WOMAN IS SUBJECT TO MAN, SAYS CHURCHMAN

Archbishop Declares That Equal Rights for Fair Sex Must Be Denied MILWAUKEE, Wis., July 6.—"The theory that demands equal rights between the two sexes must be denied absolutely," said Most Rev. S. G. Messmer, archbishop of Milwaukee diocese, in his address on "Women's Rights" at the opening of the Western Catholic Chautauqua at Spring Bank yesterday. "It is a mistake to say equal rights instead of similar rights, for women have certain rights that men have not and men have certain rights that the women have not. "In regard to the question of politics, why should women claim equal rights? What does politics mean? Politics means the ruling of nations and no one who understands this would demand equal rights. "It would interfere with woman's calling, which makes her the queen of the household. Equal rights would destroy her female character and destroy her influence on mankind. "The true solution of the woman question may be found in religion. In the sacred scriptures there is a law that woman is subject to man and that the man must take the principal place. As man is the head of the family he must take the leading part."

UNITARIAN PUBLISHERS AND EDITORS AT STRIFE

Trouble in Church Newspaper to Result in Starting Opposition Sheet NEW YORK, July 6.—Strife has developed between the editors and publishers of the Unitarian, a monthly magazine devoted to the interests of Unitarianism because of what is thought to have been socialistic opinions by several of the editors. As a result a new publication, the Unitarian Advance, is to be started. The Unitarian was started five years ago by Rev. George M. Badger, who is the local representative of the Unitarian conference of the middle states. He associated with him several Unitarians, including the Rev. John Haynes Holmes. T. Forbes Pruitt published the magazine. The objection of Mr. Pruitt to the editorials of the Rev. Mr. Holmes, on the ground of their alleged radical ideas, started the trouble which has developed into one that is financial as well as editorial in character. The editors withdrew, repudiating the periodical in these words: "A crisis has arisen which makes it impossible for the editors to continue to conduct the periodical in connection with the present publisher. We have made a fair proposition of separation and that proposition has been declined."

BIG BAG HOUSE BUILT TO SPOT FUMES TESTED

Ends the Fight Between Copper Mines and Town KENNETH, Cal., July 6.—The quarter of a million dollar bag house for the Mammoth Copper company's smelter here, which was completed yesterday, was today given its first trial. The bag house is the only thing of its kind on this coast and was built to control the noxious smelter fumes which have destroyed all vegetation near the town. Over 6000 banks, each thirty feet long and eighteen inches in diameter, are suspended in the bag house so that the smelter fumes must filter through them. It is believed the bag house will end the litigation between the copper company and the Kennett farmers who have sued the smelter concern for large sums on account of damage to crops.

TAKE FIRST STEPS FOR OPENING ALASKA FARMS

Surveyors to Commence Work on Agricultural Areas SEATTLE, July 6.—The first steps for the opening of the agricultural and other areas in Alaska to homestead entry will be taken by Topographer R. H. Sargent of the United States geological survey, who left for the north last night to make public land surveys in the territory. Sargent and nine assistants will begin work in the Tanana valley in the vicinity of Fairbanks. It is estimated that there are 100 parcels of land already under settlement in the valleys around Fairbanks, but these are not subject to homestead entry until the surveys are made. After organizing the work at Fairbanks, Sargent will go to Cordova, where he will make preliminary examination of the Copper river valley. He will return in October.

COWBOY KIDS FORSAKE HORSES FOR AUTOMOBILE

Abernathys Will Return to Oklahoma in Machine NEW YORK, July 6.—The two Abernathy boys who rode here on horseback from Oklahoma to greet Theodore Roosevelt on his return from abroad, will start back for home this evening. They are not going on horseback, however, but in automobiles. Louis, the elder of the two boys, passed much of yesterday driving a machine up and down Broadway to see that he knew how to keep it from bucking. "The boys will stop at Niagara Falls long enough to take in the sights there, Marshall Jack Abernathy, the boys' father, will start with them, but will have to leave them soon, as he must be back in Oklahoma next Sunday.

MOB DEMANDS SAILOR'S RELEASE FROM CITY JAIL

BELLINGHAM, Wash., July 6.—Six hundred men and boys followed Chief of Police Hiram C. Cade and Capt. A. L. Callahan to the doors of the city jail late today and demanded the release of William Barr, a sailor from the gunboat Yorktown, arrested for fighting. The mob grew so threatening that Capt. Callahan drew his pistol and ordered the crowd back, while the fire company next to the jail was ordered out to assist the police. When the mob saw the warlike preparations it dispersed. IMPRISON FIRST WHITE WOMAN TALLULAH, La., July 6.—Mrs. S. W. Dunn, who was placed in jail here last night, is the first white woman ever imprisoned in this parish. She is charged jointly with Dr. T. W. Doper, an optician, with having administered poison to her husband with intent to murder.

FEW INTERESTED IN POSTAL BANKS

Mail Officials and Financiers Shy of Becoming Savings Depositories

CLERKS HAVE A COMPLAINT Probable That First Test of New Law Will Be Only in Large Cities

WASHINGTON, July 6.—Since the passage of the new postal savings bank law, bankers and postmasters throughout the country have been slow to demonstrate interest in it. So far only fifty banks have made application for designation as depositories of postal funds and only fifty postmasters have asked that they be authorized to accept postal savings. The indications are that the board of trustees consisting of the postmaster general, the attorney general and the secretary of the treasury, will be unable to designate the postoffices that are to receive postal savings for many months to come. It is known to be the purpose of the trustees to limit designations at the beginning of the first class, such as New York, Philadelphia, Boston, Chicago, St. Louis, St. Paul, Indianapolis and a few cities in the intermountain region and on the Pacific coast. It is predicted that when postmasters and clerks in offices to be designated as postal savings offices learn that they will get no additional compensation for the work incident to handling postal savings there will be considerable complaint.

PER CAPITA WEALTH OF U. S. DECREASES 49 CENTS

Average Coin of Each Person Is Now \$35.01

WASHINGTON, July 6.—A decrease in circulation per capita of 49 cents on July 1, as compared with a year ago, is shown by the latest treasury statement on that subject. On July 1, 1909, the amount each man, woman and child in the United States would have, equally divided, was \$35.01. Last Friday it was \$32.52. The amount of money in circulation July 1 was greater a year ago, but the population increased in greater proportion than did the money. In striking contrast with the available circulation today for the country's needs is that of January 1, 1879, when the treasury statement shows there were \$816,266,722 outstanding.

\$21,714,806 IN TAXES

WASHINGTON, July 6.—Latest figures available at the treasury show the total amount paid on account of the corporation tax is \$21,714,806. It does not include payments made to collectors of internal revenue, which have not yet reached the department.

TWO SAFE CRACKERS GIVE POLICE RUNNING FIGHT

Officers Exchange Shots with the Burglars and Capture One NEW YORK, July 6.—After a running fight between safecrackers and police in Harlem, in which twenty shots were exchanged, the police ran one of the fugitives to the ground and captured him. The second man ran into a tenement house and disappeared. The burglars showed fight when found by Zerando Di Angles, proprietor of a First avenue cafe, drilling holes in a safe in which Di Angles for the past month has kept from \$6000 to \$7000 belonging to societies. As they disappeared into the place they opened fire. Di Angles was not injured, and yelled for the police. Policemen Albert Finlay cornered a man on the L. stairway who gave his name as Frank Picel. He denied being a professional burglar and said he did not know the name of the man who escaped.

SUBMARINES START ON LONG TRIAL OCEAN TRIP

PROVINCETOWN, Mass., July 6.—To demonstrate the practicality of a right submarine for long ocean trips, the Salmon led here today on a 650 mile trip to Bermuda. The little craft swung round the end of Cape Cod at 9 o'clock a. m. today and accompanied by the ocean tug Underwriter, headed away southeast for St. David's Light on the northeast end of Bermuda. It is expected that the trip will be made in about seventy hours. After filling her gasoline tanks at Hamilton the Salmon will start for New York and then return to Quincy.

FILL BOY'S POCKETS WITH FIRECRACKERS; BURNED

LAS CRUCES, N. M., July 6.—A Fourth of July prank by American boys may result in the death of Antonio Ruiz, a small Mexican boy. The American boys pretended to search the Mexican lad for marbles and while doing so filled his pocket with lighted firecrackers. Exploding crackers burned the boy and he ran. The breeze set fire to his clothing and he was probably fatally burned before a young woman seized the screaming boy and put out the fire.

RECEIVER APPOINTED

SAN FRANCISCO, July 6.—On petition of the stockholders of the Western Rapid Transit company, who alleged the misappropriation of more than a quarter of a million dollars, Superior Judge Trout today appointed Russell L. Dunn receiver for that corporation.

HOLDUP MEN CAPTURED AFTER ALL-NIGHT CHASE

Posse Rounds Up Ohio Yeggmen Who Were Foiled

SANDUSKY, Ohio, July 6.—After a chase lasting through the night, Frank Connelly, said to be one of the two holdup men who failed in an attempt to take \$35,000 from a safe of the Cedar Point Resort company at Cedar Point late last night, was captured by the police and a posse in a marsh today. His comrade, Charles Braun, was arrested at midnight. Braun and Connelly, it is alleged, rushed into the office and pointing the revolver at Charles Braun, demanded "that money from the safe." Glessman slammed the safe door shut and locked it. Connelly, angered, started for him and to kill him, whereon Glessman drew about \$25 from his pocket. Connelly grabbed the money and with Braun backed to the door and fled.

SLOCUM TRAGEDY NEARLY REPEATED

Sister Steamer Grand Republic Ignited, but Quick Run Saves All on Board

NEW YORK, July 6.—The old wooden three-decker Grand Republic, a sister ship of the ill-fated excursion steamer General Slocum, caught fire this afternoon while passing through the narrows on her way to New York from Far Rockaway. She hurried full steam ahead, blowing a whistle, with a continuous succession of short, nervous blasts, and a plume of smoke trailing behind her, for a Brooklyn pier. Her forty-five passengers all were landed safely as the fire was extinguished with \$2500 damage, but there was great alarm in the city and on the harbor until all details were known. Evergreen remembered how a little more than six years ago the Slocum caught fire in the East river when crowded with 1000 pleasure seekers, mostly women and children, and was burned to the water's edge, with 938 drowned, crushed or burned alive. Today, as then, the fire started in the galley and spread quickly through the wooden superstructure. There was no panic. The women were badly frightened, but the crew had no trouble in keeping them in hand, and the children landed safely with the music of the band, which kept playing, that of the harbor until all details were known. Evergreen remembered how a little more than six years ago the Slocum caught fire in the East river when crowded with 1000 pleasure seekers, mostly women and children, and was burned to the water's edge, with 938 drowned, crushed or burned alive. Today, as then, the fire started in the galley and spread quickly through the wooden superstructure. There was no panic. The women were badly frightened, but the crew had no trouble in keeping them in hand, and the children landed safely with the music of the band, which kept playing, that of the harbor until all details were known.

CRAZED MOTHER DROWNS DAUGHTER IN WASHTUB

Woman Tells Incoherent Story of Fearing Kidnapers DURANGO, Col., July 6.—Crazed by the fear that her 6-year-old daughter would be kidnaped, Mrs. W. R. Luxton, wife of a well-to-do ranchman by the name of Cortez, drowned the child in a washtub to save it from what her unbalanced mind considered a worse fate. Mrs. Luxton was found by Sheriff Garwith seated on the doorstep of the sheriff's home here last night. She told an incoherent story of a conspiracy to kidnap her daughter and a plan to hold the child's head in a tub of water until she was dead. The little girl's body was found in the tub at the Luxton ranch.

MURDEROUS FILIPINO IS PARDONED BY PRESIDENT

LEAVENWORTH, Kas., July 6.—President Taft granted a conditional pardon today to Natate, a Filipino, convicted at the consular court at Shanghai, China, of the murder of a fellow servant in the American consular general's office and sentenced to fifteen years imprisonment in the federal prison here. Natate arrived here a year ago last night. A condition of the pardon will prevent his ever returning to China.

BUILD ROAD TO CONNECT SAN DIEGO WITH YUMA

SACRAMENTO, July 6.—The San Diego & Arizona Railway company filed yesterday an application for a right of way through the desert lands in San Diego county. This road is to connect San Diego with Yuma, Ariz., and the application has been approved by State surveyor General W. E. Kingsbury. It provides for right of way through sections 15 and 36 in township 17 south, range 5 east.

DARING SUPERINTENDENT SAVES JOHN D.'S BENZINE

PITTSBURGH, Pa., July 6.—While firemen poured streams of water on him, W. A. Weaver, superintendent of the Atlantic Refining plant (Standard Oil company), dashed daringly through flame and smoke early today and shut a valve which prevented fire spreading from a burning tank of benzine to great tanks of oil near by. In the vicinity over 30,000 barrels of petroleum in various stages of refinement were stored.

STATISTICIAN, VICTIM OF AUTO CRASH, DEAD

CHICAGO, July 6.—John L. Pratt of St. Paul, a real estate statistician agent of the Chicago Great Western railroad, whose automobile was wrecked by a street car here last night, died of his injuries in a hospital today.

WANTS MARRIAGE ANNULLED

FRESNO, Cal., July 6.—Mrs. Emily Davis, a Dos Palos young woman, who recently married C. V. Davis, a Merced business man, in this city, only to discover three days later that the man already had a wife, this morning filed suit through Attorney Ernest Kietz to have the marriage annulled. Davis, shortly after his duplicity was discovered, left for the east and has not been heard from.

NATIONAL ACADEMY PLAN PROGRESSING

President Alexander Declares the Money Is Readily forthcoming for Fine Building

TO ASK NEW YORK FOR SITE Yearly Exhibition for American Artists' Idea of Organizers. Plan Busy Campaign

NEW YORK, July 7.—John W. Alexander, president of the National Academy of Design, announces that more than a dozen prominent wealthy men have shown a practical interest in the academy's plans to erect a great fine arts building and have joined with the council in forming a building committee. Mr. Alexander says that whatever amount of money required to erect the fine arts building—say from \$500,000 to \$1,500,000—will unquestionably be given as soon as the proper site has been located and money also will be forthcoming for the maintenance of the building. It has been decided to ask the city for a site. Mr. Alexander says: "New York ought to be the art center of the country and in spite of the fact that we have no adequate galleries for the exhibition of current work. "Every city in the United States of any size and many very small cities already have beautiful fine arts buildings in the real American salon. Then the pictures, after being exhibited here, could be sent to other large cities and later divided into smaller exhibitions for smaller cities. "The art patrons who are interested and the officers of the council of the academy will meet in October and a strenuous campaign will be begun."

AVIATOR HAMILTON TURNS VOLUNTEER FIRE FIGHTER

Tows Handtub to Burning House with Auto ATLANTIC, N. J., July 6.—Friends of Charles K. Hamilton, the aviator, are talking today of a new role which Hamilton essayed yesterday, that of a volunteer fire fighter. He saved a house, too, by his up-to-date methods. Hamilton was going the road near Framingham, N. J., in his automobile, when he overtook a volunteer fire company toiling along the road, drawing their fire engine toward a burning house. He stopped his machine, hooked the engine on and towed it to the fire. Then it was discovered there was no water near the house to make the engine of any use. So Hamilton loaded his machine with fire cans, drove to the nearest water, filled his cans and drove back. A bucket brigade took the cans, while Hamilton took on another job, emptying the cans. He relayed water to the fire in this manner until the house was saved.

CALIFORNIA NATURALIST GIVEN \$3000 POSITION

Harold Heath Is Appointed to the Alaskan Seal Service WASHINGTON, July 6.—Herald Heath of California has been appointed a naturalist in the Alaska seal service at a salary of \$3000 a year. Dallas B. Wainwright of the District of Columbia has been promoted from a \$3000 to \$4000 position in the coast and geological survey, and John F. Pratt of Washington from a \$2500 to a \$3000 place in the same office.

SAND BARS THREATEN SACRAMENTO TRAFFIC

SACRAMENTO, July 6.—The prediction that all traffic on the Sacramento river above this city will be cut off by sandbars in two or three weeks if the government does not take steps to remove the sand, was made yesterday by officials of the local transportation companies. Never before has the river been so low, as far as the records in the local weather bureau show. All the upper stream points are suffering from low water. Kennett is practically cut off from river steamers, as are Red Bluff and Knights Landing.

FINDS PENNY OF MINTAGE OF 1722 ON STATEN ISLAND

NEW YORK, July 6.—Somebody lost a perfectly good penny in the days when a British king ruled the American colonies. It was minted in 1722 and the owner was permanently poorer by that penny, for it was not found until yesterday, when Albert Baker picked it up on the Richmond turnpike, Staten Island. The spot where Albert found the old coin is on the line of the stage coaches that used to run between New York and Philadelphia.

FINDS SALESMAN'S BODY, RECEIVES \$500 REWARD

NEW YORK, July 6.—Robert C. Nelson, a petty officer on the United States ship Yankton, will receive \$500 as a reward for finding the body of Charles H. Davenport, a salesman of Springfield, Mass., who disappeared from a local hotel February 14. This reward had been offered by Davenport's family for his discovery, dead or alive.

TO BREAK FISH MONOPOLY

VICTORIA, B. C., July 6.—In an effort to win from Americans an industry which they at present practically monopolize, the Pacific Whaling company, with headquarters here, will begin deep sea halibut fishing next winter. Five whalers will be employed in the trade.

Ladies free every day except Saturday, Sunday and holidays. Kids' day Saturdays.

ARTIST SENDS FIANCEE \$7312 AND ENDS LIFE PRINT PAPER TRUST IS DISCUSSED BY EDITORS Public Administrator Stops Payment on Check Given to Bride-to-Be

NEW YORK, July 6.—The public administrator has taken possession of the estate of Leon Guipon, the artist illustrator, who committed suicide in his studio here last month, and has stopped payment on a check for \$7312 sent by the artist shortly before his death to his fiancée, Miss Agnes Foster of Roxbury, Mass. The fact that Guipon had no "next of kin" would naturally make the money he left revert to the state, there being no will. However, it is believed that Miss Foster, whose father, Albert J. Foster, still disputes the state's claim to the money inasmuch as the check was sent to her by her fiancée before his death. In a letter to his friend, Hiram A. Merrill, an engraver, the artist asked Merrill and Miss Foster to share the articles left in his studio. Among these is some of the best work ever done by the artist.

DENIES COAL CO. BIG DAMAGES AGAINST B. & M. Commerce Commission Allows Only Unjust Charges

WASHINGTON, July 6.—The interstate commerce commission today announced a decision to the effect that the Minneapolis & St. Paul & North St. Paul & Minneapolis may lawfully maintain two rates, one 40 and one 20 cents a hundred pounds on shipments of butter and eggs, eastbound out of St. Paul and Minneapolis via Manistique, Mich. The lower rate is on shipments to concentrating points over the defendant's line, the higher on shipments over the other lines. DENIES SUGAR CO. HAD PHILIPPINE INTERESTS NEW YORK, July 6.—President W. E. Thomas of the American Sugar Refining company denied today that the company ever had any interest in any lands in the Philippines, and said the company did not contemplate any investment there. President Thomas said: "In reference to the statement of Congressman Martin, published here, in regard to the alleged interference of the American Sugar Refining company in the Philippines, Congressman Martin must have been misinformed."

NAVY VETERAN RETIRED VALLEJO, Cal., July 6.—Capt. Edmund B. Underwood, commanding the receiving ship Independence at the Mare Island navy yard, has been retired under the provisions of the personnel bill, according to information received from Washington. Capt. Underwood formerly was governor of Samoa and later commanded the cruiser Colorado. He has been at Vallejo since the Independence for the last six months.

TO REDISTRIBUTE MISSOURI JEFFERSON CITY, Mo., July 6.—Chairman Dickey of the Republican state committee formally offered to Secretary of State Roach today a petition containing 48,911 signatures for submitting a constitutional amendment for redistricting Missouri into state senatorial districts.

ARROWHEAD HOT SPRINGS for Asthma and Bronchitis.
