

Municipal Affairs
LOS ANGELES-PACIFIC
PLANS FARE REDUCTION

Will Sell 60 Ride Commutation Tickets for \$3, Beginning Jan. 1, 1911

Reduced fares on the lines of the Los Angeles-Pacific railway, to become effective on or about January 1, 1911, were made known yesterday in a letter signed by D. W. Pontius, traffic manager of the company, which was filed with the board of public utilities. The new order provides for the issuance and sale of sixty-ride individual commutation tickets for \$3, good for ninety days; thirty-ride family commutation tickets for \$2.10, good for ninety days; and forty-ride school commutation tickets for \$1.50, limited to the school term, for use between Los Angeles and Gardiner junction on the Hollywood line and Highland avenue on the Colegrove line.

The tickets will be honored between the points named via any route. Transfers will be issued to cars of the company's line in Los Angeles, Hollywood and Colegrove. On the same date the 5c fare will be extended from Arlington street to Vineyard on the Sixteenth street line. In regard to the proposal to establish a flat rate fare of 5 cents between Los Angeles and Hollywood and Los Angeles and Colegrove, General Manager Sherman by letter informed the board of public utilities that the time had not arrived when the company felt that a sufficient return from its investment would accrue from a 5-cent fare.

The letter says in part: "Desiring in so far as we consistently can to promote a good understanding and friendly feeling between the residents of the Hollywood and Colegrove sections and our company, an investigation has been made of the effect upon our revenue of the single trip 5-cent fare that has been requested, and we regret that we cannot profitably carry out the request. The rate with conditions as they are, as the bulk of our business would be carried on under a rate yielding us only from 1/2 to 3/4 of a cent per mile. The territory between is not yet thickly populated, and we have no compensating short hauls, as in the case of city railways, to make up losses on the longer hauls.

"Annexation may become very widespread, consolidation of city and county government being even now contemplated, and the extension of the urban electric railway lines could not make effective a rate of 5 cents within such possibly enlarged limits and continue in business. "In the character of our reconstruction work on the line to Hollywood, and in the improvement of our service to follow, we are trying to show the spirit of friendly cooperation with the residents of that section, and hope that our side of the question may be considered by our Hollywood friends."

ART COMMISSION JOINS
FIGHT TO BRIDGE ARROYO

Letter Asks City Council to Abandon Earth Fill Plan

In support of the warfare waged by citizens and taxpayers in the vicinity of Pasadena avenue and the Arroyo Seco, the municipal art commission has addressed a letter to the council asking that it lend its aid to a plan to construct a concrete bridge across the arroyo at a point where it is proposed to make an earth fill as a substitute for a bridge. "We respectfully petition the city council of Los Angeles and South Pasadena, the board of supervisors of Los Angeles county and the officials of the Salt Lake railway system," says the communication of the municipal art commission, "to construct in the best possible manner a concrete bridge across the Arroyo Seco on Pasadena avenue at an estimated cost of not to exceed \$150,000 for bridges and approaches, on plans to be prepared by the engineers representing your respective bodies. The structure to be submitted for the present plans at the same location, the cost of which is estimated to be \$125,000. Respectfully, "MUNICIPAL ART COMMISSION," "F. W. Blanchard, president," "John W. Mitchell, secretary."

HAD SCRATCHED
FOR 28 YEARS

Till It Got to be Second Nature—Suffering Endless and Without Relief—Cuticura Made Skin as Clear as a Baby's.

"If I had known of the Cuticura Remedies fifty years ago it would have saved me two hundred dollars and an immense amount of suffering. My disease (psoriasis) commenced on my hand in a spot not larger than a cent. It spread rapidly over my body and got under my nails. The scales would drop off of me all the time and my suffering was endless and without relief. A thousand dollars would not tempt me to have this disease again. I am a postman but feel rich to be free of what some of the doctors called leprosy, some ringworm, psoriasis, etc. I took and used Cuticura every year and a half but got no cure. I cannot praise the Cuticura Remedies too much. They made my skin as clear and free from scales as a baby's. All I used of them was two cakes of Cuticura Soap, three boxes of Cuticura Ointment and three bottles of Cuticura Resolvent. You had been there and said you would have cured me for two hundred dollars, you would have had the money. I was covered with the scales but by using Cuticura I was soon as clear as any person ever was. This was over twenty-two years ago and for a long time, through force of habit, I used to rub my hands over my arms and legs to scratch, but to no purpose—I was well. I had scratched twenty-eight years and it got to be a kind of second nature to me. Dennis Downing, Waterbury, Vt., November 27, 1909."

Cuticura is the most economical treatment for psoriasis of the skin and scalp. A cake of Cuticura Soap and a box of Cuticura Ointment are often sufficient. Sold throughout the world. Potter Drug & Chem. Corp., Sole Mfrs., Boston. 22-page Cuticura book, an authority on the skin.

COUNCIL MAY GIVE \$7500
TO HEAT POLICEMEN'S FEET

East End Squad May Get Steam Pipes Near the Floor

The yearly epidemic of cold feet among the policemen of the Eastside station, which breaks out as the chill blasts of winter start to whistle, this year stands in a fair way to be nipped in the bud. Yesterday the finance committee of the council intimated that it would recommend to the council to appropriate \$7500, a portion of which will be used to stave off the pedal frigidity of the Eastside squad, the money to be expended in removing the heating system pipes from the ceiling and installing them nearer the floor. As the heating system now operates, officers of Captain Haupt's detail have to stand on top of warming their toes in an effort to reach the glow of pipes. Captain Haupt objects to having his station house turned into an imitation of a head-balancers' act in a three-ring circus, and through Chief Galloway yesterday made a plea for the heating system which would be all that the name implies. The central station is, according to the statement of the chief, in need of a reorganization and repair of its radiators, and part of the \$7500 will be used to correct the existing faults.

INQUIRY OF DETECTIVES
UNDER FIRE POSTPONED

Mayor Gets Delay Until He Returns from Trip

The police commissioners, at an executive session yesterday afternoon, on request of Mayor Alexander, decided to postpone the investigation of the charges against Detectives Takamantes and Edico, scheduled for Monday night until such time as the mayor returns from his trip along the aqueduct, which is expected to consume a week. The commission considered the readjustment of the squads in the police department with a view to arriving at a point where no unnecessary hardship would be worked upon patrolmen in changed watches. The police commissioners took up the matter of closing saloon doors leading to blind alleys, and it is understood that the next meeting of the board an order will be issued notifying saloon keepers to abolish doors leading from their places of business into blind alleys.

COMMITTEE WILL ASK
FOR 15 MORE FIREMEN

Arthur J. Eley, chief of the fire department, yesterday succeeded in inducing the finance committee of the council to conclude that it would, at the next meeting of the council, recommend that fifteen firemen and two lieutenants be added to the department, the men to be assigned to the houses of the downtown district. Chief Eley and Commissioner C. O. Hawley for the past three weeks have been making a fight for these appointments. It is probable that the council will name them at its next meeting.

NINE EMERGENCY POLICE
PASS FOR REGULAR JOBS

Of thirty emergency patrolmen appointed by the city council following the Times disaster nine passed the examination held before the civil service commission October 15 for appointment as regular officers. The ones reaching the required standard are Jonathan Pinson, Frank G. White, C. Perry Snow, William A. Koehn, W. A. Cornvall, Grover C. Brothel, John W. Carter, Edward L. Beaumont and Michael O'Connor. About sixty applicants for stars took the test, of whom twenty-six were successful.

\$17,825 IS DEPOSITED
TO CREDIT TIMES FUND

The chamber of commerce informed Mayor Alexander yesterday that it had paid \$17,825.06 to the First National bank as the portion it had collected toward the alleviation of suffering among the relatives of victims of the Times disaster. The benefit performance given at the Auditorium yesterday, while the San Francisco chamber of commerce contributed \$10,005 of the whole sum, The Park bank, Fifth and Hill streets, sent the mayor a contribution of \$700 to be applied to the fund.

MAYOR TO INSPECT AQUEDUCT

Mayor George Alexander and William Muhlolland, chief engineer of the aqueduct, leave this morning at 8 o'clock for a tour of the big Owens river valley waterway of the city. The mayor and Mr. Muhlolland will make the trip by auto and expect to be gone seven days. Council President Robert M. Lusk will chair the city's chief executive during his absence.

CUNARD LINER PICKS UP
LEAKING GERMAN STEAMER

HORTA, Azores, Oct. 28.—The Cunard line steamer Saxonia, from New York October 29 for Genoa and Naples, put in here today with the German steamer Scotia in tow. The Scotia sailed from St. Thomas October 12 for Hamburg. The Scotia was picked up leaking at 7 o'clock yesterday morning. Temporary repairs were made and the vessel was towed 101 miles to port.

LICENSE REVOKED

SAN FRANCISCO, Oct. 28.—Capt. James Miller, who was pilot on the British steamer Damara when that vessel was wrecked on October 8 during a dense fog at Fort Point, had his license revoked by the pilot commissioners today for a period of three months.

BATTERED SCHOONER SAVED

NEWPORT, R. I., Oct. 28.—Shorn of her headgear and two topmasts, and with an exhausted crew and the captain's frightened wife and child aboard, the Bath schooner Daisy Parlin, Capt. Dodge, was towed into port today by the tug Tormentor, which found the schooner floundering about in the seas off Point Judith, having been badly battered in last night's gale.

SCHOONER IS SAFE

TAMPA, Fla., Oct. 28.—The four-masted schooner Helen Thomas, sailing from Bangor, Me., August 31 for Tampa, and reported missing, has arrived here with all hands safe.

News of the Courts

LAURA-JEAN-LIBBEYED
MAN-WEAVERS WIFE CRUEL

Hubbard Secures Divorce from Mate Who Prefers 'Yellow Backs' to Cooking

That the reading of trashy novels by a wife constitutes cruelty to the husband was a theory advanced in the divorce court, where Judge Church of Fresno presided yesterday. Edward W. Smith, who was given a decree of divorce from his wife, Rosa V. Smith, asserted that Mrs. Smith had been cruel to him by the continual perusal of trashy novels against his will and to his detriment when she Laura-Jean-Libbeyed through the day instead of preparing his meals. Smith told of frequently returning home at night, tired from a long day's work, to find that supper was not ready and that his wife was curled up on the sofa reading the trials and tribulations of misused heroines. When he remonstrated, he said, his wife told him he "knew what he could do if he didn't like it."

Furthermore, he alleged, his wife became so infatuated with reading the yellow-covered volumes that she demanded of him that he supply her with more of them, striking him and calling him vile names when he refused. Margaret Clinton, who told the court that her husband, Edward M. Clinton, a physician of San Francisco, whose wealth is said to be in the neighborhood of \$200,000, deserted her after gradually growing colder and colder, was given a divorce. Mattie Ida Palmatory was granted a decree from Jake Palmatory upon her satisfying the court that her husband had been cruel to her. For a similar reason Eva Cadman was divorced from Edwin J. Cadman. The contested divorce action of Gustava W. Maas, president of the Institute of Mechanical Orthopaedics, who accuses his wife, Bessie Maas, of infidelity, was resumed.

Only three new divorces were filed yesterday. They were those of F. Joseph Knight against Gertrude Rebecca Knight, Ethel L. Gilley against Henry E. Gilley, and Lullie Redington against Ralph Redington.

ASSESSMENT OF STOCK
CAUSES INJUNCTION SUIT

Court Asked to Stop Paradise Mountain Company Sale

Asking an injunction preventing the sale of delinquent stock in the Paradise Mountain Mining and Milling company, Thomas W. Aisenbender and other stockholders yesterday filed a suit against it and W. H. Miller, O. W. Teutschman, H. B. Woodward, H. Galeron, Jr., and C. W. Pendleton, who, according to the complaint, "pretend to be directors." The plaintiffs claim to own about 54,000 shares of stock in the company and are objecting to an assessment of 2 cents a share to pay the interest on \$18,000 which, it is charged, the alleged directors contracted without the consent of the corporation. The stock upon which the assessment was levied became delinquent October 10, and unless the injunction is granted it will be sold November 1. The court is asked to declare the assessment null and void, to enjoin the defendants from selling the stock and to appoint a receiver to look into the affairs of the company.

TIMES EXPLOSION VICTIM
LEAVES ESTATE OF \$1000

Property of A. Churchill Harvey—Elder Mostly Personal

A petition for letters of administration in the estate of A. Churchill Harvey-Elder, of the editorial staff of the Los Angeles Times, and who was one of the victims of the disaster at the plant of that paper, was filed in the superior court yesterday by Lewis R. Superior. The estate, which is valued at not to exceed \$1000, consists mostly of personal property, such as a library, clothing and jewelry. He also possessed one share of the capital stock of the Whittier Hospital association, the par value of which is \$200, but which is believed by the petitioner to be really worth very much less. Three lots in Whittier also stand in the name of the deceased. The petitioner is said to be really the property of the widow, Mrs. Leola M. Harvey-Elder, who resides at 668 South Westlake avenue, Los Angeles.

FINISH EVIDENCE TAKING
IN IMPERIAL LAND CO. CASE

All of the evidence taking in the case of J. G. Cortelyou, who as administrator of the estate of his father, John C. Cortelyou, is suing the Imperial Land company for \$250,000 alleged to be due because of \$2500 invested in 250 shares of stock in the concern ten years ago, was concluded yesterday. Judge Monroe will take it under submission December 7, after hearing the argument upon that date.

NEW INCORPORATIONS

Rex Midway company—Frank H. Lathrop, L. J. Lathrop, G. H. Smith, Scott Henry, and Robert Sears, directors. Capital stock, \$250,000; subscribed, \$5. Snowball-Sullivan company—Mac D. Snowball, D. C. Sullivan and Leo G. McLaughlin, directors. Capital stock, \$100,000; subscribed, \$75,000. Finney, Erwin & Prist company—C. G. Finney, A. R. Erwin and H. M. Priest, directors. Capital stock, \$10,000; subscribed, \$10,000. Fischer Amusement company—Ernest Alfred Fischer, Barbara Fischer, Alfred Fischer, S. Lank and Edgar F. Hughes, directors. Capital stock, \$100,000; subscribed, \$51,000. Elmholt Mutual Water company—E. A. Cleveland, R. Curtison, H. J. Backus, G. S. Badger and G. A. Kane, directors. Capital stock, \$400,000; subscribed, \$50. Covina Lumber company—H. E. Milliken, William H. Ogden, W. C. Stickney, F. M. Raiff and E. A. McElroy, directors. Capital stock, \$10,000; subscribed, \$604. Bacon—I see automatic machines have been invented which will thoroughly clean 2000 shag an hour. "Egbert"—That seems all right. No fisherman who has any regard for the truth will claim that he catches more than that number in an hour.—Yonkers Statesman.

French Method of
Developing the Bust

Mme. DuBarrie Explains How the Bust May Be Developed 2 to 8 Inches in 30 Days

"I am explaining for the first time to the ladies of America," says Madame DuBarrie, "the French method of developing the bust. It is much more effective, the results appear much more quickly, the breasts become more firm, plump and symmetrical, the method is more simple, the effects more lasting, and altogether beyond comparison with the results produced here. "You know the French people have almost any age, from young girls to elderly matrons, whether the bust is absolutely not developed at all, or has grown weak and flabby, and hangs, no matter from what cause, it is possible to give it more firmness and much more than the features. You will always find it so with both sexes. "I will be only too glad to tell any woman who is interested what this simple French method is, if she will enclose a 2 cent stamp to pay for the postage. I will send an illustrated booklet in a plain sealed wrapper that will explain it all."

We suggest to our lady readers that they write to Madame DuBarrie for particulars of this remarkable French method, enclose 2 cents in stamps for the illustrated booklet and address it to Mme. DuBarrie, Suite 2260, Quinlan Building, Chicago, Ill.

Y. M. C. A. EXPECTS
MANY MEMBERS

Campaign in Progress Promises Remarkable Increase in Organization's Strength

Four hundred members are needed in the world's convention membership campaign of the Young Men's Christian association. This was the report of Chairman Parmelee and Lyon last night. Citizens are urged to more than make up this deficit today. To aid business men in turning in their memberships downtown headquarters at 455 South Spring street (telephone A3365) will be kept open. This location is chosen so that clerks, attendants or men or boys may file his application. It has been learned that Portland is also after the next Y. M. C. A. convention, and Secretary Lester has asserted that Kansas City is in a similar campaign for 5000.

ALIEN WOMAN NAMED TO
BE CITY SCHOOL NURSE

Civil Service Commission Certifies Subject of King George for Appointment

Dr. Sherwin Gibbons of the board of health discovered at yesterday's meeting that Miss Beatrice E. Hutchinson, who had been certified to as eligible to appointment as school department nurse, having taken the commission's examination, is not a citizen of the United States, still holding allegiance to England. On these grounds her appointment was held up. The woman frankly admitted that she was still a subject of King George and asserted that her civil service commission cannot understand, "exclaimed Dr. Gibbons, "why the civil service commission can adopt such tactics as evidenced here. The commissioners must have had sufficient knowledge of the woman's citizenship to decline to give her an examination. The state law expressly provides that eligible to appointment for the position of school department nurse must be citizens of the United States, yet they inconvenience this woman and clog the meetings of the board by sending us a person who is ineligible to appointment. "A short time ago the civil service commission refused to examine an applicant for this position on the ground that she was not a citizen—I refer to Miss Nichols, whose work as a nurse was wholly satisfactory, yet now they send us a certified examination admitted that she had not received her final naturalization papers."

MERCHANTS AND RAILWAY
MEN TALK OF SCHEDULES

SAN BERNARDINO, Oct. 28.—The question of terminal rates for Colton was considered today at a conference held at the Glenwood hotel in Riverside between representatives of commercial bodies of all the cities of the Southern California and representatives of railroads. General Freight Agents Barnwell of the Santa Fe, T. A. Graham of the Southern Pacific and T. M. Sloan of the Salt Lake were present. The meeting resulted in a better understanding on the part of both interests, though it is not expected that the railroads will grant the rates asked for until compelled to do so by the interstate commerce commission.

BROADWAY COR. 4TH, LOS ANGELES

Marvelous Coat Selling, \$10
Six of Most Prominent Styles
Illustrated in Above Picture

Ready with the greatest assortment of Fall and Winter Coats at \$10, today is to be an extraordinary day of active selling. Far and wide we have searched the markets of the East so as to lead in coat values at \$10. Some makers laughed at us when we told of the materials and tailoring we demanded in coats to sell at this price. But dogged persistence brought garments up to our highest expectations, and today, as a sort of celebration of our victory, we have put forth extra efforts. Many different models, six of which are illustrated. Read the description of each one. \$10

- Picture No. 1--\$10: Made of covert in charming 3/4 length. Full cut back. Mannish sleeves and collar.
- Picture No. 2--\$10: Full weight black broadcloth in semi-fitted model. Wide lapel. Tailoring the very best.
- Picture No. 3--\$10: A very recent style of novelty English coating in herringbone pattern; grays, tans and browns.
- Picture No. 4--\$10: Swagger novelty coat, semi-fitted, of English diagonal; white and black, green and white, etc.
- Picture No. 5--\$10: A mannish wide wale diagonal coat—perfectly tailored; notched collars, cuffed sleeves.
- Picture No. 6--\$10: Medium weight Scotch coating in semi-fitted model. Different color effects. Inlaid collar.
- Bath Robes \$3.95: An exceptional purchase from a large Eastern mill. Made of wool eiderdown or German blanket cloth in plain or flowered patterns. Pinks, blue, tan, brown and gray. Cords and tassels to match—\$3.95.
- Black Petticoats 95c: Black taffeta finished percaline petticoats, in a variety of styles, including different flouncing effects, plain tailored or embroidered. All sizes are included. You certainly cannot equal them at 95c.
- Persian Waists \$5: Daintiest and most up-to-date models, just fresh from their boxes. Made of Persian pattern taffeta in all colors; all sizes. Fashionable models priced attractively at \$5.—Second Floor.

SANTA FE GETS 80,000
TIES FROM TASMANIA

English Traveler Tells of Big Shipment of Eucalyptus for Railroad

J. T. T. Paxton, head of a corporation composed of English bankers, is in Los Angeles, en route home from a trip to Mexico, where he has been looking after the interests of his corporation, and brings word of a large shipment of eucalyptus ties, which will arrive here within a few days, and which are to be experimented with by the Santa Fe railroad. "The ties accorded to Mr. Paxton were shipped some time ago from Tasmania and are due here within a day or two. There are 80,000 ties in the shipment, enough for forty miles of track, and it is understood that the Santa Fe road will use them in Southern California, replacing the old style redwood ties with eucalyptus. "The hard wood ties are the ones which will be used extensively in all future railroad construction," said Mr. Paxton last evening at the Van Nuys hotel. "The railroads throughout the western portion of the United States have been experimenting with soft wood ties and found them wanting—now they will spend a little more money and get hard wood to build their railroads with."

CHILD'S SCREAMS SAVE
BABY FROM TIMBER WOLF

MARSHFIELD, Wis., Oct. 28.—The screams of the 5-year-old daughter of Herrman Bilgrian, who lives two miles from this city, saved the life of the farmer's 2-year-old son, who was being carried away by a huge timber wolf yesterday. The wolf entered the farm yard where the children were playing, and seizing the boy, started for the woods. The girl, however, ran after her brother, screaming until the wolf was so frightened that it dropped the boy practically unhurt.

STOCK SALE CAUSES SUIT

JAMES A. Edgcomb yesterday filed in the superior court a suit for damages of \$4500 against J. M. Neeland as the result of the sale to the plaintiff by the defendant of 650 shares of stock in the M. E. Smith Stone and Mantel company, a corporation which Neeland is said to represent. Edgcomb asserts that he paid over his \$4500 with the understanding that there were to be no debts against the concern. Later, he avers, he learned that the corporation is in debt to the extent of \$3000, and so he wants his money back.

CHURCH AND STATE ARE
SEPARATED IN PORTUGAL

LISBON, Oct. 28.—The separation of the church and state was announced in a decree issued by the provisional government today. Another decree published declares for the freedom of the press. The government declined today the invitation to attend a memorial mass for the victims of the revolution, on the ground that it desired to remain neutral in matters of religion.

Issue Decree Declaring for Freedom of the Press

LISBON, Oct. 28.—The separation of the church and state was announced in a decree issued by the provisional government today. Another decree published declares for the freedom of the press. The government declined today the invitation to attend a memorial mass for the victims of the revolution, on the ground that it desired to remain neutral in matters of religion.
