CANNED BULL TERRIER GOES MAD, BITES TEN

Maddened Dog Escapes Into Side Street Through Shower of Bullets

NEW YORK, Aug. 19.—A squad of policemen is searching upper New York today for a white bull terrier which suddenly went mad last night and after biting ten persons, dodged a shower of bullets and escaped his pursuers. Besides the ten persons injured by the dog, a nine-year-old boy is in the hospital with a serious bullet wound. He was brought down by one of the hundreds of bullets fired at the infuriated animal. The dog had been playing amiably with a crowd of children, when a mischievous boy tried the ancient trick of tying a tin can to his tail. When the dog objected, the children belabored him with sticks and stones. With a frightened look the dog ran about twenty feet. Then he changed his mind and came back burling himself against the children like a cyclone, knocking some of them down and snapping at everything human within reach. The children's screams brought frightened fathers and mothers to the windows and soon the pop of the fathers' revolvers added to the excitement. The marksmanship was all faulty, however, and even two policemen were unable to bring the dog down before he escaped into a side street.

DRINKING CUPS BARRED FROM WISCONSIN TRAINS

Agitation Causes Railroads to Take Prompt Action

CHICAGO, Aug. 19.—As a result of the agitation against drinking cups, travelers on Wisconsin trains will discover after September 15 that the railroads no longer furnish them. Orders have gone out to the general offices of all roads which run into that state that trainmen shall put the public drinking cups now supplied for the benefit of a thirsty passenger in hiding when they cross the state line, and not to take them out again until another state is reached. The new system is the result of a rule promulgated by the Wisconsin state board of health, which holds that common drinking cups are dangerous and communicate infectious diseases.

DEMOCRATS WANT DONKEY FOR CAMPAIGN PURPOSES

Specifies Democracy's Emblem Must Not Kick

CHICAGO, Aug. 19.—"Wanted—To rent a donkey for campaign purposes; not a kicker." The above advertisement published yesterday is the first movement in a unique campaign to be carried on by John F. Delaney, a candidate for the Democratic nomination for representative in congress for the third district. Mr. Delaney intends carrying on street corner meetings, using the donkey, the emblem of the Democrats, as a standard bearer. A cart accommodating five speakers will be constructed and musicians will be taken on each speaking expedition. Mr. Delaney is a Chicago newspaper man.

GORDON, AGED ONLY 77, SEEKS SEAT IN SENATE

Veteran Legislator of Mississippi Declares His Political Activity Has Not Ended

CHICAGO, Aug. 19.—Former United States Senator James Gordon of Mississippi has come to Chicago for a brief "play day" before engaging in the senatorial campaign in his state. "It isn't that I feel the need of rest, but even a man as young as 77 years needs a little vacation when he is about to enter upon some particularly arduous task," said the picturesque southerner, who was in the Mississippi legislature before most of the members of that body were born. He was seated in a box in a downtown theater when he made these remarks last evening. "I need a little of this occasionally to rest up on," he said with a sweep of his hand toward the activity on the other side of the footlights. "The primaries are a year away, and they already are engaged in the senatorial campaign," he said. "Me speak: Well, how am I going to keep away from it? I have seen politics all my life, and although I have said time and again that I would be out of it all this year I know what the result will be. I'll be right back on the stump again. I'm just as good as I was a quarter of a century ago, so I can't really give any reason why I should stop now."

WANT LAWS AGAINST MINE MISREPRESENTATION

Colorado Men Demand Fair Play for Purchasers

COLORADO SPRINGS, Colo., Aug. 19.—More stringent laws against misrepresentation of mining property for the purpose of sale, and a law requiring that geological statistics be compiled and kept on file for prospective buyers of mining stocks or property, were the chief recommendations made at a meeting of the Colorado chamber of the American Mining congress held here last night. The mining men take the stand that a law should be passed making misrepresentation of stock for purpose of sale a separate offense and punishable as such. They hold that the purchasing public is entitled to the facts regarding the mining industry, and that the only way to obtain this is to have a law requiring the compilation of geological statistics and that they should be filed at the state capital. Suggestions were also offered that the various branches of the mining industry, such as coal, petroleum and metal be affiliated in order to carry on the work along the same lines and for mutual benefit.

FLIGHT OF BIRDS LEADS TO DISCOVERY OF CORPSE

NEW YORK, Aug. 19.—The wheeling flight of flocks of birds drew berry pickers yesterday to the edge of a swamp on the crest of the Palisades, where they found the skeleton of a man. In a pocket of the torn clothing was a New York newspaper dated July 18, an illegible letter postmarked Buffalo and what appeared to be the business card of some Buffalo shipping house. Birds and muskrats had picked the bones clean.

HOOSIER SCORES THE DEPARTMENT OF AGRICULTURE

Attorney General of Indiana Denounces Tactics of United States Officials

WILL MAKE APPEAL TO TAFT

Protestant Declares Acting Secretary Hays Gave His State a Raw Deal

WASHINGTON, Aug. 19.—Asserting that he had been hampered in every way possible in his efforts to uphold the laws of his state against the sale of food containing benzoate of soda and announcing that he would appeal to President Taft, Attorney General Bingham of Indiana denounced the department of agriculture officials today. The scoring occurred in the hearing held here in connection with the case of Williams Bros. and others against the board of health of Indiana. Dr. Harvey W. Wiley, chief of the bureau of chemistry and a sworn enemy of benzoate of soda as a food preservative, being under cross-examination at the time. The state of Indiana, which is seeking evidence in its defense against the suit brought by food manufacturers because Indiana prohibits the sale of foods containing benzoate of soda as a preservative, "has received a raw deal" from the department of agriculture, declared Attorney General Bingham. "I intend to make a report of the matter to Secretary Wilson of the department of agriculture and to take the matter to President Taft himself."

REFUSE REQUEST

"When I applied to the department of agriculture to send Dr. Wiley and his assistants to Indiana to testify the request was refused by the department permitted and requested the members of the Remsen board and their assistants to testify in the case against Indiana. "The department said if I wanted the testimony of Dr. Wiley and his assistants I would have to come here and get it. When we came here the department, with Acting Secretary Hays at its head, informed us that we would have to get a court order to compel the experts to testify. In court the department with Acting Secretary Hays tried to prevent our getting this testimony. But the court decided in our favor. "I have applied for the original documents on file in the department regarding the investigation of benzoate of soda and was told that I would have a court order for these, too. "Later in the day the documents demanded by Attorney Bingham were furnished by the department of agriculture."

WESTERN PACIFIC'S NEW LINE IS ESTABLISHED

Excursion of San Franciscans Travels to Salt Lake

SALT LAKE CITY, Aug. 19.—The arrival at the new Rio Grande Western Pacific terminal in this city today of the special train from San Francisco bearing a party of railroad officials and representatives of the California Pacific, marked the inauguration of passenger service on the Western Pacific railroad. The visitors were the guests of the Commercial club on a special excursion into Emigration canyon. Arriving and departing passengers on the Rio Grande Western and Western Pacific railroads will derive their first and last impressions of the city hereafter from a \$50,000 union station. The building, which was thrown open to the traveling public today, has been under construction for two years. It is 417 feet long and 98 feet wide. The entrances face on Second south, Third south and Fourth west streets. The waiting room is 144 feet long and 33 feet wide. Railroad offices occupy the second story. Architecturally the building is even more imposing than its cost would indicate.

SPAIN PROTESTS AT ROME AGAINST VIOLENT SERMONS

MADRID, Aug. 19.—The Spanish government has instructed Marquis de Gonzales, secretary of the Spanish embassy to the vatican, who has been in charge of the embassy since the recall of the Spanish ambassador, to call the attention of the holy see to the violent sermons being delivered by Roman Catholic priests in Spain. The sermons, according to the note of instructions to Marquis de Gonzales, are insulting to the Spanish ministers and "inflaming the passions of the people."

CARDINAL AVOIDS DIPLOMAT

ROME, Aug. 19.—Cardinal Merry del Val, the papal secretary of state, did not come to Rome today from his summer residence, again postponing the usual diplomatic reception. The incident caused comment, as showing a plan to avoid a meeting with Marquis de Gonzales, the Spanish charge d'affaires.

EXONERATE YOUTH WHO KILLED HIS FATHER

CARMEN, Okla., Aug. 19.—T. Foster, 50 years old, farmer, was shot and instantly killed by his son Harry, 22 years old, yesterday during a family quarrel. Young Foster voluntarily surrendered to the authorities and later was exonerated by a coroner's jury. The boy shot in defense of his mother, whom his father had attacked.

EPIDEMIC OF CHOLERA SPREADING IN ITALY

Feared Fleeing Peasants Will Carry the Disease

BARI, Italy, Aug. 19.—The epidemic of cholera in Southern Italy is steadily showing an increase in the districts affected, particularly in the town of Tani, where the number of deaths already is more than thirty. The latest official reports last night gave twenty deaths at Tani showing the rapidity with which the disease is increasing there. The epidemic is of a virulent type and the death rate is high. Even graver danger is anticipated from the flying population of the infected districts who may bear the germs of the disease to regions not yet involved. Tani seems almost deserted as a result of the panic. 20,000 persons, fully half of the population, having fled the town. Fully as many have escaped from the island town of Barietta.

CHOLERA KILLS 10,000 IN ONE WEEK IN RUSSIA

Fifty Thousand Die from Plague in Few Months

ST. PETERSBURG, Aug. 19.—One week's cholera record for Russia shows 23,844 new cases of cholera and 10,733 deaths, bringing the total number of cases in Russia this year to 412,885. Of these 60,287 have died, the mortality percentage being 44.5. The figures are those furnished by the sanitary bureau, covering the week from August 7 to August 13 inclusive, and are therefore fully official. Reports from Red Cross sources indicate that the actual figures are somewhat greater, as it is a practical impossibility to register every case in an epidemic of such proportions. Of the deaths last week 1673 were reported from the district of the Don Cossacks; 1108 in Yekaterinoslav province; 759 in Samara province; 416 in Uromensh, 411 in the Perovsk district, 352 in Kherzon, 334 in the Crimea, where Russians resort for the summer months, 333 in Tambov province and 235 in Slavropol provinces. The epidemic in St. Petersburg shows a decrease, only 265 cases and 133 deaths having been reported for the days ending yesterday at noon compared to the 637 cases and 238 deaths reported the previous week. The sanitary authorities of the city believe that from now on the epidemic will continue in a milder form. The total figures for St. Petersburg since the first cases were reported June 20 show 2078 cases and 730 deaths. The mortality here is 35 per cent, much less than in the southern provinces, owing to the better hospital facilities and the experience gained in handling the first big outbreak two years ago.

DENIAL MADE TO RUMORS OF CHOLERA IN ROME

ROME, Aug. 19.—Rumors that the epidemic of cholera which has broken out in Apulia had spread to Rome are denied by the department of health. No cases here and the general health conditions in Rome are excellent, better than at any time in the last ten years.

UNITED STATES WELL PROTECTED FROM PLAGUE

NEW YORK, Aug. 19.—There is not the slightest possibility of the cholera plague spreading to the United States, the quarantine measures now in force here and in Russia being so effective as to preclude any danger of Russian immigrants bringing over the disease. Dr. Doty, health officer of the port of New York, said today that as a measure of safety all persons coming from Russia are held at the various points of departure for five days under medical supervision before they are allowed to embark for this country. Persons infected with cholera develop the disease within five days.

WATCH CHOLERA PORT SHIPS

BERLIN, Aug. 19.—An order was issued today calling for the most stringent inspection at German ports of all vessels from Odessa, Russia, owing to the outbreak of cholera in South Russia.

TWO CITIES SHOW LARGE GAINS IN POPULATION

WASHINGTON, Aug. 19.—The population of Sioux City, Iowa, is 47,328, an increase of 14,717, or 44.4 per cent, as compared with 33,111 in 1900. The population of Danville, Ill. is 27,371, an increase of 11,517, or 70.4 per cent, as compared with 15,854 in 1900. The population of Detroit, Mich. is 466,766, an increase of 180,602, or 63 per cent, as compared with 286,704 in 1900.

SENDS SHIP TO CENTENNIAL

CHARGES COTTON KING WITH FRAUD

Inventor Claims Daniel J. Sully Defrauded Him of Rights in a Patent

WASHINGTON, Aug. 19.—Daniel J. Sully of New York, the "cotton king," John Hays Hammond of New York and Washington, and his son, Harry Hammond, were cited today by Justice Gould of the supreme court of the District of Columbia to show cause next Friday why they should not return to Lemuel A. Greene of Greenville, S. C., certain letters patent issued to him for improvements in cotton grading. Greene had assigned his patent to John J. Welch of New York as trustee pending the formation of a cotton grading company, in consideration, he alleges, for the payment to him of \$50,000 in cash on the organization of the company and a block of stock worth \$50,000. He declares Sully and the Hammonds had the trustee transfer the patents to the company and issued him the \$50,000 in stock, but did not make the cash payment. In his suit Mr. Greene says he called his patent to the attention of Sully, who, in turn, interested the Hammonds and a company was formed. He charges that Sully refused the cash payment to him and then organized, he alleges, another company to which was assigned the patent rights in consideration of \$1 royalty on each grader sold. He declares the entire stock of the new company was issued to the Hammonds and Sully "for the sole purpose of defrauding him." He tenders the return of the stock in the event the company and asks the court to compel the financiers to reassign him his patent rights.

OREGON FORESTS FLAME DEVoured

(Continued from Page One) and single bolts and many fallen trees that might have been cut into logs have been burned. So far about 200 forest fires have been reported in western Washington. The association in its fight against fire has employed 800 men in addition to the 125 rangers and patrolmen constantly on duty, and has built fifty miles of trail. The sum spent so far in saving timber totals \$35,000. Although the situation, up to last Sunday, was worse than a year ago, Mr. Sims states that the loss of timber this year has not been so great as during the corresponding month last year.

FURIOUS BLAZES RAGE IN CRATER LAKE RESERVATION

KLAMATH FALLS, Ore., Aug. 19.—An immense forest fire is raging east of Mount McLoughlin, fifty miles northwest of this city, in the Crater lake national forest. W. C. Neff, chief forester, tonight reported that his night for fifty men with shovels and

RUNAWAY TORPEDOES ARE A MENACE TO BATHERS

NEW YORK, Aug. 19.—A new peril has been added to the dangers which must be braved by bathers on the metropolitan beaches—that of being hit by runaway torpedoes escaping from naval vessels at practice off shore. Such a projectile narrowly missed a group of New York bathers yesterday at Noyes, Long Island. The torpedo was fired from a testing barge anchored several miles off shore. Leaving the barge the torpedo shot over the course but suddenly it swerved toward the bathers. None of them saw it coming. A man on shore warned them. Screaming with fright, men and women scurried pell mell out of the path of the projectile. The torpedo which was twenty feet long contained no explosive but the huge shell rushing through the water would have destroyed anything in its path. It sped on the beach and buried its nose in the sand.

Trolley Rides on the P. E. for Your Week End Outing

PACIFIC ELECTRIC RAILWAY LONG BEACH—of course, is the headliner. A score and more clean attractions all day and evening; the unsurpassed surf bathing and the magnificent SALT PLUNGE, unrivaled on the coast. The famous Pike, the walk of a hundred sights, the double whirl, roller coaster, aerial spiralway, pleasure pier, throngs of fishers, and ocean rides on fast, commodious steam launches. And you can wind up your day with a fine dinner at the famous HOTEL VIRGINIA. POINT FIRMIN—attracts many, with its government breakwater and the lighthouse. See the breakers pile up on the cliff shore. ALONG THE SURF LINE—lies the road to BALBOA, NEWPORT, BAY CITY, SUNSET BEACH and NAPLES, with the famous HOTEL NAPOLI and its unequalled shore diners. HUNTINGTON BEACH is holding the big G. A. R. encampment; go and fraternize with the boys in blue. Still water boating and bathing along the entire route. A fishing outfit comes in handy—there's good sport all putting new life into tired nerves and frayed tempers. NEWPORT BEACH HOTEL—Special fish dinners; we recommend them. Deep-sea fishing. A VALLEY AND FOOTHILL RIDE—The road lies through AZUSA, GLENDORA and MONROVIA. CASA VERDUGO is the magnet for those desiring genuine Spanish dinners, in its quiet little restaurant. RUBIO CANYON, the prettiest spot for picnics in this section. There is no heat in the cool, shady canyon. CAWSTON OSTRICH FARM is a pleasure and an education combined with its famous birds. SAN GABRIEL MISSION will draw the lover of the old Mission days. CATALINA—the lure of the Pacific. If you haven't seen the MARINE GARDENS, go this week. The talk of the continent, and the ocean ride is both safe and exhilarating. Through trains run from our depot, making direct connections with steamer at San Pedro. MOUNT LOWE THE MILE HIGH TROLLEY TRIP—winding up and around the mountain through balmy pine and oak forests, to the famous Alpine Tavern, with its delicious dinners. There's no fatigue climbing mountains by trolley, and it's cheap. The view from Inspiration Point of the San Gabriel Valley is magnificent—and then there are the many trails winding up to the very summit. Through cars 8, 9 and 10 a. m. and 1:30 and 4 p. m. daily. Week-end special rate \$2 round trip. PACIFIC ELECTRIC RAILWAY
