

FINANCIAL

LOS ANGELES, May 20.—Bank clearances were \$2,427,761.46, an increase of \$36,253.53 as compared with the amount for the corresponding day last year. Following is a comparative statement:

Table with columns for date, amount, and percentage change. Rows include 1910 and 1909 data for various financial metrics.

LOS ANGELES STOCK EXCHANGE

Trading was brisk on prices continued to hold up well. In the bond list the only feature to be mentioned was the quotations in Associated Oil bonds. These bonds have gone up in sympathy with the stock, and it looks as though they will continue to rise in a few days. The only other bonds which showed any inquiry were the Home issues.

In the bank stocks there was nothing of importance. Among the public utilities the only feature of the market was the bid for the Telephone shares, the decided bid for the Telephone shares. Home common changed hands extensively and shares of the old bond issue preferred at 37 1/2.

The oil stocks developed in good form and trading was well distributed and brisk. Associated Oil and Gas was bid for at 100 and Cal Gas and Elec gen M&E at 101.

Among the public utilities the only feature of the market was the bid for the Telephone shares, the decided bid for the Telephone shares. Home common changed hands extensively and shares of the old bond issue preferred at 37 1/2.

TRADERS WAIT ON GENERAL OF KING

New York Stock Exchange Pays Tribute to Memory of the English Monarch

STEEL RUMOR HEARD AGAIN

Wall Street Hears Paris Bourse Will List Trust Shares.

Bonds Irregular

NEW YORK, May 20.—As a tribute of respect to the memory of King Edward and during the funeral services of that monarch, the stock exchange did not begin operations today until noon.

The estimate of the week's currency movement indicates that large shipments have been coming to New York from other points and the substructure also, by reason of the monthly pension payments, has made large contributions of cash to the banks. The gain in that item promises to reach as much as \$12,000,000.

The easier tendency for money rates, both for call and time loans, is explained by this development. The banks manifest but little disposition to purchase mercantile paper, the rates of prime grades ranging from 4 1/4 to 5 per cent.

An incident of the day was a revival of rumors that United States Steel would be listed on the Paris bourse. The expected increase in dividend rate on Chesapeake & Ohio was greeted by a fractional decline in the price of that stock.

The speculative operations in Reading and in Canadian Pacific were continued in a desultory fashion. Neither these nor other operations were sufficient to give animation to the market, with considerable show of activity.

Bonds were irregular. Total sales, par value, \$1,200,000.

U. S. bonds were unchanged on call.
