Health and Beauty Notes

(By MRS. MAE MARTYN)

G. O. L.: Many women, particularly at this season of the year, have the same trouble that now vexes you—that is, ordinary colds leave the skin so oily that the complexion loses instead of gains from their use. Make this cream jelly yourself at home and there will be an end to your troubles. Get from your druggist one ounce of glycerine, put it in a fruit jar, add one-half pint of cold water and two teaspoonful of glycerine, stir briskly for a few minutes and let stand overnight. This satisfactory cream is used for massaging to prevent and remove wrinkles, fill out hollow cheeks and round off angles. It gives a clear, fresh and soft skin, because it removes every particle of dust and dirt from the pores. It removes blackheads, and by making large pores small prevents their return. This cream contains no oils or fats that will cause a growth of hair. It prevents freckles, tan and sunburn.

Miss New York: You cannot be too careful in caring for your hair. Yes, take a shampoo every week if it is necessary to keep your hair and scalp free from dust. Never use soda, as it fades the hair; many soaps, too, are harmful, as they leave the hair dry and brittle and cause dandruff. Use a quick drying hair shampoo there is nothing so good as plain cambric. Dissolve a teaspoonful in a cup of hot water; pour on the head a little at a time and rub well, just as you would with any other shampoo. Then rinse well. Cambric makes a rich and plentiful lather that thoroughly cleanses the scalp, removes dandruff, relieves itching and irritation and leaves the hair soft, bright and fluffy—so that it is easily dressed.

F. P. P.: Your eyes are weak and need a strengthening tonic. Get from your druggist an ounce of crystals and dissolve it in a pint of water. Drop one or two drops in each eye whenever they are tired, red or inflamed. This simple eye tonic helps wonderfully in keeping the eyes bright and clear and does away with that lack-luster and expressionless look that so detracts from an otherwise attractive girl's appearance.

L. I.: To remove the superfluous hairs from your face and forehead, mix a little delatone with enough water to form a paste, cover the skin on which the annoying hairs appear and let it remain two or three minutes; then wipe off the paste and wash the skin with warm water. Get the delatone in the original one-ounce package as it comes from the chemical works. It retails at one dollar and is sold in up-to-date drug stores. Should the hairs reappear, they will be light and thin and a second application of delatone will permanently rid you of them.

Country Girl: Isn't it your own fault that your sweetheart appears to be losing interest in you? If other girls take pains to make themselves attractive to him, instead of pouting or frowning, you should immediately take steps to put yourself on an equal footing with them. To clear your complexion and keep it rosy and fresh, follow the advice given above to G. O. L. and apply to your face, neck and arms daily a lotion made by dissolving four ounces of spumax in a half pint of hot water and adding two teaspoonful of glycerine. This will help your dark face and neck. It will give you a beautiful complexion and is much better than powder, because it will not rub off or show. Spumax lotion is inexpensive and there is nothing better to prevent freckles, tan and sunburn. Girls who work in stores or offices use this face wash because it removes the necessity of re-touching the complexion during the day.

G. S. O.: Your scalp is not in a healthy condition or it would not feel so hot, dry and hard, nor would your hair be brittle, splitting at the ends and falling out. You can refresh and invigorate your scalp and the hair roots by the use of a quinine hair tonic made as follows: Get from your druggist one ounce of quinine; dissolve it in one-half pint of alcohol and add one-half pint of water. Rub this into the scalp and hair roots two or three times a week and it will give new life to your hair, making it soft, rich and glossy. Regular use of this tonic destroys the germs that cause dandruff and baldness. You will find this tonic much better than any ready-prepared tonic you can buy, and it will not stain the hair or scalp.

Mrs. G.: Yes, a fleshy woman is at a disadvantage in society or business. To reduce your weight, dissolve four ounces of parnotis in 1½ pints of hot water and take one tablespoonful three times a day, before meals. This simple and harmless remedy takes off superfluous fat quickly and without injurious effect.

M'liss: (1) Don't waste your money on external treatment for pimples and blotches when the trouble is internal. To make a good blood tonic and liver invigorator get an original one-ounce package of karden from your druggist, mix it with one-half cup of sugar, then dissolve in one-half pint of alcohol and add 1½ pints hot water. This formula makes a full quart of tonic, of which you should take one tablespoonful three times a day, before meals. As an all-around tonic it has no superior. It will restore your lost appetite and strengthen and build you up. It purifies the blood and the eruptions on your skin will soon disappear. (2) Consult your dentist.
