**\$1.25 Gloves 95c**  
 (On Sale Friday)  
 The \$1.25 grade of black and white silk gloves with double-tipped fingers—16-button length—on sale Friday at 95 cents a pair.

### IMPORTS 45 ALIENS AND IS FINED \$45,000

Arizona Construction Firm Hit Hard by U. S. Judge. Wickersham Pleaded

TUCSON, Ariz., June 8.—By filing the Grant Brothers' Construction company \$45,000 for importing alien laborers from Mexico to Arizona for railroad construction United States Judge Campbell established a rigorous precedent in enforcing the immigration laws.

Judge Campbell and United States Attorney Joseph E. Morrison were congratulated today by Attorney General Wickersham, who says that the department of justice considers the decision of national importance.

Isadore Dockweiler of Los Angeles, chief counsel for the defense, at once filed notice of appeal.

The Grant Brothers' Construction company was convicted on forty-five counts. The importation of forty-five alien laborers from Mexico was the specific charge.

The testimony showed that employment agents holding contracts to supply the construction company with laborers induced men at Hermosillo, Mexico, to enter the state.

A carload of forty-five of them had transportation from Hermosillo to Los Angeles, thence to Tucson, where they were arrested by Immigration Inspector A. E. Burnett. Thirty-nine were deported at the time, six being held as witnesses for the appeal.

The testimony failed to show who had supplied the transportation. The defendants denied knowledge of hiring laborers from Mexico, stating that they had given specific instructions that such was not to be done. Agent Carmey, however, admitted that he had received monthly sums from the defendants.

### MURDER OF GIRL IS CHARGED TO WHITECAPS

Farmer's Residence in Oklahoma Is Riddled by Bullets

HENNESSY, Okla., June 8.—A report reached here today of the killing of Miss Nancy Edmond, daughter of Stephen T. Duncan, a farmer near Columbia, Okla., by "Whitecaps" last night.

For some time a feeling of enmity against Duncan and his four sons existed in the neighborhood. Last night a company of masked men rode up to the Duncan residence and demanded that Duncan and his sons come out. This they refused to do, and the masked men fired several volleys into the house, killing the girl.

### OKLAHOMA OPENS WAR ON PULLMAN COMPANY

GUTHRIE, Okla., June 8.—It was announced today that Attorney-General West had filed before the interstate commerce commission at Washington application for a hearing, in an effort to compel the Pullman sleeping car company to reduce its charge for the use of the upper berths below that charged for lower berths.

In addition to the Pullman company, the Santa Fe, Southern Pacific, International and Great Northern, Trinity and Brazos valley, Rock Island, Frisco and Missouri, Kansas & Texas companies are named defendants.

ARROWHEAD HOT SPRINGS  
 See the new world wonder, 121 Ponzonogal Hot Spring, temperature 262.2 degrees. Hot mineral water, natural stream and hot mud baths. Outdoor swimming pool, no fence.

### FEAR MISSING GIRL IS CAPTIVE OR MURDERED

N. Y. Detectives Search City for Trace of 16-Year-Old Stenographer

NEW YORK, June 8.—A squad of detectives is searching the city for clues to the whereabouts of Esther Mearson, a 16-year-old stenographer, whose strange disappearance while in search of employment has led her parents to the belief that she is either being detained somewhere against her will or has been murdered.

According to the police, the case resembles in many features that of Ruth Wheeler, who was murdered in the rooms of Albert Wolter a few weeks ago, while seeking employment as a stenographer.

The missing girl disappeared Monday, and the search for her was begun Tuesday night. The family turned over to the detective bureau several newspaper lists of help wanted advertisements which she had consulted.

With those lists as a basis for their investigations, the detectives have begun a canvass in the office districts to see if they can get some trace of places where the girl called, looking for work.

### ANGELAN IS HONORED AT NORTHWESTERN REUNION

Edward Spencer, Hero 50 Years Ago, Given Ovation

CHICAGO, June 8.—Honor was paid yesterday to three elderly members of the alumni of Northwestern university, at the annual alumni day of commencement week.

Edward Spencer, who when a student on the night of September 7, 1860, at the wreck of the steamer Lady Elgin, in Lake Michigan, saved seventeen lives, was present for the first time in many years and received an ovation. Mr. Spencer lives in Los Angeles and came to see his nephew, William A. Spencer, graduated.

Other members of the alumni given unusual honors were Col. Homer A. Ellington of Riverside, Cal., and Brig. Gen. W. A. Lord of Seattle of the class of '60, who were present to celebrate the fiftieth anniversary of their graduation.

### PARLIAMENTARY CRISIS TO BE AVOIDED TILL AUTUMN

LONDON, June 8.—Parliament resembled today, apparently in a more conciliatory mood than that in which it adjourned.

The constitutional crisis will be held off at least until autumn with the possibility that in the meantime a conference will be held between the two predominant parties, resulting in a compromise program in legislation in which controversial matters will be avoided to a great extent.

Of the three measures to be taken up, the most important is the bill for the amendment to the accession declaration, the latter alone is likely to engender bitterness in debate.

### SUCKS SNAKE BITE; SAVES WIFE

GEORGETOWN, Cal., June 8.—E. F. Porter saved the life of his wife Monday by sucking poison from a wound in her ankle, after she had been bitten by a rattlesnake. The two were in the woods, a mile north of here, when a rattler struck Mrs. Porter, the snake's fangs penetrating a heavy skirt, and entering her ankle.

### WISCONSIN STRENGTH IN IOWA

Make Large Gains in the Popular Vote but Add Only One to Forces in Congress

### REDUCE CARROLL'S MAJORITY

Regulars Claim They Will Control State Convention but by Small Plurality

DES MOINES, June 8.—With but five counties missing tonight, Governor Carroll, Republican, is renominated by a majority of 706 votes. The missing counties are known as Carroll strongholds and probably will bring his total up to 1600 or 2000.

The surprise of the primary is the majority rolled up by Judge Prouty, progressive, over Congressman J. A. T. Hull. Prouty carried every county in the district, his unofficial majority being 3106. Even the most sanguine progressive had hoped for little better than a small margin. Two years ago Hull was nominated by forty votes over Prouty.

The remarkable shift is attributed solely to antagonism to the course of the "stand pat" congressmen, of whom Hull was one on the tariff and railroad legislation.

President Taft early in the campaign spoke in this city in support of the administration policies.

The defeat of Garst, which is admitted tonight by the Register and Leader, progressive, by so small a majority, is held to indicate to some degree the general sentiment of the state on national affairs, desired by the Governor Carroll limited he was running on his state record only. Two years ago Carroll was renominated over Garst by 23,000 votes.

Practically complete returns tonight show the following congressional nominations. Of the eight progressive Republicans nominated seven faced no contests and of the three standpatters nominated all had contests. The Second district Democrats, at first believed to have chosen De Armond, nominated I. S. Pepper:

REPUBLICANS  
 First—C. A. Kennedy, stand pat.  
 Second—Charles Grik, progressive.  
 Third—C. E. Pickett, progressive.  
 Fourth—G. N. Haugen, progressive.  
 Fifth—J. W. Good, progressive.  
 Sixth—N. E. Kendall, progressive.  
 Seventh—S. P. Prouty, progressive.  
 Eighth—H. M. Towner, stand pat.  
 Ninth—Walter I. Smith, stand pat.  
 Tenth—Frank P. Woods, progressive.  
 Eleventh—E. H. Hubbard, progressive.

DEMOCRATIC  
 First—J. A. S. Pollard.  
 Second—S. P. Prouty, progressive.  
 Third—John Dennison.  
 Fourth—D. D. Murphy.  
 Fifth—C. H. Hill.  
 Sixth—Dan Hamilton.  
 Seventh—Clinton L. Price.  
 Eighth—F. J. C. Hill.  
 Ninth—W. L. Cleveland.  
 Tenth—No candidate.  
 Eleventh—N. E. King.

In the Eleventh district the Democrats made no formal nomination, but the name of W. I. Whiting was written into the ballot, as is allowed in this state, and he was chosen.

"Regular" Republicans claim they will control the next state convention, having a bare majority of 1600 delegates chosen yesterday. If this proves true and no hitch occurs to mar present plans the insurgent congressional delegation will at best get but brief mention.

The platform, it is said, may go so far as to condemn the course of Senators Cummins and Dolliver.

### SENATOR CUMMINS SAYS INSURGENTS WERE WINNERS

Declares Primaries in Iowa Were a Progressive Victory

CHICAGO, June 8.—Senator A. B. Cummins of Iowa, who has here today, saw a great victory for the "progressive" Republicans in the Iowa primaries yesterday. He said the defeat of Congressman Hull, "standpat" Republican candidate in the seventh district, overshadowed all the other issues in political significance.

"There is no disposition in my circles at Washington and throughout the country to get the two factions together, and it may prevail. A united party must be had in order to win the election, but I cannot talk of such a thing until the choice of the people, and if the voters express preference for one faction as against the other by electing that faction, it is a fair sign which is the choice of the people. I believe the progressives will win."

Questioned regarding the alleged bribery charges in connection with the election of Senator Lorimer, Senator Cummins said: "I cannot talk of the Lorimer case for I probably will speak on the question when it comes up in the senate and that may be a long way off."

### STALWARTS ARE JUBILANT OVER RESULTS IN IOWA

Standpatters at Washington Consider Results a Victory

WASHINGTON, June 8.—The seventh district means that in the next congress there will be a new chairman of the house committee on military affairs, over which Mr. Hull presided for many years.

The next ranking Republican on the committee is Capron of Rhode Island, but he is an invalid and has been unable to come to Washington during the present session. George W. Prince of Illinois, next in rank, is said to be the most logical successor.

### ROUGH RIDERS TO GREET ROOSEVELT IN NEW YORK

Jack Abernathy of Wolf Killing Fame Goes East

NEW YORK, June 8.—Jack Abernathy of Oklahoma city, who showed Theodore Roosevelt how to capture and kill a wolf with his bare hands, has reached New York and will remain to welcome the colonel later in the month.

Mr. Abernathy is the father of the "cowboy kids," Louis and Temple, who are making the trip from Oklahoma to New York on horseback, having already passed through Washington, where they saw President Taft.

Charles E. Hunter, president of the Roosevelt Rough Riders' association, who lives in Oklahoma, is another recent arrival in New York. He will proceed at once to make arrangements for the welcome to their returning colonel by the survivors of his band. He expects to meet about 350 of the 400 Rough Riders who at present are in this country. They will wear khaki uniforms in the parade.

### CLIMBED MOUNT MCKINLEY TWICE

Party with Lloyd Returns from a Second Ascent and Confirms Reports

FAIRBANKS, Alaska, June 8.—Pete Anderson, W. R. Taylor and Charles McGonigle, who were with Tom Lloyd when he reached the summit of Mt. McKinley April 30, arrived at Fairbanks today with the announcement that they climbed the mountain a second time, reaching the summit May 17.

The conditions of the ascent were not so favorable as those of the first ascent as told by Lloyd.

These men did not return to Fairbanks with Lloyd in April, but remained at Katikina, in the foothills of the mountain. At the request of Lloyd they retraced their steps up the mountainside to take more photographs to be used as proof by the subcommittee of the committee of the Order of Pioneers of Alaska, appointed to investigate Lloyd's story.

It took the men a month to attain the summit over the trail taken by the party on the first ascent. Upon reaching the summit, May 17, they found the flag left there six weeks before intact and the flags of the party in the rocks that had been piled around it. The climbers left provisions in camp along the trail for the use of any party that wishes to verify their story by following the route taken by them.

Prospectors just returning from the vicinity of Mount McKinley bring additional verification of the stories told by Lloyd and his associates. They say that the flag is plainly visible from the foothills.

"The Northern Commercial company's agent at Kuskokwim says the flag on the summit of Mount McKinley is also visible from that side of the mountain."

### WISC. REPUBLICANS CHEER WHENEVER TAFT IS NAMED

Vice President Sherman Urges Party to Be Together

MILWAUKEE, June 8.—Every mention of the name of William Taft at the Republican state convention here today provoked warm cheers for the president.

Denunciation of the insurgents and commendation of the administration were keynotes of the speeches.

The leading address of the convention was that by Vice President Sherman, who urged party unity and regularity on his hearers and rehearsed the history of the party.

"The matter of naming candidates for a state ticket probably will be deferred and left for the primary election in September to decide.

It seems likely the platform to be presented tomorrow will bear the endorsement of the issues, endorsing President Taft and criticizing Republican officeholders not in sympathy with his policies.

Gathered in the convention were several former adherents of Senator La Follette.

### RESULTS DELAYED

PIERRE, S. D., June 8.—It was apparent tonight that the result of the vote for governor yesterday will be deferred until the primary election will be held on June 15.

The condition of the area sown to oats is about 34-38,000 acres or 1,176,000 acres (35 per cent) more than the area sown last year. The condition June 1 was 89.1, against 89.9 on May 1, 1910, and 87.6 on June 1, 1909.

The condition of pastures on June 1 was 83.5, against 83.1 on May 1, 1910, 83.3 on June 1, 1909, and 90.9 the June 1 average of the last ten years.

The area sown to oats is about 34-38,000 acres or 1,176,000 acres (35 per cent) more than the area sown last year. The condition June 1 was 89.1, against 89.9 on May 1, 1910, and 87.6 on June 1, 1909.

### PREPARE FOR R. R. BILL CONFERENCE

Elkins, Aldrich and Mann Exchange Views Prior to Final Roundup

### SENATORS VISIT PRESIDENT

Insurgents Fear the Senate and House Leaders Will Get Together Before Action

WASHINGTON, June 8.—Several exchanges of views between Senators Elkins and Aldrich and Representative Mann of Illinois preparatory to a formal conference on the railroad bill, took place today. It was generally understood that the conferees would meet tomorrow, although no call for the meeting was issued.

Senators Aldrich and Crane visited the White House tonight and talked with the president concerning changes he might desire in the senate bill, which practically was approved by him in his message to congress yesterday.

The general understanding is that the senate and house leaders will get together on the subject matter to be taken up at the conference. It is likely the only question to be voted on in the two houses would be the adoption of the conference bill.

Insurgent members of both the senate and the house fear to have the subject come before them in that manner, as they think it would give too great opportunity for the elimination of progressive features incorporated through an alliance between Democrats and insurgents in the senate bill.

An informal conference of insurgent senators today they pledged themselves to fight against the adoption of the conference report should it take any of the advantages which they claimed to have forced into the bill in the interests of the shippers.

WASHINGTON, June 8.—The government crop report today shows the area sown to spring wheat is about 19,742,000 acres, or 1,349,000 acres (7.3 per cent) more than last year; the condition June 1 was 89.8 as compared with 95.2 on June 1, 1909, and 93.0 the June 1 ten year average.

The condition of the area sown to spring wheat is about 19,742,000 acres, or 1,349,000 acres (7.3 per cent) more than last year; the condition June 1 was 89.8 as compared with 95.2 on June 1, 1909, and 93.0 the June 1 ten year average.
