WON TARIFF BATTLE

"On that platform the party won the fight, and I believe that ninetenths of the Republicans throughout the land expected the pledge to be carried out in good faith. This, I believe, would have been done had it not been for the petty and selfishness of certain designing legislators who were more desirous of favoring special interests than of promoting the welfare of the people."
"Under the leadership of these men, instead of revising the tariff as was promised, duties were fixed not with a view of protecting legitimate American industries but of securing revenue for the government, but for the purpose of promoting the financial interests of certain individuals or concerns."
"The great work before us is but fairly begun. This year we had to fight as hard to hold what we had secured in years past as we did to get additional legislation. To hold what we now have and to secure the necessary provisions is the fight for the future. It cannot be won without the determined support of the people."
"Our hope is in the intelligent and patriotic purposes of the people themselves. The combined influence of criminal selfishness and greed are against us. Their means are unlimited, but if the people will select as their representatives in congress men with not only the inclination, but the courage to stand against the powers of greed and evil, right will triumph; and, as a Republican, I want it to triumph under the banner of the old Republican party."
"I appeal to my fellow Republicans and to all good citizens to give us their aid. The responsibility is with you and the results are in your hands, and I have an abiding confidence in triumphant victory."
"Let Kansas in the coming primary declare for progress and reform, and let that declaration be made with such emphasis that it will be heard from ocean to ocean, and from the lakes to the gulf. You should not only uphold the hands of the men who have fought the good fight, but add a goodly number of sturdy recruits to their ranks, and by so doing you will have rendered a patriotic service to your country."

THEODORE REICHERT DEAD

SAN FRANCISCO, July 9.—Theodore Reichert, formerly surveyor general of California, died here today.

CANNON BEHIND TIMES, THINKS CONG. NORRIS

LAS ANIMAS, Colo., July 9.—"Joe Cannon is twenty years behind the times. He never will be elected speaker again," declared Congressman Norris of Nebraska, insurgent leader, here today at the local Chautauque.
Mr. Norris declared that an effort will be made to elect as the new speaker "a man who will act as speaker and servant of the house instead of master."
He declared that Cannon would rather see a Democratic house elected than a progressive Republican house; that the true blue Republicans of the house are the progressives, and that many pledges were fulfilled because the progressives held the balance of power.

DIAZ OFFERS AID IN TERMINATING NICARAGUAN WAR

President of Mexico Writes President Taft Regarding Central American Republic

REPORT OF KNOX SUBMITTED
Correspondence Made Public in Newspaper Published at Mexican Capital

WASHINGTON, July 9.—The attitude toward the Madriz cause in Nicaragua and the light in which President Taft views Central American affairs were made plainer today when the text of the correspondence which recently passed between President Diaz and President Taft on the subject became known. This conference took place several weeks ago, but further than bare statements about the exchange and its purport, the state department had nothing to say about it. The letters were printed in Spanish in Mexico City and were translated here today.

President Diaz wrote to President Taft as the result of the circulation of the telegram Madriz sent to Central American governments protesting against the attitude of the United States in Nicaragua.

"If these facts are exact in all details," said President Diaz, after referring to Madriz's protest, "I permit myself in the most friendly spirit to recommend most earnestly to your excellency that, inspired once more by that high spirit of justice which has always marked the government of the United States of America, you would reconsider these instructions where Nicaragua complains to the end of permitting the government of Madriz, within a period of time, to accomplish that complete pacification which is offered, since a prolongation of a state of war in that country might perhaps harm all of America. If your excellency believes that my good offices may prove successful in any manner for the pacification of Nicaragua, I shall be always disposed to exercise them."

SENDS KNOX'S NITS
President Taft, in reply, sent Diaz the text of the report which Secretary Knox had sent to Madriz himself through Consul Olivares. This already has been published.

In addition Secretary Taft spoke of conditions in Nicaragua as deplorable. He said:
"I esteem your excellency's friendly interest in the relation of the United States with Nicaragua, which is at present in a deplorable condition, and the well-being which, as well as that of the other republics of Central America, the government of the United States and the government of Mexico did so much to promote during the period of the Washington convention."

DIAZ'S LETTER
"As your excellency will have surmised, the telegram which Dr. Madriz ordered sent to you, as well as the telegrams sent to a large number of other governments in which the continuation of the struggle in Nicaragua is attributed to the policy of the United States, evidently has been transmitted under erroneous information with respect to the actual facts and the principles of international law applicable to the case."

"As to the statements made in the information, I communicate the text of a declaration of the secretary of state has ordered to be delivered to Dr. Madriz through the American consul at Managua, as well as to the Estrada faction through the consul at Bluefields."

MEXICO AND U. S. READY TO END NICARAGUAN ROW

Ambassador Says Sister Republic
Is Willing to Give
Assistance

WASHINGTON, July 9.—More light on the attitude of Mexico in the Nicaraguan situation was obtained today by the Associated Press from Senor de la Bara, Mexican ambassador to Washington. He is leaving Washington for Magnolia, Mass. He was asked for a statement in regard to the report that the United States and Mexico may settle the Nicaraguan trouble.
"The statement reported to have been made by the state department recently regarding friendship that inspired the last conferences between it and the Mexican government on the situation in Nicaragua," said the ambassador, "is entirely true. The meetings which I had with Secretary Knox and Assistant Secretary Wilson were characterized by the best feeling between the two governments, and while prompted by such feeling the Mexican government does not expect to take any initiative in the settlement of difficulties in Nicaragua."
"My government has shown a disposition to co-operate at any time with a view to solving the problem, if the American government and the Nicaraguan government should ask for that co-operation."

ENGINEER PITMAN'S CHANCES
OF RELEASE ARE SLIGHT

BLUEFIELDS, Nicaragua, July 9.—William Pitman, the American engineer who was captured while with the insurgent forces, was sent today to the interior under an escort of soldiers of the Madriz troops at Bluefields bluff. Recently Estrada offered to exchange (Continued on Page Eleven)

BIPLANE CRIPPLED 6175 FEET IN AIR; GLIDES TO SAFETY

Brookings Breaks Altitude Record
and, with Engine 'Dead,'
Swoops to Earth

DARING ACT WINS \$5000 PRIZE
Aviator Makes Highest Flight in
History Over Ocean at
Atlantic City

ATLANTIC CITY, N. J., July 9.—Walter Brookings in a Wright biplane broke the world's altitude record here this evening when he attained a height of 6175 feet. He used his last drop of gasoline at his highest altitude and was still climbing when his engine missed explosions. The aviator brought his machine back to level to get the last drop of fuel out of the storage tank to reach the line of vision of engineers on the beach. Reaching the imaginary line, Brookings started to glide to the earth and his engine stopped entirely when he was 5000 feet in the air and still over the ocean. His circling glide to the beach, which the crowd believed to be a bit of fancy flying, was done to save himself from diving into the sea. Brookings was ready to collapse when he reached the ground and did not tell of his plight in the air until midnight after he had partly recovered.

Officials at midnight gave 6175 feet as the exact height of the flight from calculations of engineering experts. The barograph record is 6200 feet, leaving but 25 feet difference. It is expected that the record will stand without protest.
By his feat today Brookings wins the \$5000 prize offered by the Atlantic City Aero club for breaking the world's record on a higher altitude is reached here before the end of the present meet. Brookings spent 1 hour, 2 minutes and 35 seconds in the air, according to the official timing.
About 57 minutes of this time was made in the circling ascent, the rush of more than a mile to the ground consuming less than seven minutes.

FRENCH AVIATORS BREAK
RECORDS FOR FAST FLIGHT

BIRD MEN GIVE REMARKABLE
EXHIBITIONS IN RHEIMS MEET

BETHANY PLAINS, RHEIMS, France, July 9.—Many records have been broken at the aviation meeting here during the week, but the most sensational flights have been made by Leon Morane, the French aviator, who today, in a new 100 horsepower Blériot monoplane, covered five kilometers (3.10 miles) in 2 minutes and 57 seconds, and ten kilometers in 5 minutes and 47 seconds, and by M. La Bouchere, also a Frenchman, who broke the world's record for distance, flying 340 kilometers (211.4 miles) in a single flight in 4 hours 37 minutes and 45 seconds.
The most remarkable achievement of a remarkable day was that of Morane, who made his flight in a single mile a minute while ten other machines were in the air. As compared with him they seemed to be standing still. He Blanc will use the same type of airplane in the Gordon Bennett contest and French experts consider that he has a splendid chance to capture the trophy, as the speed developed by Morane today was more than that of the winning time of Glenn H. Curtiss for the same distance last year.
Oleslager reduced the 100 kilometer record (62.2 miles) to 1 hour and 8 minutes. Auburn, in a monoplane, with a single passenger, covered 135 kilometers (83.9 miles) in 2:09:07. La Bouchere was awarded a special prize of \$1000 for breaking Oleslager's record of 250 kilometers.
The constructors' prize for the greatest total distance covered by three machines of one design goes to the Antoinette monoplane, which covered 2,744 kilometers (1076 miles).

TWO LOSE LIVES OFF
SANTA CRUZ ISLAND

Isabella Pierce and Thomas Del Valle Are Drowned When
Boat Capsizes

SANTA BARBARA, July 9.—Isabella Pierce, the 16-year-old daughter of A. M. Pierce, a furniture dealer, and Thomas Del Valle, the 17-year-old son of Henry Del Valle, of the old California family, were drowned and six others had a narrow escape from death when another boat in which they were rowing three-quarters of a mile from the pleasure camp at Santa Cruz island capsized.
Six of the party were women, three of whom were saved by the heroic work of Eugene Whitcomb, whose mother is Mrs. E. V. Whitcomb, a sister of Lois Were, who was with the party. Mrs. George A. White, the wife of a member of the state dental board, was among those rescued. Some of them were in the water two hours. The body of the boy was brought here tonight. The other was not recovered.
The accident was due to blind breakers off Arch Rock.

CURTISS TO FLY DURING
'DAWN OF GOLD' FIESTA

SACRAMENTO, July 9.—Glenn H. Curtiss, the motor flyer, will make flights in Sacramento during the state fair September 3-10. The citizens' committee in charge of the Dawn of Gold fiesta to be given by the city in conjunction with the fair today accepted Curtiss' offer to make flights on seven of the eight days of the fiesta at \$2000 per day.

AIRSHIPS FOR NAVY
BERLIN, July 9.—The admiralty board has arranged for the vessels of the fleet engaged in grand maneuvers this year to be kept in constant communication with land by means of a dirigible airship fitted with wireless telegraphy. This is the first time that a dirigible has been used for this purpose.

AVIATOR FALLS IN RIVER
NEWBURYPOR, Mass., July 9.—Dwight D. Dyer, a 15-year-old pilot of Hammondsport, N. Y., landed with his Burgess biplane in the Plum Island river today. He managed to disentangle himself and got ashore not seriously hurt.

BREAKS BIPLANE RECORD
RUC, France, July 9.—M. Tabuteau today flew 231 kilometers (143.65 miles) in two hours and forty-five minutes, beating the world's record for biplanes.

WIND DAMAGES PEORIA
PEORIA, Ill., July 9.—A high wind struck Peoria and vicinity tonight, damaging park and private property to the extent of \$10,000.

Member of Fair Sex Who Wants to Be Granite State Chief Executive

MRS. MARILLA M. RICKER

WOMAN DESIRES TO BE GOVERNOR KUHN, AT 72, WEDS HIS THIRD BRIDE

Mrs. Marilla M. Ricker Files Petition with Secretary of State of New Hampshire

CONCORD, N. H., July 9.—An attorney acting for Mrs. Marilla M. Ricker of Dover, Washington, D. C., and San Jose, Cal., presented to the secretary of state today her declaration of candidacy for the Republican gubernatorial nomination at the direct primaries in September, accompanied by the \$100 fee required by law. They were accepted by the secretary of state, subject to an opinion of the attorney general as to the right of a woman to become a candidate.

Mrs. Ricker has been prominent in the woman suffrage movement and as a taxpayer has attempted to vote, but without success, at many elections in New Hampshire.
During President McKinley's administration she applied for the position of minister to Colombia. The president was inclined to favor at first, but on the plea of others he decided against Mrs. Ricker.

FIRST WIFE DIES
Mrs. Kuhn No. 1 died four years ago, after having been married to Mr. Kuhn for 27 years. The widow, then came to this city and several months later, while in a Temple street rooming house, made the acquaintance of Bertha Ast. Street car rides and long walks ripened the acquaintance into love and when she consented to be his wife Kuhn escorted her to a Main street pawnshop for the purpose of purchasing a wedding ring.

There a property settlement was discussed and Kuhn requested the money lender to recommend a lawyer who would prepare the papers. The clerk called up an attorney after the ring had been purchased. The marriage took place the following day and in the newspapers Mrs. Kuhn No. 2 was reported to as the pawnshop bride. She was informed of Kuhn's third marriage yesterday, but evinced no interest.

Samuel Kuhn possesses seventy acres of land near Glendora and also owns some property in Minnesota. He is rated as a wealthy man. He has five children, all born of his first marriage, the oldest being about 45 years old. They reside in Glendora and vicinity. They were unwilling to discuss their father's latest matrimonial venture yesterday.
Kuhn and his bride are honeymooning at Redondo Beach and other beaches, treading the paths of conjugal bliss.

SANTA ROSANS DROWN
WHILE ON A VACATION

SANTA ROSA, July 9.—Glenn H. Foulke and his wife, well known residents of this city, were drowned today in the Russian river at Monte Cristo, where they were passing their summer vacation.
Mrs. Foulke was wading in the river with Dorris Gould, the 8-year-old daughter of Frank J. Gould of San Francisco, when they lost their footing and soon were carried far from the shore. Mr. Foulke went to their assistance in a boat, but in some manner it was capsized and he perished with his wife. The little girl was rescued.

WELLESLEY COLLEGE CHUMS
DROWN TOGETHER IN LAKE

WELLESLEY, Mass., July 9.—Florence Jenison and Mary Palmer, classmates and chums in Wellesley college, were drowned in Lake Wabana today, Miss Jenison giving her life in an ineffectual effort to save her friend. Both were residents of Wellesley.
LONDON, July 9.—Dr. Leslie Ward of Newark, N. J., vice president of the Prudential Life Insurance company, who has been ill at the Ritz hotel in London of acute kidney disease, is believed today to be dying. Dr. Ward has been abroad on his vacation.

150 MEN FAIL TO KEEP FIRE FROM GIANT SEQUOIAS

Flames Make Way Into Famous
National Preserve Between
Fresno and Tulare

FOREST MONSTERS DOOMED
Blazes Sweep Unchecked Among
the Trees of General
Grant Park

FRESNO, July 9.—The forest fire which has been raging in the Sierras near the General Grant national park entered the forest of giant Sequoias late this afternoon, according to a report received here tonight from Three Rivers. The flames are still unchecked despite the efforts of over 150 men who have been fighting them.

The giant forest is located on the border line between Fresno and Tulare counties. This is not the Mariposa grove of big trees which is located in Mariposa county at the entrance to Yosemite valley.
Owing to the distance of the fire and the fact that every person within range is engaged in fighting it, only meager reports can be secured regarding the progress of the fire, although it was stated tonight that a large part of the forest reserve had been destroyed.
Unless the fire can be checked soon the gigantic Sequoias will all be burned.

GROVE OF LARGEST TREES
IN THE WORLD IS DOOMED

Forest Fires Sweeping Down on
Famous Sequoias Tract.

VISALIA, Cal., July 9.—The big trees of the giant forest appear to be doomed, it is reported here. Forest fires which have been burning for several days in the vicinity of the big timber are said to be sweeping in the direction of the grove of Sequoias, the largest in the world. A large part of the forest reserve has been swept away, according to meager reports received here. Hotels and mountain resorts are believed to be in imminent danger of destruction.

The men who for days have fought against the flames and wind have become exhausted. High and frequently changing winds have made it impossible effectively to cope with the raging fires. About 100 men, rangers, troopers and power company employes, have been waging the fight. At one time today it was thought the big trees were safe, due to the wind shifting and sending the blaze to the east and the south. But this afternoon it changed its course, putting the giant trees in their most perilous position they have been.

RAIN SLIGHTLY CHECKS
WISCONSIN FOREST FIRE

CHIPPEWA FALLS, Wis., July 9.—Rain today temporarily checked the forest fires which have been raging for several days in the pineries north of this city and which have already caused losses aggregating more than a million dollars. The burned area extends about fifty miles north of Prence and about forty miles wide between Stanley and Thorpe.
Several farmers in the district have been burned out and scores are prostrated fighting to save homes and crops.
The heaviest losers are lumber and logging companies. Twenty-five villages in the burned district narrowly escaped destruction. More rain is needed.

LIGHT OF FOREST FIRES
SEEN FOR FIFTY MILES

DENVER, July 9.—Forest fires raging west of Golden, Colo., lighted the somber peaks of the Rocky Mountains last night with a brilliance seen for fifty miles across the plains. Meager advice are to the effect that Golden Gate forest in the canyon of the same name is burning. The extent of the damage is not known. Thousands of people here gathered in parks, on the capitol grounds and other open places to watch the unusual effect of the fire-light on the mountains.

FIRE UNDER CONTROL
COLORADO SPRINGS, July 9.—Fire which raged all day yesterday in the Cheyenne mountain district was reported early today to be under control. Militia, aided by volunteer fire fighters, checked the blaze. Many bungalows of wealthy eastern people were endangered for a time by the flames.

RAIN STOPS FOREST FIRES
CHIPPEWA FALLS, Wis., July 9.—Forest fires in this section have been put out and drought broken by rains which fell today.

COUNTLESS SAYS SHE DID
NOT DODGE WRIT SERVERS

NEW YORK, July 9.—The Earl and Countess of Suffolk, sailing today for Europe, laughed at a report of dodging process servers in leaving the Blackstone hotel, Chicago, where the countess, formerly Miss Leiter, had been out of a brief visit.
"Leaving the Blackstone hotel I was no more disguised than I am now. I did wear a veil, as I always do riding on a train," said Lady Suffolk.
