

WOMAN VICTOR IN FIGHT WITH THUG

Mrs. J. B. Callahan After Desperate Battle Puts Degenerate to Flight

SCREAMS BRING NEIGHBORS

Struggles with Assailant in the Kitchen and Finally Routes Him with Kick

Followed into her home at 9:15 o'clock last night by a man who answers the description of the degenerate who has been terrorizing Boyle Heights, Mrs. B. J. Callahan of 3259 East Fourth street, when attacked by the intruder, fought him desperately and finally put him to rout by a well aimed kick.

Mrs. Callahan left her home shortly before 9 o'clock and went several blocks away to visit a neighbor. Her husband being out of the city, Mrs. Callahan remained at the home of the neighbor until 9 o'clock, then walked slowly to her own home. She entered the place through a rear door, and after turning on the electric lights, called to a next-door neighbor and asked her to come over and assist in the fight.

The assailant reeled backward out of the door and fell. The woman then screamed for help, and just as the neighbors entered the yard the man staggered to his feet, hesitated for a moment, then ran out of the yard.

Mrs. Callahan described the intruder as being between 22 and 24 years old, and weighing between 140 and 150 pounds. She said he was 5 feet 9 or 10 inches in height, had dark hair, a black and white shirt, and a black hat with four dents in the crown.

AVIATOR BRUCKER WILL ESSAY FLIGHT OVER SEA

Former Chicagoan Plans Westward Atlantic Trip

NEW YORK, Oct. 21.—The next attempt to cross the Atlantic ocean in a balloon will be made by a man who will start westward course—the opposite direction from that attempted by Wellman.

The expedition will be that of Joseph Brucker, formerly of Chicago, who has been engaged for a year in the preliminary plans of his airship trip. Brucker's dirigible, the Suchard, is approaching completion at Munich. The entire expedition will be shipped to the Canary Islands at the end of the year, and the start westward is scheduled to be made from Tenerife next February.

Brucker's first scheme was to start from Cadix, but the adoption of Tenerife as a starting point will save him 700 miles of travel over the ocean. The Suchard is 200 feet long and has 500 cubic meters of gas. It is propelled by two-horsepower motors which drive the airship by means of two propellers. The balloon will carry a 35-foot lifeboat, with a gasoline engine.

Brucker hopes to sail with favoring northeast trade winds to Porto Rico or Hayti. If necessary he can make a descent there and then continue his voyage over Cuba to New Orleans. He has a novel method of overcoming the effect of the sun's rays on the balloon, which in the case of the Wellman expedition sent the America bounding up to a height of 5000 feet. He proposes to meet this, not by an equilibrator, as planned by Melvin Vaniman, but by filling tanks with water to act as a ballast during the warm hours of the day, and emptying them again as the cool of evening comes on.

DRAKE'S FATHER DENIES JURY'S SUICIDE VERDICT

TUCSON, ARIZ., Oct. 21.—In spite of the fact that the coroner's jury today pronounced the death of Charles A. Drake a case of suicide, and released Belle Smith, in whose room the young man died, Francis Drake, the wealthy father, announced tonight that he would continue the search for the person who had murdered his son.

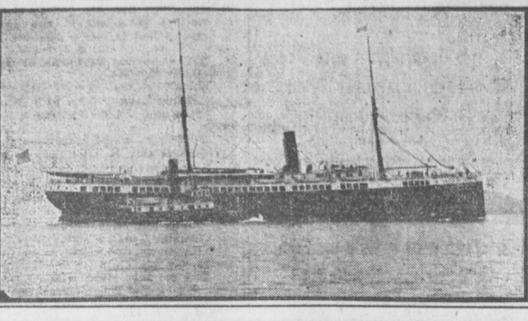

Young Drake was found dying two days ago in the room occupied by the Smith woman. She said he had shot himself, but after an autopsy, which showed that he had been shot in the chest, it took Drake must have pulled the trigger with his thumb, it was decided to hold her until the coroner's jury returned a verdict.

EASTERN STAR CHAPTER ELECTS MRS. N. A. DARLING

SAN DIEGO, Oct. 21.—The grand chapter of the Order of Eastern Star, state of California, completed the election of grand officers today. They were installed tonight, and the appointive officers were named for the ensuing year.

These grand officers were chosen today: Grand Associate Matron, Mrs. Nellie A. Darling of San Francisco; grand secretary, Kate J. Willis of San Francisco, chosen unanimously for the twenty-ninth time; grand treasurer, Mrs. Josephine Patton of Los Angeles.

COURT PAVES WAY FOR EXTRADITION ORDER

Indictments Expected to Follow Rapidly on Hearing of Times Case

(Continued from Page Three) and to fathom if possible the motives lying behind the outrage. The original subpoenas for witnesses will probably number about forty.

HUNDRED MAY TESTIFY

"Before the investigation is completed," said Detective Browne yesterday, "at least one hundred men will be called to testify."

Subpoenas will be served on the investigating committee appointed by the mayor which reported the explosion as caused by dynamite, on persons who were in the building and in best position to observe the effects of the explosion, on detectives and others who have worked on the case, on officials of the giant powder company, and last, but not most important, on Mrs. D. M. Lavin, the friend of Schmidt, who is now held prisoner here on a charge of murder as the result of alleged complicity in the Times explosion.

EAGERLY AWAIT MRS. LAVIN

Mrs. Lavin is expected to be the sensational witness at the grand jury session. From the defiant attitude she at first assumed she has retreated little by little until yesterday she became almost visible in her story of her relations with Schmidt and Bryce. She told of whispered conferences held by the two men in which dynamite was mentioned and of Schmidt's uneasy attitude for several days preceding the explosion.

She sticks resolutely, however, to her story that Schmidt ate breakfast with her in San Francisco on the morning of the explosion and that he there read a newspaper account of the disaster. After reading the story she says the police laid down the paper and left the house. He returned that evening and then went out. She declares she has never seen or heard of him since.

Mrs. Lavin admits that the pair of men were in her room when the detectives searched it belonged to Schmidt, but denies that she was in love with the man or that her relations with him were anything more than friendly. She declares that he always seemed to have plenty of money and paid regularly for his lodgings at her house at 2410 Mission street, San Francisco.

CONFERENCES OVER DYNAMITE

To the partial revelations of Mrs. Lavin will be added the testimony of Mrs. Lavin's friend, who will be brought here from San Francisco as a witness. Mrs. Ingersoll, according to reports from San Francisco, not only says that Mrs. Lavin's story of the conference regarding dynamite, but says that the Times was specifically mentioned in one of the conversations and that the career of Alfred J. Moses, professor of mineralogy in Columbia university, who first definitely described and catalogued the mineral mines of the district.

REPORT DISCOVERY OF NEW MINERAL IN TEXAS

NEW YORK, Oct. 21.—It is announced at Columbia university that a new mineral recently discovered in the Terlingua district of Texas, has been named "Mosesite" in honor of Dr. Alfred J. Moses, professor of mineralogy in Columbia university, who first definitely described and catalogued the mineral mines of the district.

STEAMER IN BAD SHAPE

HAVANA, Oct. 21.—The wireless company reports the British steamer Sierra Morena, from Tampa for Savannah, sighted off Key West in bad shape. The Sierra Morena is out eight days.

EDGAR SALTUS AND OLGA SINCLAIR WED

Friends of Writer and Former Attendant in Library Hear of Oklahoma Wedding

BOMBAY, Oct. 21.—The advocates general, continuing his address for the prosecution in the Nasik conspiracy trial, withdrew the charge of waging war, but pressed the charge of attempting to obtain home rule by all or any means. Money was collected by theft and otherwise; arms were obtained, explosives were manufactured in Nasik and Bombay, the murder of officials was contemplated and the assassination of Mr. Jackson, the revenue collector, was perpetrated. Nasik was the headquarters, with branches of Igatpuri, Aurangabad and elsewhere.

IRISH LEADER MAKES SPEECH

FORGET SPEED LIMIT TO GET MARRIAGE LICENSE

CHESTER, Pa., Oct. 21.—Love laughed at trolley car and Doc Cupid proved that he is wise to the modern means of surmounting obstacles when a big touring car, the property of the Rev. Dr. George W. Henson, a Philadelphia clergyman, was pressed into service for a trip to Media to procure a license permitting George A. Hobe and Miss Phoebe Jeanette Whitson of New York city to be made man and wife.

CHILDREN DESERT HOME TO ESCAPE POTATO DIET

CHICAGO, Oct. 21.—Mashed potatoes served on the family table morning, noon and night become so odious to James Smith and Gilbert Lancaster, two 10-year-old lads from Moline, Ill., that they ran away from home and came to Chicago to obtain a change of diet. Last night they landed in the Harrison street police station after being picked up on the streets penniless and anxious to return home.

NAVY BOARD FIXES CAUSE FOR LOSS OF 30 LIVES

WASHINGTON, Oct. 21.—A remarkable combination of circumstances, none of which taken singly, was responsible, caused the swamping of the battleship New Hampshire in New York harbor September 30 and the consequent loss of more than thirty lives.
