GETS 10 DAYS IN JAIL FOR IMPEDING JUSTICE

Arthur P. Heinze Sends United Copper Company Out of Country

NEW YORK, July 7.—Arthur P. Heinze, sentenced to serve ten days on Blackwell's island for obstructing the administration of justice in the case of the United Copper company proceedings is rather severely handled in the decision of the circuit court of appeals, affirming his conviction.

The decision which was announced Tuesday, has just been made public. It says: "The testimony, not objected to, and not contradicted, shows beyond the slightest doubt that the defendant sent Tracy Buckingham (wanted as a witness before the federal judge) out of the country and furnished him with money to go out and stay out; and in the most flagrant manner attempted to obstruct and impede, and had obstructed and impeded the administration of justice of the circuit court of the United States. The sentence that the trial court saw fit to impose does not indicate the serious nature of the offense."

Counsel for Heinze will apply within a few days for a stay of the issuance of the mandate of the circuit court pending appeal to the United States supreme court. The mandate will be filed within ten days after the filing of the appeal and unless a stay shall have been granted, by that time, Heinze will have to begin to serve his prison sentence.

GERMAN PAPER DECLARES ADMIRAL MAHAN DREAMER

Sees No Reason for Opposition to Monroe Doctrine

BERLIN, July 7.—It is unthinkable that Germany from any point of view should be inclined to oppose the Monroe doctrine, according to a semi-official review in the Vossische Zeitung of Admiral Mahan's article regarding the American, British and German navies published in England recently. There is, besides, no other point on which Germany is likely to come into conflict with the United States. The article says, continuing: "Admiral Mahan can have found no reason in American affairs calling for warning Americans against Germany. He wrote, in our opinion, from the purest love of his own country, but he is a dreamer in political strategy and built up circumstances which really do not exist. If we contest this train of thought we are still far from the intention of worrying ourselves in any way concerning the right and liberty of the United States to strengthen their fleet according to their own ideas."

RANCHER CHARGED WITH SLAYING MAN AND WIFE

PRESCOTT, July 7.—Charles Ray was lodged in jail and charged with the double murder of George Mahard and wife on May 1 at Oro Fino, twenty miles south of here. When arrested last night by Sheriff Smith he made no resistance. The accused is a rancher and was a neighbor of the Mahards. He has been under surveillance since the discovery of the crime.

BLUE RIDGE INN DESTROYED

BLUEMONT, Va., July 7.—Blue Ridge Inn was destroyed by fire early today. A number of persons had to jump from windows.

MUCH SOUGHT SWINDLER IS ARRESTED IN NEVADA

Fresno Sheriff Declares Man Has Admitted Crimes in Other States

FRESNO, Cal., July 7.—Information in a letter received by Sheriff Chittenden today has convinced that officer that a man arrested in Nevada recently and lodged in the county jail is Homer Kern, who is accused of having attempted to swindle R. W. Wright of Miami, Texas, out of ranch property valued at \$3,000. The prisoner when taken into custody gave the name of C. E. Brooks.

When confronted with the evidence in the hands of the sheriff today the prisoner denied he was the man wanted, though he refused to discuss the matter further. A partner of Brooks, who gives the name of Ike Carter, was also arrested in Colorado and returned to the Fresno jail a few days ago. He is alleged by Wright of being Harrison Miller, who operated with Brooks in the Lone Star state, but in this Sheriff Chittenden believes Wright is mistaken, as the description of Miller in no way tallies with that of Carter.

Sheriff Chittenden states that Brooks has already admitted having perpetrated swindles in the states of Oregon and Idaho. The man is accused in Fresno of having committed a number of swindles in this locality.

BLACK SUPPORTERS MAY AGAIN ASK FOR RECOUNT

Dalzell's Attorneys Object to Appeal Made by Opponent

PITTSBURG, July 7.—Judge Josiah Cohen, who issued the original injunction contest a recount of the Dalzell-Black contest for the Republican congressional nomination, today filed a statement that his injunction does not restrain the Black supporters from filing new petitions for a recount. The ruling, it is believed, may open the way for Dr. Robert W. Black to obtain a recount.

Congressman Dalzell's counsel appeared in common pleas court today to object to the appeal made yesterday by attorneys for Black from the county commissioners' refusal to recount the vote.

LIBERIA PRESENTS BRIGHT PROSPECTS FOR SUGAR

WASHINGTON, July 7.—Chargé D'Affaires George W. Ellis at Monrovia has reported to the department of commerce and labor that Liberia presents an alluring prospect for the sugar growing industry. Sugar cane flourishes along the St. Paul, Cavalla and other rivers as Liberia and along its banks are thousands of acres that could be utilized for growing the crops. Cane from twenty to thirty feet in length frequently is seen in the country. Capital is needed to provide suitable machinery for preparing the soil and for introduction of modern methods of culture.

MOTORMAN FATALLY INJURED

SAN JOSE, July 7.—W. R. Pilplinton, a former railway motorman on the San Jose and Santa Clara railway, is at the county infirmary, suffering from injuries received last night by being struck by a switch engine near the local roundhouse. A fracture of the pelvis and other injuries combined, it is believed by the physicians, will end fatally.

PRESIDENT SIGNS FOR WITHDRAWALS

Over 35,000,000 of Coal Lands Returned to National Treasury for the Future

DAKOTAS GREATLY AFFECTED

Chief Executive Breaks in on His Vacation to Further Policy of Conservation

[Associated Press]

BEVERLY, Mass., July 7.—Continuing his policy of practical conservation, President Taft late tonight signed orders to withdraw 35,073,164 acres of coal lands from the public domain in the states of North and South Dakota, Washington, Utah, Colorado and the territory of Arizona.

Of the total withdrawals, 20,698,469 acres are new, while 14,374,695 acres are covered in confirmations and ratifications under the new law, approved June 25, of withdrawals made during the last four years by both Presidents Roosevelt and Taft.

North and South Dakota are the two states affected by the new withdrawals. From the public domain in North Dakota the president has withdrawn from settlement 17,828,182 acres of land believed to contain workable coal. In South Dakota the amount withdrawn is 2,870,287 acres.

Previous withdrawals confirmed by the president tonight are divided among the several states as follows: Washington, 2,297,967 acres; Arizona, 161,290 acres; Utah, 5,814,287 acres; and Colorado, 6,181,161 acres.

HAZENS TO SIGN The withdrawal orders prepared by the geological survey and approved by the secretary of the interior reached Beverly from Washington late tonight. They were sent tonight to May 9 Taft cottage in Burgess point, where they were signed by the president. This was announced as one of the few important matters that will be called to Mr. Taft's attention during his ten days of real vacation.

The withdrawals and confirmations were made under the law passed at the session of congress which definitely authorized the president to withdraw various lands from entry pending their classification and special disposal by congress.

The president urged this law as the first step in his plan for practical conservation. He hopes to secure additional legislation dealing with the terms under which water power sites, coal, petroleum and phosphate lands may be disposed of.

In Colorado the various orders of withdrawal confirmed tonight date from July 26, 1906, to June 21, 1910; in Utah, from July 26, 1906, to May 9, 1910; in Arizona, from May 29, 1909, to December 28, 1909, and in Washington from July 26, 1906, to April 7, 1909.

ACCEPT MINERS' RECOMMENDATION In withdrawing the vast amount of new lands in North and South Dakota, the president and Secretary Ballinger acted principally on a report by Arthur G. Jaffa, a practical miner employed by the geological survey.

Director George W. Smith of the geological survey in his recommendation for withdrawals in North and South Dakota, says:

"A consideration of the information available here, as well as of the report of Mr. Jaffa, leads us to the conclusion that there are large areas in these states which are underlain by lignite. The lignite is of good quality and the regulations and which should be withdrawn from entry."

All the orders state that the lands are in the hands of the federal government, sale or entry and reserved for reclamation and classification with respect to coal values.

President Taft will this week sign orders withdrawing approximately 8,500,000 acres of water-power sites, phosphate and petroleum lands in the United States and all of the known coal fields in Alaska.

TABLET TO MARK SPOT WHERE TREATY WAS MADE

Indians Transferred Allegiance from French to English

BLOOMINGTON, Ill., July 7.—"Near here July 18, 1765, Col. George Croghan, deputy superintendent of Indian affairs for the British government, made a preliminary treaty of peace with Pontiac, chief of the Ottawa and leader of the great Indian confederacy. By terms of this agreement the allegiance of the Indians was transferred from the French to the English, thus securing the eastern Mississippi valley for Anglo-Saxon civilization."

A metal tablet bearing the foregoing will be placed shortly upon a monument to be erected in Edgar county, Col. Croghan met Chief Pontiac in a place known as Hickory Grove and arranged the preliminaries of the great treaty. The officer and chief, with their followers, then journeyed together to Detroit, where other influential Indian chiefs ratified the treaty.

CHICAGO WILL TRY TO COLLECT JEWELRY TAX

CHICAGO, July 7.—Social leaders who have been conspicuous for dress and jewelry displayed at the grand opera and other public functions may have to enrich the county treasury materially if plans of the board of review materialize.

Summonses will be issued for their appearance before the board of review to show cause why they should not be taxed on the gowns, diamond tiaras, pearl dog collars and necklaces that they are known to wear at balls and festivals.

CARDINAL GIBBONS HONORED BY NATIONAL CATHOLIC BODY

DETROIT, July 7.—The National Catholic Educational association, which has been in progress here since Monday, ended tonight with a mass meeting addressed by Joseph Glennon of St. Louis. A chorus of 1000 children from the parish schools of the city sang.

His Eminence James Cardinal Gibbons of Baltimore was today elected honorary president and Right Rev. Mgr. T. J. Shanahan of Washington, D. C., was chosen president general.

BRAZIL PRESENTS GOOD FIELD FOR COAL IMPORTS

Consul Reports the United States Gained During Last Year

WASHINGTON, July 7.—Imports of American coal into Brazil during 1909 were larger than ever before, according to statistics furnished by Consul General Anderson at Rio de Janeiro. This was due chiefly to a threatened strike of coal miners at Wales.

The United States imports to Brazil amounted in 1909 to \$238,645, as compared with \$101,515 in 1908, and Consul General Anderson reports that the coal trade to Brazil could be extended to American exporters willing to spend considerable money to establish conditions whereby coal could be shipped in large quantities in competition with Welsh coal on the same basis with the latter.

NEWELL RETURNS FROM TALK WITH ROOSEVELT

Director of Reclamation Service Tells of Arrangements for Conservation Congress

[Associated Press]

WASHINGTON, July 7.—Frederick H. Newell, director of the reclamation service, whose differences with Secretary of the Interior Ballinger have created general comment, returned to Washington today from New York, where, it is understood, he talked yesterday with former President Roosevelt.

The reticence of the director lends color to the report that one of the objects of his trip was to consult with Colonel Roosevelt concerning the friction between the secretary of the interior. He declined to admit or deny that he had had a conference with the former president.

Newell said he had conferred in Baltimore and New York with B. N. Baker, president of the second national conservation congress, which will be held in St. Paul September 6 to 9. The purpose of their meeting had been to discuss plans for the convention.

The program, he said, would be submitted to both President Taft and former President Roosevelt for their approval. The congress, he added, would be as simple and direct as possible. The speeches would emphasize the fact that the conservation policy was not for the purpose of holding back anything from the present generation, but was designed for the utilization of the resources today without destroying their future usefulness.

The program, he said, would be submitted to both President Taft and former President Roosevelt for their approval. The congress, he added, would be as simple and direct as possible. The speeches would emphasize the fact that the conservation policy was not for the purpose of holding back anything from the present generation, but was designed for the utilization of the resources today without destroying their future usefulness.

ST. LOUIS POLICE RAID CHINESE OPIUM FACTORY Proprietor Is Charged with Defrauding His Buyers

ST. LOUIS, July 7.—An alleged opium factory was raided here early today and its owner, Joe Sing, a Chinese, is being held by federal revenue officers. The officers say the factory was run in full blast when they entered.

Police on the beat where Sing's shop is located said they thought he was cooking chop suey for a restaurant. They seized three sacks of "second" opium, twenty-four pounds of opium seasoning leaves, 100 cans of manufactured opium and two caddies which Sing was using for his cooking.

The prisoner is charged with taking opium "seconds," seasoning it with opium leaves and selling the product for genuine opium.

WASHINGTON, July 7.—Lightning rods are being raised over the White House. It is by government decree that the executive mansion is being equipped with apparatus to protect it from electric onslaught, and during the absence of President Taft from Washington the equipment is being installed. The rods are being placed on each of the twelve chimneys above the mansion roof and points to arrest the lightning will be placed at intervals of five feet along a cable which runs around the parapet.

No lightning rods, however, are to be raised over the executive offices adjoining the mansion.

JAPANESE CABINET MAY SPLIT ON NAVAL QUESTION

VICTORIA, B. C., July 7.—A Japanese cabinet crisis seems imminent as a result of the attitude of the naval authorities who have formulated a plan for naval expansion, regarding which informal negotiations are being carried on between Admiral Yamamoto and Marshal Yamagata, according to advices received here today.

It is claimed that the authorities are clamoring for increases in that branch, and a cabinet split is said to be impending because of more favorable terms for the Indian confederacy. Admiral Yamamoto is said to be forcing the issue.

CATERPILLARS INVAD FOLIAGE AT CAPITAL

WASHINGTON, July 7.—Shade trees of Washington, famed for their number and beauty, are undergoing an attack from a horde of caterpillars. The trees are being stripped of their foliage rapidly. So numerous are the pests that they have baffled the caretakers' efforts to cope with them. Property owners have joined in the attempt to repel the invaders, but it seems that there is little chance to prevail against them. Some fear for the very lives of the trees is expressed.

NOTED BREWER DIES

ST. LOUIS, July 7.—Casper Koehler, president of the Columbia Brewing company of St. Louis, and vice president of the Tennessee Brewing company of Memphis, died today at Beverly, N. J., according to a cablegram received here. He was traveling with his wife and daughter and was stricken with apoplexy. He was 72 years of age.

CAN ALL BE ACCOUNTED FOR

SPRINGFIELD, Ill., July 7.—In reply to assertions of a Chicago legislative investigation committee that members of the Illinois legislature had carried away from Springfield more than fifty typewriters purchased by the state, Secretary of State Rose said today every typewriter could be accounted for.

RAILWAY STRIKE THREATENED

PARIS, July 7.—A general railway strike here is threatened. The men who demanded an increase in wages and other ameliorations have already voted to strike in principle, pending negotiations with the company.

PAYNE CANDIDATE FOR RE-ELECTION

Chairman of House Ways and Means Committee Seeks to Retain Office to TAKE PART IN CAMPAIGN

Tariff Questions Will Overshadow Others in New York State, Is Opinion Held

[Associated Press]

AUBURN, N. Y., July 7.—Representative Sereno E. Payne, chairman of the house ways and means committee, is a candidate for re-election to congress. In an interview announcing his candidacy Mr. Payne said last night:

"I expect to be a candidate for reelection and I shall take active part in the campaign, both in New York and elsewhere. I have been invited by the congressional committee and by the state committee and will give them all the time I can."

He declined to say what congressional results he was expecting in reply to the specific question whether he was going to help Mr. Lodge he merely smiled and admitted that he had spoken in Massachusetts on other occasions.

"I expect to go wherever they send me," he added.

To the question whether the tariff would be his chief issue, he answered: "Yes, the tariff and the good work done in congress undoubtedly will be the issues everywhere and in this state will overshadow state issues, in my judgment."

"President Taft," Mr. Payne went on, is to be congratulated for the general results of the first sixteen months of his administration. He has achieved more in that period than any president previous. As the people get hold of the facts in regard to the tariff, they are more inclined to accept his first statement that it was the best tariff law ever enacted. There has been a wonderful change of sentiment in regard to the tariff since congress, in January our opponents were engaged in appointing the committees for next congress; in March they were contemplating what should be their choice for speaker; in July when congress adjourned they were wondering whether after all the next congress might be Republican."

ST. LOUIS POLICE RAID CHINESE OPIUM FACTORY Proprietor Is Charged with Defrauding His Buyers

ST. LOUIS, July 7.—An alleged opium factory was raided here early today and its owner, Joe Sing, a Chinese, is being held by federal revenue officers. The officers say the factory was run in full blast when they entered.

Police on the beat where Sing's shop is located said they thought he was cooking chop suey for a restaurant. They seized three sacks of "second" opium, twenty-four pounds of opium seasoning leaves, 100 cans of manufactured opium and two caddies which Sing was using for his cooking.

The prisoner is charged with taking opium "seconds," seasoning it with opium leaves and selling the product for genuine opium.

LIGHTNING RODS ADDED TO WHITE HOUSE EQUIPMENT

WASHINGTON, July 7.—Lightning rods are being raised over the White House. It is by government decree that the executive mansion is being equipped with apparatus to protect it from electric onslaught, and during the absence of President Taft from Washington the equipment is being installed. The rods are being placed on each of the twelve chimneys above the mansion roof and points to arrest the lightning will be placed at intervals of five feet along a cable which runs around the parapet.

No lightning rods, however, are to be raised over the executive offices adjoining the mansion.

SPAIN WOULD LIMIT THE MONASTIC ORDERS' GROWTH

MADRID, July 7.—Commercial bodies have joined in a petition to the government in favor of limiting the growth of monastic orders. They assert that the orders are monopolizing many branches of industry and commerce. The republican organizations have pledged themselves to support the government's religious program.

King Alfonso today signed the bill drawn up by Premier Canalejas, forbidding further religious orders to enter Spain until the pending negotiations with the vatican for a revision of the concordat are ended. The premier will present the measure to the cortes tomorrow.

CANADA AND U. S. JOIN IN PORTO RICO BONDS BID

WASHINGTON, July 7.—The National City Bank of New York and the Royal Bank of Canada jointly bid \$25,000 for the 4 1/2 per cent gold bonds of the government of Porto Rico. The bids were opened today. The joint bid was the highest except that for only one bond, submitted by Edward B. Polset of Oakridge, La., at 103 1/2.

AUTO CO. ASKS RECEIVERSHIP

WILKESBARRE, Pa., July 7.—The Matson Motor Car company, whose plant is located here, applied today to the courts of the county for a receiver. The company is said to be temporarily crippled financially owing to the delay in shipments of materials, the backwardness of the spring season and the slump in the stock market, which checked deliveries of several hundred cars.

GIRL VICTIM DIES OF INJURY

KANSAS CITY, July 7.—Miss Ruby Hirsch, aged 22 years, who was shot by Edward M. Baker, a contractor, 47 years old, last Tuesday night because she failed to keep an engagement with him, died at the county hospital today. Baker was charged with murder in the first degree.

CRUISER SAILS FOR BAY CITY

LIMA, Peru, July 7.—The United States cruiser South Dakota sailed from Callao this morning for San Francisco.

CANNON TO RAID INTO INSURGENT TERRITORY Speaker Will Make a House-to-House Canvass of His Own District

CHICAGO, July 7.—A special from Washington says: Invigorated and bronzed by his excursion to Fisherman Island in Chesapeake bay, Speaker Joseph G. Cannon is in Washington finishing up odds and ends prior to his departure for Danville.

Mr. Cannon will remain only a few days in Danville this time, for he contemplates a raid into the heart of the insurgent territory. It is his purpose to go to Winfield, Kan., and there speak in behalf of the renomination of Representative Philip Campbell, one of the standpat congressmen.

"Uncle Joe" will then return to his district, take an automobile and make a house-to-house canvass. He insists there is no danger that he will not be re-elected. The speaker was asked today if he would be a candidate again for the speakership. His eyes twinkled as he recalled the famous recipe for rabbit potpie—first, catch your rabbit. In other words, the house must be Republican before any thought of candidates can arise.

CRUISER SAILS FOR BAY CITY LIMA, Peru, July 7.—The United States cruiser South Dakota sailed from Callao this morning for San Francisco.

CHEYENNE, Wyo., July 7.—The United States land office at Lander today rendered decisions in civil contest cases against sixty-four entrymen on the coal lands of the Owl creek and Gobo mines of the Big Horn country involving 10,000 acres valued at a million and a half dollars. Fifty-seven cases were decided in favor of the government, four in favor of the entrymen and two cases were set for rehearing. The mines were closed last February by injunction proceedings before the federal court here, a thousand men being thrown out of employment. Criminal cases are still pending against eight prominent New York men, for whose benefit it is alleged the lands were filed on in June, 1906. Four of them have fought extradition proceedings to Wyoming and have announced they will carry their cases to the United States supreme court on habeas corpus proceedings.

MILLIONAIRE HOBO HELD PHILADELPHIA, July 7.—Declining the offer of a police magistrate to free him if he would promise to discontinue his attempts to speak in public, James Eads How, known as the "Millionaire Hobo," was held under \$500 bail today to keep the peace.

General Office Decides 57 Out of 64 Cases in Favor of Uncle Sam
