhood of Locomotive Firemen and Engineers. Judge Chambers was selected by Chairman Knapp of the interstate commerce commission and Dr. Charles P. Neill, commissioner of labor, the mediators under the Erdman act. The selection of Judge Chambers is satisfactory to both sides in the controversy, and official telegrams were sent them today announcing his appointment. Judge Chambers was one time chief justice of the international court at Samoa. In 1901 he was appointed a member of the Spanish treaty claims commission, and served for eight years. His office is in Washington, and his residence is in Sheffield, Ala. Judge Chambers will leave Washington for Chicago tomorrow, and it is expected that the arbitration proceedings will begin there Friday. The questions to be arbitrated will be those of wages, conditions and hours of labor. It is rumored that the proceedings will be an arbitration matter that has been considered in this country in relation to railroad labor for many years.

HALLEY'S COMET AFTER RECORD FOR BIGNESS

SAN JOSE, May 10.—Director Campbell of the Lick observatory today issued the following statement: "Halley's comet is the most conspicuous comet since that of September and October, 1882, and the chances are good that in a few days it will surpass in apparent size the great comet of 1882. "Astronomer Curtis photographed this morning, and his extent was visible to the unassisted eye. "The diameter of the tail at a point fifteen million miles out from the head was approximately 200 million miles. "As the earth and comet will pass each other on the evening of May 18, with a relative velocity of between forty and fifty miles a second, the earth will be approximately ten hours in passing through the tail, provided the present dimensions are essentially unaltered. "The observer should have no difficulty in obtaining an excellent view of the comet a short distance above the east point of the horizon just before the break of day. During the remainder of this week the best view of the comet may be obtained at 3:15 a. m. local time, for all situated in approximately the latitude of San Francisco. "Observers near the northern edge of the United States, in Canada and in central and northern Europe will get their best views earlier than 3:15 a. m., and those situated in the southern part of the United States in similar latitude should look a few minutes after 3:15 a. m. to have the best view of the comet which will be 40,000,000 miles from the earth."

DOUBLE MURDER, NOT DUEL, IS EDGEWOOD MYSTERY

YREKA, Cal., May 10.—That a double murder had been committed was proved today by the autopsy performed on the bodies of the two men found near Edgewood whom it was at first believed had killed each other in a duel. The nature of the wounds show this to have been impossible. No gun was found in the neighborhood and there is absolutely no clew to the identity of the dead men further than that both were loggers.

GANG OF TOUGHS DO UP NEW YORK POLICEMAN

NEW YORK, May 10.—A score of policemen, plain clothes men and detectives were searching the dark corners of the east side this morning in an effort to round up members of the so-called "car barn gang," who last night attacked and fatally injured Policeman Lawrence Cummings, a young bluecoat who endeavored to interfere with their depredations. Cummings, who is the third policeman to suffer serious injury at the hands of the gang, is dying in the Harlem hospital with a fractured skull.
